HIS REMARKABLE FEAT.

Man Who Sleeps in Ocean and Swime with Hands and Feet Tied.

With his hands and feet tied, Henry B. Horan, who frightened the employes of the L street bath the other day by remaining in the water twenty hours, swam Hull Gut, performing this remarkable feat against a strong tide, says the Boston Journal.

Incidentally Horan cleared the mys tery of his L street bath episode by ucciaring that he fell asleep while ost for hours.

was made for Charles V. of France, This monarch was surnamed the Wise, but his education was imperfect in many respects, and he knew it well. As a result he was very obstinate in his claim to know everything. He showed this obstinacy when Vick brought the new timepiece for his approval. The king could not find any fault with its working, so he criticised the figures on the dial.

He told the maker that he had made a grievous error, us the figures to denote the hour of 4 should be four I's. Poor Vick ventured to tell the king that he was wrong, "I am never wrong!" thundered the irate monarch Take the clock away and correct the mistake at once upon pain of my dis pleasure!"

Vick had to do as he was told, with the result that all our timepieces have the fourth hour labeled IIII instead of IV. as should be the case if the correct numeration were followed.

How many people have the slightest notion why sixty seconds make a min ute and why the hour is divided into sixty minutes, and so on? Why are there not ten hours to the day and ten to the night?

The reason is very simple. It is be cause the people of Babylon reckoned not only by a decimal system of notation, but also by a sexagesimal system. That is to say, they not only reckoned by tens, but all o by sixtles. The Babylonians were very elever yeo-

The National Board of Trad. will be asked to request the Federal de-

partment of fisheries to take a hand in th matter.

There is authority under the laws " New Jersey to provide a remedy. Re peated attempts have been made by asso clations and individuals to precure legis lation, but they have been defeated by lobby influences. Last Winter a bill introduced early in the session to regulate pound fishing was "hung up" in com mittee, and all efforts failed to get it or the House calendar. With a better organ ization of the House next Winter this bill will be re-introduced and reported, and w believe it will be passed. Something may also be done to check the ravages of the nenhaden steamers that daily violate the aws in sight of dwellers on the coast.
