A reader wants to know who would be responsible in case of per-onal injury from a fall, on the sidewalk where the surface is broken. This very thing happened one evening the past week, on Bellevue Ave This walk has been in bad condition for more than a year, yet no effort has been made to repair it.

We are indeed pleased that our men have gone shead with the Riwanis Club. There is no limit as to the good that they can accomplish. Not only do men of similar trades become chums where once they were rivals; but, meeting once a week over their noon-day meal, they discover things about town which should be remedied, unfortunates that need help, and a thousand and one ways to make life easier for their fellowman. As many have said, God speed such an organizatiou: and may its influence be felt by every person in Hammonton,

#### At Can't Be Done

Every so often we read of the newspaper editor who starts out to tell the truth and we note that he doesn't last long. Not that we want to discourage truthfulness; on the other hand we specify want to say that you can tell the truth anywhere else but; in the newspaper. The latest example comes from Southern Kanssa, when an editor wrote the

following about a wedding in his town:
'Married, Miss Sylvia Rhode to Mr. Hames Canshan last Sunday evening at the Baptist church. The bride is an ordinary town-girl, who doesn't know any more about cooking than a rabbit knows about making soda water syrup and who never helped her mother three days in her entire life. She is not beautiful by any means, and has a gait like a duck. The groom has been a shiftless sort of fellow and a confirmed loafer having lived off the old folks all his life. They are going to have a bard life while they live together.'

He told the truth, that editor. But he had to catch the first train

I OW the cost of building quality tires has been brought down to the lowest level in history was explained by H. S. Firestone, President of the Company, to the stockholders at the annual meeting on December 15, 1921.

1. All inventories and commitments at or below the market. 2. Increased manufacturing efficiency and volume production reduced factors

3. Solling costs reduced 38%

Mr. Firestone stated, "This reduction in prices is made possible by our unusually advantageous buying facilities, and the enthusiasm, loyalty and determination of our 100% stockholding organization.

"Due credit must be given to Pirestone dealers who are selling Firestone tires on a smaller margin of profit. This brings every Pirestone saving direct to the car-The saving through first cost plus the saving through high mileage doubles

Firestone economy and is daily adding new fame to the Firestone principle of service-Most Miles per Dollar

just because you think they are worn out, or past repair—cut down the cost of your shoe expenditures—make one name to the cost of your shoe

And you can do this if you buy "Youngster" slices, and then take advantage of our factory re-building system -a plan that saves you the cost of the second pair-by making the old pair (the ones you would have thrown away) wear like new.

Please remember this re-building system—is not just ordinary repairing ... for the shoes are actually re-built from "stem to stern" by expert shoemakers, over the same "last" that the shoe was originally made on—and when they are returned to you, they wear like new—all for the small service charge of \$1.35. (But this re-building service is offered only on "Youngster" SHOES.)

An ideal shoe for the boy or girl who is vigorous and full of life—dressy enough for best, and rugged enough for the most strenuous play—Light, Cool, Comfortable and Good Looking. Youngster shoes fit the feet, and hend with every step, almost like being "bare footed"—still they are strong and sturdy, and can be depended upon to stand the rugged "wear" and "tear" of healthy youth's most vig-
