Liver Complaint.

This dis ase may be said to proceed almost invariably from the stomach being out of order in the first place. By the stomach being out of order, the blood also gets out of order; and why? All the blood in the human body passes through the liver every few minutes to have the billicus matter separated from it. If there be any scrothlous taint or other impurity in the blood, it will surely be deposited in the liver along with the blie. By and by, however, these impurities increasing, will render the blood watery, and render its motion torpid; then it will cease to perform its duty of straining out the blie. Only pois in will be left in the liver; and the result will be an obstructed, inflamed and swollen liver, ending in disease, such is the theory, and such the climax, as proven by facts. theory, and such the climax, as proven by facts. The symptoms crowd rapidly upon one another,—a continued painlor tenderness in the right falle, in tuding emariation and weakne a; cough yith expectoration, dyspepsia, high-colored urine, yellowness of the eyes, lever, and a quick pulse. It is impossible to mistake the disease by these symptoms. There is only one way of curing Liver Complaint; and that is, to atrice at the root. To do this, you must act on the stomach, the blood, the liver, and the general health at the same time. Yearnes alone will do this, and will effect a specify ours. See testimonials.

Am weighing eight pounds more at present than I did when I becan taking it, and believe, with a continuance of a shall quantity more. I shall be entirely cured. Before I began taking the Vecettre I was under the doctors care. Was sick a long time. Mr. Smith, who had received great behefit from taking the Vecettre, advised me to try it. I can cheerfully recommend it to every one as a good medicine, as the Vecettre has done more for me than the doctors can do.

Yours trilly,

JAMES A. JOHNSON,
