Be not aw.ft to take offen . ;

·Brood not dark y o'er a wrong

Which will disappear ere long :

Rather sing this cheery song-

Strife corroces the purest min 1;

Let it pase !

Anger is a foe to sen.e :

Let it pass!

Let it pass!

Le it pass!

Let it pass!

As the naregard d wind.

Let it pass!

And yulgar souls that live May condemn without repris e:

Tis the poble who forgive.

Let it pass

Let it paus!

Echo not an angry word:

Think how often you have erred

Since our joys must pass away.

Like the dew-drops on the apray,

Wherefore should our sorrows stay ? Let them pass! Let them pass!

Time at last makes a'l things a raight;

Let i pasa!

Let it pass!

If for good you've taken ill,

Oh! be kin 1 and gentle still 5

Let us not resent, but wait,

And our triumph shall be great;

Better to be wronged than wrong

FALSE AND TRUE We extract from Dr. Radway's "T coulse to disease and I is Core," as follows: List of Diseases Cared by Radw.y's Sarsepirillian Resolvent.

Chronic Skin Diseases, Caries of the Bone, Humors in the Blood, Scrotulous Diseases, Bador unna usal Had to Body, Syphilis and Venereal, Fever Scres, Chronic or via Cleers, Salt Rheum, Rickels, While Swelling; Scal. C. nsumpton, Grivel and Calculous Depos is, an invarieties of the above complaints to which sometimes are given specious names.

We assert that there is no known repaired that poessess the curative power over these diseases th I. Badway's Resolvent furnishes. It cares they by step surely, from the foundation, and restores the injured parts to their sound-condition. The wester of the body are stopped and healthy blood is supplied to the system, from which new matrial i for heal. This is the first corrective power of Radway's Resolvent. In cases where the system has been allvated and Mercury. Quicksilver, Cornsive Sablinate have accumulated and become deposite ed in the bones, joints, etc., causing caries of the bones, ricks a sminai curvature; continuous steel interoses, pinnis, etc., causing caries of the bones, ricks a sminai curvature; continuous steel interoses with selection the system.

If those who are taking these medicines for the cure of Chronic, Scr. fulcus or stephilitic diseases, however slow in 18 to the cure is provincing, item the hand weight increasing, or even keeping its own, is a sure sight that the cure is provincing. In these diseases the patient eliber sets better or wirse—the virus of the disease into the constitution. As soon as the Sassannia the blood it will spread and continue to nederate the pricent feel be ter, every nour you will grow better and increase in health, strength and flesh.
