The May Magazines.

SCRIBNER'S "Traveling by Telegraph, Northward to Niagara," is the title of the leading article in SCRIBNER'S for May. It begins a description of the route from Washington to Niagara over the still unfinished Baltimore and Potomac Railroad and the well-known Northern Central. A most interesting region was traversed by Mr. James Richardson, the author of the paper, and the artists of SCRIBNER'S (including the line of the Pennsylvania Central from Philadelphia to Harrisburg) and a part of the results of the trip are before us in one of the most brilliantly illustrated and entertaining magazine articles of the day. Some of the cuts are wonderful both in drawing and engraving; and their effect is heightened by good paper and good printing. Following this is a bright little illustrated story by Mrs. Walker, "Fanny Winthrop's Treat." Mr. John H. Treadwell describes "Vasa Fictilia in History," with the aid of exquisite wood-cuts, including a portrait of the vase given to General Dix by Napoleon III. The new novelette, entitled "Draxy Miller's Downy," by Saxe Holm, author of "Esther Wynn's Love Letters," is begun, in this number, and gives promise of extraordinary interest. Mrs. Oliphant's "At His Gates" is continued, and proves to be a really masterly story; it certainly deserves wider attention. Noah Brooks, author of "The Cruise of the Balboa," comes out with a beautiful and pathetic story, "The Waif of Nautilus Island." Warner's "Back-Log Studies" are as juicy and delicious as ever, with a little more serious thought this time. His picture of the singing reformers is a delightful bit of Warnerism. For solid articles we have a suggestive paper on "Our Educational Outlook," in which compulsory education is advocated, and a paper on Mr. Lowell's Press, in which Mr. Wilkinson is as courteous as he is cutting. In "Topics of the Time," Dr. Holland discusses "The Conservative Resources of American Life," "Esthetics at a Premium," "Ruin and Railroads." In "The Old Cabinet" are "New Names," "Stories without Point," "Concerning a Pestilent Evil," MacDonald's "Within and Without," and "Tragic." This number begins a new volume, and among the improvements which should be noted are a new Department entitled "Nature and Science," which opens well with a pregnant summary of practical science; enlargement of Home and Society; and the consolidation of "Culture and Progress" notes under one head. The Etchings tell the story of an Absent-Minded Man.

Wood's Household Magazine, under the editorial management of Gail Hamilton, has more than doubled its subscription list, during the past four months. The May number contains: "Migration, Colonization, Homes," by Horace Greeley; "Miss Hannah Adams," by James Parton; "Household Discoveries," by Gail Hamilton; "Brother Anderson," by Thomas K. Beecher; "Longevity," by Dr. Dio Lewis; "Reminiscences of Rev. Dr. Bethune," by A. A. Willis, D. D., etc. Every woman should read Gail Hamilton's editorial in which she says: "It will never do to trust men with a liberty which they will abuse. The best of them, men who may be respectable and even distinguished as jurists, doctors, merchants, mechanics, are, in domestic matters, but children of a larger growth. They must be trained. They may be allowed liberty, but they must not be allowed to take it without permission." The Household is a first-class original Magazine, published at one dollar a year, by S. S. Wood & Co., Newburgh, N. Y. A specimen copy mailed free to any address.

Teachers and Parents should provide their children with "THE SCHOOL FESTIVAL." Quarterly Magazine, devoted to new matter and exercises for School Exhibitions and Public Days. It is a live, fresh thing, that has long been needed by all teachers and pupils, and is conducted by the same Mr. Sewell who founded and so long edited the "Little Corporal," assisted by Mrs. Slado and other able writers. The April number has just reached us, containing a beautiful "May Queen" Coronation exercise and many other choice things. Write for it, to the Publisher, ALFRED I. SEWELL, Chicago, Ill. Price Seventy-Five cents a year; Single or sample copy, Twenty cts. Premiums to Clubs.

LAWS OF NEW JERSEY. CHAPTER XCVI.

An act to provide Building Sites for Life Saving Stations on the Coast of New Jersey.

Whereas, the Congress of the United States has, at the request of the legislature of this state, made appropriations for the repairing of the various life saving stations, and the building of additional ones, on the coast of New Jersey; and

as difficulties have, in some instances, arisen in procuring from the owners of lands, proper sites on which to locate their buildings, and as it is deemed important and necessary in this humane cause that the people of this state should, through their representatives, secure to the United States such sites, as the honorable secretary of the treasury may have selected, or may from time to time select, for the erection of buildings for this purpose; therefore,

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That the governor shall nominate three citizens of this state, who shall be confirmed by the senate, who shall be a commission, with authority to procure for the state, by purchase, the title to any land, selected by the secretary of the treasury or his agents, for the purpose of erecting any buildings connected with the life saving stations, and not to exceed one-half of an acre of land, at any one point on the New Jersey coast, at such prices as said commissioners, or a majority of them, may deem fair and just; and the title to the same to be taken in the name of the state of New Jersey.

2. And be it enacted, That if the said commissioners cannot agree with the owner or owners of such required lands for the purchase thereof, or when by the legal incapacity or absence of such owner or owners, no such agreement can be made, the said commissioners shall make, or cause to be made, a survey of the land required for the purposes of this act, and a particular description of the same; and shall appoint a particular time when they will meet upon the said land for the purpose of ascertaining and determining the value of the same, and assessing the damages; and shall cause ten days' notice of such meeting, and a copy of such particular description of the land, to be given in writing to the parties interested, if known and in this state, or if out of the state, such notice to be published in one of the newspapers published in the county where said lands are situated, for a period of at least thirty days prior to the time appointed for such meeting; and the said commissioners shall meet at the time and place so appointed, and proceed to view and examine the said land and make a just and equitable estimate or appraisal of the same, and assessment of damages, which report shall be made in writing under the hands and seals of the said commissioners, or any two of them, and filed within ten days thereafter, together with the foresaid survey and description of the lands, in the clerk's office of the county where said lands are situated, to remain of record therein; which report, or a copy thereof, certified by the clerk of said county, shall at all times be considered as plenary evidence of the right of the state to have, hold, use, occupy, convey, cede, possess and enjoy the said land; and the said commissioners shall, at the said time of filing the said report, pay the amount of the said award into the circuit court of the said county where the said lands are situated, for the benefit of the owner or owners of the said land; and the state may take the said land upon the payment of the said award into the said court.

3. And be it enacted, That in case the owner or owners of the said land shall be dissatisfied with the report made by the said commissioners, the party so aggrieved may appeal to the circuit court of the county where the said lands are situated, at the first term after filing of the said report, by proceeding in form of petition to said court, which proceeding shall vest said court with power and right to direct an estimate or appraisal of the value of the land, and assessment of damages, by a jury to be empanelled and sworn as in other cases; and a view of the premises if desired, and the same to be tried at the next term of the said court, to be holden in said county upon like notice, and in the same manner as other issues in said court are tried, and it shall be the duty of the jury to assess the value of the said land and the damages sustained, and if they shall find a greater sum than the commissioners have awarded, then judgment thereon, with costs, shall be entered, and such excess, with the cost, shall be immediately paid into the circuit court for the benefit of the parties interested but if the jury shall find the same or a less sum than the commissioners awarded, then costs shall be paid by the said applicant or applicants, and the payments so made, and paid into the circuit court shall be deemed to be valid and legal payments, and such application shall not prevent the state from taking the said land;

4. And be it enacted, That the said commissioners shall take and file in the office of the secretary of state an oath, well truly and faithfully to perform the duties of their appointment before entering upon said duties.

5. And be it enacted, That for the purchase of said land the sum of five thousand dollars, be and the same is hereby appropriated to be paid by the treasurer of this state out of any funds in his hands, not otherwise appropriated, on the warrant of the comptroller, under requisition from the said commissioners.

6. And be it enacted, That immediately after the title to the said lands or sites

shall have been acquired by purchase or otherwise, the governor of this state is hereby authorized and required to convey the said lands or sites to the United States, by good and sufficient conveyances, and under the great seal of this state, for building sites for life-saving stations, and for no other purpose, and without compensation to be paid by the United States.

7. And be it enacted, That this act shall take effect immediately.

Approved February 28, 1872.

CHAPTER LXXX.

A supplement to an act entitled "An act to provide additional accommodations for the insane of this state," approved March thirty-first, one thousand eight hundred and seventy-one.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That the "commissioners to select a site and to build an asylum for the insane of this state," appointed by virtue of the act to which this is a supplement, shall be vested with full control, management and care of the lands, premises, buildings, built or to be built, and appurtenances, heretofore purchased and hereafter to be purchased by them for the purposes of the proposed asylum with authority to grade, plant, fence and improve the said lands.

2. And be it enacted, That whereas said commissioners, in order to complete the site, to secure a full supply of pure and wholesome water and valuable quarry of stone, and make the necessary changes in the public roads required for the same, were obliged to purchase more land than was authorized by the act to which this is a supplement, the purchases of land heretofore made by them as described in their report to the governor and legislature dated December fifteenth, one thousand eight hundred and seventy-one, are hereby ratified and confirmed, and the commissioners are also authorized and empowered to purchase such other tracts or parcels of land, as may be necessary for the completion of the site, and the changes required in the public roads, conveyances for the same to be made to the state of New Jersey.

3. And be it enacted, That the said commissioners are authorized in their discretion when best deemed for the interest of the state, to sell such part or parts of the land purchased for the said asylum as may be necessary for the purposes of the same, and the governor is authorized and directed to make title to the purchasers of said lands by good and sufficient deed, signed by him under the great seal of the state and countersigned by the secretary of state, when required so to do by the said commissioners, if approved by him, and the moneys arising from said sale shall be appropriated toward the purposes of carrying out the provisions of the original act and this supplement.

4. And be it enacted, That for the purpose of preserving and maintaining order and preventing disturbances and trespassing on the lands of the asylum and the adjoining premises, the said commissioners shall have police jurisdiction within the grounds owned by the state, and one mile beyond the boundaries of said grounds, and it shall be lawful for said commissioners to appoint one or more fit, proper and discreet person or persons, who shall take and subscribe an oath or affirmation before the clerk of the county of Morris, which oath or affirmation shall be in like form and effect as now required by law for constables to take and subscribe; and which person or persons, so appointed and sworn or affirmed shall receive the same compensation and possess the same power and authority on the premises of said asylum, and on the premises adjacent thereto, within the limits named in this section, which constables now possess in criminal cases and in actions of trespass; and they shall have power and authority to arrest all persons who shall there be found unlawfully trespassing upon said premises or violating any of the laws of this state, or who shall conduct themselves in an immoral or disorderly manner, or in violation of the rules and regulations provided by said commissioners for the government of said grounds and premises, such rules and regulations not being in conflict with the constitution and laws of this state or of the United States, and said parties so arrested shall be taken without delay before some justice of the peace, or other proper officer having jurisdiction of the case, to be dealt with according to law, and that the provisions and powers of this act be extended to and conferred upon the managers appointed under the act entitled, "An act to provide for the organization of the state lunatic asylum, and for the care and maintenance of the insane," approved February twenty-third, one thousand eight hundred and forty-seven, and the several supplements thereto.

5. And be it enacted, That it shall not be lawful for any of the surveyors of the highways, or other person or persons, to lay out or maintain any new road or public highway or railway through or upon the lands purchased or to be purchased for the said asylum, without the consent

of the above named commissioners in writing being first had and obtained.

6. And be it enacted, That the said commissioners shall have power to contribute in labor by their employees and teams, or from funds appropriated to the building of said asylum, such amount as in their judgment they shall deem proper for the purpose of opening, working and maintaining the public roads leading to said asylum.

7. And be it enacted, That it shall be lawful for said commissioners to grade, lay down, maintain and open for the purposes of said asylum, a railway over any of the public highways leading to the same, or over any private property required for such railway, full compensation to be first ascertained and made to the owner or owners of such private property so taken by the commissioners, such railway to connect with any railway now built or hereafter to be built; provided, such railway shall not exceed four miles in length, and shall not interfere with the traffic on the said public highway.

8. And be it enacted, That in case the said commissioners shall not be able to agree with the owner or owners of private property or lands necessary to be taken for said railway, or for any purpose necessary for the said asylum, and for carrying into effect the provisions of this act, as to the amount of damage or compensation to be paid for the same, or if by reason of the absence or legal incapacity of the owner or owners, no such agreement can be made, the said commissioners shall make or cause to be made a survey of the land required for the purposes of this act, and a particular description of the same, and shall appoint a particular time when they shall meet on said land for the purpose of ascertaining and determining the value of the same and assessing the damages, and shall cause ten days' notice of such meeting and a copy of such particular description of the land to be given in writing to the parties interested if known, or if out of this state, such notice to be published in one of the newspapers published in the county of Morris, for a period of at least ten days prior to the time appointed for such meeting, and the said commissioners shall meet at the time and place so appointed and proceed to view and examine the said land, and make a just and equitable appraisal or estimate of the same, and assessment of damages, which report shall be made in writing under the hands and seals of the said commissioners, or a majority of them, and filed within ten days thereafter, together with the foresaid survey and description of the lands, in the clerk's office of the county of Morris, to remain of record therein, which report, or a copy thereof, certified by the clerk of said county, shall at all times be considered plenary evidence of the right of the state to have, hold, use, occupy, possess and enjoy the said land, and the said commissioners shall, at the said time of filing the said report, pay the amount of the said award into the circuit court of the county of Morris, for the benefit of the owner or owners of the said land, and the state may take the said land upon the payment of the said award into the said court.

9. And be it enacted, That in case the owner or owners of the said land shall be dissatisfied with the report made by the said commissioners, the party so aggrieved may appeal to the circuit court of the county of Morris, at the first term after the filing of the said report, by proceeding in form of petition to said court, which proceeding shall vest said court with power and right to direct an estimate or appraisal of the value of the land and assessment of damages, by a jury to be empanelled and sworn as in other cases, and a view of the premises, if desired, and the same to be tried at the next term of the said court to be holden in said county, upon like notice and in the same manner as other issues in the said court are tried, and it shall be the duty of the jury to assess the value of the said land and the damages sustained; and if they shall find a greater sum than the commissioners have awarded, then judgment thereon with costs shall be entered, and such excess with the costs shall immediately be paid into the circuit court for the benefit of the parties interested; but if the jury shall find the same or a less sum than the commissioners awarded, then costs shall be paid by the said applicant or applicants, and the payments so made and paid into the circuit court, shall be deemed to be valid and legal payments; and such application for appeal shall not prevent the state from taking the said land.

10. And be it enacted, That the said commissioners, before appraising the said lands, shall take and file in the office of the clerk of the county of Morris, an oath well, truly and faithfully to perform the duties of their appointment.

11. And be it enacted, That in order to enable the said commissioners to prosecute the work entrusted to their care, the further sum of one hundred and fifty thousand dollars is hereby appropriated, out of any moneys in the treasury not otherwise appropriated, to be drawn and paid in the same manner as provided for in the act to which this is a supplement.

12. And be it enacted, That all acts or

parts of acts which may conflict with any of the provisions of this act be and the same are hereby repealed, and that this act shall take effect immediately.

Approved February 28, 1872.

We have received the following from the Sec'y of the Elmira Premium Land Sale, which is advertised on our eighth page. This sale is endorsed by some of the most prominent men in and around Elmira, and we believe it will be conducted honestly.

OFFICE OF ELMIRA PREMIUM LAND SALE.

Elmira, N. Y., May 1, 1872.

Dear Sir:—Owing to want of energy and promptness on the part of our agents, and a general scarcity of money, we have not succeeded in disposing of enough shares to justify a Drawing, so we are reluctantly compelled to delay it for a few weeks, or until enough shares are sold to cover Premiums, Engravings and expenses. As in every large undertaking like ours, a great deal, nay, almost everything, depends upon outside exertions. We call upon our Agents everywhere to press the sale of shares, and to make prompt returns, and every Shareholder wishing to expediate the Drawing, should do all that lays in his power to help us along, by introducing new customers. Due notice will be given, at least seven days prior to Drawing, in all the newspapers advertising for us.

For the first time since the South Carolina Senators withdrew after the secession of the State in 1860, twelve years ago, all of the States of the Union are fully represented in the Senate of the United States.

The Lobby in the Work-shops and on the Farm. This title is not original with us. It was suggested by Mr. Charles Hewitt, the Senator from Mercer county, in his able and effective speech upon the New York and Philadelphia Railroad bill in the Senate of New Jersey, March 28th, 1872.

How has the Pennsylvania Railroad Company fulfilled its pledges that more liberal system of management should be inaugurated by them than was practiced by the United Companies? Many of our readers are misled by the removal of railroad works from the State; the low wages of employees are cut down still lower; the rates of freight and fares are increased in some cases, and the scale lowered in none.

THE ITEM. Bellevue avenue is receiving some attention from the road-master.

The thirty soil was refreshed by a light shower on Wednesday night, and the warm days since have made gardening delightful.

The store and dwelling of Mr. Hughes, near New Columbia, was burned on Wednesday of last week. Very little was saved. No insurance.

Fires to the right of us; fires to the left of us; east, west, north and south, burn and sputter. There has been some valuable timber destroyed during the past month, but much of the space burned over was bush land of little value.

Entertaining a Choir.

Since the great Boston Peace Jubilee, our hitherto quiet village has been in a state of continual uproar.

I could withstand this with a commendable degree of patience while they were singing songs and tunes; but in lieu thereof, we have something that would even make Watts, or any of the old hymn-makers, to make either head or tail, middle or beginning out of.

They came to the organ, the choir, and the audience; filling the house to overflowing, save one room which I had reserved for myself and my particular friends.

Obedient to my daughter's request, I made myself conspicuous by my acts of gallantry, especially to the young and fair—out of which number I expect to choose my second wife, at some future day.

The first song or two was remarkably well done, being of the simple, plain old school of long time ago.

The organ struck up, and rattled off a medley composed of "Oh, for a Thousand Tongues," "Old Dog Tray," "Let Me in My Little Bed," etc.

They sang the organ, the choir, and the audience; filling the house to overflowing, save one room which I had reserved for myself and my particular friends.

"Not yet," says Jim.

"For-ev-er—'for-ev-er," came louder and more of the "for-ev-er."

There stood the disturber, looking as cool and grim and brassy as if nothing had occurred.

But who was the individual with malicious intent?

"Have you any enemies, Mr. Wilkins?" "Enemies? No, sir, not that I am aware of; and I herewith authorize you to offer a reward of five hundred dollars for the detection of the sounder."

They stood the disturber, looking as cool and grim and brassy as if nothing had occurred.

Our Lake Scenery.

The scenery and air of our northwest lakes are beautiful and magical; and why people should go abroad, and breathe the pestilential air of decaying cities, and nations, when they can see this wonderful wealth of natural scenery, passes comprehension.

"Dolly Yards."

More about the "Dolly Yards" may seem superfluous to readers who are familiar with the new spring styles, and who have sense enough to attach to this fashion just the amount of importance which it deserves.

The Dolly Yards, then, is simply a hunched-up over-dressed, but in antique style, and made of any flowered material, which most resembles old-fashioned chintz bed-room furniture.

THE GALAXY.

The Galaxy has now entered on the seventh year of its existence, under circumstances of unusual prosperity.

This Magazine has from the first occupied a field entirely its own. The aim of the Galaxy has been to discuss promptly every great subject which is important in the public mind, and to have the discussion carried on by our ablest and best-known men in each department.

These papers, by conspicuous public men, on national topics of importance, will be continued, and will embrace contributions from the most prominent of our living statesmen, on questions of national interest.

A new series of papers by Judge Jeremiah Black (whose former articles attracted so much attention) will soon appear in the Galaxy; also other articles by our most prominent statesmen, which the publishers are not yet at liberty to announce.

In the January number commences a series of articles by General G. A. Custer, under the title of "My Life on the Plains." Judging from the first article, which is full of wild and romantic experience, which General Custer has had as a cavalry officer among the Indians, these papers cannot fail to be of very great interest. They will continue through the year.

The sketches of prominent living public characters by Justin McCarthy will be continued.—Mr. Mc Carthy is one of the most charming of magazine writers.

One of the most widely-known and popular of American Historians will begin early in the year a series of articles original in form and treatment.

The serial stories of the Galaxy have always commanded the widest attention. Those for the year 1872 will be by writers who have now a powerful hold on American readers. The Galaxy serials have been by such writers as Charles Reade, Anthony Trollope, Justin McCarthy, Mrs. Anne Edwards, and J. W. De Forest.

An ex-Shakeress begins in the January number the story of her "Fifteen Years Among the Shakers"—a narrative that will throw much light on the interior life of that strange community.

The "extensive Miscellany" of the Galaxy has proved so generally popular that the publishers seek to make it still more deserving of the attention of intelligent readers. The department is prepared by a distinguished scientific man of England, and Europe generally, are such as to enable the Galaxy to keep abreast of the latest facts.

Mr. Edward Crapsey, whose papers entitled "The Nether Side of New York," in the last two volumes of the Galaxy, enjoyed so much favor, will contribute further articles, descriptive of criminal and low life in the great cities. Mr. Crapsey writes from personal observation, and with a style of singular simplicity and clearness.

In the department of literary criticism the Galaxy will have the assistance of some of the clearest and brightest intellects in the country.

The Galaxy gives great care to the selection of short stories from the large number offered its editor, and makes them a noticeable feature of each number of the magazine.

The Galaxy is edited with the nicest possible appreciation of the public taste, and seems fitted to meet the wants of every member of the family.

For the trifling expense of \$4.00 per year one may obtain in the Galaxy a vast amount of instructive and entertaining reading; and were this his only source of culture, one could not be very far behind the age.

Military Claims!

All Soldiers of the war of 1812 who served 90 days, are entitled to a Pension of \$8 per month, commencing February 14th, 1872, to continue during life.

The Widows of soldiers who died in the war of 1812, at any time since, if they were married to the soldier before December 23th, 1811, are entitled to a FULL Pension of EIGHT DOLLARS PER MONTH, to continue for life. Those widows receiving less than \$8 per month can have the increase.

Many soldiers of the late Rebellion, are still suffering from injuries and diseases received in the service and are by law entitled to Pension, but have never applied for it; their disabilities are constantly increasing and may terminate in their death. They should apply immediately while proof of their disability can be obtained.

Soldiers discharged on account of Rupture or Wounds, who have received no bounty, are allowed \$100. Address

HARPER'S BAZAR.

Notice of the Press.

It is really the only illustrated chronicle of fashion in the country. Its supplements are no less worth the subscription price of the paper.—Wells fully maintaining its position as a mirror of fashion, it also contains stories, poems, brilliant essays, besides general and personal gossip.—Boston Saturday Evening Gazette.

There was never any paper published that so delighted the heart of woman. Never mind if it does cost you a new bonnet; it will save you ten times the price in the household economy it teaches.—Providence Journal.

The young lady who buys a single number of Harper's Bazar is made a subscriber for six—New York Evening Post.

The Bazar is excellent. Like all the periodicals which the Harpers publish, it is almost ideally well edited, and the class of readers for whom it is intended—the mothers and daughters in average families—cannot but profit by its good sense and good taste, which, we have no doubt, are to-day making many homes happier than they may have been before the women began taking lessons in personal, household and social management from this good natured monitor.—The Nation, N. Y.

"PROVIDENCE."

New 1871 Perfect
A GREAT IMPROVEMENT
of All Other Wringers!

It Saves Labor. It Saves Time. It Will Save its Cost Every Year.

It Wrings Faster than by Hand.

We consider the Providence superior to all others for the following reasons:

- 1st. The ROLLERS, of large size and best quality of White Rubber, are all secured to the shafts in the most permanent manner by the Moulton Process, making the best roller in the World.
- 2d. The PATENT METAL JOURNAL ROLLERS prevent any wear upon the journals.
- 3d. The DOUBLE SPIRAL COGS used on this wringer give the utmost ease and steadiness in working, while the double stop prevent them from bottoming or being thrown out of gear.
- 4th. The ADJUSTABLE CURVED CLAMP readily adjusts this machine to tubs of any size or thickness, making a perfect fastening. No wooden pegs or rubber straps on this Clamp.
- 5th. SIMPLICITY, STRENGTH and BEAUTY are combined in this machine, with all the requisites of a first class wringer.

HARPER'S WEEKLY.

SPLENDIDLY ILLUSTRATED.

Notice of the Press.

The Model Newspaper of our country. Complete in all the departments of an American Family Paper. HARPER'S WEEKLY has earned for itself a right to its title, *A Journal of Civilization*.—New York Evening Post.

The best publication of its class in America, and so far ahead of all other weekly journals as not to permit of any comparison between it and any of its number. Its columns contain the finest collections of reading matter that are printed. Its illustrations are numerous and beautiful, being furnished by the chief artists of the country.—Boston Traveller.

HARPER'S WEEKLY is the best and most interesting illustrated newspaper. Nor does its value depend on its illustrations alone. Its leading matter is of a high order of literary merit—varied, instructive, entertaining and unexceptionable.—N. Y. Sun.

HARPER & BROTHERS, New York.

Harper's Magazine.

Notice of the Press.

There are few intelligent American families in which HARPER'S MAGAZINE would not be an appreciated and highly welcome guest. There is no monthly magazine an intelligent reading family can less afford to be without. Many Magazines are accumulated. Harper's is edited. There is not a magazine that is printed which shows more intelligent pains expended on its articles and mechanical execution. There is not a cheaper magazine published. There is not, confessedly, a more popular magazine in the world.—New England Homestead.

A repository of biography and history, literature, science and art, unequalled by any other American publication. The volumes are as valuable as a mere work of reference as any encyclopedia we can place in our libraries.—HARPER'S MAGAZINE is a record of travel every where since the hour of its establishment. Livingston and Gordon Cumming in Africa, Stralsund among the Andes, and Ross Brown in the East, Spoke on the Nile and Macgregor on the Jordan—indeed, all recent travelers of note have seen their most important discoveries reproduced in these pages. Most of our younger and many of our older writers find here their literary biography. Our artists see the best evidences of their genius and the most enduring specimens of their work in the Magazine.—N. Y. Standard.

It is one of the wonders of Journalism—the editorial management of Harper's.—The Nation.

Ayer's Cherry Pectoral

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything so widely and so successfully won the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to either forms of disease and to young children, it is at the same time the most effectual remedy that can be given for the most distressing consumption, and the saner affections of the throat and lungs. As a protection against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. Work which else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses. For a Cough and Cold, no better remedy can be had. Take small doses three times a day and put the feet in warm water at night, until the disease is broken up.

For Influenza, when it affects the throat or lungs, take the same course.

For Whooping Cough, give small doses three or four times a day.

For Croup, give large and frequent doses until the disease is overcome.

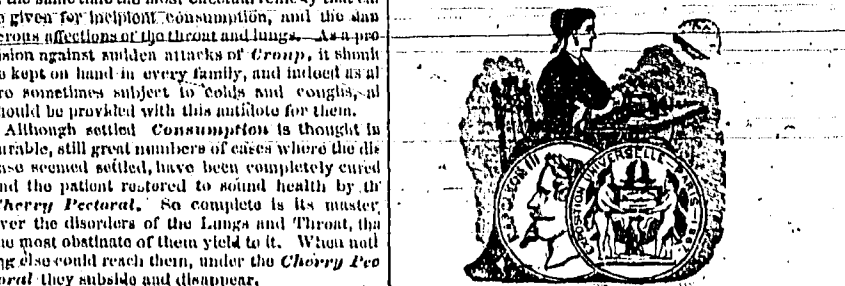

No family should be without the Cherry Pectoral on hand to protect them, in case of attack upon the patient a great amount of suffering and risk, which he would incur by waiting until he could get other aid. Parents, keep it in your house for the exigencies that arise. Lives dear to you may be saved by it.

So generally are its virtues known, that we need not publish certificates of them here, or do more than assure the public that the best qualities of our preparation are strictly maintained.
