SATURDAY, JULY 22, 1922

Not a little excitement has been caused among the marriageable old maids, batchelors, widows and widowers of Hammonton and neigh! oring cities and towns, since the formation of a matrimonial lottery here. The plan is to place the names of eligibles in a box, and have a drawing, thus bringing together hearts that are to beat as one. Whether this desired result will be obtained, or rolling pins and dishes will do the beating, is yet to be proven. At any rate, there are many lonely hearts a-flutter, judging by the scores of inquiries received to date. Of course, the drawing will be carried out on, strictly honest lines, the only fear being that the promoters will have deposited their own names in the box. Go to it.

We were glad to contradict another street rumor (which some folks emed to swallow as truth) that the carnival was to run on Sunday. They had no idea of doing so.

A word by a member of the carnival committee might be advisable t this time. When the committee was urged to visit the carnival at Pleasantville, there was nothing to be found that could be termed bjectionable. Accordingly, they were surprised on being informed here, after it had been opened, that one had been slipped over on them. They at once visited the place, and had it closed immediately. The next night, it was ordered opened on a legal technicality. This time, the more offensive features were eliminated. But the committee still objected and, for one night, ladies were admitted. Then the committee gave written notice to close up, and the dancer was removed, and a suake and crocodile show was substituted for the balance of the nights.

The communication, published in another column, and throughout the county, from the Kiwanis directors, is a direct slap at the fire department and its members, making it appear as though they endorsed the eatures objected to. We believe the Kiwanis, as a body, is not responsible for the article, and would not have endorsed it had they seen it. The author of it (we do not know who it was) was either ignorant of the conditions, or ignorant of the English language: The Editor of the epublican is a member of the Kiwanis, of the Fire Department, and the Firemen's Committee; and we feel that a cowardly slur has been cast on both organizations. No blame, however, should be given the officers who signed the article, as they acted simply in an official

Cash and Bank Accounts: Cash receipts of the water cents were verified by the receipts of the Town Collegion, and the cancelled checks were compared with receiped distributions. All youthers were found to be approved by the Water Commissioners. As of December 31, 1821, the cash accounts were reconciled with the bank helanges, which were confirmed to us directly by the depositories.

close of business April 13, 1922. It was evident that the water has been consumed for a long period of time without charge.

The permits should have the permit numbers printed on them so that all issued parmits may be followed up and charges properly accounted for.

The permits which have been returned in many cass have the tan numbers omitted. From our investigations, it would also appear, that the inspections are not being properly and at an appear, that the inspections are not being properly made at the present time. It would seem to be advisuable to make these inspections are not being properly made at the present time. It would seem to be advisuable to make these inspections at least every other year, covering the whole Town once in two years.

With no reflection upon the administration of the present should seem to be the logical official to have complete endicated the water revenues. The duties and the remaineration of this official should be so enlarged as to omake it possible for him to follow up the permits promptly, and in order that charges may be entered up for water as soon as the connections are made.

Buick Takes Care of Buick Owners

Buick responsibility does not end with the sale of a Buick car. It follows the car throughout its entire life.

That is why Buick has organized a nation-wide authorized Buick service that extends to practically every city, town and village in the United States.

Buick owners do not need service often But they have the comfortable feeling of knowing that they can always be supplied with genuine Buick parts and have their work done by Buick-trained mechanics

Does it pay to go to personal expense for the other fellow's benefit? The writer believes it doesand here is a brief reason why I am convinced.

To legitimately win a new Dodge. Motor Car is what most of us call Luck, of course it is a fortunate one who would hold the winning number.

But is there such a thing as deserving to win? I think so. Who other than the man who won deerved it more than he?

Bell phone 122 W is kept busy as medium of communication with the man who deserved to win. friends call him up hourly seeking information, telling of someone's misfortune, of accidents, deaths etc., that had made it necessary for him to drive hundreds of miles at his own expense-and "thank you" has often been forgotten by those who didn't think it meant anything.

As Commander of F. A. Funston Post, American Legion, and in behalf of that organization and other civic interests he has "chased his ford" many a mile and paid the bill himself.

The man who won the new Dodge touring car in the Firemen's Auto Contest certainly deserved to win. and the many Legionaires and town's people who have felt the touch of his kindness and courtesy will surely agree that dividends were due fortunate and worthy Mr. Jämes Cottrell! Congratulations,
