We even heard of a child which died recently of diphtheria, after it was laid out by an undertaker and a guard staioned, that it was dressed, viewed by scores of friends, and photographed. This breaking of the quarantine is a serious matter, and those who ignore it should be deprived of their freedom-jailed as it were-until the epidemic is over Human life and health are at stake.

The country is recovering from the effects of its orgy of spending. Extravagance, profiteering and unbridled speculation have brought a burden to all. A cry for economy is heard all over the land.

Such conditions have occurred before and will occur again unless checked. In 1874 the Grange adopted its policy of thrift. It declared opposition to excessive solaries, high interest rates and exorbitant profits. It proclaimed the need for the most direct and friendly relations between producers and consumers, that wasteful trade practices might be eliminated.

American Committee for CHINA FAMINE FUND

FROM PRESIDENT WILSON'S PROCLAMATION:

A famine, alarming in its proportions, today holds its grip several important provinces in China. The crop failure is complete, and the present distress, which is great, is likely, before winter has run its course, to become appalling. In fact our diplomatic and consular agencies in China inform me that the loss resulting from death in distressing form may run into millions of souls. It is certain that the local government and established agencies of relief are unable to cope with the magnitude of the disaster which faces them. * * Therefore not only in the name of humanity but in that of the friendliness which we feel for a great people in distress, I venture to ask that our citizens shall, even though the task of giving is not today a light one, respond as they can to this distant but appealing cry for help.

HEADQUARTERS:

BIBLE HOUSE, NEW YORK CITY

THE FAMINE IN CHINA

AREA-The five northern provinces, Chili, Shensi, Shansi, Honan and Shantung, are all affected. The actual famine zone covers 100,000 square miles with a population of 45,000,000 Chinese, cause nearly one and one-half years of continuous drought, during which the normal rainfall has decreased from 25 inches a year to less than 3 inches. NUMBERS-45,000,000 Chinese are directly affected; 15,000,000 are facing immediate starvation and will die without our help; 10,000 are already

WHAT IS MEANS TO CHINA-The famine, unless halted by American relief, means the break-up of civilization in North China; in fact the com-plete collapse of a vast region commercially, economically and morally, which is certain to persist for a generation to come.

WHAT IT MEANS TO AMERICA—An oppor-

tunity to help a friendly nation in distress, to strengthen existing ties, to expand our trade and to have the consciousness that we have saved the lives of 15,000,000 human beings who would have died without our help.
THE NEED—To feed, and save lives:

3c. will save one life one day will save one life one month \$5 will save one family one month HOW TO GIVE—If the American Committee for China Fund has no representative in your community, give your contribution to your bank, your church or send it to Vernon Munroe, Treasurer China Famine Fund, Bible House, New York City.

HOW FUNDS ARE DISTRIBUTED—All funds collected by the American Committee are transmitted to the International Famine Relief Committee at Peking. This committee acts as a clear-ing house for the five regional committees in the famine area; the Peking Committee (including the Red Cross), the Hankow, Tientsin, Honan, and Shantung Committees, all of which are repre-sented on the International Famine Relief Committee, and whose members are working among

WHY GIVE?-China is in the grip of the worst calamity in history. She turns to us as her oldest and richest friend, whom she has learned to trust We cannot ignore her call and let these helpless people die without an effort to save them.

SAVE A LIFE IN CHINA!

Words fail in expressing our deepest gratitude to the people of Hammonton, Mrs. Cunningham, Mr. Burdick, and Mr. Bobst, and so many others, who so generously came to our assistance when our bome was destroyed by fire on Tuesday evening. Had it not been for their very timely help, we would have been without food, shelter, and clothing A friend in need is a friend indeed.

Mrs. Harvey Parker and family. Washington Camp, 73, P. O. S. of A., is to have a new home of its own. Plans have been made to enlarge their residence, next to "vic Club, on Bellevue Avenue,

m king a lolge room and annex the second floor, and a store and an apartment of four rooms on the first floor. This will give them a pleasant, good sized lodge room, and make another place in town for a store,
