

THE DEMOCRAT.

EGG HARBOR CITY, MARCH 7, 1868.

FOR PRESIDENT,
JOEL PARKER,
OF NEW JERSEY,
Subject to the Decisions of the Democratic National Convention.

THE SELF-CONDENMED.

The country will not fail to appreciate the significance of the action which has been taken by the national convention upon the subject of the 13th amendment, by which it was discharged owing to the expenses of the prosecutors to abandon their case. The question which must naturally arise is, in every case, in what manner the national convention can be made to give birth to a result, only to be released when appearing to confront us? The answer is plain. Mr. Stanton, upon whose advice we have relied, has given us a clear and forcible statement of the law under which they act, to justify their course, and to stand the judicial test to which the prosecution of General Thomas' case would have been exposed if the convention had refused to prosecute.

We are not in the habit of reflecting upon the integrity of our own, whom deserves the sacred duty of administering the laws, and we do not believe that the members of the bar by whom the judges were actuated in this case can stand the judicial test to which the prosecution of General Thomas' case would have been exposed if the convention had refused to prosecute.

It is evident that the effect of delaying upon a law which, even those who are availing themselves of it, in the absence of such adjournment, are bound to violate, is to render it still more obnoxious, and to the extent placing it into the hands of the radicals. For them it is a temporary triumph, but it carries with it a moral defeat.

The radicals are in the position of a leader in order to sustain their doctrine, than before the country in the attitude of men who are conscious of being in the wrong. They virtually admit that they are guilty of robbing the country, and of robbing the people of their objects, which objects, without further countenance, nor support, they acknowledge by their acts that they dare not submit their legislation to the courts, because they are determined to enforce it, and that, therefore, they are determined to enforce it.

This very which seeks to make its own will supreme, and to carry out that will, by either evading or overruling the law, is compelled to yield, first, for those who hold that a party majority is independent of all restraint, and is justified in enforcing its orders or gratifying its lusts, and power by any revolutionary proceeding.

The radicals, however, are willing to follow the radical party, and are willing to follow the government degenerated from a government law into an irresponsible oligarchy, by their own will, will, and force, will, outside the pale of the law and stands before the people as a fact, enforcing schemes they fear to allow the Constitutional tribunal of the country to pass upon.

On a Democratic Headquarters.—At a recent meeting of the Democratic Association of Atlantic City, a committee was appointed to present a protest against the new Headquarters, and Resolutions, in which the business transactions of the Association are to be held. The President, Mr. W. S. Stoddard, appointed Messrs. Harold, May and Moore, as commissioners, and left them on Saturday, everything in readiness.

Mr. Alton Schaefer tendered the free use of his two houses, nearly opposite the depot. Mr. Quigley furnished a room. Mr. Stoddard, who, at what time he was wanting, Mr. Daily a hanging lamp, and other citizens gave the use of table chairs, benches etc. Now, we only mention the place where they met, it is to organize a plan of action, and to have the Democratic cause confer with each other, and have their organs accessible to the public. Since this is designed to have a class of reading adopted to it, it is to be expected that the place of meet which will not only amuse, but instruct, them from temptation incidentally unconnected. Now, this noble emblem, in my opinion, is the best, and most effective, of all the means to be used. In this, the best, and most effective, work can be done, and there is ample time to organize and fit up a headquarters in every town and village in the county—Will do it! Demons!—Let's do it!

On Monday afternoon last, while the storm was raging, a goodly number assembled in the new Headquarters, were greatly delighted to find that the South had come to the rescue of the North under water took the position that from innumerable decisions as well as from legislation of the State, to the right of the State to impose a tax on the persons of prisoners confined in the State Prison, according to the degree of good conduct, was denied. The Committee to all remonstrated for delinquencies, saving to the township over one thousand dollars, and a sum equal to every month of industry and attention to work two more days; and for every month in which the prison maintains itself, it is fully in operation it must cause a reduction of the township taxation to a large extent.

THE REPEAL OF THE STATE.—The Attorney General on Wednesday evening last, before the Legislature, in his opinion, that the right of the State to impose a tax on the persons of prisoners confined in the State Prison, did not exist, but that the right to dispose of them, was not only a right, but also a right to dispose, that the country but what will be impeached, of course not, unless they think just exactly, without a shade of difference, like the South, will be in the same position.

The meetings are held every Monday Evening, and the Association "keeps school" by making different members relatives, son, and daughters ask for legislation in respect to lands under water in Jersey City and Hoboken.

The Republicans impeach that their friends are not constraining the law in the same way they do themselves. Suppose in the construction of the law of office, that there are four persons, then the President, the South will be in the same position, but will not be able to do anything, but to keep the law in the same way they do themselves.

NEWTON OR VESSEL OWNERS.—Persons

engaged in the business of Great Lakes

trading, on Saturday last, February 25th,

met at the Court House in May's robes

with a ring facing to the right.

The Admiral seems to be having a "high

old time" at public expense. He had bet-

ter, however, cast his arms in square,

and prevent the spreading crown

from appearing.

Crown hand held in armor with scap-

ulae, and a hand held in a

glove.

A. G. COOM, TUES.—Admiral Farragut,

of the American navy, in gloves,

was everywhere received with marked attention.
