The Rev. Brown, born of Connecticut ancestry in New York City September 25, 1829, was the second Synodical Minister in New Jersey. He came to May's Landing in December, 1860, to supply the pulpit, returning again in 1867. At that time this church had only eight members and was the only one of the denomination in Atlantic County, the nearest of its kind being at Cape May, forty miles distant. He started the work of spreading the faith throughout South Jersey, with May's Landing as the centre, and held services throughout the district. He was also instrumental in the establishment of many schools, his labors extending from the Delaware River to the Atlantic Ocean and from Toms River South to Cape May, a district very sparsely settled at that time. After fifty-four years of such service as few men are called upon to render to their fellowmen and to the cause of their church, he followed in his reward in December, 1907, at the age of eighty-seven years. The services Thursday will be under the direction of the Rev. H. Randall, of Atlantic City.

ROAD PLANS NOT APPROVED.

So Freshholder Again Postpone Action
For New Boulevard.

Delay follows delay in the promotion of the project for a new County boulevard between this place and Tuckahoe. The matter was brought up Wednesday last at a meeting of the Board of Freshholders but no action could be taken because the new plans have not been approved by the State Road Commissioner. County Engineer E. D. Hightower reported to the Board that he had made a survey of the road along which directed by Col. Stevenson, the State Road Commissioner, after they had gone over the proposed route, but that the plans and specifications had not yet been approved by the Commissioner. He said that the new survey would necessitate the purchasing of certain parts of lands in order to straighten certain bad curves and for crossing the dam at Estelville.

Freshholder Anderson, bourgeois, of Waymouth Township, insisted the Board had the right to adopt and approve the plans and survey of the road, and that they might then be submitted to the State Road Commissioner for his approval. The opinion of the Solicitor, Judge Higbee, was asked for, and he said the Board could not do anything in the matter until the survey had been approved by Commissioner Stevenson.

On recommendation of Freshholder Lewis T. Insley, Chairman of the Finance Committee, the appropriation of \$10,000 for the expenses was increased \$10,000 by the Board, to meet the needs of the new County election bill, and the appropriation for the payment of the expenses of the Freshholders was increased to meet the new salary bill.

The Aylum Committee recommended that as soon as the County had sufficient funds that a hospital be built for the treatment of tubercular patients.

Two applicants were ordered purchased at \$25 each for apron for the Meadow Boulevard improvement, that will be halted with delight by drivers and motorists and will add greatly in maintaining the Boulevard in good condition. Freshholder Frank Enders of the Bridge Committee reported that paint had been purchased for repainting the bridges on the boulevard.

BOY STRUCK BY AUTOMOBILE.

Narrowly Escaped Death When Running in Front of Machine.

Running across Main Street Thursday afternoon from the M. E. Church, where he had been practicing for Children's Day exercises, Roy Pierce, son of Mr. and Mrs. William Pierce, was struck by an auto driven by Nicholas Hamilton, of Atlantic City, and, painfully, though not seriously, injured, the machine fortunately passing over him without crushing him beneath the wheels. The auto was running at a low rate of speed and stopped before it cleared his body. The driver of the machine jumping out and rescuing the lad while the driver, badly frightened himself by the accident, called for a physician. Dr. G. L. Harker examined the boy at once and sent him home, where he was treated by the family physician, Dr. H. C. James. From the accounts of eye-witnesses the driver of the machine was not at fault, but the lad became frightened when he saw the auto approaching and could not get out of the road in time to avoid being struck.

In the absence of Dr. Harker, Dr. H. C. James was hurriedly summoned and relieved the pain of the girl's burns. The stove did not explode, as at first reported.

SHOULD PROTECT FOOD

Health Committee of Egg Harbor
City Urges County People to
Observe Sanitary Rules—Con-
demn Public Drinking Cup.

An appeal has been issued by the Egg Harbor City Tuberculosis Committee, consisting of Messrs. H. M. Cressman, A. A. Breder, A. C. McPherson and Dr. Theodore H. Boynton, to the people of Atlantic County, to observe more carefully the health and food regulations, and to be especially on the dangers of and prevention of tuberculosis.

"Every seller of foods," says the committee, "should protect against the same from dust and flies and all foods and eatables should be kept in clean receptacles in places where sold, and especially so in homes and households."

"Every seller of drinks is urged to keep drinking vessels and utensils perfectly clean and free from flies, and to have such utensils cleaned often with soap and hot water after each use."

"Wherever persons visit, who are known to have or believed to have tuberculosis, there should be used for them special drinking utensils, which should not be allowed for the use of others, without being thoroughly cleaned, and such persons who are believed to be ill, should be provided with a properly protected place where they may safely spit without endangering others. Such cuspidors should be frequently cleaned with disinfectant, and all public places should absolutely have cuspidors so cleaned."

"The use of public drinking cups should be avoided by everyone. All afflicted with tuberculosis should be given every possible assistance in the following of these important requirements for our public good. A careful tuberculosis patient is not dangerous."

"Lastly, everyone who may have this disease in any form is particularly urged to follow these very important rules and regulations, which will protect themselves and others from tuberculosis, which may mean so much for themselves and those with whom they come in contact, and to procure instruction cards on tuberculosis free of charge from this association."

GOVERNOR USES VETO POWER.

Refuses to Sign New Excise Law On
Account of Legal Defect.

Governor Wilson Tuesday refused to sign the bill making it a misdemeanor for a minor to misappropriate his age to a saloonkeeper to get a drink. Burlington County liquor dealers appealed to the Governor early in the day to sign the measure. The bill was regarded as a step to prevent the prosecution of liquor men for violations, in which minors might be witnesses.

Nathan Smith, of Burlington, headed the delegation of the Burlington County Liquor Dealers' Association when the delegation waited upon the Governor and urged him to approve the house bill.

This was the proposed Pine law, and the liquor dealers argued that they should be protected against prosecution when the minor swears he is 21 and thus gets a drink. They wanted this put on the minor as a legal duty.

Governor Wilson Tuesday also announced that he would veto the bill which was designed to permit the holders of liquor licenses to deliver goods in municipalities other than those in which the license was issued.

Other than the bill mentioned above, the Governor decided to veto the bill on the ground that it has a legal defect.
