DEVOTED TO THE INTERESTS OF HAMMONTON AND MAKING MONEY.

VOL I. NO. 1.

HAMMONTON, N. J., SATURDAY, JANUARY 6, 1872.

\$2.00 PER YEAR

From the Capital.

TRENTON, N. J., JAN. 4, 1872.

Mr. Editor.—As the 9th of January nears Mr. Trenton becomes more lively—the slow old city feels its pulse quickened and assumes a more business-like air. Every train brings its throngs of anxious ones, and in a few days the hotels will be packed. As far as the organization of the Senate is concerned there is little anxiety. Hon. Edward Bettie will be re-elected President, and Messrs. Babcock and Newlin Secretaries. The organization of the House will probably be effected with little trouble, and after a brief struggle the numerous band of defeated ones will shake the dust of the city from their feet, departing poorer, if not wiser, men.

The extensive improvements of the Capitol building are nearly completed. The \$50,000 voted at the last session has been expended twice over, and like Oliver Twist, the Commissioners call for "more." The improvements have been badly executed from the start, and the result is a magnificent failure. There is magnificence enough for the money, and double the quantity of bad taste, which we suppose is charged at the same rate. The members will sit in semi-circles, each having separate desks, which are fine affairs of heavy black walnut. Above the platform erected for the presiding officer in each house is a stage supported by a group of six pillars. On the facade is a work of art (?) in the shape of a wood-carving about five feet high, which is, as a Newark correspondent has it, "feuvelly and wonderfully made." It is intended to represent the State arms. Not content with a wild effect, the Goddess of Liberty has been treated to a dress of glistening blue, and her companion to one of pink. How pretty. The gathered wisdom will receive light from a large dome in the centre of each chamber. The gas burners are arranged around the dome to the number of 100, and will give an abundance of light. The old Senate and Assembly Chambers are being fitted up for Executive and Court rooms, but will not be ready for occupation this winter. The Governor will establish himself at the U. S. Hotel, where spacious apartments have been fitted up for him. In my next I shall inform you of the organization, etc. Until then, adieu. Yours,

Qui vive!

The publishers of Scudder's promised that the Monthly for January should be a grand holiday number,—the handsomest number, indeed, of a magazine ever printed in America. We think they have fulfilled their promise. The first picture, by T. Morgan—one of the illustrations of Bayard Taylor's ballad from the German—is a finer picture in both design and engraving, than we have learned to look for in periodicals; the illustrations of "The Big Trees and the Yosemita"—a pictorial and graphic paper by Mr. Bromley—constitute probably the best series of the kind ever prepared for an American magazine. The number has a fine Christmas flavor throughout. The poems by Bayard Taylor (after Rückert,) Christian Rosetti, H. H., and Mrs. Whinney, from a memorable Christmas garland of verse; then there is "The Oak Tree's Christmas Gift," by young Hawthorne, a burlesque Christmasy story, by Frank R. Stockton, with capital illustrations, a new Wonder Story by Hans Christian Andersen, and an amusing page of "Elohing," by Sheppard, giving characteristic Christmas scenes in "Old Virginia." Among other interesting features of this number are the very promising opening chapters of Mrs. Oiphant's new serial, "At His Gates;" a story by Joaquin Miller, entitled "The Last Man of Mexican Camp," a delightful sketch of "A Day of Scottish Games," in Rhode Island, by Col. Hicklin; a tranchant article by Ray, Geo. B. Buon, on "Some Kinds of Spiritual Quakers," graphic selections, with striking illustrations, from Lt. Col. Gordon Cumming's "Wild Men and Wild Beasts;" a portion of the forthcoming volume of Bryant's "Horror," and a graceful little poem by Harriet McEwan Kimball.

Dr. Holland, in "Topics of the Time," has some earnest words on "Shakerism," and "The Faults of Culture." "The Old Cabinet" contains "A Fact," "A Letter to a Young Writer," and "A Christmas Thought." "Home and Society" treats of "Christmas-Greener," "Twelfth Night," and "Two Clothes of the Period," while in "Culture, and Progress at Home" and "Abroad" are discussions of "International Copyright."

"The Opera," "Charlotte Cushman," "New Books," etc., etc.

A series of articles on "The Wonders of the West" is promised, the first (on the Yosmite) appearing in January. The February number will have another story by Sax Holm, author of "Esther Wynne's Love-Letters," and other features of importance. Although the January Scripture contains more and better pictures than any number yet issued, the publishers promise that there will be no falling off in pictorial interest in February.

"Unquestionably the best sustained work of the kind in the world."

Harper's Magazine.

Notices of the Press.

There are few intelligent American Families in which Harper's Magazine would not be an appreciated and highly welcome guest. There is no monthly magazine an intelligent reading family can learn afford to be without. Many Magazines are accumulated, Harper's is not. There is not a magazine that is printed which shows more intelligent pains expended on its articles and mechanical execution. There is not a cheaper magazine published. There is not, consequently, a more popular magazine in the world.—*New England Homestead*.

A repository of biography and history, literature, science and art, unequalled by any other American publication. * * * The volumes are as valuable as a mere work of reference as any encyclopedia we can place in our libraries. Harper's Magazine is a record of travel everywhere since the hour of its birth. Livingstone and Gordon Cumming in Africa, Stratford among the Tudors, and Ross Brown in the East, Speke on the Nile and MacGregor on the Jordan—indeed, all recent travels of note have seen their most important discoveries reproduced in these pages. Most of our younger and many of our older writers find here their literary biography. Our artists see the best evidence of their genius and the most enduring specimens of their work in the Magazine.—*New Standard*.

It is one of the wonders of Journalism—the editorial management of Harper's. The Nation-

al, New-Yorker, and Harper's are fearfully and wonderfully made! It is intended to represent the State arms. Not content with a wild effect, the Goddess of

Liberty has been treated to a dress of glistening blue, and her companion to one of pink. How pretty. The gathered wisdom will receive light from a large dome in the centre of each chamber. The gas burners are arranged around the dome to the number of 100, and will give an abundance of light. This book, an elegant octavo volume, containing 780 pages, and 100 fine and engraved, is an exhaustive and standard work, especially adapted to the times. It fully uncovers the Romish system from its origin to the present time, exposes its hideous cruelties, its frauds, its persecutions, its gross immorality, its opposition to our public schools, and civil and religious liberty. It shows its impious workings which strongly tend to bring this country under full Romish control. Prospects and books ready on application. CONN. PUB. CO., Hartford, Conn.

THE ITEM.

HAMMONTON, ATLANTIC CO., N.J.
SATURDAY, JANUARY 6, 1872.

The Executive Committee of the New Jersey State Sunday School Association has called a Normal Institute to assemble in Plainfield during the week January 29th and February 2d. The design of this Institute is to develop and illustrate fully the Sunday School normal class, and institute work. It is not to be an ordinary convention, nor even an ordinary institute, but a thorough class for hard work, and for practical illustration of teacher-training. The delegates are appointed by the County Secretaries. Each county entitled to two delegates. These are to be persons especially interested in the training work. Some of the leading Ministers and Sunday School workers of the country are to be attendants. We congratulate the Church upon the inauguration of this movement. It means hard work; higher standards, thorough training—three things greatly needed in the Sunday School of this day.

The Treasury Department has decided upon absolute fair play in the redemption of mutilated currency. Any person can forward it to the Treasurer in sums less than \$5, instead of \$500 as heretofore, and they will also be redeemable at their full face value by all officers of the Treasury Department in payment of currency due the United States, provided that three-fifths of the original proportion of such notes are presented in one piece. Fragments less than five-eighths will be redeemable only by the Treasurer of the United States. If more than one-half and less than five-eighths is presented, half the face value will be paid. Less than half a note will be redeemed only on affidavit that the missing portion has been totally destroyed.

A Christian daily newspaper was commenced in New York last July, by Mr. Dougall, who had for ten years previously conducted a Christian Daily in Montreal, Canada, with great success. This paper was called the *Mormon Witness*, and it still continues under his son's management, to be the most extensively circulated journal in Eastern Canada. Mr. Dougall brought the highest testimonials from leading ministers and others in Canada, and the New York *Witness* soon obtained very favorable notices from a great number of religious and secular journals of the highest character, in New York, and throughout the Union, a column of which appears in this specimen number of the Weekly Edition.

Judge Bond of the United States Circuit Court for South Carolina, has overruled the motions for a new trial in the Ku-Klux case. The following are the sentences: John W. Mitchell, five years' imprisonment and a fine of \$1,000; Sheriff Chidlers, William Montgomery, Evans Murphy, Ezekiel Porter, R. H. Mitchell, Sylvanus Shearer, Hugo Shearer, William Shearer and James B. Shearer, each nine months' imprisonment and a fine of \$100; Dr. Thomas B. White, one year's imprisonment and a fine of \$100; John S. Mills, three months' imprisonment and a fine of \$20. Pending trials like these will speedily cure the evil.

South Carolina has just furnished two instances in which lawyers have "gone back" on their clients. One was entirely honorable, Reverdy Johnson, in defending the Ku-Klux at Columbia, S. C., did it on purely technical grounds, and in his address to the jury admitted the existence of the Ku-Klux, and in a speech of fearful vivacity characterized their acts as the most infamous of crimes. The other case was that of a lawyer Butts, employed by a contesting Congressman, Dr. L. L. L. to work up his case before the Committee on Contested Elections, who declined to put in his evidence.

Gen. Walker, Superintendent of the Census, has issued the introductory paper containing many valuable deductions and statements; the accuracy of the population is vouched for with confidence, but not so of the industrial statistics, which we presume the Superintendent will not pretend to endorse as correct. Notwithstanding this serious defect, however, the present census contains valuable information on a greater variety of subjects than any previous attempt. Census-taking is little less than a science in itself, which in the "nature of the case must be acquired slowly."

A Clever Philosopher has petitioned Congress for aid to enable him to experiment upon a system he has concocted for the artificial production of rain. We have not wanted anything of the kind in this latitude since *Quixotesque*.

THE MANUFACTURERS OF THE
RELIANCE WRINGER.

Have had a general opportunity of examining
precious what is wanted, and of producing
a perfect Machine. They have
arrived and are now ready for
W. M. STANFORD, who they call the
PROVIDENCE.

New 1871 Perfect
A GREAT IMPROVEMENT
Over All Other Wringers!

CD.

It Saves Labor. It Saves Time.

It will Save its Cost Every Year.

It Wring Faster than by Hand.
We consider the Providence superior to all
others for the following reasons:

1st. The ROLLERS, of large size and best
quality of White Rubber, are all secured to the
shafts in the most permanent manner by the
Moulton Process, making the best roller in the
World.

2d. The PATENT METAL JOURNAL
CASINGS prevent any wear upon the journals.
The wooden journals in which the iron shafts
of other machines, run soon wear, and the effi-
ciency of the Wringer is thereby greatly reduced.

3d. The DOUBLE SPIRAL COGS used on
this wringer give the utmost ease and steadiness
in working, while the double stop-preven them
from bottoming or being thrown out of gear.—
We furnish either single or double geared Pro-
vidence as desired.

4th. The ADJUSTABLE CURVED CLAMP
readily adjusts this machine to tubes of any size
or thickness, making a perfect fastening. No
wooden pegs or rubber straps on this Clamp.

5th. SIMPLICITY, STRENGTH and BEAU-
TY are combined in this machine, with all the
Equisites of a first class wringer.
