THE PAIN-KILLER is a purely vegetable compound; and, while it is a most efficient remedy for pain, it is a perfectly safe medicine even in the most unskillful hands. For summer complaints or any other form of boweldisease, in children or adults, it is an almost certain cure; and has, without doubt, been more successful in the various kinds of cholera than any other known remedy or the most skillful physician. In India, Africa, and China, where this dreadful disease is more or less prevalent, the PAIN-HILLER is considered by the native, as well as European residents, in those climatos, a sure cure. -- Com,
