[BY AUTHORITY.]

LAWS OF NEW JERSEY.

CHAPTER I.

An Act to prescribe the notice to be given of
applications to the Legislature for Laws,
when notice is required by the Constitution.

1. Be it enacted by the Senate and General
Assembly of the State of New Jersey, That
whenever by the constitution, as now amended
notice of the intention to apply for the passage
of any bill is required, such notice shall con-
tain a correct statement of the general object of
said bill, and shall be signed by at least one of
the parties who intend to apply for the passage
of such bill, and shall be published in at least
one of the newspapers printed and published in
every county where said bill is, or is likely
to take effect, and if no paper be printed and
published in said county, then in a newspaper
printed and published in some adjoining coun-
ty.

2. And be it enacted, That for the passage of
any bill for which application shall be made to
the legislature now sitting, such notice shall be
published at least ten days before the introduc-
tion of such bill.

3. And be it enacted, That after the session
of the legislature now sitting, the notice re-
quired by the first section of this act shall be
published at least once in each week for four
consecutive weeks next preceding the day pre-
scribed for the first assembling of the legisla-
ture in which such bill shall be introduced.

4. And be it enacted, That proof of the pub-
lication required hereby shall be made by an
oath or affirmation in writing made by the
publisher, or authorized agent of such publica-
tion, or every newspaper in which such publica-
tion was made, containing a copy of the notice
published, which shall be presented with such
bill when introduced, and, after the final vote
upon said bill, shall be filed and deposited by
the officers of the legislature in whose hands the
same may be, in the office of the secretary of
state, there to remain.

5. And be it enacted, That after the adjourn-
ment of each legislature the secretary of state
shall record, in well bound books to be provid-
ed by him for that purpose, every proof that
fulfills any such law as has become a law,
and such books, or any certified copy of their
contents, shall be received in evidence in any
place and for any purpose for which the origi-
nal proof would be received, in the same man-
ner as the original publication of any
law in the pamphlet laws published by the
state shall be prima facie evidence that the
notice required by the constitution has been
duly given.

6. And be it enacted, That if any one shall
falsely swear or affirm in the making of the
proof aforesaid, he shall be deemed guilty of
perjury, and on conviction thereof shall be liable
to all the penalties prescribed by law therefor.

7. And be it enacted, That all acts inconsis-
tent with this act be, and the same are hereby
repealed, and this act shall take effect immedi-
ately.

Approved January 26, 1876.

CHAPTER II.

An Act to provide for the Registration of Per-
sons entitled to the Right of Suffrage in
cities, in cases of Special Elections.

1. Be it enacted by the Senate and General
Assembly of the State of New Jersey, That in
all cases where a vacancy or vacancies have
occurred, or shall hereafter occur, by reason of
death, failure to qualify or other legal disability,
in offices which are filled at general state elec-
tions and annual municipal elections and special
elections, shall be hereafter held to fill such vacan-
cy or vacancies in incorporated cities con-
taining, according to the census of the year one
thousand eight hundred and seventy, more than
twenty thousand inhabitants, there shall be a
registration of all persons entitled to the right
of suffrage therein, respectively, as herein pro-
vided.

2. And be it enacted, That the judges of
election in the several wards or election dis-
tricts into which said wards are or may be
divided, shall constitute a board of registry,
and shall, as members thereof, severally take
and subscribe an oath or affirmation before an
officer authorized to administer oaths and affirma-
tions, faithfully and impartially to discharge
all the duties under this act according to the
best of their ability, which oath or affirmation
shall be entered on the register.

3. And be it enacted, That at least five days
before the day fixed in and by this act for the
meeting of said boards of registry to prepare a
revised and corrected register as hereinafter
recited, the city clerk of every such city or
village shall cause to be published in each of
the daily newspapers of such city, or continued
therefor, at least three days, a public notice
of the time and place of revising and correcting
such register and holding such special election
in the several wards or election districts into
which said wards shall or may be divided,
which places of revising and correcting such
register as hereinafter recited, and holding such
election, shall be the same.

4. And be it enacted, That the boards of
registry provided for in this act shall meet in
the several wards or election districts, at the
place designated in such notices, on Saturday
next preceding the time fixed for such special
election, at seven o'clock in the morning, and
shall remain in session until eight o'clock in
the evening (but may take any necessary recess
not exceeding one hour during that time); for
the purpose of revising and correcting the re-
vised and corrected register prepared for the
general election immediately preceding (taking
the certified copies thereof filed with the city
clerk of every such city or village), at which
said meeting the said boards of registry shall
add to said register the names and residences
of all persons entitled to the right of suffrage in
the election district at such special election, and
who shall appear in person before them; and
they shall erase therefrom the name of any
person who shall be shown, after a fair oppor-
tunity to be heard, not to be entitled to vote
therein by reason of non-residence or other-
wise; and upon the final completion of said
register the said boards of registry shall public-
ly announce and certify on the register the
number of names entered thereon, and on the
Monday following such meeting shall cause
certified copies of the list of names and resi-
dences of all persons so registered, and of the
corrected portion of the previous year, to be

meeting shall have been held and another cer-
tified copy of such names shall be filed with the
city clerk, and be open for public inspection;
and if any person shall wilfully tear down, re-
move or deface any list of names posted pur-
suant to this act, he shall be deemed guilty of
a misdemeanor, and on conviction be punished
by a fine not exceeding five hundred dollars.

5. And be it enacted, That the register shall
contain a list of the persons entitled to the
right of suffrage in the election district, ar-
ranged in the alphabetical order of their sur-
names in such a manner as to show the names
at full length, the residence by the number (if
there be a number), and the name of the street,
court or alley, or other location of the dwelling
place of each person.

6. And be it enacted, That the clerks of elec-
tion of the various wards or election districts
into which the wards are or may be divided,
shall attend said meeting of the board of regis-
try and act as clerks of said boards, procure
and furnish the register, make the entries
therein and prepare the certified lists for post-
ing and filing; provided, that in case of the
absence of the clerk, from sickness or other-
wise, said board may appoint a temporary sub-
stitute.

7. And be it enacted, That the proceedings of
the board of registry shall be open to the pub-
lic, and all persons entitled to the right of suf-
frage in the election district shall be entitled to
be freely heard in relation to the revision and
correction of the registry.

8. And be it enacted, That any member of
the board of registry may, at said meeting of
the board, administer the oaths and affirmations
required by law for testing and determining the
qualifications of electors and their right to be
registered, and that whoever shall swear or af-
firm falsely in relation thereto shall be deemed
guilty of perjury, and suffer the punishment
prescribed therefor.

9. And be it enacted, That any person who
shall cause or procure his name to be registered
in more than one election district, or shall cause
or procure his name to be registered, knowing
that he is not entitled to vote in the ward or
election district wherein said registry is made,
at such special election to be held therein, or
who shall falsely personate any registered voter,
shall be punished for each and every such of-
fense by a fine not exceeding five hundred dol-
lars, or imprisonment for a term not exceeding
two years, or both, in the discretion of the
court.

10. And be it enacted, That said register,
after being revised and corrected, shall be care-
fully and safely preserved by the board of
registry, for use by the members thereof as
judges of election on the day of election, and no
person shall be allowed to vote unless his name
shall be found on the register; and if any
member of the board of registry shall refuse to
register any person legally entitled to vote, or
shall, at the said meeting of the board of regis-
try, register the name of any person who shall
not have appeared before the board to require
the registry of his name, or be shown to have
been a legal voter in the ward or district at the
last preceding general election, or if, when
acting as judge of election on the day of elec-
tion, shall receive the vote of any person whose
name shall not appear on the revised and cor-
rected register, he shall be punished, on con-
viction for every such offense, by a fine not ex-
ceeding one thousand dollars, or by imprison-
ment for a term not exceeding two years, or
both, in the discretion of the court.

11. And be it enacted, That on the day of
election the clerk of election shall keep the
usual poll list, and one of the judges shall check
on the register the name of the person voting,
and after the canvass of the votes, the poll
list and the register so kept and checked shall
be attached together, and shall, within three
days thereafter, be filed with the clerk of the
county, if such special election be held to fill a
vacancy occurring in an office filled at general
state elections, and with the city clerk, if such
special election be held to fill a vacancy occur-
ing in an office filled at annual municipal elec-
tions.

12. And be it enacted, That the expenses in-
curred under this act shall be paid by the cities,
respectively, to which it applies; that the clerk
of election and each of the members of the
board of registry and each judge of election
shall receive three dollars per day for his ser-
vice under this act; provided, that compensa-
tion shall not be paid for more than four days
in respect to such election.

13. And be it enacted, That eight hours shall
constitute a day's labor on any day whereon any
general or municipal election shall be held.

14. And be it enacted, That this act shall take
effect immediately.

Approved, February 2, 1876.

RURAL TOPICS.

Written for the South Jersey Republican, by
one of the most experienced farmers, gar-
deners and fruit growers in the U. S. State.

AKEDING STRAWBERRIES.

The way to obtain seedling strawberries is as
follows: When the berries are fully ripe take
the variety you desire to experiment on (and
the poorest may produce as good seedlings as
the best, as "like does not produce like" in this
case) and wash the fruit in just enough dry
fine sand to separate the seed, so that they can
be sown and all. Prepare a small bed
made rich with well rotted manure, and thor-
oughly mixed with the soil; and if not in a
shady place it must be protected from the rays
of the sun in some way. Sow your seed in a
broad cast way, and cover with finely pul-
verized soil about an eighth of an inch deep,
packed down the earth with the back of a spade.
For a quart of berries mashed in sand a bed
three feet square would be large enough. In
about two weeks the plants will come up, and
the bed must be kept constantly moist and
shaded. In the fall the plants will require
careful protection for winter; and the next
spring they should be set in beds where they
will bear fruit the third year. Every plant will
be a distinct variety; and you may, perhaps,
discover some very superior ones, and in several
beds.

GROWING CROPS IN ORCHARDS.

It is decidedly advisable to cultivate apple
orchards for the first five or six years, manur-
ing well, and keeping the ground free of grass
and weeds around the trunks of the trees. Po-
tatoes are one of the best crops that can be
grown in a young orchard. Corn is also good
while the trees are small. Some farmers crop
their old orchards to advantage, plowing rather
shallow near the trees, so as not to disturb the
roots; but as a general rule old orchards should
be kept in grass; and "orchard" grass is very
good for such places, as it grows well in the
shade. An old farmer says: "I have an apple
orchard of seven and a quarter acres that has
been set seventeen years and is most of it in
very fine, healthy condition, and I have plowed
and cultivated it every year, I think, but two
since it was planted; and those two it was seeded to
clover and timothy, and yielded two good crops
of hay each of the two years.

The trees have now become so large that the
crops sowed or planted in the orchard do not
amount to very much, but taking the time from
the first planting of the trees, I think I have
raised as large an amount of crops on the land
occupied by the orchard as on any equal num-
ber of acres of my farm."

COVERING FODDER CORN.

In sowing fodder corn in drills, a good way
to manage the covering, is to cover with a plow
forming a small ridge over the corn. Then
make a smoother, as follows: Take a hemlock
just 4x4 inches, cut it in three 4 feet pieces,
then lay down the pieces forming a square, the
pieces being about 2 feet apart, then cover the
top with 5 boards nailed strong. In one end of
one of the outside pieces, bore a hole to admit
a small chain to hitch the whippetree to. We
will suppose the corn has been covered about a
week, and is well sprouted. Now take your
"drag," put a large flat stone upon it in front,
hitch your horse to it, and go over the ground
crosswise of the ridges. This will smooth the
land splendidly, the corn will come up immedi-
ately, or within 48 hours, the weeds will all be
destroyed; and frequently the crops will re-
quire but little, or no after cultivation. It is
necessary to watch the germination of the corn,
and drag it at the right stage of its growth, to
be determined by the heat of the weather. This
kind of roller drag is also excellent for smooth-
ing the ridges over potatoes covered with a
plow, in 15 to 20 days after being planted; and
the ground is left as free of weeds as it was
when the potatoes were planted.

SMALL FRUITS IN GARDENS.

But few people seem to know the value of
small fruits to a family when grown in their
own gardens. You commence with strawber-
ries; they continue about a month. You pick
perhaps from six to twelve quarts a day. You
have them on your table as a dessert, if you
please, at noon, and your tea-table is loaded
with them at evening, and you want little else
but your bread and butter. Your family con-
sumes in one way or another about eight quarts
a day, and while they last no medicine for
bodily ailments are required, as a quart of
strawberries daily will generally dispel all or-
dinary diseases not settled permanently in the
system. After strawberries, raspberries come
to continue about three weeks; then we have
blackberries where the climate is not too cold
for the cultivated varieties; then the currants
ripen, which remain till the early grapes ma-
ture; and taking the season through any family
with a half acre of land in a garden can grow
small fruits that make a country life delightful,
and at the same time hundreds of dollars can
be saved in the supply of the table, as the
writer knows from 40 years' experience.

CORN CULTURE.

If it were to try to grow the greatest possi-
ble crop of corn per acre, he should apply the
manure spread upon the land, the more the
greater the crop, then manure liberally in the
hill. Probably the hill system, rows about
three and a half feet apart, and hills the same
distance, or a little less apart, cannot be im-
proved. The land should be plowed according
to its condition. A sward turned over six in-
ches deep and laid flat will bear a good crop. A
deep rich soil not in sward should not be
plowed deeper than a pair of horses can easily
do at a smart walk, while light soils, with a
barren sub-soil, should never go into the sub-
soil, except when the land is well dressed with
barrenyard manure, and then only an inch or
two of it should be turned up. Chemical fertil-
izers may be worth their cost and they may be
frauds; consequently, the barrenyard manure is
the only safe reliance. The following are some
of the best chemicals: sulphate of ammonia,
sulphate of potash, muriate of potash, German
potash, salts and nitrate of potash. These ar-
ticles may be applied to any crop singly, or
mixed. They should be mixed with soil, ac-
cording to their bulk and strength, and a hand-
ful put in a hill of whatever is planted; but
they are profitable only when bought of whole-
sale dealers at the lowest market prices.

PLANTING MELONS.

Hog manure, when well decomposed with its
attendant litter, is the best fertilizer for melons,
squashes and cucumbers. When that is not to
be had, use the best well rotted barnyard ma-
nure that you have. Put two shovelfuls in a
hill, mix it thoroughly with the soil. Let the

seeds, when covered be about level with the
surface of the adjoining ground, 10 to 12 to a
hill, to be thinned out to three or four plants,
cover about an inch deep with soil that does
not form a hard crust after a rain, and when
the plants come up place coars, open at both
ends, over them to protect the plants from the
bugs. These boxes need not be made of boards
over six or eight inches wide; and they are a
sure preventive of depredations by bugs as
they fly near the ground, and the growing
plants are not seen by them. Land plaster is
good to keep away all insects from plants where
they are not otherwise protected. A little
should be sprinkled upon them early in the
morning while the dew is on. Ashes and every
other substance that will stick to the plants
will keep away the bugs.

PEAR BLIGHT.

It is generally considered that pear blight
can only be remedied by cutting away the dis-
eased wood. What the cause is has never been
fully developed; but wherever it appears to a
degree to cause the wood to decay and die out
it out down to the healthy wood, and allow the
trees to send up shoots from below the dis-
eased parts. In the first stages of the disease it has
often been cured by the use of the following:
To half a bushel of lime add four pounds of
sulphur; slake to the consistency of whitewash
and when it is applied, add to each gallon of
the wash half an ounce of carbolic acid. Ap-
ply this to the diseased parts. Where the bark
is diseased, remove the outer portion before
making the application.

HOVEN IN CATTLE.

When an animal becomes bloated or "hoven"
by eating too much grass or clover, as cattle
are liable to do on first being turned into a
luxuriant pasture, the best diet for such an
animal would be dry feed, composed of ground
oats, cracked corn, fine feed, and a small quan-
tity of sweet hay.

Our Centennial Offer.

On the 4th of July, 1876, we will pre-
sent a \$60 Weed Sewing-Machine, war-
ranted by the manufacturers to be in
perfect order and of the latest improved
pattern, to each of the five persons send-
ing us the largest number of new sub-
scribers from now until the 20th of June
next. No one, however, will be enti-
tled to a machine whose list of subscrib-
ers is less than thirty.

DR. VAN DYKE'S PATENT SHIPPING TAGS FOR SALE AT THIS OFFICE

Anti-Roman Catholic. The National Protestant

This great and popular Anti Catholic Journal is published monthly, and furnished to subscribers, postage-paid, at the low price of **One Dollar per Year.**

THE NATIONAL PROTESTANT is ably edited, thorough and outspoken in its opposition to Roman Catholicism and Popery. It is a vigilant sentinel upon the movements, designs, and purposes of the Roman Catholics in America.

THE NATIONAL PROTESTANT is a handsome sixteen-page Quarto Newspaper, of the same size of "Harper's Weekly" and the "New York Independent."

THE NATIONAL PROTESTANT is a first-class family paper, containing the choicest selections of literary matter, poetry, etc. and Agricultural, Household, Scientific, Foreign and Domestic News Departments. It should be in every Protestant home in the land.

THE NATIONAL PROTESTANT offers the greatest inducements to subscribers and those who will interest themselves to get up clubs for it. For particulars see the great Premium List published in the paper each number.

A Specimen Copy will be sent to any address in the United States, Canada, or Europe upon receipt of ten cents.

Remit money by Post-office Money Order, Registered Letter, or Bank Draft on New York City.

AGENTS WANTED, Male or Female, in every Town, County and City in the United States and Canada, to solicit subscribers for THE NATIONAL PROTESTANT. Apply with references, and enclose Twenty-five cents for Outfit.

Work for the Unemployed THE THISTLE EDITION

is the only fully illustrated Edition of Sir Walter Scott's

WAVERLEY NOVELS

of American make, and is "the best edition of the best English novelist."

The books are standard, and will sell for all time. The mechanical execution is of the best. The price is the lowest. Agents wanted everywhere, in whom liberal terms and exclusive territory are offered.

Forty-eight volumes averaging 400 pages each, and containing nearly 2,000 illustrations, will complete the series. Subscribers supplied with two volumes (a complete work) monthly. Eleven months deliveries (21 volumes) are now ready. Price—in cloth, gilt extra, per volume, \$1.50. Half Turkey, gilt top, \$2.25. For terms etc., address

E. J. HALE & SON, Publishers,
17 Murry Street, New York.

PHILHARMONIC PIANO.

This entirely new instrument possessing all the essential qualities of more expensive and higher priced Pianos is offered at a lower price than any similar one now in the market. It is durable, with a magnificent tone hardly surpassed and yet it can be purchased at prices and on terms within the reach of all. This instrument has all the modern improvements, including the celebrated "Agraffa" treble, and is fully warranted.—Catalogues mailed.

WATERS' NEW SCALE PIANOS

are the best made. The touch is elastic, and a fine singing tone, powerful, pure and even.

Waters' Concerto Organs

cannot be excelled in tone or beauty; they defy competition. The Concerto Organ is a fine imitation of the Human Voice.

PRICES EXTREMELY LOW for cash during this month. Monthly installments received: On Pianos, \$10 to \$20, Organs, \$5 to \$10. Second hand instruments \$5 to \$15 monthly after first deposit. Agents wanted. A liberal discount to Teachers, Ministers, Churches, Schools, Lodges, etc. Special inducements to the trade. Illustrated Catalogues mailed. **HORACE WATERS & SONS,** 181 Broadway, New York. Box 4567.

TESTIMONIALS OF **Waters' Pianos & Organs.**

Waters' New Scale Pianos have peculiar merit.—N. Y. Tribune.

The tone of the Waters' Pianos is soft, mellow and sonorous. They possess great volume of sound and the combination of sound or singing power is one of their most marked features.—N. Y. Times.

Waters' Concerto Organ is so voiced as to have a tone like a full rich alto voice. It is especially human in its tone, powerful yet sweet.—Herald, New York.

Trees! Trees!! Trees!!!

I have the largest variety and best assortment of Shade and Ornamental Trees, Evergreens, Hedge Plants, Shrubs, Plants, Bulbs, etc. in Atlantic Co. Also, Apple, Pear, Peach and Cherry Trees of the best varieties. All of which I offer at prices as low as any in the country.

Call and examine my stock.

Trees for the Million.

Note the Prices.

Pear \$15 } Per 100.
Apple \$10 }

The stock at these quotations consists of several thousand healthy young trees of various ages, sizes and sorts standing in broken rows on ground that must be cleared to make way for new plantings at spring, according to those wishing to purchase in quantity at small outlay, a chance of rare occurrence.

Extra and first class fruit trees of all kinds at extremely low rates. Also Hedge plants, comprising A Bar Vitis of several species, Norway Spruce, Hemlock, Pyracantha, Cydonia, etc.

My marvelous collection of rare ornamental deciduous trees for lawns, rich evergreens and beautiful flowering shrubs, most suitable to the occasion of this eventful period when all should ornament the home with trees, and those of the choicest, are especially worthy of attention. Sweet chestnut and tulip trees 10 to 12 feet straight and handsome.

A few thousand strong pear seedlings and Doucin apple stocks for spring grafting, very cheap.

Hothouse, window and bedding plants in great variety. Also cabbage, tomato, pepper, celery and egg plants.

The London Nursery.

FRUIT FARM FOR SALE!

IN THE GREAT FRUIT AND WINE REGION OF NEW JERSEY.

This Property is on Central Avenue, in the **TOWN OF HAMMONTON,** thirty miles S. E. of Philadelphia.

One mile from the station of the Camden & Atlantic Railroad, thirty miles from Atlantic City (the great ocean watering place), eleven miles from Egg Harbor City, (the great wine center) ninety miles from New York. Fruits sent to Philadelphia in 1 1/2 hours; to New York in 5 hours. **THE BEST MARKETS IN THE COUNTRY.**

Hammonton is at a pleasant distance for persons doing business in Philadelphia, who wish to reside in the country. Two morning and two evening trains all the year round. In summer four fast lines that stop only at Hammonton, so that people can come and go as they choose.

HAMMONTON IS
A Growing and Prosperous Town.

And a very desirable place of residence. Best climate on the Atlantic coast, or this side of California; owing to the dry sandy soil of South Jersey and to the nearness of the Gulf Stream to the coast. People highly intelligent, moral and enterprising. Excellent High and other schools. All sorts of places of worship; all sorts of stores; all sorts of amusements: social, literary, musical, dramatic and miscellaneous, thus meeting the tastes of all sorts of persons. Peculiarly favorable to invalids, especially for those suffering from affections of the throat and lungs. No fevers, and Agues. Excellent Water.

THE PLACE NOW OFFERED FOR SALE is one of the most beautiful and valuable properties of its kind that can be found anywhere and contains nearly 30 acres. House—large, (twelve rooms with all conveniences) neat and comfortable, beautifully situated upon a knoll, with large, handsome and well built barns and out-houses, in perfect order. Shade and ornamental trees and evergreens and shrubbery of many varieties, are uncommonly fine. Hammonton Lake, a beautiful sheet of water, stocked with black bass, lies in front of the house, and the title extends to the middle of the lake, giving every facility for bathing, boating, fishing, ice, skating, etc. The large public park is within 1/2 mile of this place on the shore of the lake. Any gentleman might be thankful to have so beautiful a home. And any fruit-grower or any other person who wishes to make an easy and comfortable living—by merely gathering and sending to market the products of the trees and vines now set out, might well consider it an extraordinary piece of good fortune to get it at a much higher price than is asked for this property.

There are now upon the place hundreds of pear trees, a bearing, and hundreds more coming into bearing. Hundreds of apple trees, also in bearing, and hundreds more just coming into bearing. Many cherry, peach, plum, quince, nectarine, fig, persimmon and other trees in bearing. A vineyard of one acre, and vines growing, in full bearing, and yielding fruit of every size, shape and color. All of these fruits are of the choicest kind.

There is also a fine patch of cranberries—an acre or more—that has been in bearing for 12 years. Also, all kinds of small fruits, straw berries, raspberries, currants, gooseberries, blackberries, logberries, tea berries, in fact everything that will grow and do well in this remarkably fertile soil and climate.

The trees are now so well established that without any risk and with very little care they will continue to grow in size and productiveness for years to come.

Sold only on account of the impaired health of the owner.

Cash Price \$10,000.

Jan. 3, 1876. 51-1/2

CUMBERLAND MUTUAL Fire Insurance Company, BRIDGETON, N. J.

Conducted on strictly mutual principles, offering a perfectly safe insurance for just what it may cost to pay losses and expenses. The proportion of loss to the amount insured being very small, and expense much less than usually had, nothing can be offered more favorable to the insured. The cost being about ten cents on the hundred dollars per year to the insurers on ordinary risks, and from fifteen to twenty-five cents per year on hazardous properties, which is less than one third of the lowest rates charged by stock companies, on such risks—the other two-thirds taken by stock companies being a profit accruing to stockholders, or consumed in expenses of the company.

The guarantee fund of premium notes being now Three Millions of Dollars.

If an assessment had to be made of five per cent only, twice within the ten years for which the policy is issued, it would yet be cheaper to the members than any other insurance offered. And that large amount of money is saved to the members and kept at home. No assessment having ever been made, being now more than thirty years, that saving would amount to more than

One Million Five Hundred Thousand Dollars

The Losses by Lightning.

Where the property is not set on fire, being less than one cent per year to each member, are paid without extra charge, and extended so as to cover all policies that are issued and outstanding.

And any fruit-grower or any other person who wishes to make an easy and comfortable living—by merely gathering and sending to market the products of the trees and vines now set out, might well consider it an extraordinary piece of good fortune to get it at a much higher price than is asked for this property.

There are now upon the place hundreds of pear trees, a bearing, and hundreds more coming into bearing. Hundreds of apple trees, also in bearing, and hundreds more just coming into bearing. Many cherry, peach, plum, quince, nectarine, fig, persimmon and other trees in bearing. A vineyard of one acre, and vines growing, in full bearing, and yielding fruit of every size, shape and color. All of these fruits are of the choicest kind.

There is also a fine patch of cranberries—an acre or more—that has been in bearing for 12 years. Also, all kinds of small fruits, straw berries, raspberries, currants, gooseberries, blackberries, logberries, tea berries, in fact everything that will grow and do well in this remarkably fertile soil and climate.

The trees are now so well established that without any risk and with very little care they will continue to grow in size and productiveness for years to come.

Sold only on account of the impaired health of the owner.

Cash Price \$10,000.
