vision of new quarters for the grand jury at the Court Blodge, also for new witness rooms and a special room for the prosecutor, are provided for in plans adopted by the Board of Oboson Freeholders Wednesday last, submitted by Freeholder Ira T. B. Smith of this place. Bids will be advertised for and the contract awarded at the next meeting of the Board. The improvement comprises an entire soud story over the rear portion of the Court Hones and will cost approximately \$6,500 Several grand juries have complained of the recent quarters, which are not only too small but are poorly ventilated and badly situated. The adoption of the plans ends a three-year fight for the improvement.

The new addition will give plenty of room for witnesses waiting to be called by the grand jury, instead of having them crowded for bours at a time in the corridor, and will isolate the grand jury quarters from the rest of the building so the lurors leaving the room will not pass through throngs of witnesses. Abraham Lincoln arose; and in this hour of dire National need, when the future welfare and integrity of the Nation is meanaced, there arises before the American people a candidate for the highest office in the land, a man tried in the fire of public service, masterful, fearless and a patriot whose name will be linked in our future archives with those of Washington and Lincoln—Charles Evans Hughes.

The nomination of Justice Hughes as the Republican candidate for President means restoration of Republican principles in the administration of National affairs and "preparedness" in all that the word implies, especially against cheap foreign labor when the European war ends. Protection of the European war ends. Protection of the American workman is equally as important as protection of American bonor and both will be secure under Republican rule. "Hughes and parallel with Atlantic Avenue sixty-two feet six Inches; thence (2) South-wardly and parallel with Atlantic Avenue sixty-two feet six inches; thence (3) Southwardly in the City of Angale Avenue; thence (4) East word in protection of American bonor and both will be secure under Republican rule. "Hughes and Fairbanks" comprise one of the strongest tickets ever put before the people of the United States and they will sweep the Wilson administration, with its vaciliating, rhetorical policies, into oblivion.

With the restoration of Republican rule and a sound protective fairlf, there will be a sum-like company. Taxes for year 1812, \$81.74, will be sold at public verters and sold at public verters and sold applied to the City, Country of Atlantic and State of Chancery, will as all that city, Country of Atlantic and State of Chancery, will as all that city, Country of Atlantic and State of Chancery and the westerly line of Atlantic Avenue and adong the Westerly line of Atlantic Avenue sixty-six and twenty-one hondred the South of the South line of Atlantic and State of Chancery and Republican rule. With the restoration of Republican rule and a sound protective tariff, there will be a summary end to the "epoch of taxation" which has marked the present administration. With the smarked the present administration. With this marked the present administration. With the smarked the present administration. With this marked the present administration. Once the war ends, foreign goods manufactured at "starvation wages" will flood the American markets and surely put our Ali that certain tract or parcel of land, all that certain tract or parcel of land.

manufactured at "starvation wages" will flood the American market and suriey put our flower parties of the wall, unless the tariff is again raised before that happens.

That the Pemberaise we the handwriting on the wall is evident. In its haste to minimize the tariff bane, the "Record" of Philadelphia, make the diderious attachement that under the present Democratic tariff imports have not increased materially. Certainly they have not. How could they: With German trade entirely cut off and other tradelargely affected by the war, how could they: Certainly they have not. How could they: With German trade entirely cut off and other tradelargely affected by the war, how could they increased into the time of the war end before tariff rates have been placed where they belong to protect American work.

The nation's bistory will ensue, Nothing can prevent this calamity except the restoration of the Republicans to power and the creation of a tariff wall high enough to protect the American work.

It is an old true-saying that whelever goes up must come down. All the war stocks and wages that have been boasted because of the demand for guns and shells to feed the war-good neut come down. All the war stocks and wages that have been boasted because of the demand for guns and shells to feed the war-good neut come down. All the war stocks and wages that have been boasted because of the demand for guns and shells to feed the war-good neut come down to normal eventually. That in itself will be sufficient to precipitate a panic. All of this, then, the influx of chesp goods the protect the ratiff wall be sufficient to precipitate a panic. All of the the ratiff wall be sufficient to precipitate a panic. in itself will be sufficient to precipitate a paole. Add to this, then, the influx of cheap goods through the breaches made in the tariff wall by the Democratic party, and Americans will experience the worst depression ever kn wn.

The Democratic realize now, in spite of the bold front that they are putting up, their only hope, that of a division of the Republican ranks of such magnitude as occurred in 1912, is gone. The present administration is essentially a minority one, for with a united Republican ticket in 1912 Wilson would not have had a least of the sun of two hope and ticket in 1912 Wilson would not have had a least of the place of beginning. COME TO MAY'S LANDING!

May's Landing possesses greater possibil ities than any other municipality in South Jersey. It is the terminal of five of the most important boulevards in Atlantic County, connecting with Atlantic City, Philadelphia, Cape May, Ocean City and North Jersey by direct routes. The Great Egg Harbor River was once the centre of shipping in South Jersey and with a comparatively small expenditure for dredging can again be made a fine commercial highway. Our possibilities can be summed up as three-fold-for industrial development, for Summer homes and for a place of permanent residence. If you are looking for a practical site for an industry, come to May's Landing! It you seek an ideal Summer residence, with boating, bathing, fishing and kindred pleasures, come to May's Landing! If you desire a permanent home, healthful, with pleasing environments and good connection with Philadelphia or Atlantic City, come to May's landing! For this is indeed "The Town of Natural Opportunities" in all that the words rightly imply.
