Four Testify That He Was Playing Cards At Time Schmoll Was Killed-State Fails To Fasten Poisoning of Husband On Mrs. Salines-Trials Started Tuesday And Ended Yesterday.

Tried for the murder of her husband throu poisoning, Mrs. Nettie Salines, colored, of Allantic City, was acquitted Wednesday after noon last by the Jury. Ex-Sheriff Bobert H. Ingersoll, appointed by Justice Charles & Black, before whom the case was weed, as Zelley, Rev. Afred Wagg, of Collings counsel for Mrs. Salines, won a hard-fought and Rev. John Handley, of Broadway Co and Bev. John Handley, of Broadway Church legal battle that engaged the attention of the in running for Superintendent. March 8. Bishop Henderson, of Chattahoogs

Court for two days,

It was contended by the State that Mrs.
Salines administered are not to her husband,
last December, in order that she might collect
on a \$1,000 life insurance policy. Her promptness in applying for the money after his death was one of the first things that directed suspicion against her. Arsento was found in the body and her arrest followed.

"Third degree" methods of the police came in for another s yere scoring, Justice Black refusing to admit certain statements alleged to implicate the defendant, which she made in the police station after her arrest. Captain Hichard Whelen of the detective bureau admitted that "third degree" methods were used to secure the itatements.

The defense was a total denial of any attemp at poleoning. It was shown that Salines was treated just before his death for ptomaine polsoning and the State falled to connect the defendant in any way with his death.

BEAMAN CHANGED HIS PLEA. Frank Beaman, colored, indicted for the murder of James Hunt, surprised the State broke the Winter spell by cleaning the ground Thursday last by sexting, through the attorney; William I. Garrison, to change his plea. He was brought into court and pleaded guilty to number of spectators basked in the sun along the charge of manalanghter. Justice Black the side lines and rooted, loosening their vocal sentenced him to not less than one or more apparatus for the days that are to come. than ten years in State Prison.

Beaman killed Hunt during a quarrel the W. Taylor, L. Duberson, S. Keating, W. Cain, two men had in the latter's tailor shop on G. Cain, G. Shearer. North Kentucky Avenue, where the sister of Beaman was employed. It is said that the defendant resented the treatment of his sister by Kears, J. Barrett, A. Basick. Hunt, who is alleged to have beaten her on a number of occasions. During the quarrel, Beaman drew a revolver and shot Hunt through the heart. He died instantly. Beaman hid for a number of days with friends, but was finally located and placed under

PROVED HE WAS ELSEWHERE. Edward Henson, colored, was acquitted yesterday by the jury after a few moments deliberation of the murder of Eugene Schmoll, driver of a brewery wagon, who died of a pistol shot alleged by the State to have been and set up an alibi, showing that at the time the murder was committed he was playing a game of cards with friends. Four men who were playing with him swore that he was at the table from seven until twelve, the murder being committed at eight o'clock.

chmoli's wagon was standing in front of Henson's house when the shooting took piace and Heuson was alleged by the State's witnemes to have borrowed the revolver with which the shorting was done to scare Schmoli, who he said was disturbing his wife. No one actual shooting, though one wit saw a man walking away afterward and thought it was Henson.

School Cost in Buena Vista.

The cost of education in Buena Vista Town thip last year was \$27.45 per pupil as compared with an average cost throughout the State of \$40.81. The net cost to the district based on surrent expenses was only \$3.12 per pupil or here as the guests of relatives. Mr. Vissel has 11-4 cents per day about what some children spend for candy. Books cost 621-2 cents per per pupil which was unusually ligher owing to the purchase of a number of supplementary readers; and the supplies for the schools in cluding everything, amounted to only 78 cents per pupil per year. It cost 85 cents per pupil to keep them warm, more than all the books and supplies.

To Provide for the Utmost Safet of Patrons and Property is the First Duty of Every Well-Managed Railroad

The railroads of Pennsylvania and New Jersey fully realize the importance of properly manned trains. Were the claims of those who arbitrarily forced the railroads, under the Full Crew Laws, to employmen for whom no jobs exist just and warrantable, the railroads themselves would be the first to recognize those claims.

Full Crew Laws Costly

Interstate Commerce Commission statistics conclusively prove that Full Crew Laws work three grave hardships—i. e.:

1—They increase the number of casualties.

2—They cost the railroads and thousands of men and women who, directly, or indirectly, as depositors in banks, trust companies, and savings funds are inventors in railroad bonds and stocks, approximately \$2,000,000 a year in wages for unnecessary labor.

3—They deprive the people of a vast amount of improvements.

No Trains Undermanned

The railroads contend that their trains never could be undermanned for the following good business reasons:

First—A freight train of one locomotive at \$25,000, and 75 cars at \$1000 each, would represent \$100,000 in rolling stock. Is it reasonable to assume that, a railroad would jeopardize the safety of that great capital investment to save \$2.75, the wage of an extra brakeman? Would it risk the loss of \$100,000 worth of property to save \$2.75?

Second—The railroads know that, to reach full earning capacity and to get from their equipment and roadway greatest possible service, all trains must be manned with enough men to enable them to do their work and make their trips in the least possible time.

Public Inconvenienced

Suppose, for example, the Lackawanna Limited left New York for Buffalo with four cars. Suppose it arrived at Stroudsburg and there it became necessary to put on a fifth car to accommodate unexpected traffic. Under the Full Crew Laws this could be done only after an extra brakeman had been brought from a division point, or the Stroudsburg passengers would have to stand in crowded cars until the train reached Scranton. Should the public be so inconvenienced?

Why Laws Should Be Repealed The railroads now—as always—intend to man every freight and passenger train to the full requirements of safety and operating efficiency. They intend to do all within their power to expedite traffic and promote public convenience. They desire to give that absolute safety, efficiency and service to which

the people are entitled. There is no purpose to lay off men whose services are necessary to adequately man trains; the object is merely to eliminate men for whom there is no real necessity and for whom jobs exist only by edict of law.

Legislation that hampers railroad service, safety and efficiency by expending money which should be used to increase the safety, the welfare and the convenience of the public is unfair to the people. SAMUEL REA,
President, Pennsylvania Raliroad. DANIEL WILLARD,
President, Baltimore and Obio Railroad.

THEODORE VOORHEES, President, Philadelphia and Reading Railway. R. L. O'DONNEL, Chairman.

Executive Committee, Associated Railroads of Pennsylvania and New Jersey,

What Could Be Done with the \$2,000,000 Which the Full Crew Laws Arbitrarily Take From the Railroads

Increased Railroad facilities, better service, greater safety and convenience, business expansion and the employment of a great number of men now idle would follow the repeal of the wasteful Pennsylvania and New Jersey Full Crew Laws.

Facts—Not Theories \$2,000,000 would buy 2000 steel coaches. It would pay for 80 locomotives. It would purchase 67,000 tons of rails. It would return 5 per cent. on \$40,000,000. It would block-signal 1000 miles of track. It would eliminate 65 grade crossings. It would pay for 2000 freight cars. It would build 200 new stations at \$10,000. It would provide additional freight terminal facilities It would buy 2,500,000 railroad ties. It would pay for 2,000,000 tons of coal. The iron and steel industry would be stimulated, furnishing steel for new cars, rails, bridges, buildings, etc. Miners and coke oven operatives would get increased work as industry expanded. New construction would mean busy times for the Lehigh region cement plants and their workmen. Thousands of architects, contractors, building trades workers, electrical concerns and electricians, skilled mechanics, carpenters, miners, and day laborers would

With these incontestible facts thus clearly set forth, the twenty-one railroads of Pennsylvania and New Jersey feel it their duty to place the fate of the Full Crew Laws in the hands of the people. They are convinced the people prefer that employment be given to thousands for whom there actually is work to knowing that \$2,000,000 a year is being paid in mandatory wages for extra men for whom there exists no essential service to perform and whose presence, it has been conclusively shown, increases—rather than decreases—the hazards of railroad operation.

SAMUEL REA

so get work.
