THIRTY-SIXTH YEAR—NO. 6.

CAMPAIGN WILL CLOSE WITH GRAND SMOKER AND SUPPER AT PARK

GEORGIA MINSTRELS WILL
FURNISH ENTERTAIN-
MENT WHILE VOTERS
SMOKE AND DINE.

Final Meeting of Township G.O.P., Will Be Memorable One and Invita-
tion Is Extended to All to At-
tend—Boats Leave Wharf At
Eight O'clock To Transport
League Members and Guests to
Scene of Festivities.

All roads will lead to Lema Park Monday evening next, when the final big Republican meeting of the campaign will be held with the famous Georgia Minstrels as entertainers, in form of a smoker and suppers, All voters are invited to a cordial invitation to attend the affair, which will be the liveliest and most interesting of its kind ever held at the County capital, and will bring to a close one of the most successful campaigns in the history of the Township.

The Georgia Minstrels consist of four talented voices and instrumentalists, assisted by a pianist, and they have no superiors in the country. Old-time songs, ragtime, plantation melodies, they are all alike to "Big Micks" and his vocalists, and once heard they will never be forgotten.

Boy Scout's boat will leave from his wharf beginning at eight o'clock to transport members of the Township Republican League and their guests to the scene of the festivities and everyone is urged to be on hand as promptly as possible. It's going to be a big night and it will be the interest of every voter to attend.

The meeting will be held in the big skating rink at the Park, where all will be comfortable in spite of wind, rain or weather, and while the minstrels dispense music the members and their guests will enjoy a smoker and partake of a bountiful luncheon provided by Proprietor Lorenz Leiling. Owing to the large number that will attend, only voters will be admitted to the meeting.

START BOYS IN RIGHT PATH Boy Scouts Under Roy Beach's Direction Making Fine Showings.

One of the most praiseworthy movements ever started at the County Capitol was the establishment by Roy E. Beach of the Boy Scouts, in which practically all the younger boys of the town have been enrolled and which is training the lads in the right path, and to carry the lessons impressed upon them into their homes, the school and wherever they go.

The youths are taught to be polite, to keep their person tidy, to develop their strength by exercise, to be temperate in eating, to treat everyone with respect, and to do whatever comes in their way with cheerfulness. They are taught from parents and relatives generally of the good work Mr. Beach is accomplishing with the boys and judging from results it is certainly well merited.

* Vote for Jenkins for Assessor.

IRRIGATION EXPERIMENTS, Congressman Gardner Interested In New Project.

Congressman John J. Gardner, whose candidacy for reelection is being given loyal support throughout his district, is holding a keen interest in irrigation experiments being pursued in Cumberland County by experts of the United States Department of Agriculture. The Federal experts are finding that by conserving water supplied and utilizing the water saved in the same fashion as in the far West, when thousands of acres of almost desert land has been made to bloom, the productive capacity of South Jersey farms may be tremendously increased.

The experiments under way will be of direct importance to all of the South Jersey counties, because of the large area which is not now available for profitable tillage because of the absence of water supply. Congressman Gardner, in urging that the experiments be continued upon a larger scale in view of the encouraging reports already received.

* Vote for Abbott for Collector.

TWO MODEL SCHOOL BUILDINGS

English Creek and Steelmanville Con-
form With All State Requirements.

Two modernized rural schools greet the eye along the road from May's Landing via Steelmanville to Atlantic City. The Board of Education of Egg Harbor Township, following along progressive lines outlined by the State Board of Education and the Congressmen, Konda, promptly responded to the demands made by the State and remodeled the school houses of English Creek and Steelmanville. These school houses meet the approval of the State in that they are properly lighted, ventilated, and having ceilings of up-
proved height—twelve feet or over, and sufficient floor space and cubical air content for the pupils there enrolled.

The laboratories are new and have been separated by a new board fence of approved design extending to the school houses in the rear. The buildings outside the buildings and the fence have been painted in appropriate and pleasing colors.

At the English Creek school there has been acquired some additional ground making the area of the school yard equal to ten acres. This ground is used as a playground at present and if the signs of the times are read aright will be used in the course of a very few years as a plot on which the children of the school will practice the studies of the elementary principles of agriculture.

The Board of Education is to be congratulated for making these school buildings as they should be, buildings to which the community can point with pride. The teachers in charge of these two attractive buildings are Mr. Eugene Smith, of Steelmanville, and Miss Alice Euge, of Trenton. Republished from the issue of Sept. 1, by request of the Board of Education of Egg Harbor Township.

Acted Roll of Good Samaritan.

Master Daniel Roth, 9-year-old son of Mr. and Mrs. Eddie W. Roth, played the part of a good Samaritan Sunday last, which was highly commendable for one of his years. Master Roth was walking down Main Street near the post-office when he spied a strange little tot standing on the curb, castastis and shivering with cold. He approached him and learned that he was the son of a poor man living in his eyes, said he was from Egg Harbor City and that his feet were so bad he could not walk. He had nothing to eat and was half dead with hunger.

His name was Henry Zuber and that he had slept in a barn Saturday night and reached here Sunday morning. The lad's story was too much for young Daniel and he took him home, washed him up, gave him a good meal and placed a sweater on his back.

Young Zuber wanted to live with Dan but his parents learned that the boy had just recently been released from jail and that he was wayward. He took him back to the jail where he was provided with good quarters in the juvenile detention ward.

Interests of Township and County
Demand Boulevard to Somers Point and Improvement of Other Local Highways.

By the building of a County boulevard from May's Landing to Somers Point City, a project much needed, not only will auto traffic be afforded a smooth and safe route, but the buildings and the houses have been greatly enhanced. Plans and specifications for the part of this route between Seaford and Somers Point City, approved by the

Board of Education, were submitted to the Board of Education of Egg Harbor Township, following a meeting of the two boards.

The argument that divided them was that the Board of Education of Egg Harbor Township had been a consistent advocate of the policy of protection to the workingmen's wage throughout his term in the House of Representatives.

A further consideration was that the Democratic candidate, Mr. Baker, had resolved himself as a Free Trader. The letter has not been published to the public.

Eighth Article.

The glass industry in southern New Jersey and the state at large has been under hard pressure. Before the mill farm was sold we got out a statement from the company that the new farm would be used to get out the glass works. It was presented in the chamber of commerce of the part, but their tax factors were positively inclined to it. A statement from the European account of the project. We can't say that Europe is second to the last.

But the selective service of the smaller industries, which I believe that men who have been in the service of the country have been in the service of the country, has been in the service of the country.
