The new method of producing general anesthesia proposed by Schneiderlin of Berlin, consists in giving three hypodermic injections-two hours, one hour and half an hour before operation-of scopolamine with some mor-Unconsciousness continues some hours after the operation.

The British birth rate has been steadily declining in recent years, and i is no tariff at all. On the rank are the latest report shows the lowest rate half a dozen drivers on the boxes of on record—twenty-seven per one thou their droakies—tiny victorias, hing sand for London and 29.2 per one low and with just room for two if the This scarcely exceeds the death rate which must become the greater within a few years. Sanitation has reduced want to drive you take the first driver the death rate, particularly among in and tell him where you want to go fants; this alone has postponed the be and what is the price offered. The etiginning of race decline beyond the present time. The falling off in the birth rate—due partly to selfishness and love of pleasure and partly to our strengons modern living—is most serious among the middle and upper classes.

New England fishermen sometimes and floating on the surface of the sea an object which they have, with rare descriptive force, named "the purple vell." Twenty or thirty feet long by four or five wide, it resembles, says a essary to ask the opinion of the first writer in the National Geographic Magazine, a lady's veil, of gigantic size and of a violet or purple color. Professor Spencer F. Baird found that it ou the maints. A quick problem in and that the purple spots are formed division works itself out in your head. bedded in little cells. These, and yourself up to a Dutch auction along by innumerable embryonic fish emthere may be as many as a million in a single "veil," develop into the wellknown angler or goosefish. One of ward generosity. There is a race for these huge veils full of eggs is the product of a single adult fish, which rarely exceeds three feet in length.

The storage of heat from the sun, first pointed out by Kalescinsky in 1901 in some small salt lakes of Hungary, has now been observed in sale lakes of various parts of Europe and pretty." in Siberia. In the Szovata lakes, a warm layer several yards thick was found between two cooler layers, and a condition of the heating is the existence of a layer of fresh or diluted salt water over the heat-absorbing layer. Even fresh water will be heated under a covering of oil. The stored heat sometimes rises to 150 degrees F., and may be retained for a considerable time, and in a lake of Norway it Philadelphia Ledger. proved destructive to eysters until the cold water was let in from the open sea. Artificial solutions of various salts may be made to serve like the sait lakes as heat accumulators.

Now that the Isthmus of Panama is about to be pierced with a canal, which will form a waterway for marine life as well as for ships between the two oceans, the need of a biological survey of the fresh waters of this isthmus is suggested as a proper subject for the attention of Congress. One roblem for which a solution is sought is that of the connection between the fresh-water fauna of the Atlantic and the Pacific slopes of the isthmus. There are indications that the fishes of the Pacific slope streams crossed dend. Cleveland Leader.

The average tyro seems to get the idea that there example to much light in a picture, but a real picture without shadow is just as impossible as a painting done wholly in white paint on white canves. Shadows very actor form the chief interest in a picture, and many a salon print could make no claim for attention but for the beautiful interplay of masses of light and shade which it portrays. Following along the lines of this popular fallacy just mentioned above many beginners carefully plan to make their views with the sun directly behind them, and it could say be in a worse place. This matter of direction of the light should be given careful attention, and it may be said in general that the most pleasing landscapes are made with the sun at the tight of left. This fact may be made or denie to the worker if the landscape to be photographed includes a tree in the borseround for labeling a noise of the worker in the landscape to be photographed includes a tree in the borseround for labeling a noise of the with the gun like labeling a noise of the with the gun like labeling a noise of the with the gun like labeling a noise of the with the gun like labeling a noise of the with the gun like labeling a noise of the with the gun like labeling a noise of the with the gun like labeling as noise of the with the gun like labeling in the labeling in the labeling and labeling in the labeling in t ground by taking a point of view with the any full on the tree. There little beauty in it under such circumstances, but taking a position of right angles by the first point of view so that the sum is directly at the right of left, will change the whole aspect of things. One side of the tree is beautifully fighted while the other is in sinadow; and every little branch is quittined cally lighted while the other is in shadow; and every fixed branch is quitiled with a charm of distinctions and of light and shade. A slight change in one direction or the other will increase or decrease the light or shadow as is thought best for the truest reindering of the stone. This illustration is especially applicable to trees bare of leaves in antium. We have said that the point of view should be chosen with reference to the direction of the light, but there are cases when the proper grouping of objects demands one light, but there are cases when the proper grouping of objects demands one point of view and that only. Under such electmetasies the view should be studied to find out at what time of the day it will be best lighted, and nearly always a satisfactory lighting may be secured if the exposure is made at

Another consideration, and it is an important one is that practically every MISSIONARY RIDGE

Bed the Books of a Torrible Hat Beloften Hy Got Its Hame. ching for miles along the cost tra betder of the city, picturesque and pleasing to view is Missionary ridge. low well that name is known from the hemlocks of Maine to the flowers Florida, and yet how different from ts name are the associates one gives t when it is pronounced! In history it is recorded as being the scene of one d the Seccest conflicts of the civil war, set to the people who know the origin I the mame it is a monument to the number of a hand of devoted, self sac-ideing Christian men who, braving the hardships of emigration not for the love of gain, but to help their fellow nen, built the Brainard mission on the picturesque heights known by the name f Missionary ridge.

It was in 1817 that the Rev. Cyrus Kingsbury, Ainsworth F. Blunt and the Rev. John Vail first viewed the site of their mission. They were sent here by the American board of commissioners for foreign missions, and the same board had provided for the erection of mission, including school buildings and a home for the missionaries. But the contractors failed in their contract, and the missionaries were left without money and without even a shelter. But by energetic efforts they created a mission school and built a mill on the canks of Chickamauga creek. The mill race, nearly a mile long, is still visible. The mili was purchased by Philamon Bird in 1852. He tore down the small structure and built what is now known

On May 27, 1819, the president of the United States, James Monroe, appeared at the door of the mission unannounced. He was accompanied by General Gaines. Although surprised by his visit the missionaries were ready to receive him, and he complimented them on their work and in glowing terms traised the beautiful location of the nission. The Brainard mission was ped until the Indians left. It did an immense amount of good, and at one time there were more than 500 Indian children being taught beneath its roof. The Lord's supper was observed for the last time on Aug. 19, 1838. The the old mission cemetery east of the ridge, overgrown with weeds and

forgotten by almost everybody, is a

The Visier's Little Joke.

A Frenchman who lived many years in Fez tells how the Moroccans enjoy a joke at the expense of Europeans. An ultimatum had on one occasion cried the vizier. "You are our friend. The letter only needs the sultan's seal. It will be ready tomorrow." It was not ready on the next day or the next, and on the third day the charge d'affaires, after refusing all refreshment, declared that he was leaving Fez immediately, whereupon Si-Feddin-Garnit drew the letter from his leathern wallet. "It has been ready for five days," he said. "You see, there was no need for anger.

The Burmese Nirvana. In "The Silken East" the author, V. C. Scott O'Connor, explains what that much discussed consummation of Nirvana, or neikban, is to the faithful

And this neikban, what is it? Eternal extinction or eternal and conscious peace? The everyday Buddhist, in Burma at least, is in no doubt upon the subject, and for the rest, for an exalted idea of paradise. I do not reember to have come upon anything finer than this: "Where the believer expects to find a sure shelter against all errors, doubts and fears, and a resting place, where his spirit may securely enjoy the undisturbed possession of

The "Dimmaree," That not very elegant word, supposedly an Americanism, "bunnmer," is said to be descended from the English "bummaree," itself centuries old, if not very literary in the company it has kept. A "bummaree" was a person who peddled fish outside the regular fish market. Naturally such a person was in disfavor with the dealers in the established markets. The "Lummarees" were accused of cheating and selling worthless wares, hence the disagreeable significance of its linguistic descendant.

"But," said the judge, "you provoked "No, Oi didn't," replied the prisoner. "But you struck the first blow. Why

did you do that?" "Bekase he said to me, 'If Oi'm wan, re're another,' and so I soaked him."hiladelphia Press.

A large troop was reported, and the natives maintained that this troop ran along in the grass parallel with the SATURDAY, THE MIXTERNTH DAT OF QE earayan road (a path some ten inches wide), and, having selected the most edible member of the caravan, jumped upon bim like a flash, and, seizing him, disappeared as quickly as they came. Our mail runners, attached to whom were a couple of native police armed with ritles, were several times attack-Finally, as the wail party was camping one night, fortunately for it, with a native caravan, the lions besprang upon a native and carried him off into the bush.—Mrs. S. L. Hinde in Blackwood's Magazine.

WASHING CLOCK FACES.

Some Timepleces Grow Soiled More Quickly Than Others. "I've been washing the faces of the city clocks nigh on to ten years. I guess," said a pleasant Scotch-Irish-American, "and before that I did it in the old country. There aren't many face washers in this land, and the few who know the business do well at it." He looked prosperous in his tweed suit and derby hat.

"Is your work anything like that of the steeple climber?" he was asked. "Bless you, no," he replied, with twinkling eye, much amused, "only in one thing, and that is that mostly sailors take up with the trade. That's because we're good climbers, you know. church clocks that were 180 feet from the ground, and it took me two and three weeks to do it. I'm a practical Atlantic City, in the county of Atlantic and clock repairer, too—have to be, you have following described tract or panels. know-and do my work in a huge woo len cradle made for the purpose. Some clocks get their faces dirty in a years, and so on. Old Ben, Westminster's great clock, is expected to keep clean fifteen years.

"In the old days the trade was more dangerous. We used to work from scaffolds, and got many dangerous falls. Now we have the cradles and all the fixings and comforts, and if a man keeps his head he can work as well as that's hard to figure, for we work by the job. We don't clean clock faces in summer to last the year round. Of course sometimes the clocks are taken out of their cases and repaired in the shops. Last year I cleared \$2,000 and visited only two other cities, Chicago and Boston. This year I'il make more because building operations have grimed the clocks and given our trade a lift."-New York Post.

THE CHUKCHEES.

They Live In Siberia and Have Mania For Suicide. A Russian correspondent was talk

ing about Siberia. "In that strange land," he said, "the strangest thing is the suicidal tend-Crazy people never think they are ency of the Chukchees. Among the Chulichees, netually, suicide is one of the most common forms of death. "The Chaliches live in northeastern Siberia. They are small and copper colored. They dress in skins and ride reindeer. Tailow and raw kidney are their chief delicacies. In every Chukthee house hings a death coat.

"A Chukchee doesn't kill himself by his own hand. He appoints his nearest relatives-his wife, son or daughter-to do the deed. And the delegate never rebels, never declines this sad and horrible task.

"Innumerable are the causes of sulcide jealousy, unrequited love, an incurable disease, melancholy, poverty,

"I knew a man who was prosperous and apparently happy. Suddenly a desire for death seized him. In three moons,' he said, 'I will go home to my "By the way they fight I can tell men's fathers.' And he calmly settled his af-

Weak Hearts

when it was simple indiges It is a scientific fact that all cases of art disease, not organic, are not only ceable to, but are the direct result of indiestion. All food taken into the stomach thich fails of perfect digestion ferments and cells the stomach, puffing it up against the leart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.

Mr. D. Kaubie, of Nevada, O, says: I had storach frouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me. Kodol Digests What You Eat and relieves the stomach of all nervou strain and the heart of all pressure. Bottles only. \$1.00 Size holding 214 times the trial size, which sells for 50c. Prepared by E. The public is cordially invited. The Savoy Theatre Motion Picture Com oany will be at Veal's Opera ''ouse this evening, 9 h inst. with an entire change of FORTEM - Adv.

"Resolved, That men of ancient times were greater than those of modern times," is the question for debate by members of the Young Men's Lyceum on the 15th inst. Mesers. R. L. lohnson and A. C. Abbott will represent the iffirmative. Rev. G. W. Ridout and Mr. Irving Firsh will represent the negative. The sublic is cordially tayled to attend the Friday night meetings of the Society.

The three latest popular sons, entitled "Dear Old l'atawha,,' Bhe's Gone to the City of Sorrow and Care" and "On the Pier," comno-ed by H. Wilson Abbott, son of Mr. and Mrs. C. W. Abbott, of this place, will be sent postage free to any address upon receipt of 50 to money or stamps. Single copy 20c. Address H. Wilson Abbott, 307 Madison Avene, Arlantic City, N. J.-Adv.

Farmers and sportsmen to this section are divided in their opinions over the proposed repeal of the bounty on foxes. Sportsmen want the law repealed, while the farmers get is for each for killed. The morting element claims that at the rare the animals are being killed for this bounty they will soon be exerminated, and the great sport of fox! basing will be ended. In this section there chases are popular, more so probably than at any point in South Jersey.

Rev. I B. Crist will presch at the Preshy terian Church to-morrow morning at 10.10 from the subject, "A day of jubilee." In the evening at 7.0 Pastor Crist will preach from the subject, "Seest thou a man diligent in sermon is by special request and will dwell onthe religious social and business prosperity of May's Landing. The public is gordfally invited to attend the services ibroughout the lav. Bev. Crist will lead the Christian Bodeavor Society service commencing at 6.65.

TATE ANY TO SET YEAR OF THE

ASSTRBD. THE SEA. Actual Steps Taken By Pennsylva nia natiroad Leased Line Line to be Completed and Care running By July 1, 1906. Condensed Form. From an authentic source

formation resterday that the steps toward building an elengio line bet ween Camden and Atlantic City, were taken by the West Jersey and Seaspore Railroad last Tuesday, when it leased a portion of its Newseld branch and the entire Somers Point branch to the Atlantic City and above Baliroad for a period of forty years. At the same time, the lessing company sold to H. P. Bachmatt & Co., of Philadelphia, \$750,000 tronds the proceeds of which will be used in constructing an ciccirio railway dystem between Atlantic City, Pleasant ville and Somers' Point.

It is the purpose of the Weer Jersey, Company to electrify its Newfield branch between Pleasen(ville and Newteld, and to build an electric time between Campen and Rewfield, parallelian the steam road which extends from Camden to Cape May. The electrines. tion of the Newfield branch from Pleasantville to Atlantic City and from Piessintville to Somers' Point will be begun immediately. and the West Jersey Company will begin its electrical work as soon as plans are com pleted. It is the purpose to have the whole work completed next year, if possible,

The Atlantic City and Shore Bullroad Lau corporation recently chartered in New Jersey, with full powers to operate its line by steam or electricity. The financial interests connected with it are represented by Stern & cilverman, a firm associated with the Public Seavice Corportion in large electric ratiway the Thoroughtare, From the first Coroner interests between Camden, Trenton, New Brunswick and Jersey City. Stern & Sliver man recently purchased the Central Passen ger Railway, of Atlantic City, which is to b a part of the Camden-Ariantic City electric An officer of the Pennsylvania Bailr

Said concerning the plan: 'The West Jersey has leaged the line named for forty years. Before the property is turned over, the company will doub ctrack the branches from Pleasantville to At. lantic City and from Picasantville to Somers' Point. This work will be placed under con tract at once. The Atlantic City and Shor road-will equip the leased portion with electricity, and place in operation a high-spect trolley service, making the distance tro Atlantic City to Somers' Point in thirty'menutes. An exchange of traffic will be made by he electric branch of the West Jersey Atlantic City, which we still remin, who the incs of the old Central Passenger Mailway now operating cross-town in Atlantic Cir.

Stern & Silverman, who control the Atlan le City and Shore road said: "Our company will operate its electric lim in connection with the lines of the Centra Passenger Ratiwa. The latter company in w operates two cross-town lines, one from Toung's Pier, along South Carolina Avenue Atlantic Avenue, and one from the Steel Fier along Virginia Avenue to Atlantic Aveue. An ordinance has been parsed giving extend its two cross lines to Baitio Avenue making a loop, and along Adriatic and Vir giuta Avenues to the Thorougufara.

'The Atlantic City and Shore rood wil Construct a sidel drawbridge across Thoroughfare to connect with the city line and will build a steel bridge across the meadows, taking its two-track line over the Reading's Atlantic City branch and the through line of the West Jersey road with t steel overhead bridge, doing away with grade crossings. It will then connect with the eased branch of the West Jersey's Newfield purpose of the company to have the electric ine, as-outlined, in operation not later than July 1, 1906."

Representatives of the Atlantic City and Shore roads beld a conference with officers of the West Jersey and Seashore road at "road direct Station Tuesday, deciding final details of the lease. The Directors of the West Jerses Company will re asked to approve the lease at a specifier to be held on the 29th inst. In the meantime, Vice-President Rea will procees with the task of electrifying the New field branch from Peasantville to Newfield and perfecting plans for building the link

between Camden and Newfield. It has not yet been decided whether the third rail or trolley system will be used between Camden and Pleasantville, but senti ment seems to favor the trolley line, so that when completed through cars can be run over the Atlantic City and Shore road inte Atlantic City. .

POINTED FARAGRAPHS.

You can't spend any time hating people if you want to go forward. After a man has worked hard to get a thing he has to fight hard to keep it. No one loves a crying baby, and the same is true of people who are grown

While your friends promise you big things, the "if" they put in the promise is bigger. All your troubles are exaggerated,

including the uneasiness that conschance causes. When friends urge you to come and see them "any time" it requires some figuring to find out just when that

time is. Decisions after mature reflections are so often wrong that greater respect should be paid the decisions of a penny coming down heads or talls.-Atchison Globe.

Old Time Roothell.

Football has never been a very gen the game, to judge from what Master Stubbes says about if in his "Anatomie of Abuses," published in 1583: "For, as concerning footpall playing. protest unto you it may rather be call ed a friendly kinds of fight than a play of recreation, a bloody and murther ing practice than a sport or pastime for dooth not every one be in waigh for his adversarie, seeking to overthrow him and to pieke him on his husiness, he shall stand before kings." The nose, though it be on hard stones, so that by this meanes sometimes their necks are broken, sometimes their backs, sometimes their legs, sometimes their armes, sometimes one part thrust out of joynt, sometimes snother; sometimes the nonce grad out with blood; sometimes their free story out."
