DEAD CITIES ON PLAINS

anese Abounds in Landmarks that Recall Once Flourishing Places. An old settler of forty or more years 180, as he travels over the eastern part of Kansas, passes by many his toric landmarks, says the New York Hernid. Cities and towns that were staked off on the virgin soil and given some classic name while flaming ciris wars sent east to draw the people and the dollars, are now well-cultivat-ed fields, producing fair harvests. The site of Ohio City, once the counto stat of Franklin County, is one of these landmarks. In April, 1850, it contained a few general stores, two fair hotels, a blacksmith shop, a schoolhome and a dozen or more dwelling Longes Bisiness was good and everything lively, with a prospect of a great boom. Men stood on the street corhers and painted in glowing colors the here and perfuted in growing colors the coming gories. One of the great roads leading into the southern part of the territory ran (frongh the principal street of this young city; and see al-most endless precession of wagene was constantly paising; some going back; and others bound for newer fields.
