DEMOCRATIC EXPERIMENTS ARE EXPENSIVE PAD FOR NEW JERSEY

### RETURN TO REPUBLICAN RULE

With Treasury Depleted And Facering, Task of Reconstruction Is ready Passed This Session.

under a Republican administration and about forty-five bills have been passed. No better illustration could be had of the difference between Democratic incompetency and Repub-

lican efficiency. State Comptroller Bawards' statement as to the condition of the treasury of New Jersey, made this week to the Legislature reveals th startling legacy of debt left to the Republican majority by Democratic administrations since 1910. The State Comptroller estimates that there will be a deficit of \$2,460,000 at the end of the present fiscal year and there is every rhanon to believe that this estimate is conservative.

In 1910 a succession of Republican admini strations turned the State over to the Demodrats under the leadership of Woodrow Wilson surplus to the deficit now announced by merry round the feetive board in Freeholder Comptroller Edwards of \$2,400,000 it will be found that the incompetency and blundering of Democratic administrations cost the State \$4,000,000 more than its income in five years. With the manufacturing interests of New Jersey crippled by the near free trade tariff policy proed on the nation by President Wilon and with the people staggering under a burden of taxes imposed to make up a national deficit there can be no question as to the serious nature of the problem of meetin admitted State deficit of \$2,400,000.
