THE FRUITS OF INDUSTRIAL LIFE INSURANCE

M. A. S., of Newark, who died recently, had two policies in The Prudential. One was taken out four years ago, another two years ago. They were for 10 cents a week each, and the total payments made by the policyholder on them came to \$33.90. For this amount the Company paid \$248.

The way to judge Industrial Life Insurance is by its fruits.

HABITS OF THE STURGEON.

The sturgeon is an interesting fish. It has, for instance, a telescopic mouth. Its mouth has not the usual bony jaw opening like that of most fish. It is on the under side of its head, like that of a shark, and is more like a hole than anything else. In front of it, hanging down like a thin beard, are a number of sensitive tentacles. Why, yes, to a certain extent: to a considerable extent, but it was a different kind of prettiness in the blessed days, fifty good years ago; then they didn't prance along the street looking a man straight in the eyes 's though they wanted to 'dentify him, but they was like modest violets with their sweet faces hidden under their sunbonnets and pokes, and only once in a while surprised into meeting a young man's eyes, but, land, wasn't it sweet to catch one of them looks! jest like a sunbeam warming a fellow's heart and setting him to dreaming and dreaming-why, when Mirandy gave me sech a glance was all a-tremble, and didn't know whether I was in heaven or on earth. only I knew 'twas earth when she wouldn't give me another for a fort-

Mirandy and me had been going to singing school and husking bees and had been in the choir, and it was only natural that we should set store by each other. First, when I found that I was setting store by Mirandy, I felt mighty queer and fell off from my victuals so that mother got rale alarmed and all the old women in the neighborhood was set to work making herb teas and sech. Dad said he'd lay anything it was my liver, and advised me to take couple of our ducks and two dozen of eggs and go down to Bosting town and ask some great doctor to swap his Just exactly. though Mirandy was a great hand for music and choir singing, but after I settled down I didn't take much stock in them. When a man gets up at three a. m. and farms until dark, he sin't got no hankering to walk four mile and back for the pleasure of rehearsing. However, I had to, for Mirandy couldn't so alone. Now there was a Miss Quincy took an agency for melojeons—a melojeon is said in the dictionary to be a musical instrumentand she had been at Mirandy to take one to rent, and my wife teased and teased until I gave in. Minister Green had got his wife one, said no home should be without a melojeon, and Mix randy declared 'twould be raie nice for us because she wouldn't have to go to rehearsals, the choir could come to our

They did. That melojeon was going from seven to 'leven six nights a week. Right here I wish to remark I ain't violent man nor yet I ain't a Moses nor Job. I asked my wife couldn't they have less practicing. No: they was going to bring out a cantater. I was pretty grouty, but I let it pass. They had the cantater, but things was just as bad. Somebody was always a coming asking leave to play. But what riled me most was young George Simmons getting to practice duets with his violin and Mirandy with her melojeon. We have all heard violins alone, and melojeons alone, but together-I'd rather hear ten dozen soprano cats any warm night and have musquitoes thrown in, too! I determined the meloteon must go. She'd give up musical parties. Twould not do. The neighbors would be dropping in wanting to practice—they was all musical—and they'd get hopping mad if they wasn't

allowed. The melojeon must go. "Keep it for my sake, 'Zekiel," says Mirandy, putting her cheek against mine. That would have fetched me any other time, but I had suffered, and made a mighty resolution to be firm. "The melojeon must go," I said.

"If I'd a-married Minister Green, he'd never have treated me so," said ban, barbarians, I should judge. Well,

TO THE MAN WHO SPENDS \$18 TO \$20 ELSEWHERE FOR A SUIT

This advertisement is to show how you may save \$3.00 to \$5.00 on your Winter Suit this season. With the underying motive of doing the thing better than it ever had been done, we planned some months ago to so improve the already fine character and quality of our \$15.00 Suits as to make them this season absolutely the greatest value for the money. We have not only gained this important distinction. but can say after careful investigation that these \$15,00 Suits are equal in every respect to the \$18.00 and \$20.00 Suits as la elsewhere. We admit the broadness of this assertion, re ready with proofs, the best kind, the Suits themselves, Boy's Knee-Pants Suits of durable Fancy Cassimers new patterns, Double-breasted styles.

In convention assembled, the representatives of the Republican party of Atlantic County, with entire unanimity heartily endorses the policy of President Roosevelt, made effective by the action of a Republican Congress in enacting legislation to protect both labor and capital, to prevent their discrimination by corporations, and in the Atlantic and Salem Counties. passage of pure food and uniform natural-

ization laws. The general prosperity of the country, enjoyed by the wage earner and the employer alike is evidence of the wise legislation for which the Republican party is responsible, and we insist that any change in existing statutes, affecting industrial conditions, ought to be left wholly in the hands of that party, which by its long adherence to the principles of a protective tariff has given the

Nation its foremost place in the manufacturing and agricultural world. In the achievement of Congress for the good of the people, the work of United States Senators John Kean and John F. Drylen in the upper branch of the National Legislature and that of the Republican members it becomes my duty to set aside a special day State has been conspicuous, and New Jersey can point with pride to their distinguished

And we commend the recent address issue by the Republican State Committee, which in careful detail shows that the party has kept its every promise to the people.

In Congress, as in State, Hon. John J. Gardier, Representative of the Second Conressional District, has accomplished great good for the people. His life has been speni in the military and civic service of this State and Nation, and this convention with single accord, endorse most beartily his earnest effort and uniform success in obtaining legislation for the benefit of the lanoring classes. for the promotion of the welfare and prosperity of the Nation, State and District, and for his unfailing efforts to aid the soldiers and sailors of the Civil War and their widows and we feel confident that the welfare of his district will be best served in his keeping, and the Nation will be the better for his continued ervice in the National Capitol and his public ecord is earnestly commended to the people We express our high appreciation of the services in the State Senate of the Hon.

THE election of Hon. THOMAS C ELVINS to the Assembly means a vote for a United States Senator, who will vote to maintain a protective tariff and the beneficent policies of the present Admin-

KEEP in mind that the protective tariff is the main issue in the present campaign in this congressional and every other congressional district in the United States. · Congressman GARDNER is a protective tariff man. Nobody seems to know how his opponent stands on this proposition. Congressman GARDNER has stood for the protection of the manufactories of his district and for every interest thereof. For these reasons the voters and especi-

"Assuredly it is unwise to change the policies which have worked so well and which are now working so well. Presperity has come at home. The national honor and interest have been upheld abroad. We have placed the finances of the nation upon a sound gold basis.

We have done this with the aid of many who were formerly our opponents, but who would neither openly support nor silently acquiesce in the heresy of unsound finance; and we have done it against the convinced, the violent opposition of the mass of our present opponents who still refuse to recant the unsound closs which for the moment they

it inexpodient to assert. We know what we mean when we speak of an honest and stable currency. We mean the same thing from year to year. We do not have to avoid a definite and conclusive committal on the most important issue which has recently been before the people, and which may at any time in the near future be before them

Upo the principles which underlie this issue the convictions of half of our number do not clash with those of the other half. So long as the Republican party is in power the gold standard is settled, not as a matter of temporary political expediency, not because of shifting conditions in the production of gold in certain maning centers, but in secordance with what we regard as the fundamental principles of national which the Republican party is responsible, morality and wisdom," - President ROOSEVELT'S Speech of Acceptance, 1904.

The President Proclaims National Thanksgiving. President Roosevelt Tuesday issued a proclamation naming Thursday, November 29, as a day of Thankagiving. The text of the

proclamation is as follows: "The time of year has come when, in accordance with the wiscoutom of our forefathers. it becomes my duty to set aside a special day of Thanksgiving, and Praise to the Almighty because of the blessings we have received and services. of prayer that these blessings may be continued. Yet another year of widespread wellbeing has passed.

"Pennsy" Will Develop Electric System This Winter.

During the coming Winter, the efforts of the Pennsylvania Company will be to develop and perfect its electric system, Many things are yet required before perfection results. There will be many improve ments in detail. It is expected by Spring that all of the little problems now existing will be solved, and the system will be practically

perfected. The electric cars are easily handled. They are started off without apparent effort, and get under full headway almost instantly. The trains are easily stopped, and little time is lost in making stops at stations. The cars are clean, much cleaner than the A first alarm from the hotel district calls

in their simplicity. They are all finished up in cherry, the hardwood having but little decorations. The upholstery is in green effects, and the electric lights are bright when in use at night. Each car is a motor car, and can be operated from either end, the same as a trolley car. The controller is entirely different from that

commonly in use, and the motorman stands at the right of the front of the car, The air brake has instant application when it is operated.

Results from chronic constipation, which committee is now scheduling the bids and a is quickly cured by Dr. King's New Life Pills. LIFE AND ITS HANDICAPS.

Indiana Educator Declares Ignorance Is Greatest Barrier. Dr. R. J. Aley of the State University of Indiana delivered an address on 'Life's Handicaps' at the annual meeting of the Alumni Association of Val-

The world in its pre-estimate of men usually predicts failure. It does this because it sees only what seems to be the handleaps. The world predicted failure for Stanley, Disraell, Webster, Lincoln, Moses and Jesus. The individual makes a wrong diagnosis and the world fails entirely in its forecast. "There are many handicaps that may come into the life of any one. Evil habit may, like a vampire, suck the

ity and which are permanently beneficial in effect, acting gently, in harmony with nature, when nature needs assistance; and another class, composed of preparations of unknown, uncertain and inferior character, acting temporarily, but injuriously, as a result of forcing the natural functions unnecessarily. One of the most exceptional of the remedies of known quality and excellence is the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., which represents the active principles of plants, known to act most beneficially, in a pleasant syrup, in which the wholesome Californian blue figs are used to contribute their rich, yet delicate, fruity flavor. It is the remode of all remedies to sweeten and refresh and cleanse the system gently and naturally, and to assist one in overcoming constipation and the many ills resulting therefrom. Its active principles and quality are known to physicians generally, and the remedy has therefore met with their approval, as well as with the favor of many millions of well informed persons who knowof their own personal knowledge and from actual experience: that it is a most excellent laxative remedy. We do not claim that it will cure all manner of ills, but recommend it for what it really represents, a laxative remedy of known quality and excellence, containing nothing of an objectionable or injurious character. There are two classes of purchasers; those who are informed

as to the quality of what they buy and the reasons for the excellence of articles of exceptional merit, and who do not lack courage to go elsewhere when a dealer offers an imitation of any well known article; but, unfortunately, there are some people who do not know, and who allow themselves to be imposed upon. They cannot expect its beneficial effects if they do not get the genuine remedy. .
