WILL RUSH WORK ON TUCKAHOE BOULEVARD

COMMITTEE CONFERS WITH ROAD COMMISSIONER.

Old Contract Nullified - Resurvey Will be Made, Bids Advertised and Improvement Started Soon. The oil refining industry leads all others in as Possible.

In order to expedite work on the improvement of the road from this place to Tuckahoe, which was delayed first by the controversy over the paying of the Old Shore Road and then by the inability of Contractor Hilpott to do the work owing to other contracts, a com-Trenton Wednesday to confer with State Road Commissioner Frederick Gilkyson and as a result bids will be advertised for, the contract awarded, and work started if possible before the expiration of Commissioner Gilkyson's

term on February 28. Colonel Gilkyson spoke most favorably of the road and will extend all the aid in his power to rush work on this much needed improvement, as the boulevard will establish a connecting link between Atlantic and Cape May Counties and form part of the State boulevard. In addition to its advantages to autoists, it will be a boon to the farmers in its neighborhood, who will be given a splendid road over which to take their products to the Atlantic City and Ocean City markets.

curves, a resurvey of the route will be made by County Engineer E. D. Rightmire before bids are advertised for at the January meeting of the Board. This survey, which was ordered several months ago, is nearly completed and the plans will be perfected when the Board holds its meeting the second week in January. The contract will doubtless be awarded at the

following meeting, in Febr. Ty. Several delays been encountered in the improvement of the ad since it was first improvement of ordered by the Board about a year ago. The contract was awarded to Frank Hilpott, of Red Bank, who had his tools on the ground ready to begin work when the improvement was suddenly halted by a controversy over the tract for the former unfil the latter was properly adjusted. Finally, when the contract was signed. Hilpott found himself unable to fulfil it as he had started other work, so he signed an agreement giving up the contract. In the delegation that went to Trenton to confer with the Commissioner were Judge E. A. Higber, solicitor of the Board; E. D. Rightmire, County Engineer; Edwin Robinson,

MAY'S LANDING, DECEMBER 24, 1910.

One thousand nine hundred and ten year ago, in a lowly manger in Bethlehem of Judea. was born a child whose life was destined to change the thought and deeds of the whole world; who founded a religion, based on brotherly love, out of which has grown a new life, a civilisation, to lead weak humanity to higher and better things.

The child was named Jesus Christ and to day, throughout the length and breadth of the land, those who have been led from darkness to light are preparing to celebrate His birth. No matter if many people who celebrate Christmas know the real significance of the day or not; no matter if they do not fully realise what Christianity has done for the world; Peace on Earth, Good Will Towards Men, is nearer attainment that it has ever been before. The religion of love has outgrown a mere religion; it is a Life, pulsating with joy, and happiness, and sympathy for all.

If the question, "What is the greatest day of all the year?" could be submitted to a vote in every country that Christianity has blessed, it is safe to say that Christmas would be chosen. Every country has its national holidays, every religion its days of devotion or sacrifice; but Christmas is observed by the people of every Christian nation and religion. Unfortunately, the holiday season throws upon the tired of Arctic Ave. \$700. shoulders of overworked employees in factories and stores an additional burden of labor; but in this respect a gradual change is going on for the better and conditions this year, in this country at least, show a growing regard for the welfare of those who toil.

The Gift Christ gave unto the world is symbolised by the Christmas Gift. Unless the gift is given in love, it counts for little If it exa sincere and heart-felt esteem or sympathy, no matter how small it may be, it carries with it the weight of centuries of goodwill. The widow's mite, after all these conturies, possesses the same power and blessing

Just as surely as the religion of love is embracing the world, peace on earth is coming into its own. Warfare between civilised nations is decreasing; states as well as their citizens. are resorting to peaceful arbitration instead of engaging in murderous conflict.
