# DEFEAT OF SENATE BILL AGAINST PROVING GROUND INDICATED YESTERDAY

BACKERS KEPT IT FROM COMING UP IN THE ASSEMBLY

MANY LEGISLATIVE TRICKS TRIED

PASSED IN THE SENATE BY ONLY ONE VOTE MONDAY

MAY ATTEMPT LATE HOUR JAM

COUNTY REPRESENTATIVES IGNORE CONSTITUENTS HERE

Prospects yesterday afternoon on the bill afthe Bethlehem Steel Company's grounds here, so drawn that it will practically debar the company from firing a gun of any caliber on the tract, were that it would be defeated in the Assembly. It passed the Senate Monday and its backers, realizing its certain defeat in the House if presented there, have prevented it from coming up by failing to send it over. Reports from Trenton yesterday afternoon indicated that it would not be reported in the House, unless those back of it could secure a change of sentiment in the closing

hours of the session. Barely enough votes were secured for the assage of the bill last Monday in the Senate, the vote being 11 for and 3 against, others not voting who if called would have voted against There being 21 Senators, eleven were necessary to pass the bill. The information laid before the committee which held a hearing on the of Philadelphia, were the guests of Mr. and bills was not laid before the members for their Mrs. Lewis W. Cramer Sunday. enlightenment when the vote was taken and no opportunity was given to the company to show that representations made by advocates of the measure were untrue. Notably among of the measure were untrue. Notably among these was the statement that the first the hotelmen of Atlantic City had any inkling of what the ground was to be used for was on February 19, while as a matter of fact both Atlantic City newspapers published, last October 5, in first page articles with scareheads, the official announcement made to the State Commission on October 4 to the effect that the Bethlehem Steel Company proposed to establish on the grounds "the greatest proving ground in the world." On Tuesday these papers were shown to Senators who declared had they known this they would have voted against the bill. At the time the State hearing was held on October 4th, notice of which was published in the newspapers, Walter J. Buzby, of Atlantic City, ast on the Board. No objections were heard to the sale by the State of the forest reserve and the State sold the tract and received

payment for the same, thereby encouraging the company to close options for thousands of acres of land which they would not have pur chased had the State declined to sell. Charges of lobbying made by advocates of the bill were ridiculous, in view of the strennous lobbying resorted to by the Atlantic City advocates, who had a big delegation at Trenton all week and exerted every influence they could bring to bear to force, its passage, lobbying right on the floor of the House while it was in session. The Atlantic Senator spent connesday while its, sessions were going on, evilast and Mrs. Charles Imiey entertained with

In view of the lobbying done by the shore delegation and the legislative tricks resorted to in order to influence both Senators and Assemblymen, the charges of lobbying against the Bethlehem Steel representatives were palpably absurd. As one witness of the proedings put it, " It all depends on whose ox With all three members from this oir side of the argument before the other members was to see them individually and the only lobbying done, if such it could be Church held their monthly social at the home ing the company interviewed as many members as possible to lay the company's side served. The class is increasing in numbers before them and Ira T. B. Smith, of this place, and interest. availed himself of the inalienable right of a evalued nimisers of the inational right of a landing state of the case where the people of held in the Birch building was announced for citizen to tell the members where the people of this community stood on the proposition. To last Saturday, but it is hoped that the appeinsinuate that this constituted "the worst lobby in the history of the State" as the Atlantic City newspapers charged, was therefore

#### FOUR TRUSTEES ELECTED APPROPRIATIONS VOTED

No Contests To Enliven Annual School Meeting Tuesday Evening.

There was a lack of contests Tuesday even ing last at the annual school election held at the High School building, except the contest, if such it could be termed, to escape appointment as one of the election officials. After many nominations and simost as many declinations to serve, the following gentlemen were chosen to superinted the proceedings:

Chairman-John Babcock. Becretary-Archie H. Smith. Judge of Election - Edward Applegate. Tellers-Walter Hudson and Curtis Hazelton.

Auditing Committee-S.G. Huber and James For Trustees for three years, Robert H. Abbott, Wilmer Abbott and Alexander P. Den-

mead were nominated; for the unexpired term, Archie H. Smith; there being no other nominations these four were unanimously Appropriations voted for the year were:

penses, \$3,100.

Paving Appeal Argued.

Warrenite, given by the Board of Chosen Freeholders to Liddle & Pheiffer, came up Tuesday last before the Court of Errors and Appeals and an early decision is hoped for. Liddle & Pheiffer have appealed from the decision of the Supreme Court which declared the award invalid on a technical point in the Board's man, Bella Abbott, Verna Applegate, Olgo proceedings. The Board advertised for bids Olsen, Nellie Shea, Mamle Henry, Masie Halwhich were to be rejected if the Egan Act was loway, Jennie Heury, Abbie Morris. Mesars. adopted last November. The act was adopted Emil Smith, Walter Cain, Vaughn Risley, and the Board, wishing to hasten the work, Charles Remmey, Robert, Jesse, Thomas and rescluded its proviso regarding the act and awarded the contract.

Whitman Named On Tax Board. Assemblyman Bertram E. Whitman, of Pleasantville, was appointed this week by Governor Walter E. Edge as a member of the County Board of Tax Equalization and will enter upon his term May lat.

# SAVE YOUR POTATO SEED TO COUNTY FARMERS U. S. Dept. Advised This Method---In-

AND RECENT RURAL HAPPENINGS

Anyone having early-flowering shrubs like orsythia, daphne, flowering dog-wood, corne lian cherry and others, can anticipate Spring by bringing them into bloom in the house Bloom can be obtained by cutting the flower ing shoots and placing them in water in dark place at a temperature around forty degrees to 50 minutes F. They should be left at this temperature for a week or ten days. If they are then brought into the light of a livingroom they will bloom in a short while. Such plossoms furnish cheerful, easily-obtained

The commercial onion growers of the State who have had their fields injured by onion maggots, will be pleased to know that a new and effective method has been developed whereby the insect which produces the maggots in killed off before the onions become in fested. The method proved to be very successful in the demonstration fields where it was used by three farm demonstrators in New Jersey last year. A complete outline of the method may be secured free by writing to the farm demonstrator of any of the organized counties, or to Mr. R. W. DeBaun, extension specialist in market gardening, State Agriculfural College, New Brunswich, N. J.

Heed potatoes are often infected with soft rots, which may be due to any one of several causes. The most important, to the potato growers of New Jersey, is due to bacteria which cause a rapid rotting of the tubers. The saft, slimy pulp, containing millions of bacteria, is smeared over the surface of the sound potatoes in the handling, and some of it reaches the freshly cut surfaces by contac the cut potutoes stand for a short time before planting, black sunken spots, due to the action of the bacteria, appear on the cut surfaces. If the weather is warm the potato sprouts and no great loss results from this rot. But if pieces rot, the result being a poor stand or weak plants.

Although the weather is the most important factor in the control of this trouble, the loss can be reduced by treatment of the seed with ing congratulations on the birth of a son and formaldehyde or corrosive sublimate, and by dipping the cutting knives in a 25 per cent solution of formaldehyde. This may be easily secomplished by having two knives for each cutter and letting one stand in the solution while the other is being used. This precaution has been adopted by many of the Northern urday of Miss Marquerite Morrison at Tucka- growers. It is also advisable to treat the cut seed with sulfur. Directions for the treatment of seed are given in Circular 53 of the New Jersey Agricultural Experiment Station, which may be obtained free upon application

> The gardener who wishes to raise vegetable for his own family will do well to choose the crops he will grow from those which previously have done best in his special locality. Those who desire to produce early crops should bear in mind that a warm, sandy loam will produce an earlier crop than a heavier soil that retains more water and less heat. Frost is less apt to injure vegetables planted on high ground than those planted in low places or velleys into which the beavier cold air settles. The garden should be fairly level, but well

on land that has a sunny, southern exposure than in other pion. tion of Atlantic County will be held in the depth of planting. Larger sets may be planted tion of Atlantic County will be need in the

## MAY'S LANDING, N. J., SATURDAY, MARCH 24, 1917. OUR POTATO SEED REAL ESTATE ACTIVITY FROM TUBERS YOU EAT REAL SHOWN BY RECORDS Cancelled Mortgages, Releases and

formation for Amateurs.

Almost everyone in the vicinity of May's year, in order to help reduce the cost of living. Many of these gardeners are shy about pota toes, because seed is so high for one reason and also because they do not possess the re quisite information regarding the planting and care of this household necessity. Through the couriesy of the Department of Agriculture, The Record" is able to supply the following information, which should be cut out and

: Devreesig The cost of seeding potatoes can be greatly reduced if, instead of using a whole potate for planting, the gardner will cut out from potatoes cone shaped pieces of flesh, each containing an eye of the polato. In this way only from one-fourth to one-fifth of the flesh of the potato will be needed to provide seed and the emainder of the potato can be cooked for table use. This method of preparing sets should make available for table use over 675 pounds of putato fiesh, which, under ordinary conditone: would be planted per acre.

To plant a plot 50 by 100 feet would call for 1 3-4 to 2 bushels of seed, planted in the ordinary way. The method of using the cones and eyes for seed and cooking the remainder of the flesh, therefore, becomes a worth-while economy even when a small area is to be planted.

Under this plan it is not necessary to prepare the seed all at one time. From day to day the cones for seeding can be cut from the potatoes as they are being prepared for the table. The cuttings should be spread out on a piece of paper in a moderately cool room and allowed to remain there until they have cured that is, until the cut surface has become dry. A day or two should suffice for this, and then they should be put in a shallow box or tray and placed where it is still cooler. Any storage condition that will insure them against frost on the one hand and undue shriveling on the other should prove satisfactory.

These seeds can be started indoors, provided it is possible to secure suitable soil and boxes In such cases it may be desirable to plant the eye cuttings at once, and allow them to start nio growth indoors with the idea of transplant ing them into the open ground when danger of frost is past and the ground is dry enough to be cultivated.

Generally speaking, the smaller the size the set, the closer it should be planted in the row if maximum yields are to be secured. Such sets may be expected to give the best yields if not spaced more than 10 to 12 inches spart in the row.

The types of soil in which the potato plant thrives best are those designated as sandy or gravelly loam soils. It may be grown with a fair degree of success on any type of soil except loose sand and a beavy, sticky clay soil, provided the land is well drained and contains he necessary plant food.

Whether the land is plowed or spaded, it should be thoroughly pulverized immediately afterwards. It is a bad practice to allow the freshly turned soil to bake in the sun and wind, and thereby become cloddy, and, at the same time, lose a large per cent of its molature. The importance of thoroughly fining the soil cannot be overemphanized, for it increases the water-holding capacity of the soil, renders more plant food available, and reduces the

number of weeds. The date of planting necessarily must be governed by climatic conditions. In attempt ting to produce as early a crop as possible some risk must always be incurred of the plants being injured by late Spring frosts. As a seneral proposition, it is best to plant potatoes as soon as there is little likelihood of drained. The crop will mature more rapidly killing frosts after the plants are up and the ground is in condition to work.

Plant the small eye cuttings from 1 1-2 to 3 inches deep, depending upon the character of the soil-the lighter the soil the greater the

to be done with a horse, 30 to 34 inches usually is allowed. If a late variety is planted, the spacing

should be greater, say 34 to 36 inches between farm lots Nos. 346 and 600 on plan of farm lots the rows and 12 to 14 inches between the plants tural Education as a Factor in Agricultural in the row. The closeness of planting should second, by the amount of available plant food and moisture in the soil, or that can be applied

Early potatoes should be planted before the Skinner, etc. \$2,000. first of April and late varieties three to four

HOTEL RUMOR DENIED om Company Has No Intention of Building At Somers' Point.

bein Steel Company is contemplating the lousness of it and the sooner he is equipped to erection of a big hotel at Somers' Point City for the accommodation of its guests and officials were denied this week by men connected Howard W. Sanford et, ux, to Anthony N. with the corporation, who said they could not Bernardo, Irreg. Southeast side of Bellevue imagine how such an impression was raised. The company has no intention of building hotels in connection with its operations in this county as it believes ample botel accommodations already exist and their policy is to encourage home industries and business places in every possible way. While no definite armugements have yet been made to take care of the many distinguished visitors of the company, it is considered likely that they will be excellent train service to this place, and the Capt. Dan Vaughn arrived home Monday good roads, they will be near the headquarters on this end of the track

# PAVED STATE HIGHWAY EGG HARBOR-TUCKAHOE THROUGH COUNTY SEAT

THIS ROUTE INCLUDED IN \$15,000,000 ROAD ACT JUST PASSED

### PART OF MAIN STREET AFFECTED

NECESSITATES CHANGE IN IMPROVEMENT PLANS OF FREEHOLDERS

WILL GIVE CAPITAL GOOD BOULEVARDS ALL THE YEAR

May's Landing will receive substantial benefits from the new State road system, for which bills have been passed by the Legislature and signed by Governor Walter E. Edge, Included in the roads provided for in the act, which will be paved within the next five years, are the roads from Egg Harbor City to this place and from here to Tuckahoe, also that strip of ricanor Jagmetti of Edwin D. Dianos, we also from the Egg 100 ft. West side Tennessee Ave. 220 ft. North of Pacific Ave. \$6,000.

Harbor road to the Tuckahoe Road including

These roads were not included in the original bill but were added at a late hour as amend-Martha K. Crowley to James Crankshaw, 25x ments and will be built along with the other 90 ft. West side Florida Ave. 320 ft. North of State roads. This will give May's Landing connection with the paved White Horse Pike county are the road from the Camden County line to Absecon and the road from Absecon to the Mullica River, on which more than a million dollars will be expended out of the

\$15,000,000 provided for by the act. The passage of this act will undoubtedly cause the fresholders to change somewhat their plans for the improvement of Main Street, as they will only be obliged to improve the road from the Egg Harbor entrance to Sugar Hill. The freeholders, however, do not have to wait for the State to build these roads included in the set, as they can go ahead, provided their plans are approved by the State road authorities, and build these roads as soon as they desire, for which they will be reim-South side Pacific Ave. below Missouri Ave., bursed by the State out of the funds raised by the statute. The only extra cost to the county in this event will be the interest on the funds until such time as State moneys are available. It is considered quite probable that this course will be taken with regard to the White Horse Pike but nothing has been decided upon with regard to the roads that will touch the county

The advantages of the new paved roads to this section will be many for they will give good paved roads to all sections of the State, which after the experience of the past Winter will be appreciated by autoists.

#### GOVERNOR SAYS CITIZENSHIP ALWAYS MEANS SACRIFICE

Gives Sound Advice To Boys of New Jersey--To-morrow Their Day. Supplementing his Boys' Day proclamation

Governor Edge has issued the following letter "To the Boys of New Jersey": "As you are probably aware, a proclamation has been issued which sets aside Sunday, March 25, 1917, as Boys' Day in New Jersey. "The idea of making this as a special day is to encourage the boys of New Jersey, through the assistance of their parents, in the duties of citizenship. Every boy faces this responsibility, and the sooner he is impressed with the ser-

shoulder the responsibility in the way that it

should be shouldered, the better it will be for the State and for the nation. "The Young Men's Christian Association is going to promote this special day in the hundred or more cities and towns of New Jersey where these Associations are located, Through the high and preparatory schools, the industries, and the State institutions the Young Men's Christian Association is coming in direct touch with about fifteen thousand older boys. A majority of them will east their first vote on or before the next Presidential election. In other words they will become full-fledged entertained in Atlantic City, where, with the task of taking a part in the government of their municipality and State and their country. In case of war is declared they will be the ones to respond to the call of the colors, and I might say that they represent twice the

present war strength of New Jersey. "It has been suggested that in addressing Mr. L. A. Down preached Sunday at Abss. Edge. In the First M. E. Church the day will country, and sacrifice for God and country. con and was entertained by Capt, Reuben be a Red Letter one and parents are urged to Certainty I could urge nothing better. Loyalty, bring or send their buys to all the services, purity and sacrifice are the essence of good Mrs. Jane Collins, wife of Somers Collins, The\services of the day will be as follows; citizenship. Citizenship cannot exist at all · (Class meeting at 9.30); morning sermon at 10.30, unless there is purity, elitzenship is merely a Miss Saille Smith, of Tuckahoe, is visiting subject, "David, The Shepherd Boy," Sunday, mismomer where there does not exist loyalty School and Epworth League at the usual hour, as between citizen and the sovereignty; and of ors, r. o. rogersea.

George Couch, a resident of Clarktown, died : Evening segmonal 7.30, subject, "Joseph's Coat" course, all citizenship necessitates certain sacsuddenly Saturday morning of heart discusse, of Many Colors." Every boy in is town invited rities. The state calls for the services of its The new Township temmittee has elected to be present. Special singing at each service, citizens in the ordinary functions of governfor every dollar's worth of service received. kind of sacrifice in time of war, but whether during peace or, during war the basis of good citizenship is sacrifice.

"With the assurance that the boys of New Samuel Albertson, Mikel Scorson, Jersey will enter into the spirit of the coming Boys' Day in a wholehear of fashion, and services will be as follows: Preaching at 10.30 at 11.45. Persons calling for any of the above letters with the confidence that the majority of the subject, "Jesus the Way the Truth and the most say "advertised" and give the date of this list. Charles C.
