# Everyboo and low Lost, How A PIANO OF ORGAN

Of GOULD & FISCHER, 1210 Chestnut Street

Special Attention is called to our New Instalment Plan

# MASON & HAMLIN ORGANS.

Renting with privilege of purchase, any Organ of which the price in our Catalogue is over \$125 and under \$500. The rent per-quarter is ten per-cent, of the price of the organ, payable quarterly in advance. Thus if the price of the organ be \$200 the rent is \$20 quarterly; if it to \$300 the rent is \$30 quarterly. One may at any time purchase the organ, in which case they will be allowed all rent which has been paid, and a doduction from its price at the rate of twelve, per cant, per snaum on payments sublepated.

GOULD & FISCHER,

VOI. VI-NO.1.

"I'm goin' to quit this sixthly scene;

The girls is flounced from top to toe!

An' that's the hull o' what they know

The men is mad on bonds an' stocks,

I'm real afraid I'll be hanged mysel

Ef I ain't laid on my final shelf.

But since crazy folks all go free,

But what the paper'll have it in.

Great Jerusalem ! can't I stir

Without a raisin' some feller's fur?

And as for meetin'-I want to swear

Whenever I put my head in there-

Like everything else under the sun;

Praise to the Lord from men below-

No respect to the Lord above, No more'n of He was hand and glove

With all the creturs he ever made,

Preschin' too-but here I'm dumb.
But I tell you what! I'd like it some

Ef good old Parson Nathan Strong Out o' his grave would come along,

An' give us a stirrin' taste o' fire-

Judgment an' justice in my desire.

That makes this world nor 'tother complete

That makes this world nor 'toner complete But havi I'm old! I'd better be fiead When the wold's a turnin' ore my head; Sperite talkin' like 'tarnal foolis! Bibles kicked out o' decarriet schools, Crazy creturs a murderia' round.

lonest folks better be under ground.

Tain't all love and sickish sweet

And all the jigs that ever was played.

Now it goes like a gallopin' steer,

It used to be solemn and slow,

There sin't no privacy, so to say,

There's another matter that's peaky

never was lunatic anyway.

It ain't no place for me to stay In such a world as 'iis to-day.

HAMMONTON, N. J., SATURDAY, JANUARY 13, 1877.

So fare-ye-well I this sirthly scepe Won't no more be pestered by Widder Green." —Shoe and Leather Reporte New York Correspondence. NEW Your, Jan. 9, 1877.

Marie -You who know where the milk you use comes from, can't imagine the doubt that hesets the New Yorker, as he pours what he is obliged to accept as milk into coffee, or if a mother gives it to her baby. Years ago, the city was excited by the statements made of mick produced from horrible pictures of cows in every stage of dis ease, which were being milked rogulary, as long with a vilainous head acho, and a total unitas they could stand. It was a fact that milk was sold in the city, from cows fed on distilled "Very well," was the answer, "only I don't nothing of the gorgeous clothes they were. A think that Susy's mails a clean woman. The carriage for four is \$20 a day, and the other seems to show that the persecutions to which milk we had had a yellow seum on the top of appurtenances makes it cost the young man the worthy members of the profession is this it, and wasn't as protty as the nice blue milk 1 get at home.' The tropble now is the milk is too blue, and as there is a very stringent law ngainst adulterating milk, the citizens have taken it up, and are prosecuting the milkmen, taken it up, and are prosecuting the milkwen, right and left. A dozen of them were arrested and a test case was made of one. In this case samples of milk regulary sold to consumers were touted with the lectometer and it was discovered that the compound could bardly be called milk st all. There was a basis of pure milk, the rest was water, reinforced with sugar, chalk, and all sorts of mostliness, to give it consistency and body. And of the hundred sameples examined not one was found pure or even fit for use. The "Orange County" milkmen whose pastures are stables just out of the city, had a trick of keeping milk from souring by the use of chemicals, and all sorts of dodges. were shown up. Thousands of the best families use condensed wilk, the purity of which is well established, but the appearance of the compound is so against it, it doesn't look like milk. The prosecution succeeded in getting [Kd.] the rellur whose case was made a test into the Tombs, with a fine of \$200, whereupon the Mile-

Donlars Association, true to stumptuil, promptly appealed the case. It will take a long fight to got decent milk in Now York. The milkmen have retained the best logal tulent in the city, and will make a desperate fight. But the people will win. The proposition is to have inspectors appointed, with the best appliances for testing milk, and to pour lute the street every oun that has been watered or sophisticated in any way. "Puro milk or none," is the war-ory, now. HEAL MATATE.

# Rural Topics.

[Written for the South Jersey Republican b one of the most experienced farmers, gardener and fruit-growers in the United States.] WINTER CARE OF COWS.

It pays well to take good care of cows milk in the winter season. They should not be exposed to cold storms, so as to become chilled and wet, because by nature they are not designed to suffer such exposure without feeling their injurious effects. The result of a cow in that they are well eared for well fed, watered farmer has a good herd of cows he should see regularly and kept warm. Nor should any man expect to obtain a large flow of milk from man expect to obtain a large flow of milk from poor feed. One may almost as well attempt to produce 12 or 15 quarts of milk daily from poor hay and other improper food. Cowe require milk in the bag it should be all thoroughly the best hay in the fore part of winter, and the poorer qualities may be fed later. They also intervals. When cows are supposed to be comrequire a change of food; hay alone is not sufficient for cows in milk. Roots, meal and good Farmers may succeed in making clover grow hay are all that any cow requires at this season on grass lands, without plowing the land, if of the year. Corn meat is very nutritious, and | the sed is not thickly covered with grass, but it may sometimes put on too ween fat, other- open in places between the tafts, so as to admit will out. Bran in all shapes, as ship stuff, middlings, do., is excellent to produce milk.

This is what milkmen food on who do their best to make their cows profitable. POOR HAY AND STRAW. Some months ago Professor Atwater stated, Hourd, and transferring its duties to the Dip. lasted, then was observed here. Hundreds of estable, of what value is it then? It produces and one that will stand the frosts of winter bet-Pierno. sleighs which had been ordered from northers no milk, satisfies no appetite, puts on no fat, ter than one kind will.

straw thrown, away, as straw is saluble everywhere. It may be baled and sent many miles to market at a profit.

\$2.00 PER YEAR

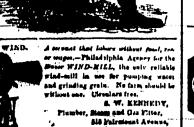

RAISE YOUR OWN COWS. Many dairymen sell their calves, and buy cows when wanted, but that is not a good practice, as I claim that cows can be raised cheaper follow that when good cows are obtained that as in most cases it stood empty, left them of every State and Territory of the Union in its work its members are too reticent to make farmers can keep up the good qualities of their without income. The city is going through a having one common purpose, the terrorizing it known to the public. Other congressional dairy stock better by raising than by purchasterrible season, and no one expects that real and intimidation of every element of opposition matters are of slight importance. It was only ing their cows. For milk, and also for beef, a to the inauguration of Tilden. This bulldozing last Friday or Saturday that a sufficient num- S ort Horn and Ayreshire grade, or a Short method which obtained throughout almost the ber of members of either house had returned Horn grade crossed on Ayreshira cows make Watterson of the Courier Journal, who regards to the routine work imperatively demanding ato a healthy constitution in her offspring, I

## CUMBERLAND MUTUAL Fire Insurance Company, BRIDGETON, N. J.

Conducted on strictly mutual principles, ofering a perfectly safe insurance for just what tering a perfectly safe insurance for just what it may cost to pay losses and expenses. The proportion of loss to the amount insured being very small, and expenses much loss than usue ally had, nothing can be offered more favorable to the insured. The cost being about ten cents on the hundred dollars per year to the insurers on ordinary risks, and from lifteen to treenty-five cents per year on hearrdows properties, which is less than one third of thelowest rates charged by stock commanies, on such risks—the other twostock companies, on such risks—the other two-thirds taken by stock companies being a profit acruing to stockholders, or consumed in ex-

The guarantee fund of premium notes being now Three Millions of Dollars.

If an assessment had to be made or five pe cent, only, twice within the ten years for which the policy is issued, it would yet be cheaper to the members than any other insurance offered. And that large amount of money is saved to the members and kept at home. No assess-ment having over been made, being new more than thirty years, that saving would amount to more than

One Million Five Hundred Thousand Dollars

The Losses by Lightning. Where the property is not set, on fire, being loss: than one cent per your to each member are paid without extra charge, and extended so

as to cover all policies that are remed and out -BENJAMIN SHEPPARD, President.
