THE ITEM PRINTING CO.
HAMMONTON, ATLANTIC CO., N. J.
SATURDAY, APRIL 20, 1872.

National Union Rep. Convention.

The undersigned, conducting the National Convention held at Chicago on the 20th day of May, 1868, hereby call a convention of the Union Republican Party at the City of Philadelphia, on Wednesday, the 5th day of June next at 12 o'clock noon, for the purpose of nominating candidates for the office of President and Vice-President of the United States.

Each State is authorized to be represented in the Convention by delegates equal in number to the number of Senators and Representatives to which it will be entitled in the next National Congress, and each organization Territory is authorized to send two delegates.

In calling this Convention, the Committee of the National Union Convention of 1868 have been fully satisfied that the Union Republican Party of the United States have been faithfully executed, public faith has been preserved, and the national credit firmly established. Governmental economy has been illustrated by the reduction of the same time of the public debt, and of taxation; and the finding of the national debt of a large sum has been successfully inaugurated. The rights of naturalized citizens have been protected by treaties, and immigration encouraged by liberal provisions. The interests of the Union have been gratefully remembered, and the rights and interests of labor recognized. Laws have been enacted, and the public safety for the protection of persons and property in all sections.

Equal suffrage has been enacted on the National Constitution; the privileges and immunities of American citizenship have become a part of the organic law, and a liberal policy has been adopted toward all who engage in the rebellion. Complications in foreign relations have been adjusted in the interest of peace throughout the world, while his nation's honor has been maintained. Corruption has been exposed, offenders punished, responsibility enforced, and the public party steps pledged to correct all abuses and carry out all reforms necessary to maintain the purity and efficiency of the public service. To continue and firmly establish its fundamental principles, we invite the co-operation of all citizens of the United States.

WILLIAM CLAYTON, of Massachusetts, Chairman.
W. K. CHANDLER, of New Hampshire, Sec'y.
Signed by the members from each State.

Anna Dickinson, in her lecture, "We, the People," commits herself strongly to the Summer Schurz-Greeley clique. In Pittsburgh she denounced Grant and was hissed for it.

Carl Schurz, according to Thomas Nast, stands a much better chance of being pocketed in instead of pocketing the German vote of the country. Nast is a German who says this through a very forcible cartoon in the present number of Harper's Weekly.

The Springfield Republican is incoherent. It speaks of James M. Sewell as a prominent Republican, and says that he is present, with that of others like him, at the Cincinnati Convention, will go far toward making the gathering a success. "Sarcasm like this is rare, indeed."

It is difficult to say which is the more jubilant over the Schurz-Trumbull "Friday night" in New York. Both speak of it as its results "a great event" of the campaign. Which reminds us again that these two papers are very near together politically. Surely the World has not come over to the Republican party.

Some Democrat, who is evidently too smart for the party managers, asks the following, and "wants an answer":

Does anybody suppose that the mass of Democrats are going to wear out their shoes running to make us Republican President rather than to make us? Does any one imagine that they can be transferred like so many cattle to the head of some trading Republican keeper? Those who thus debate themselves have yet to learn the first rudiments of politics.

Nast plagiarizes the query "Will Robinson Chase (Summer) forsake his Mau Friday?" in the current number of Harper's Weekly. On the shore of his island home, with his faithful "cat" in hand, he brands the Massachusetts "Cricket" as being pulled up by the nose and yanked by the tail. He points out to the Massachusetts "Cricket" that it is about to put out in the practical working of "Democrat" Formosa among the boat crew stands Horace Greeley, his hat in the air, calling upon "Chase" to enter. Among the crew are Jeff Davis, Andrew Johnson, Frank Blair, James Boutwell, Justice Davis, Trumbull and Seymour. Above, kneeling upon a stool, the negro "Man Friday" entrails his master not to desert him to the tender mercies of the K. K. K., who are disconcerting him by an amount of bushing in the background. It is a very striking picture and tells the story of Nabber's position better than words could do.

Wishes to acquit the citizens of Hammonton, that he has been room, situated over Wm. Packer's Saloon, where he is going to receive and examine all orders of those who may favor him with their work in his line of business in all its branches, viz: cutting, planing, shingling, and shrouding.

THE ITEM.

Messrs. Rape and Devoney have our thanks for report of court proceedings.

Good reports can be bought if Jos. Shinn, Atlantic City, at \$20 per large car, and \$9 per small car, delivered on the cars at Atlantic City.

Mrs. A. M. Stringer desires us to express her thanks to all the singers and friends, who so kindly aided her in carrying through the social entertainment on Monday and Tuesday evenings. Also to Mr. Button for his kind and generous donation of flowers; and to the public at large for their patronage. She has by this exertion, been able to present to the Rapid Society \$72, which will take a big slice off of their debt on the organ.

Miss Mina B. Gregory will give a farwell entertainment of Reading and Song, at Union Hall, next Thursday evening. The departure of Miss Gregory will occasion much regret among her many friends; (not only in Hammonton but throughout the county) and those who have had the pleasure of attending her Readings.—We bespeak for her a crowded house on the occasion of her farwell.

It is seldom we have the opportunity of hearing so accomplished a reader, and we hope our citizens will embrace this opportunity. By request, Miss G. will give some representations of "Lady Macbeth," which has never been given in Hammonton. It, alone, is worth the price of admission. Should it storm on Thursday evening, the entertainment will be given Friday evening.

Drawing persons caught at Straws. The fifth section of the supplementary act to Hammonton charter, approved April 9, 1872, reads as follows:

And he is enacted, That all acts and parts of acts inconsistent with the provisions of this act so far as relates to the town of Hammonton be and the same are hereby repealed.

This repealing clause annulled the 24th and 25th sections of the charter act of 1866 from which "Plover" quotes such garbled extracts, flouting them with great gusto, before the public, as truths. Is this the way in which our citizens are to be misled?

Some one killed a fine horse belonging to Jos. Curry, living near Da Costa Station, on Tuesday night, by stabbing it in the stable. Curry swears vengeance. Look out for equally wretched—that viciousity.

The new Hall suggested in the Item last week is to be erected very soon. A stock company is being formed of 50 shares, of which are already taken. It is proposed to erect a building which will be an ornament to our town—a 3-story, French Roof, etc.

Packer is preparing for the Summer campaign. He has engaged a first-class baker from Philadelphia, and will be prepared to accommodate our citizens with the best in the market in a few days. Look out for his wagon.

Mrs. Mary Treat, formerly of this town, wife of the celebrated Dr. (?) Treat, in addition to her onerous occupation of hatching butterflies, is Sec'y of the Shepherd Book-Club, Yveland.—Their opening song is probably

"Mary like a Shepherd lead us," etc. What a crowd of the fair sex thronged Mr. Tremper's on Saturday. We were perfectly bewildered, being obliged to pull down our curtains and finally lock up and vacate the premises. The visitors unanimously expressed their satisfaction of the display of goods.

The demand for cottages at Atlantic City is unprecedented. Although the rents are higher, they go off like hot cakes. Mayor Gardner is kept as busy as an annual in August. He says all the cottages will be disposed of in less than two weeks, and then what? More cottages and more hotels (respectable ones) are needed. It is an infant of rapid growth and we shall not be surprised to hear of it in the future as ahead of "The Cape" and "Long Branch."

At the late election of officers, of the Egg Harbor City Agricultural Society, the following members were elected to the respective offices:—President, George Freitag; Vice President, Philip Steigant; Secretary, Valentine P. Hoffmann; Treasurer, Charles Gruner; Librarian, John Neubauer; Collector, Adam Bayer; Trustees, Th. Bergmann, Ghr. Knebler, John Neubauer. The society also passed a resolution to hold an annual agricultural and industrial fair during the coming fall. The exact date will be published in time, by the county papers.

P. T. BARON'S GREAT EXHIBITION.—Never since the time when Noah saw the noble specimens of the animal kingdom marching into the ark two by two, has there been witnessed such a group of wonders as those contained in P. T. Baron's Colossal of the "Wonder World." One hundred thousand rare, living and representative curiosities from the uttermost parts of the earth; one hundred first-class performers; a peacock a mile long; golden chariots forty feet high, &c., &c. Baron is the greatest showman of the age and has the biggest show ever witnessed in the history of the world. It cost over a million of dollars. The wild Fiji cannibals, the living giraffe, the monster sea lions, the riding goat "Alexander," and the wonderful automaton are only a few of the wonders to be seen. Baron shows in Philadelphia next week, commencing on Monday. Persons visiting the city should embrace the opportunity to see this mammoth collection.

THE GALAXY.

The Galaxy has now entered on the seventh year of its existence, under circumstances of unusual prosperity.

This Magazine has from the first occupied a field entirely its own. The aim of the Galaxy has been to discuss promptly every great subject which is important in the public mind, and to have the discussion carried on by our ablest and best-known men in each department.

These papers, by conspicuous public men, on national topics of importance, will be continued, and will embrace contributions from the most prominent of our living statesmen on questions of national interest.

A new series of papers by Judge Jeremiah Black (whose former articles attracted so much attention) will soon appear in the Galaxy; also other articles by our most prominent statesmen, which the publishers are not yet at liberty to announce.

In the January number commences a series of articles by General G. A. Custer, under the title of "My life on the Plains." Judging from the first article, and from the wild and romantic experience which General Custer has had as a cavalry officer among the Indians, these papers cannot fail to be of very great interest. They will continue through the year.

The sketches of prominent living public characters by Justin McCarthy will be introduced. Mr. McCarthy is one of the most commanding of magazine writers.

One of the most widely-known and popular of American humorists will begin early in the year a series of articles original in form and treatment.

The serial stories of the Galaxy have always commanded the widest attention. Those for the year 1872 will be by writers who have now a powerful hold on American readers. The Galaxy serials have been by such writers as Charles Follen, Anthony Trollope, Justin McCarthy, Mrs. Annie Edwards, and J. W. DeForest.

An ex-Shakeress begins in the January number the story of her "Fifteen Years Among the Shakers"—a narrative that will throw much light on the interior life of that strange community.

The "Scientific Director" of the Galaxy has proved so generally popular that the publishers seek to make it still more deserving of the attention of their readers. The "Scientific Director" is prepared by a distinguished scientist, whose relations with the leading scientific men of England and Europe generally, are such as to enable the Galaxy to keep abreast of the latest facts.

Mr. Edward Crapsey, whose papers entitled "The Nether Side of New York," in the last two volumes of the Galaxy, enjoyed so much favor, will contribute further articles descriptive of criminal and low life in the great city. Mr. Crapsey writes from personal observation, and with a style of singular simplicity and clearness.

In the department of literary criticism the Galaxy will have the assistance of some of the clearest and brightest intellects in the country.

The Galaxy gives great care to the selection of short stories from the large number offered its editor, and makes them a noticeable feature of each number of the magazine.

The Galaxy is edited with the most possible appreciation of the public taste, and seems determined to meet the wants of every member of the family.

For the trifling expense of \$4.00 per year one may obtain in the Galaxy a vast amount of instructive and entertaining reading; and were this its only source of culture, one could not feel very far behind the spirit of the age.

Military Claims!

All Soldiers of the war of 1812 who served 90 days, are entitled to a Pension of \$8 per month, commencing February 14th, 1871, to continue during life.

The Widows of soldiers who died in the war of 1812, or at any time since, if they were married to the soldier before December 24th, 1814, are entitled to a FULL Pension of EIGHT DOLLARS PER MONTH, to continue for life. Those widows receiving less than \$8 per month can have the increase.

Many soldiers of the late Rebellion, are still suffering from injuries and diseases received in the service and are by law entitled to Pension, but have never applied for it; their disabilities are constantly increasing and may terminate in their death. They should apply immediately while proof of their disability can be obtained.

Soldiers discharged on account of Rupture or Wounds, who have received no bounty, are allowed \$100.

Attorney at Law,

HARPER'S BAZAR.

It is really the only illustrated collection of fashion in the country. Its supplements are no less worth the subscription price of the paper. While fully maintaining its position as a mirror of fashion, it also contains stories, poems, brilliant essays, besides general and personal gossip.—Boston Saturday Evening Gazette.

There was never any paper published that so delighted the heart of woman. Never mind if it does cost you a new bonnet; it will save you ten times the price in the household economy it teaches.—Providence Journal.

The young lady who buys a single number of Harper's Bazar is made a subscriber for life.—New York Evening Post.

The Bazar is excellent. Like all the periodicals which the Harpers publish, it is almost ideally well edited, and the class of readers for whom it is intended—the mothers and daughters in average families—cannot but profit by its good sense and good taste, which, we have no doubt, are to-day making many homes happier than they may have been before the women began taking lessons in personal, household and social management from this good natured instructor.—The Nation, N. Y.

"PROVIDENCE."
New 1871 Perfect
A GREAT IMPROVEMENT
over All Other Wringers!

It saves Labor. It saves the Clothes. It saves Time. It saves its Cost Every Year. It wings faster than by Hand.

We consider the Providence superior to all others for the following reasons:

- 1st. The ROLLERS, of large size and best quality of White Rubber, are all secured to the shafts in the most permanent manner by the Mountain Process, making the best roller in the World.
- 2d. The PATENT METAL JOURNAL CASINGS prevent any wear upon the journals. The journals are made of the best iron, and the shafts of other machines, run soon wear, and the efficiency of the Wringer is thereby greatly reduced.
- 3d. The DOUBLE SPIRAL COGS used on this wringer give the utmost ease and steadiness in working, while the double stop prevents them from wobbling or being thrown out of gear. We furnish either single or double geared Providence as desired.
- 4th. The ADJUSTABLE CURVED CLAMP readily adjusts this machine to tubs of any size or thickness, making a perfect fastening. No wooden pegs or rubber straps on this Clamp.
- 5th. SIMPLICITY, STRENGTH and BEAUTY are combined in this machine, with all the requisites of a first class wringer.

Its columns contain the most collections of reading matter that are printed. Its illustrations are numerous and beautiful, being furnished by the chief artists of the country.—Boston Traveler.

HARPER'S WEEKLY is the best and most interesting illustrated newspaper. Nor does its value depend on its illustrations alone. Its reading matter is of a high order of literary merit—varied, instructive, entertaining and unexceptionable.—N. Y. Sun.

Harper's Magazine.

Notices of the Press.

There are few intelligent American families in which HARPER'S MAGAZINE would not be an appreciated and highly welcome guest. There is no monthly magazine an intelligent reading family can less afford to be without. Many Magazines are accumulated, Harper's is edited. There is not a magazine that is printed which shows more intelligent pains expended on its articles and mechanical execution. There is not a single paper in magazine published. There is not, confessedly, a more popular magazine in the world.—New England Homestead.

A repository of biography and history, literature, science and art, unequalled by any other American publication. The volumes are as valuable as a work of reference as any encyclopedia we can place in our libraries. HARPER'S MAGAZINE is a record of travel every where since the hour of its establishment. Livingstone and Gordon Cumming in Africa, Straits, among the Andes, and Ross Brown in the East, Speke on the Nile and Macgregor on the Jordan—indeed, all recent travelers of note have seen their most important discoveries reproduced in these pages. Most of our younger and many of our older writers had here their literary biography. Our artists see the best evidences of their genius and the most enduring specimens of their work in the Magazine.—N. Y. Standard.

Ayer's Cherry Pectoral

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything been so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long course of years, and among most of the nations of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a protection against sudden attacks of Croup, it should be kept on hand in every family, and indeed as a remedy for pulmonary complaints, it should be kept on hand in every family, and indeed as a remedy for pulmonary complaints, it should be kept on hand in every family.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When not cured, it also reaches them, under the Cherry Pectoral they subside and disappear.

Singers and Public Speakers and great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses. For a Cough and Cold, no better remedy can be had. Take small doses three times a day and put the feet in warm water at night, until the disease is broken up.

For Croup, give large and frequent doses until the disease is overcome.

No family should be without the Cherry Pectoral on hand to protect them, in case of attack from the above complaints. Its timely use often spares the patient a great amount of suffering and labor, which he would incur by waiting until he could get other aid. Parents, keep it in your house for the exigencies that arise. Live dear to you may be saved by it.

So generally are its virtues known, that we need not publish certificates of their here, or do more than say that the public that the best quality of ours possessed are strictly maintained.

Prepared by DR. J. C. AYER & CO., Lowell, and Analytical Chemists, Lowell, Mass., and sold all around the world.
