CUT-OFFS CHANGE COURSE OF OLD ROAD.

Mile Of Highway Already Constructed And-Work Is Progressing As Fast As Possible — Kept Passable Fol Automobiles.

Stendy progress is being made on the new road to Tuckahoe, about a mile being already completed, and it will go ahead still more rapidly as the hauls from Estelville become shorter. An average of 350 feet is added to the highway daily, in addition to the work of grading. As far as it has been built, the road is in fine condition and it is evident that it is going to be one of the best boulevards in the County.

Two cul-oils will be made at the South River bridge, a short one on this side to eliminste the sharp curve at that point and the other on the far side of the bridge, where the new route cuts straight shead through the woods. The work of building these cut-offs will take only a short time as there will be no Interference through travel.

The need of a new bridge at South River is aethin will be taken at an early date to have one built in keeping with the highway. The present structure is altogether too narrow for a County road bridge and moreover, when the cut-offs are built, it will stand diagonally

After the dam at Estelville is crossed, progress will be mpid for the greater part of the of the road will be cut down to a considerable be
