

PERKINS' NAME STAYS ON, LAST DESPERATE EFFORT OF DEMOCRATS FAILS

SUPREME COURT REFUSES TO RULE HIM OFF THE BALLOT

ATTEMPT TO DEFEAT VOTERS' WILL

SUCCESS WOULD HAVE ENTAILLED NEEDLESS EXPENSE TO COUNTY

REPUTATED BY MANY OF PARTY

RESULT BUT STRENGTHENS EVERY REPUBLICAN CANDIDATE

Once again the Court has frowned on the attempt of the Democrats in Atlantic County to regulate the affairs and candidates of the Republicans, an attempt that has kept divers legal lights of the minor party lying awake with searching law books with a microscope to find some way to get alleged "independent" on the ticket and regular candidates off. Once more the poor, starving Democratic mole in Atlantic County has had the wisp of straw snatched away from its quivering nostrils.

Yesterday the application of William Cressman, Democratic candidate for Sheriff, to have the name of Alfred J. Perkins, regular Republican candidate for Sheriff, stricken from the ballot because he was nominated by petition after the death of Smith E. Johnson, was denied by the Supreme Court, after an eleven-hour attempt to have it declared of order. The Democrats back of the attempt hoped by this means to keep the name of any Republican off the ballot for Sheriff and to force the Republicans, at the last hour, to resort to a "sticker campaign." Even had the attempt succeeded, Perkins would have been elected by a big majority.

Perkins' name will be on the ballot, and that he will be elected is a foregone conclusion, and by one of the largest majorities ever given in this county to a candidate in an "off year." The fact that there are no State or National offices to be filled this election will cause a great many people to remain away from the polls and the total vote cast will undoubtedly be less than usual.

The ballot having been already printed, this last attempt to get the name of Perkins off the ballot, to join a crowbar in the cogs of the Democratic machinery, if successful, would have cost the county a neat sum for reprinting the ballots without any hope of changing the result of the election, except to cut down the majority of the Republican candidate through the necessity of a sticker campaign. And this, it must be remarked, is in effect an attempt to defeat the intent of the voters, for such hopes are based on the conviction that a great many voters will make mistakes in placing the stickers on the ballot, by reason of which their votes will not count.

Prominent Democrats in all sections of the county have deplored the steps recently taken by members of their party, and declared they were not in sympathy with them. The result of the fruitless attempt to get independent candidates on the ticket for Surrogate and Sheriff, and this last belated effort to deprive the Republicans of a candidate for Sheriff, can only help to strengthen the majority by which all the Republican candidates will be elected.

GOOD ROAD FROM SHORE ASSURED DURING WINTER

May's Landing-Pleasantville Boulevard Treated With Glutrin.

A good road between Atlantic City and the County Capital is assured during the Winter months by treatment of this boulevard with glutrin, which binds together the gravel and holds it firm in cold weather. The work of treating the road was begun from this end this week and will be completed in a few days. The heavy rain storm, instead of washing off the glutrin, as many feared it would, served only to "set" it in the rutted and it is all the better for the downpour. The only portion washed off was some of that which remained on top, and most of this was washed in instead of running off. It is the glutrin which gets down into the roadbed, not that which remains on the surface, which knots the gravel together and retards the usual deterioration caused by freezing and thawing.

Last winter the only good road sections here were the city and county roads with glutrin. Main Street at this place, and the roads for a short distance out of town, were treated with the material, and they were hard as pavement and kept their shape all winter and Spring, while the same roads were badly cut up and at times almost impassable where no glutrin was used.

A good winter road from the shore will be greatly appreciated by those who have business at the County office.

If you had helped a fellow on year after year and made it possible for him to save money and enjoy some of the comforts of life, how would you like it if he turned you down when you needed his help? How would you? Then how do you think your action squares with your answer to this question, if you do not help your country now in her hour of need, when she needs the help of those she has aided and sheltered until now? Buy Liberty Bonds, as many as you can! Be fair and square to your country, even as you wish those who have befriended to be square to you.

ABBOTT INCREASING LEAD IN FIGHT FOR SURROGATE

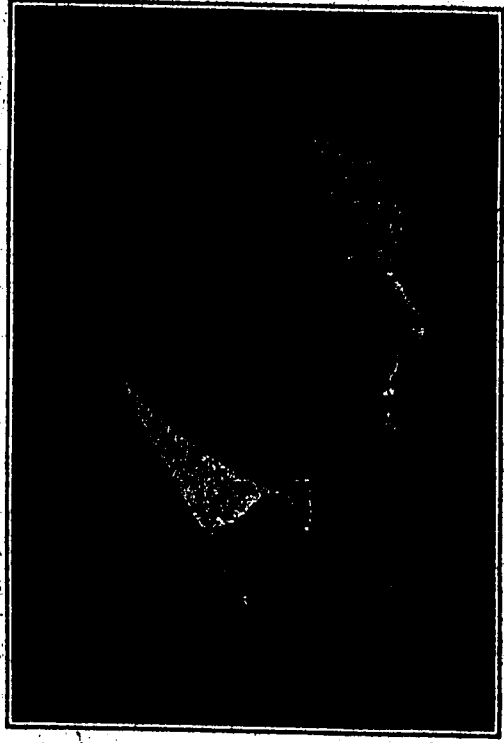

Democratic Effort To Overtake Republican Majority Hopeless.

Albert C. Abbott, Republican candidate for Surrogate, continues to strengthen his already big lead, although Democrats have "given up trying" for all other candidates and are making a desperate one-man campaign in effort to overtake him, the pursuit is hopeless and Abbott will be elected by a big majority. This, with a full vote, would be approximately 5,000 but there being no State or National offices to be filled, there is considerable sympathy among voters and his majority will depend upon the success of efforts to get out all voters possible on election day. With this situation in view, we feel confident in predicting for Abbott a majority of at least 4,000.

REPUBLICAN CANDIDATE FOR SHERIFF OF ATLANTIC COUNTY

ALFRED S. PERKINS

APPEALS TO WOMEN TO HELP RED CROSS

HALF DAY WEEKLY ASKED—LOCAL BRANCH ACTIVITIES

By Mrs. E. A. Hummel.

The regular monthly business meeting of the May's Landing Branch of the American Red Cross will be held in the Court House, Monday evening next at 8 o'clock. All members are urged to be present as there is important business to be transacted. An interesting letter from one of the boys in France will be read at the meeting.

By Christmas the U. S. will have more than 1,000,000 men under arms and everyone is eager to help in giving them Christmas cheer. A generous response to the appeal made for funds by individual contributions to the "Soldiers' Christmas Chest Fund" totaled \$25 which will be sent to Headquarters as "our bit" toward cheering the heart of the soldiers.

The November issue of the Red Cross Magazine may be had by any one of our members by calling at the work room. Its pages are filled with records of accomplishment and the work of the American Red Cross in Europe, as well as at home. This number also contains six posters depicting in color on the need of food conservation, by such artists as Howard Chandler Christy and Alice Barber Stephens.

The membership of the American Red Cross up to the first of September was \$2,000,000, which 1,000,000 names were added during August. The number of chapters was 2,400. The latest report gives the membership as 4,008,016, and the number of chapters 4,800. Surgical dressings are in enormous demand. Two and a half million pieces of dressings, hospital linen and clothing on their way from America to Red Cross women to wounded French soldiers, homeless refugees and American hospitals in France went down with the British steamship Westworth, torpedoed by a U-boat last month, is officially announced by the Red Cross in New York. The value of the shipment was \$200,000. It was said that this is the first loss of Red Cross supplies from the country to France. About one third of the cargo was intended for United States army medical corps base hospitals. Having enough of sterilized dressings and clean hospital clothes will mean the difference between life and death for many a wounded lad. If not for the money, then the son of some other mother. Systematic and other activities, ladies. Give the boys in pain and fever one half-day a week.

Isaac Nutter Exonerated. Isaac H. Nutter was exonerated Tuesday last of all blame in connection with the separation of Mr. and Mrs. Walter Comer, by the jury in the case, after a brief deliberation. Mrs. Comer's father, Samuel Gordon, of Trenton, shouldered all responsibility for placing Mrs. Comer under Nutter's charge. Nutter was a friend and friend of Comer was unable to produce any evidence that Nutter was in any way to blame for his wife's action in leaving him. Mrs. Comer said Comer's own conduct was responsible for the loss of her affections. There was no charge of any intimate relationship between Mrs. Comer and Nutter, Comer only alleging that Nutter's interest in Mrs. Comer, dating from before their marriage, had a part in their domestic difficulties. Mr. Gordon testified that whatever interest Nutter had in his daughter's affairs, was taken at his request and against Nutter's wishes.

KAISER AND HIS PEOPLE AN AUTOCRATIC PARTNERSHIP

Americans Should Not Delude Themselves Says Writer.

"While American editors are writing letters to the 'Revolution in Germany,' the German people are only wondering what sort of a new royal photograph would be set up in the tribune of the Reichstag," says Samuel P. Orth in "Century."

"At the opening of the war the British and American public attempted to draw a sharp distinction between the German Government and the German people. This attempt persisted in President Wilson's war message and lurks in the background of the thinking of the average American to-day. The Kaiser is the centre of our wrath, and being a Republican, we are eager to abolish his people."

"The German thing that we fight—das Deutschland—is an imperial partnership, Hohenzollern and Volk. And the secret of its prosperity is an open one—the willing bending of an obedient folk to a regal ambition."

"It is high time that the American people rid themselves of the fatal delusion that there is a distinction between the ambitions of the Kaiser and of his people."

"In what spirit was the (present) constitution given? The Hohenzollern spirit. 'In Prussia the king makes the laws.' I hold my crown in fear of Almighty God."

"And the people? For generations the army has been the most important unit in the state. Ecological, social and industrial compulsion join their power to the army. The German obeys. It is habit. From the cradle to the grave his life is regulated for him, and he subconsciously knows that the Kaiser is the center of his life."

"There is a quick link in the German mind which sanctifies a monarch by the obtaining of the object through espionage, hypnosis, polio, poison, disease, germs, submarines, the enslaving of conquered races, maiming and murdering of innocents."

"The German resented the suggestion (in President Wilson's war message) that his government and his people are twain. This resentment was almost universal and if a referendum was taken on the question of republic or monarchy were taken today, monarchy every German, free from all restraint, would express his preference, monarchy would win. Only a crushing defeat will be powerful enough to dissolve the bonds of centuries."

Only Fired A "Blank."

Charles R. Hock, of Hammonton, was acquitted by the Court Monday on the charge of shooting at an auto containing Fred. Measley, Jr., his sisterillian and Rev. W. L. Shaw. Hock was employed by Alvin Adams on a farm adjoining the property of Measley's father and the shooting occurred after a bitter quarrel over the boundary line. Hock declared that Measley tried to run him off the road with his car and that he shot a blank cartridge pointed to the ground to frighten him. On a previous occasion, he said, Measley had forced him to get off the road.
