ATLANTIC COUNTY RECORD.

THIRTY-EIGHTH YEAR—NO. 4.

MAY'S LANDING, N. J., SATURDAY, OCTOBER 17, 1914.

KUEHNLE VINDICATED BY U. S. COURT VERDICT CONVICTION UNJUST

FEDERAL JURY HOLDS HIS COMPANY DID NOT HAVE CONTRACT

HIS EXONERATION IS COMPLETE

Warren Brothers Get Big Judgment Against Atlantic City For Extras On Water Main—Concern In Which Commodore Held Stock Had Positively Interest In Work.

Freed of a shyster brand he has always maintained was impressed upon him through a newspaper of Justice Louis Kuehnle, of Atlantic City, who went to State Prison, he perhaps the happiest man in a dozen States.

"Vindicated," he added, stated, "I am modest home in an Atlantic City apartment, where I have been staying, while shown a new contract of the railroad in the contract being tried in the Federal Court at Trenton.

Warren Brothers sued for a balance claimed to be due from Atlantic City for extra work in connection with the construction of a water main, the contract for which was originally awarded to a man named Lockwood. Subsequently, according to the view of the prosecution, that brought Kuehnle's conviction, this contract was transferred to the United Paving Company, in which Kuehnle was at the time a member and also a member of the Atlantic City Water Board that awarded the contract. Warren Brothers received a verdict for \$69,711.44 and Lockwood and Cherry \$112,48.

It was upon the assumption that the United Paving Company and not Lockwood was the real contractor and because of Kuehnle's undisputed connection with and interest in the paving company that he was convicted and sent to the State Prison.

Frank S. Katzenbach, counsel for the Warren Brothers Company, contended all during the trial that the contract awarded originally to Lockwood was never legally assigned to the United Paving Company, but that the rest as signed was the Warren Brothers Company, who did the work.

He further contended that W. J. Cherry, an officer of the United Paving Company and at the same time a silent partner of Lockwood, when the contract was originally awarded never had any authority from the United Paving Company to bring that company into the matter, and that the contract actually passed from Lockwood to the Warren Brothers Company without the United Paving Company being in the least interested.

"I knew this thing would come," said Kuehnle. "I have always felt that it would be set right. But I feared that it might come too late for me to know that the same as which made me a martyr to bitterness and injustice had cleared my name. I never committed any crime. I never asked the city or any individual."

"Why, I'd rather take all I possess and throw it away than to knowingly take any thing else. I never did any grave wrong. I never profited a single penny through an act that I am ashamed of to-day."

"I would come back if they could not happen before, but I regret nothing now. Public sentiment had been aroused. Men will block hatred in their hearts made me out a criminal and I was convicted and sent to State Prison, branded, for a crime I never committed. Now that the Federal Court has said it, I guess the people will believe it."

"Why, said the Commodore," I could not have been induced to take a penny from the city in that waterworks contract. I told Cherry (his former associate in the paving company) not to bid for that wooden main contract. When Frank Lockwood, who had been Cherry's foreman, bid for the contract I thought Shirley Baker, a contractor from the State of Washington, was hacking him, because I knew Lockwood could not negotiate a certified check record under the contract. I knew nothing of Lockwood's plan until he tendered \$9 per cent of the contract to Cherry. The city lost nothing through the award. To the contrary the contractors dropped \$40,000. There was not any robbery of the city there."

"And I was proud of that water plant. It stands to-day as a monument to our work. Inspired by the pride we took in it. And for all I did, what did I get?—a salary of \$34 a year as Water Commissioner, prosecution, conviction, six months in State Prison and a jailbird's brand."

"But that's past now. Cleared, am I? Well, I feel it couldn't help come out right, and I'm glad because I know many good friends who will be glad. This thing is simply priceless. I'd rather have had it happen than anything I know of in this world. My conscience has been clear all the time, for more than the consciences of the men who sent me behind the bars, but now, the world knows that I was never guilty. They tried to rob me of my greatest possession, my good name, but failed. All I want now, now that I have been cleared before the world, is to be allowed to go along quietly. This thing that has happened to me is better than all the political honor in the world!"

JUSTICE ASKS JURORS TO INVESTIGATE LATE ELECTION

Intimates Corrupt Practices Act May Have Been Violated.

Judge Charles C. Black, appointed to this circuit to succeed Justice Samuel Kalisch, made his initial appearance here Tuesday morning last to open the October Term of the county court and did it in a manner that left no doubt as to his ability to maintain order even in a crowded court room.

When Justice Black entered the court room it was filled to the doors, lawyers, witnesses and others standing who could not find seats. When the grand jury was called it became incumbent on the court to have a place cleared for them, which it did by ordering the lawyers from the jury box when they had pre-empted to the jury seats.

Justice Black's charge to the grand jury was not long, but it was emphatic, pointing out their duty to find indictments without fear or favor and to keep their proceedings secret. He named Louis Loughlin, of Hamilton, as foreman of the jury.

Evidence would not be produced by the prosecutor, he said, tending to show that the Corrupt Practices Act had been violated at the recent Primary election and he asked the Grand Jury to find indictments wherever such evidence warranted, leaving the question of guilt or innocence to the trial jury.

Initiated Twenty-Five.

Washington Camp, P. O. B. of A., of this place, initiated the largest class in its history Thursday when twenty-five new members were taken in, the Linwood Degree Team having charge of the work. It was a great night for the order and presented a fine new year for the lodge, which is one of the finest in existence. Following the initiatory ceremony a banquet was held.

OLD RESIDENTS FAVOR "YOUNG BOOTS" FOR SHERIFF

Days of Yore Recalled When He Drove Egg Harbor Coach.

The never election day approaches the more certain the fact becomes that Joseph R. Bartlett, Republican candidate for Sheriff, is going to win by one of the largest majorities ever given to a Republican candidate in Atlantic County. The fact that he is going to win is, of course, generally conceded and the question before the house" is only one of how much majority the voters are going to pile up for "Pop Joe."

One of that of Mr. Bartlett's non-de-plumes with which pretty nearly every one familiar with him is that one that we do but many remember, "Young Boots." Some of the older residents will doubtless recollect how he won this title.

Once upon a time (this is not a fairy story either) no railroads touched May's Landing and residents went to Egg Harbor by coach. Mr. Bartlett's father was stage driver and occasionally Bartlett Junior mounted the coach and cracked the whip over the dashing steeds. So in order to distinguish drivers patrons required the habit of calling them "Old Boots" and "Young Boots."

It is surprising how many people recalled those old days. Scores of them throughout the County, of all political faiths, have recognized "Young Boots" in the present candidate for sheriff and will mark their ticket for him on election day.

Ex-County Clerk Senseman Pleased With Their Condition.

Warm praise was given Tuesday last by former County Clerk Wilson Senseman at the good results of the "tree doctoring" on the old oak trees on the County grounds, which was done while he was in the Clerk's office and of which he was an ardent advocate at the time, being one of the first to endorse Freeholder Mr. Smith's action in caring for these grand old trees.

"A great work has been accomplished on these trees," said Mr. Senseman, "which is already evident and which will be more and more apparent as the years go by. I watched the work with great interest and I am really surprised that the benefit is apparent so soon. Many years have been added to the life of the trees."

Not one of the "fillings" with which decayed places were cared for in the trees has fallen out and in every instance a healthy growth has started over the wounds, in which further decay has been prevented by scientific treatment. At least a quarter of a century has been added to the life of the trees by the work.

MARRIED Forty-Three Years.

Master Mell. R. Morse, of the First National Bank, and Mrs. Morse received the congratulations of their many friends Friday of last week on the forty-third anniversary of their marriage, which took place here October 1, 1871, the late Rev. George C. Maddock, a former pastor of the M. E. Church here, officiating.

The marriage took place at four o'clock in the morning, so they could take the stagecoach for Egg Harbor City, where residents of May's Landing then had to go in order to take trains. "The Record" joins with their many friends in wishing Mr. and Mrs. Morse many happy anniversaries of the happy day.

Friends Take Notice.

We want you to attend the helpful services in the M. E. Church. They will continue next week. Will you come and bring another friend with you? Good, congregational singing. Think friends, you pass this way but once. As you go out of this life, go into the future life. Pray and think; then pray God to help you to your higher self in Jesus Christ. "Come then with us and we will do the good." —Rev. Newton Nelson.

BACHARACH CLUB FORMED BIG OVATION FOR KUEHNLE

Everybody Together For Solid Support of G. O. P. Candidates.

Complete endorsement of the Republican Ticket, from the candidate for Congress down to those for Freeholders and Constables, was made Thursday evening last, on motion of Com. Louis Kuehnle, at the regular monthly meeting of the Atlantic County Republican League. Following the League meeting, which was brought to an early close, the members, headed by Com. Kippholz, marched to the Morris Guards Armory to attend the organization meeting of the Bacharach Club.

Com. Kuehnle's entrance into the Armory, filled by hundreds of Republicans from all sections of the City and County, occasioned a tremendous ovation. And, thunders the applause he was escorted to the platform and it was several minutes before the demonstration ceased sufficiently for the chairman to call on him to address the meeting.

Hurmon was the keynote of the meeting. This was followed at the beginning when Hon. Emerson Richards, Mr. Bacharach's rival for the nomination, was unanimously chosen the President of the organization. Each ward in the city was represented by officers and their wives as follows: First Vice-President, County Clerk; E. A. Parker; Second Vice-President, Ernest Shuckford; Third Vice-President, W. H. Smith; Fourth Vice-President, William Lewis; Secretary, Harvey K. Eaton, and Treasurer, John Lowe.

The spirit of "get togetherism" was manifested on every side and the party was united and determined that Mr. Bacharach will be the representative sent to Washington from the Second Congressional District.

Mr. Baker, during the time he has been in office has been nothing but a rubber stamp to echo the wishes of the President. During the two years of Democratic rule, the party would have suffered had no tariff been passed. The parties are working in our time, the rubber stamp is working their day shifts on a fairly good schedule, but little or no night work is being provided.

The war mills are on short time and full weeks of idlehands result, very evident in all lines of work. The railroads have suffered also and 300,000 more jobs are lost than at the corresponding period under Republican rule. Business men are afraid to embark in new enterprises and the wage earners and merchants feel the pinch. With conditions such as they are what would be the result if Republican congressmen should replace those in office?

"Immediately the fear of Democratic experiments would be gone and the wheels of activity would be set in motion. The Democratic tariff bill has cost this country millions of dollars.

For seven months during July 31 imports have increased about \$210,000 and exports have fallen off \$120,000 making the balance against us \$25,000. Under a Republican tariff the goods would have been made in our own country and at least sixty per cent of that amount would have paid in wages to our own merchants.

"This change has hurt us financially. It has increased the indebtedness abroad under \$210,000 over what it would have been under a Republican tariff and decreased our credit abroad under what they would have been under a Republican tariff \$250,000.

"This has caused a tremendous drain on our gold supply and we are compelled to ship our gold to pay our debts that should be used to stimulate our industries. The drain of gold due to the loss of business abroad under a Democratic tariff has increased interest rates and makes it more difficult for our people to get money to do business with.

"Therefore, I claim that Republican Congressmen should be elected this Fall and that we reduce the administration for creating unnecessary burdens for our business interests. The price of all commodities are the same or higher than they were two years ago. Taxes have been levied on every man who has shown any marked ability and more taxes are about to be levied all to enable the Democratic administration to try experiments which have been unsuccessful."

Reputable policies offer the only protection increasing "hard times."

Editor CHARLES M. BENTLEY of "The News" of Egg Harbor City, advertising weekly, has established a new record, which is a great recommendation in the printing business. He has been awarded this advertisement.

WANTED A good boy to learn the printing business. We are a printing house with a good reputation. We have had some experience with reputation, prints desired to see nothing of printers, and he is starting to relate the business from the bottom up.

SAKAMAHOLI BATHURST, widow of Saks, Bathurst, New Jersey, has been making a living, soliciting, going to her husband's grave, and awaiting the outcome of the experiment with unclaimed interest.

No more convincing proof that American business is still strong, sound and in the hands of good men than the fact that Bathurst, who had been grinding that the game was arranged before hand, began to keep silent, for that game could have been called a draw and would have meant an extra game worth more than \$1000. She was then when she placed her hand over his eyes, and the whole world found that he had been forced to admit the truth.

She was then when she placed her hand over his eyes, and the whole world found that he had been forced to admit the truth.
