

ATLANTIC COUNTY RECORD.

THIRTY-SECOND YEAR—NO. 49.

MAY'S LANDING, N. J., SATURDAY, AUGUST 14, 1909.

WHOLE NUMBER 1670.

IMPORTANT CHANGES IN JUDICIARY AMENDMENTS

PREPARED BY EX-GOVERNORS AND JURISTS.

Approved by State Bar Association—Lessens Expense of Litigation—Eliminates Obstructions to Speedy Justice.

By far the most important of the three proposed amendments to the State Constitution which will be voted upon by the people September 14 is the Judiciary Amendment, prepared by two ex-governors, John W. Griggs and Franklin Murphy, ex-Justice of the Supreme Court, and by two ex-judges, Charles L. Tobin and John H. Hardin. They were a commission appointed by Governor Stokes. The proposed amendment in full, together with the other amendments, will be found on page three of this issue.

The commission that prepared the amendment in its report to the Governor said: "We confidently believe that these measures will enable our courts to dispose of legal controversies with dispatch, affording ample time for deliberation and full opportunity for the rights of suitors, that procedure will be rendered more simple and certain, and the delay, vexation and expense resulting from the selection of the wrong tribunal will be substantially removed."

There are now thirty judges in the State Courts, whose salaries amount to \$240,000 annually. The amendment decreases their number to twenty-one at an annual expense of only \$125,000.

In each county, there will be one County Judge, as at present. The Legislature may increase the number of County Judges in any county; and may also increase the number of Justices in the Law and Chancery Divisions.

The present Justices of the Supreme Court, and the Chancellor and Vice-Chancellors, are members of the new Supreme Court. The present Justices of the Common Pleas in all the counties are made Judges of the new County Courts. They will continue to exercise jurisdiction in the county where they hold court.

There are now five courts in each county: Quarter Sessions, Common Pleas, Oyer and Terminer, Chancery, and Criminal Courts. Under the proposed regime there will be only one court, to be called the "County Court," which will have the powers of the present five courts.

Under the present system there are four superior courts: Supreme, Chancery, Probate and Error and Appeal. Under the proposed amendment there will be only one Supreme Court, working in three divisions, viz: Law, Chancery and Appeals. The Governor will assign Justices to the divisions. Now you must "remove the record" and judgment from the Supreme Court to the Court of Errors and Appeals. This is done with technical accuracy. Thus the record and judgment of each division will be that of one and the same Supreme Court. No such technical difficulty can arise.

There are now double appeals in many cases, viz: from the Circuit Court to the Common Pleas or Criminal Courts, to the Supreme Court, and thence to the Court of Errors; or from the Oyer and Terminer Court, to the Supreme Court, and thence to the Court of Appeals. Under the amendment there will be single appeals only. Appellate proceedings from the County Courts will be in Appeals Division.

This will give an independent Court of Appeals and the Judges assigned to this division cannot sit in any other division or Court. It will simplify appellate proceedings. Now you must "remove the record" and judgment from the Supreme Court to the Court of Errors and Appeals. This is done with technical accuracy. Thus the record and judgment of each division will be that of one and the same Supreme Court. No such technical difficulty can arise.

Atlantic City Working Hard to Secure Forty-Fourth Annual Encampment in 1910—S. R. Van Sant Elected Commander.

Atlantic City is making strenuous endeavors to secure the next G. A. R. Convention, the forty-fourth annual encampment in 1910. The forty-third encampment is now in session at Salt Lake City and is one of the most successful in many years.

St. Louis is currently seeking to get the next convention and will receive strong support, but the fact that Denver is also in the field will strengthen the hopes for the Atlantic City members.

Former Governor Van Sant, of Minnesota, and Judge William Ketchum, of Indiana, were candidates for the chief command to succeed the retiring commander, Henry M. Nevius, of Red Bank, the former securing the coveted honor.

The commission that prepared the amendment in its report to the Governor said: "We confidently believe that these measures will enable our courts to dispose of legal controversies with dispatch, affording ample time for deliberation and full opportunity for the rights of suitors, that procedure will be rendered more simple and certain, and the delay, vexation and expense resulting from the selection of the wrong tribunal will be substantially removed."

RESIDENT LICENSE LAW

CAUSED HUNTER'S ARREST

WAS SHOOTING SNIPES WITHOUT PERMIT.

Fine of Twenty Dollars and Costs Imposed by Justice—Game Wardens on Lookout for Those Who Disobey Statute.

The first arrest in South Jersey under the new law requiring residents to secure licenses before hunting was made Wednesday, when Harry H. Cramm, of Atlantic City, was taken into custody by Game Wardens A. J. Rider, of Ocean County, and Howard Mathis, of Burlington County, at Brigantine Beach while hunting snipe.

The wardens were cruising along the coast in the government launch "Protector" and spotted the hunter along the beach. They landed and demanded that he show his license. Not having taken the caution to provide himself with one as prescribed by the new law he was placed under arrest and taken to Atlantic City. Game Warden William Loder, of Egg Harbor City, was summoned and made the formal complaint before Magistrate DeHart, who imposed a fine of \$20 and costs. Mr. Cramm paid the fine.

Game Wardens throughout the State are vigilantly watching for violations of the new law, which requires residents to secure a license from the county, city or borough clerk, for which the fee is \$15. The license permits the holder to hunt anywhere in the State during the rest of the year and is not transferable.

AUTO CRASHED INTO WAGON.

Machine Demolished and Wagon Damaged Near Hammon.

Crashing into a heavy farm wagon driven by Edwin J. Black near Hammon last night, an automobile driven by Charles B. Hall of Philadelphia, was completely demolished and the occupants, Mr. Hall, his daughter and chauffeur, thrown out, escaping with slight injuries. The wagon was driven by the late driver of the wagon. The driver of the automobile was thrown out, escaping with slight injuries. The wagon was driven by the late driver of the wagon. The driver of the automobile was thrown out, escaping with slight injuries.

The road is very narrow above Hammon and the automobile came along behind the wagon. When the chauffeur discovered he could not pass he applied the emergency brakes, but the car skidded and crashed into the rear of the wagon. The driver of the automobile was thrown out, escaping with slight injuries. The wagon was driven by the late driver of the wagon. Mendel to Retire From Business. The old established firm of Mendel, in Atlantic City, which for thirty years has catered to the wants of its many patrons, has started a sale closing out the entire stock of clothing, hats and general furnishings goods. The Mendel firm has always been looked upon as a most reliable house, and its sale is being conducted, enjoying a large and wide business patronage. Joseph Mendel announces his intention to close out this \$15,000 stock of high-grade wearing apparel at the lowest prices ever known in Atlantic County. The Mendel firm has been in business since its inception to dispose of and empty the store in the next few months. This is a bonafide sale with no goods reserved and all of the goods of the standard which has made this store famous for thirty years. The sale is not the ordinary clearance sale of undesirable goods but an absolute selling of everything in every department regardless of cost.

Well Known Atlantic City Resident Dies Suddenly. While standing on his family on a wharf at Tucker, Monday afternoon, Stewart H. Shinn, aged 53 years, a former member of the Board of Freeholders and one time Assessor of the First Ward, Atlantic City, was suddenly taken ill and passed away without instant speaking. His family had been spending a vacation on his house boat and had gone ashore for supplies. A physician was immediately summoned but death had come before he could get to the side of the stricken man. The funeral services were held Thursday from the residence of Mrs. John B. Chapman and were largely attended by relatives and friends of the family.

MAY'S LANDING, N. J., SATURDAY, AUGUST 14, 1909.

Much annoyance is caused to residents and automobilists by the absence of adequate sign-posts at the various road intersections of the municipality. It is a common occurrence to see automobile drivers stop and request to be directed to the proper route when a sign-post would have given the necessary information. Sign-posts should be erected at the intersections of Cape May Avenue and Main Street, Lenape Avenue and Main Street, and at the terminus of the new Downtown road.

The need of sign-posts has been apparent for several years and their erection has been urged by residents, for the cost would be insignificant and the convenience considerable. It is the duty of every municipality to provide for the comfort and safety of travelers on the public highways and supply the necessary conveniences for their guidance.

Many automobilists are deceived by the intersection of Lenape Avenue and Main Street and take the former, which leads to Cape May Avenue but is not improved beyond Second Street. If this avenue was properly gravelled and improved it would make a convenient link, taking much of the travel from Main Street; but in its present condition it is almost impossible for automobiles and the drivers, bewildered, are obliged to appeal to residents for direction. A sign-post at the intersection of the two highways would properly direct strangers and prevent much annoyance. The same can be said of the other intersections named, and the sooner the sign-posts can be provided the better.

Among the vicissitudes of public life are the many misunderstood motives and frequent unjust criticisms that beset the pathway of men who hold public offices. Commodore Louis Kuehnle, the stalwart Republican leader of Atlantic City, than whom no resident of the resort has been a more ardent supporter of municipal progress, is no exception to the rule. When he has been foremost in his efforts to promote the interests of the resort, his critics, actuated by political jealousy and petty grievances, have been most unkind; but the valiant Commodore, who has borne the brunt of many contests on his broad shoulders, has learned to disregard the complaints of chronic fault-finders and to discount false criticism at its real worth. Commodore Kuehnle is one of the most generous, philanthropic public officials in South Jersey and his donations to religious and charitable institutions in the aggregate would exceed those of his critics many times if the truth were known. He is a most progressive citizen and even his worst enemies have never dared to assail his integrity and sincerity of purpose. His character is above reproach and his life has been an open book, marked by deeds, not words. And above all he is a living exponent of real American manhood: patriotic, progressive and loyal to all that is for the good of his country, his State, his home city and the Grand Old Party.

The Season for the use of a street sprinkler is, fast passing, but it is not by any means too late to purchase this long-needed municipal convenience. By laying the dust a sprinkler would save the Township hundreds of dollars annually, many times its cost, in preventing the loose gravel on the surface of the roads from blowing away. One of the strongest arguments for the purchase of a sprinkler is the improvement of sanitary conditions. It cannot be denied that the clouds of dust so frequently seen along the avenues are a detriment to the good health of those who are obliged to travel thereon. The comfort of residents living along these avenues is disturbed by dust raised by passing vehicles—dust which penetrates into their homes and is a constant annoyance to housekeepers. After all that has been said and written on this subject it is strange that the Township Committee has not seen its way clear to provide a sprinkler, which prominent citizens declare a necessity. A portion of the road appropriation could be used in this manner to good advantage.

For some reason many sportsmen of the State seem to regard the new law requiring residents to secure gunning licenses as unfair. Such was not the intent of those who framed it and who convinced the Legislature of its necessity for the preservation of the State game fields. The law is now a portion of our Fish and Game code, one that is deserving of admiration as an efficient collection of practical statutes, and as such it should be observed by every resident and sportsman. Farmers may hunt on their own land, a fair privilege; but to those who make a sport of shooting game the small fee of \$1.15 is not restrictive. And it is for their own best interests, for it means more game for every fair, legitimate gunner.

Very little dredging would be required to make the Great Egg Harbor River navigable for large launches at all tides. There are a few shallow places within two miles of the head of tide-water which could be dredged at a very small expense and all stumps and bars removed. Such a consummation is eminently desirable. Interest in motor-boating would be materially increased thereby and the river, one of the most beautiful and picturesque in the State, would become more popular with yachtsmen from other places.

Too much praise cannot be given for the Children's Seashore Home of Atlantic City, an institution for poor children of the cities supported by philanthropic persons, many of whom are leading residents of the resort. Hundreds of little children, weak from deprivation and unhealthy surroundings in the tenement districts, are taken to the Home each Summer and provided for free of expense to their parents. It is a labor of love, one that cannot be too liberally supported by the public in general. If more such institutions were provided for the poor children of the large cities the result would be apparent in a decreased death rate and better health among the people. If anyone is skeptical of the good that is being done by the Home they need but to visit the happy little children therein to be convinced of its worth and practical usefulness, and no one who can afford it can extend their charity to a better cause.

When the invincible captain of the "Game Chickens," E. Bird Grubb, retired several years ago to the solitude of his home at Edgewater Park, it was presumably with an intent to watch the political affairs of his State during his declining years in a calmly contemplative mood. If report does the valiant Grubb no injustice, he is now seeking peculiar political notoriety by deserting to the side of former enemies in the hope of crowning his old hat with Democratic plumes. It seems that last year's defeat was not enough for Grubb and it may require another decisive turn-down to again place him in a sufficiently calmly contemplative mood.

Drivers of vehicles on the public roads at night should bear in mind the new statute requiring a white light visible in either direction. There are many drivers who seem inclined to disobey the law in this respect, perhaps through negligence. The fine is light for violations, but that is not the point; the law is intended for the protection of the drivers themselves and they should cheerfully comply with its provisions without compulsion. The law is prompted by common sense and to display a light on his wagon at night for his own safety and that of others is no more than every driver should do without the necessity of law.

A flying machine that can fly has been invented by the Wright brothers and it is rumored that the "birds" will be manufactured and sold at seven thousand dollars each. However, the wren and the sparrow still have the advantage and it doesn't cost them a cent.

O fickle fashion! The ladies have just become accustomed to the "peach-basket" bonnet and now you announce the arrival of the "bird's-nest" hat. What is the next travesty that will be perpetrated on nature?

"Early to bed and early to rise, makes men healthy, wealthy and wise" is an old maxim, none the worse for its age, one which is easy to put in practice and which is always conducive to happiness.

STATE PRESS COMMENT.

"While every loyal Republican in his home county would like to see Congressman Gardner re-elected every home to which he is entitled by reason of his long, able and faithful service in the House at Washington, the loss of a chairmanship or two is not going to affect his popularity at home in the slightest degree."

"This is particularly and especially the case if it be true as a Washington dispatch indicates that Mr. Gardner has incurred the enmity of Speaker Cannon who chairmanships because on divers occasions he chose to vote as suited himself and not as the veteran Speaker desired him to vote."

"To tell the truth Atlantic City and county and we think the balance of the Second Congressional District as well would rather have Mr. Gardner an independent and independent member of the house than to have him chairman of another committee or two."

"Congressman Gardner has always been able and faithful and it is gratifying to find that when necessity arises he can also be independent. Atlantic City has long had a sort of admiration for Speaker Cannon because of his rugged Americanism if for no other reason. It has, however, for a number of years, for a faithful representative than for the Speaker with all his power and would much rather have him vote in accord with his own mind than to simply fall into line and do the Speaker's bidding."

"Therefore if Congressman Gardner stands to lose anything in the way of new titles down Washington way simply because he has seen fit to vote to suit himself and be independent, we can assure him right now that his stock at home will rise correspondingly with his loss of chairmanships, and that his welcome when he gets back to see his constituents will be more cordial than if he brought a trunk full of chairmanships."

"Talking, however, of the irony of fate, Congressman Gardner came in for a great deal of ill-considered antagonism in his last campaign because he was said to be a very intimate colleague of Speaker Cannon who was at that time exceedingly unpopular with the American public. For weeks the Congressmen, having a sense of delicacy, refrained from taking any notice of the charges but when it developed into the strongest of the issues raised against him, he felt justified in making a dignified denial of the allegations. The latest news from Washington must convince the last doubting Thomas that Mr. Gardner was unjustly accused."—Atlantic City Evening Union.

"National efficiency depends partly on natural resources, partly on the integrity of social institutions, partly on human vitality, and is a reaction against the old fallacy that death is inevitably decreed at a constant rate. The new motto is 'Efficiency'." "It is within the power of man to rid himself of every parasite disease."

"Longevity varies in different times and places. The average length of life in Denmark and Sweden exceeds fifty years; in India it falls short of twenty-five. In Europe it has increased in 500 years from less than twenty to over forty years. In Massachusetts, in less than half a century, it has increased five years. As longevity increases, mortality decreases."

"The death rate in the 'registration area' of the United States is 16.5 per thousand; in India it is about forty-five per thousand. In Europe the rate varies from sixteen to forty. The death rate has been decreasing during several centuries. In the seventeenth and eighteenth centuries it was forty to fifty, and during the past periods rose as high as eighty. It is now fifteen. In Havana the death rate after American occupation fell from over fifty to about twenty. The greatest reductions have been effected among children. The mortality beyond the age of fifty years has remained stationary."

"Special diseases have decreased such as tuberculosis, which is now one-third as prevalent as two generations ago; typhoid fever, which in Munich, after the elimination of cesspools, decreased ninety-seven per cent., and in Germany, since, after the introduction of the bacteriological method, decreased over eighty per cent. Smallpox has practically disappeared since vaccination was employed, and yellow fever since its mosquito origin has been known."—Trenton State Gazette.

"Indications point to an animated contest within the Republican party over the seat in the United States Senate now held by Senator Kean. The present incumbent wants to be re-elected and will devote all his energies to that end. Governor Fort is believed to have Senatorial aspirations, while former Governors Stokes and Murphy both have their lightning rods. With four such candidates already in the field and other counties yet to be heard from, there promises to be a highly interesting time in New Jersey politics. Preliminary skirmishing has already begun and the result of the coming primaries will be more or less significant, though the real contest will not take place until next year."—Camden West Jersey Press.

"Baseball chatter at Washington: Congressman Gardner was caught out on a fly when 'Rube' Cannon pitched his Post Office out-shoot, but on the fourth time-up he singled to the Committee on Labor and good reputation forced him home."—Atlantic City Press.
