SATURDAY, AUGUST 80, 1879.

Gen. Grant has decided to accept the Presidency-of the ship canal company death, we almost wish that Adam and Eve eros the Isthmus. had never married.

The Carlisle (Pa.) barracks is to be cupied as a school for the educating of style of some women, and the more court young Indians. A good idea.

Hon. A. H. Stephens, of Georgia, was the quest this week of Hon, H. B. Smith, at his esidence in Smithville, Burlington county.

Bumor had it in Philadelphia on Wednes day that Mayor Stokley was dead, but happily the Mayor, who was at Long Branch; promptly set the matter at rest, by denying the same.

General Grant is reported as saying to the Vicesoy of Tientain, China with whom he to marry a mau to his fourth wife. As he was on terms of the warmest friendship during his stay in his dominions, that under rise." The man wiggled about in his chair no circumstances would he accept the renom. a moment and finally spoke : "We've usualination for the Presidency of the United ly sol?" States.

after new Methodist churches forming and three wives and thirty-six children. about to be formed in that growing regionplant their stakes among the newcomers.

The figures that show the movement of by varving currents. population to the new farming lands in the The small, meek-looking wife of Tom Cottrell, a Missouri horse thief, followed him West are almost startling. During the year that closed with last month not less than weeping out of a St. Joseph court room, sixteen million acres of Government lands after his trial and conviction. In the corwere taken up by homestead entries alone, ridor she flew at the sheriff like a tigress, ton, Mass. and fully fourteen million acres of new lands | threw bim on the floor, and thus enabled were sold to settlers. It is estimated that the misoner to mount a mule and escape. baif a million people settled upon the new lands in the year 1878, and the numbers for Haute Ind., last week, adopted a resolution the present year promises to be even greater. Haute Ind., lass weers in the Indiana law demanding the repeal of the Indiana law

The man coolly replied that he had not show a very great falling off from the caught an enormous tront, and thought the previous three years. Of the whole sum passengers might like to take a look at it. \$6,311,768 were used for congregational purposes, \$390,685 for home, and \$381,568 for foreign missions.

The Earl of Mayfield is the title of a new and powerful novel, by a distinguished American author, now in press and to be puplished in a few days by T. B. Peterson & Brothers, Philadelphia. The opening noison. scenes are laid in Louisiana during the early days of the Rebellion, the hero is a rich planter, and the heroine is a lovely example of pure womanhood. The old English home is very likely a correct photograph of an Ideal house, as many similar ones exist in that identical locality. It has the advantage of having but few characters, with good descriptions, excellent dialogues, well sustained interest, and contains all the elements told, within the limits of probability, and it will no doubt prove to be a great success. It will be issued in uniform style with the night in drunkenness, at Goshen, Ind., and works of Mrs. Southworth, in a large duo- on the following morning awoke with aching decimo volume of 500 pages, bound in vel. beads, and heartily ashamed of the exhibition lum cloth, black and gold, price \$1 50.

The romance of Rys Boseb, this sum-ner in the empagement of Miss Baral all the bong rown is shown in the sum of round and Provent is the second state of the second stat are rented for x with lies by hotel guestal and we have been and melster constinuing with Miss Brown, was one of a party that free, and melster constinuing with made several trips on the yacht which young Robert "skippered," and Robert in love with her, though, of course, miridful of the great disparity of their miridful of the great disparity of their the same ye with her, though, of course, miridful of the great disparity of their the same ye with her, though, of course, miridful of the great disparity of their the same ye with her, though, of course, miridful of the great disparity of their the same ye with her with same ye we wash-in love with her, though, of course, miridful of the great disparity of their the same ye with his effect and on the same ye with anay be used with like effect and on in g them with same, taking care in the minipulful of the great disparity of their social positions, he kept the secret of his love to himself, contenting himself with paying her extraordinary atten-tions during her trips on his boat. As for Sarah, she was extremely courteous to him. That was all. Well, the catas-trophe that led to the engagement hap-peded like this: They are great hands for fish chowder down along the New England coast. Instead of serving a small plate of soup at the hotels, they set before each guest about a bucketiul of codfish chowder, and, strange to say,

set before each guest about a bucketfull the price paid for the benes, if any-of codfish chowder, and, strange to say, the guests like it. Miss Brown is pas-sionately fond of fish chowder and ests fabulously large quantities of it. and the accurity of a security of fabulously large quantities of it, and the security of a pure article. Of sometimes eats it so rapidly that she course this method cannot replace the gets her mouth full of codfish yertebres phosphates of the market, but for the before she knows it. Recently she did worse. She got a very large piece of the backbone of a codfish down her

throat, and was utterly unable to either Hor SHORING .- In the opinion of Di swallow it or get it out. She was ter- Eleming, the evils supposed to result ribly frightened, and so were her friends from fitting the shoes hot to the hoofs ribly frightened, and so were her friends who decided at once that a doctor must be brought from Portsmouth, ten miles away. Robert Miller chanced to be in and expensive, is held to be injurious the hotel office when the order was from the fact that the rasp and knife given for a horseman to be despatched have to be used so freely in order to obgiven for a horseman to be despatched to Portsmouth, and learning what the trouble was, insisted on being the man. So a very swift steed was saddled, and ends of the flores of the foot destroys a second later Robert disappeared in a the spongy, absorbent properties of the cloud of dust. In a couple of hours the hora and prepares it for the resistance Portsmouth doctor arrived, his horse of moisture. "Horn" writes Dr. Flemwhite with foam and breathing fire and it requires a very prolonged applitrom his nostrils, and the doctor, being cation of the hot shoe to affect the hoof a skillful fellow, soon extracted the to any considerable depth. Three minbone. "Five minutes later," he remar-ked, "and I should have been too late. If that messenger had not been a hero, I should never have seen my patient per surface. It is never required that I should never have seen my patient alive." "A hero!" exclaimed the lad-ies. What do you mean? It was only a few seconds." Dr. Flemming furth-Robert, the skipper." "What his name | er explains that the action of caloric was, I know not; but I repeat it, he softens the surface of the horn, allowwas, 1 know not; but 1 repeat 11, ne ing the nails to enter more readily, and showed himself a hero, and saved giving the farrier a better opportunity this young woman's life by his hero- to imbed the clips and other inequaliism," "Explain yourself," cried the ties. The shoe should always be apexcited woman. So the doctor explain- plied at red heat, and never at black

ed how Robert had fallen from his heat. horse when about half way to town,

And she is glad to-day arm, but notwithstanding his injuries with you from his tenderest age. When It is suggested to use a hydrogen lamp that she did. Not because it might not dislocating one ankle and breaking an Let your colt be 'domesticated and live nation was the cause of the combustion. arm. but notwithstanding his injuries with you from his tenderest age. When he had again mounted the horse and tled he horse and tled himself to the saddle, and driven on faster than before to make up for lost time. "Why, when he reached my office," said the doctor, "he had just office," said the doctor, "he had just deretands the language of man and its office," said the doctor, "he had just deretands the language of man and its of the gas in time to deretands the language of man and its of the gas in time to the sain tis the sain time to the sain time to the strength enough to deliver his message derstands the language of man and its tity and quality of the gas in time to again. So I do not think Rose ever and then he fainted dead away with meaning. If you have a long day's sive the requisite warning. hen he fainted dead away with meaning. If you have a long day's pain and exhaustion, 1 left him in let him walk frequently to recover his charge of my students and came on wind. Continue this until he has BREFCH-LOADING SHOT GUNS .charge of my students and came QZ; for 1 knew that there was a case of life and death here." Well, when Miss Brown recovered her senses, being of a very romantic turn of mind, she lost them again, and fell in love with the man who saved new life, and she is to narry him as soon as he recovers suffi-narry him as soon as he recovers suffi-celly. There must have broad Breech-loading fire arms were invested and used by several nations as early a the sixteenth century, and specimens of them are how to be found in the area nals and museums in nearly all the cap itals of Europe. / Within the last han w dred years many attempts have benif made to improve the breech loading systems and apply them to shot guns, but ciently from his minies. T is really. Four things he must have broad cally. Four things he must have broad -front, chest, loins and limbs; four things long-neck, chest, fore-arm and croup; four things short-pasterns, back, ears and tail. back distribution of paper and brass, or what is called the "Plin Fire" certridge cases made, of paper and brass, or what is called A Reminiscence of Nisgara. -1 remember when I was but hoy that a of paper and brass, or what is called the "Pin Fire", cartridge, case, This cartridge case was a most important and valuable addition to the breech-loading systems, as it practically and effectually FEEDING LABGE AND SMALL ANIMALS. to pieces. He had the good fortune to be -Abundant experience, says an exdashed on a rock, to which he clung. It change, if such proof were necessary, was at the height of the season-August, if shows that there is more profit in feedclosed up the breech of the gun and 1 recollect-and he clung there for fully ing the larger breeds than there is with prevented the escape of the exploded gases in that direction at the moment thirty-six hours. Everybody streamed out the smaller breed of animals, whether of the hotels and the village; the banks of for milk or meat. Of course there are of discharge, and, consequently, caused a range and penetration of shot equal to that of good muzzle-loading guns. the river, particularly on this side, were exceptions to this, as in all general rules, thronged with people anxious to do some- the small Jersey cow for example, thing to save him. Dozens of plans were which is expected to produce an excep-In England these new inventions suggested; some attempted, but they all tional product of high colored and fine-In England these new inventions were not favorably received, and it was not until the large and excellent dis-play of breech-loading guns, made by Lefaucheux and other Paris gun-makers, in the London Exhibition of failed. Thousands of dollars were offered | ly flavored butter; but this does not efto anybody who would rescue him. The fect the rule above stated. It is only desperate situation of the man had been necessary to consider that, when we telegraphed over the country and every leed two animals of 700 pounds each, train brought crowds of passengers hither | we have to supply the demands of two 1851, attracted such general attention to witness it with their own eyes. He was sets of breath, circulating and muscular encouraged by shouts from the banks, but apparatus, which are considerably that the English gunmakers as a class began the manufacture of similar guns. whether he could understand anything said more extensive and expensive than During the past twenty-five years the those of one animal of 1,400 pounds. most skilful gunmakers in England have given much time and ingenuity to pathetic. It is, or it appears to be, un-BARNYARD AND PASTURE .-- The savperfecting breech-loaders, and many sympathy is asked is abstract. When it is ing ot trouble is not the only nor the improvements have been introduced, langible, visible, all is changed. There principal reason why it is better to have which have resulted in producing the most perfect sporting guns ever made. The double breech-loading shot guns, made by James Purdey & Sons, Lonthe barnyard and pasture connected. could be seen. He was an ordinary, uned-ucated man; but he was a man, and the brotherhood and sisterhood of the race went don, have never been equaled for finish, brotherhood and sisterhood of the race went they will make their way leisurely to quality and power, but they are very out to him in pity and intense eagerness to and from the barn. This is a matter expensive and only owned by sportsrescue him. Women of fashion, blase club concerning not only their comfort, but men of fine tastes and abundant means. men, selfish worldlirgs grew pale as they also their health. In very hot weather, The guns made by Charles Lincaster, watched the unhappy wretch, so vivid was their sympathy. Many persons sat up all cows are often injured by being driven - W. & C. Scott & Son, P. Webley & Son, night looking across the seething, roaring too fast on their way to the pasture, or | W. W. Greener & Co., are less costly waters at the small dark figure still clinging from the pasture to the barn. The and within the reach of most sportsmen. to the rock. The morning came; renewed boys who do the driving on many farms In this country the talents of invent-efforts were made, but they all miscarried, are in haste to get through with their ors have been largely directed to imefforts were made, but they all miscarried. are in haste to get through with their ors have been largely directed to im-The crowd had increased; it was immense. work at night, and are very likely to proving breech-loading fire arms, in Everybody was excited. Tears were in the hurry the cows too much. rifles and pistols particularly, and our women's eyes, the pallor gleamed through the rouge of some of their checks. Can't something be done? Must the poor fellow perish before our faces? Is there no way to rescue him? Something a discovery, or if somebody knew it be-to rescue him? Something a discovery of the original patent used by Smith & Wesson to rescue him? Such questions were inces- soon as the cream shows signs of "com- and known as theirs).
