The Real Washington instead of four, and I'l. ploage myself make that mile in forty-five seconds." In conclusion, I may say that if I have not established my assertion as to the speed of which our lines are capable, then I do Mr. Parton claims that Washington was not a man of rich or striking mental gifts, and holds it as a part of his glory that he was not greatly endowed. He had but one not know how it can be done. There a are exceptional and unique gift, and that was dozen trains on the Pennaylvania road which his genius for rectitude. "His justice," said Mr. Jefferson, "was the most inflexible I make a mile a minute on every trip, Chas, Lynch, when running the newspaper line, have ever known." He never acted until went from New Brunswick to Tronton three he had exhausted every means within his times in one week in 25 minutes, the disreach for ascertaining the true course. His tance being over 26 miles. Yesterday an ex-president of the N. J. senate sat in the education was chiefly of one kind-a close contact with rude things and average men, seat with me on the train which loaves Trenand, ''as far as he saw" again remarks Mr. ton at three minutes after 10, and we to-Jefferson, "no judgment is ever sounder." ton at three minutes after 10, and we to-He came of a thriving race, and even in his gether timed the train for several miles, each of which was made inside of a minsixteenth year, knew how "to rough it" on his surveying tours, sleeping in log huts of ute. On the day preceding the same train ran from Elizabeth to Newark in 5 minutes, one room, "with man, wife and children, like dogs and cata?" but bearing this mode of existence for 'a doubloon every day, and sometimes six pistoles." He was not above asking the governor of Virginia, in his twenty-second year, for the post of lieu-tenant-colonel of the Virginian forces, and was so indignant that his early and bril-liant services in the Indian wars were not one room, "with man, wife and children, like dogs and cats," but bearing this mode rewarded with the royal commission that he minute at several points on the route. retired from the army.  pagne; President Taylor was temperate making in human life. Tens of thousants are annually desolated making in human life. Tens of thousants are annually desolated by consumption to one by Indian outbrace, Life the Indian, consumption to one by Indian outbrace, Life the Indian, consumption to one by Indian outbrace, Life the Indian, consumption to one by Indian outbrace, Life the Indian, consumption of the Indian, consumption to one by Indian outbrace, Life the Indian, consumption to one by Indian outbrace, Life the Indian, consumption to one by Indian outbrace, Life the Indian, consumption of the Indian, consumption, and the Indian, consumption, and the Indian, consumption, and the Indian of the Indian of the Indian, consumption, and the Indian, consumption, and the Indian, constant, and the Indian of the Indian, constant, and the Indian, constant, and the Indian, constant, and the Indian, constant, and the Indian, and on the last mile, we again differed by only on the last mile, we again differed by only one-fourth of a second, and I am sure I gave the full time to the mile. On reach-ing Jersey City I learned that one of the passengers stood at the rear of the train, and timed the same three miles with a stop watch, marking down the record, which I copied. It adds up two minutes thirty-six and thirteen-fifteenths second, from which it will be seen that both he and conductor Silance hardly varied from me, though the opportunity of both for absolute correctness did not equal mine. I showed my record to Oxmond, who said: "Give me two care is expensive, two. And the second s
