The Cheapest

AND

The Best!

Life Insurance at Actual Cost

THE NATIONAL LIFE INSURANCE COMPANY OF CHICAGO, it vites the attention of those contemplating insuring their lives to its Mutual or Reciprocal

PLAN, which enables even the poorest man

to provide for his family in case of death, without being torn of the necessities of life, as do many who endeavor to pay the high premiums of old life companies, who charge for Assurance Death Losses, which never occur, and then add a heavy loading for extravagant expenses. On this plan you only pay for the cash bonus actually experienced, and as they occur, with a small fixed sum for expenses. Call on the agent for circular fully explaining this system.

The Practical Results!

Since its organization in 1870, the National has paid in death losses \$57,764, at a cost to the deceased of \$791.00 in premiums. Old Life Companies would have paid for the same premiums \$21,224, showing a gain by insuring in the NATIONAL of over \$36,540.

The Capital and Securities of this Company are sufficient to comply with the Insurance Laws of any State in the Union.

Best. Lombard, Free. S. W. Tamm, Sec'y.

H. E. BOWLES.

Agent for Atlantic County, New Jersey.

GERMANIA

INSURANCE COMPANY,

PHILADELPHIA, June 20.

SPORTING CONTESTS.

We have had a surplus of "sporting contests" during the past week. The great trotting match between Goldsmith Maid and Nettie, at Suffolk Park, attracted fully five thousand persons, and proved very exciting. The race was for a purse of \$5,000, and was won by Goldsmith Maid in three straight heats. The first heat was made in 2.23, the second in 2.26, and the third in 2.24. A large amount of money changed hands when the result of the race became known.

Hardly a day passes but that a game of base ball between professional players comes off, and the different clubs are reaping a harvest from the thousands who assemble to witness their playing. It seems strange that there is so much interest felt in this game: that hundreds of persons will pay from fifty cents to a

dollar for a seat to witness a game, three thousand persons frequently assembling to witness a match. Base ball playing is a trade in this city, and the "nine" of the Athletics receive \$18,000 for their services for the season. Many of the "matches" are sold before-hand in the interest of the gambling fraternity, and the game, from being a healthful sport, has degenerated into a gambling and money-making scheme.

The Schuylkill Navy regattas came off on the 17th and 18th inst., and were witnessed by thousands of persons who lined the banks of the river, and cheered the contestants in their sharp efforts to win the races. The boat houses of the different clubs were gaily decorated with flags, and presented a beautiful appearance. The course was from the Falls Bridge to Rockland, a distance of a mile and a half. Quite a number of clubs from New York and other cities participated in the races, which were won by different clubs. The prizes offered were handsome pieces of silver ware.

PEDESTRIANISM.

Edward Payson Weston, the famous pedestrian, has been giving an exhibition of his powers of endurance at the Chestnut street Rink. He commenced on Wednesday to walk two hundred miles in four days. As he only walks ten hours a day it will be seen that he has a difficult task to perform, especially as he walks a half a mile each day backwards. He has already walked one hundred and fifty miles, and bids fair to finish his task to-day. Weston has great powers of endurance, and is stimulated to complete his undertaking by the applause of the crowds who flock to see him. As the charge of admission is fifty cents, Weston finds his pedestrianism very profitable, and may be said to be walking into a fortune. Some of our physicians seem greatly interested in his undertaking, and our papers have lengthy accounts of what he eats, how he looks when his day's work is done, and every minute particular concerning him. A brass band is stationed in the rink, which performs excellent music, and serves as an additional attraction to spectators.

HOME FOR THE AGED.

Philadelphians abound in charities, and within the past few years quite a number of buildings have been erected here for charitable purposes, they being in most cases erected by private subscription. The Presbyterian Home for Widows and Single Women, which has been in course of erection for several years, is rapidly approaching completion, and will be opened in the fall. It is situated at Fifty-Eighth street and Darby Road, in the suburbs of the city, on a large lot of ground which was donated for this purpose by Mrs. Ann Thomas. The building will cost \$75,000, and will furnish accommodations for about one hundred inmates. Its object is to provide a home for aged and destitute females, who will be admitted upon the payment of a comparatively small sum, and will thereafter be provided for without charge. Applicants will be received from any part of the State, subject to certain conditions. The Home will prove a boon for many upon whom old age has come, and who are destitute of this world's goods.

STREET MUSICIANS.

An effort has been made for some time past by Mayor Stockley to prevent our streets being filled with itinerant street musicians, who annoyed the passers by with their discordant music, and were constantly asking for alms. The musicians were in most cases Italian children, who were stolen, or purchased from their parents in Italy, and were brought to this country by men called "padrones," who forced the children on the streets, and appropriated their hard-earned money. Some "padrones" had as many as a dozen children working for them, and in most cases treated them very cruelly. By an act recently passed by the Senate and House of Representatives, it is rendered unlawful for any person or persons, to employ minors to act as street musicians in this State, the penalty being a fine or imprisonment. The Italian Government has also taken the matter in hand, and we will hereafter be freed from this nuisance. The musicians have disappeared, scarcely one is to be seen on our streets, they having taken up their abode in some of the Western cities.

PARK DISASTERS.

Our Park, of late, has grown into disrepute with carriage owners and equestrians, on account of the accidents which are occurring there daily. Runaways are quite frequent, and are in most of the cases caused by horses taking fright from the whistling of the locomotives, which are constantly running on the different railroads which surround and run through the park. Quite a number of our prominent citizens have received injuries by being thrown from their carriages, which have resulted fatally, while others have considered themselves fortunate to escape with broken limbs. The park is a great place of resort for our people, and the railroads are deemed such an obstacle that an effort is being made by our authorities to have them removed from the vicinity of it.

THE FUSILIERS.

This crack military organization of Boston, Mass., paid a visit to our city on Wednesday, and were the guests of the State Fencibles. The Independent Fusiliers is the oldest military organization in Massachusetts, and was organized in 1786. After a street parade, they were reviewed by Mayor Stockley, and partook of a handsome collation at the armory. They were entertained at the Continental Hotel, and were shown the various places of interest in our city. They left for their home on Friday, much pleased with the kind reception which had been given to them.

RIVER EXCURSIONS.

The warm weather has come upon us, and it is severely felt by all. Those of our citizens who are obliged to remain in the city during the summer, especially the poorer classes, feel the need of some recreation, and the river excursions are well patronized. Steamboats leave here every day for points on the Delaware river, and the fare is placed at a price that will suit the purses of the poorest persons. It is a great blessing that the poor can find some cheap mode of travel, and can have a chance to get "a breath of fresh air." Our Park also affords an opportunity for a cheap picnic excursion, and every fine day hundreds of persons spend the day there, who, if it were not for this outlet, would be obliged to spend their whole time in narrow and crowded streets.

FINANCIAL.

There is no material change to note in the money market to-day. Call loans continue to rule at 4 1/2 per cent. First-class mercantile paper ranges from 5 1/2 per cent. There was an unusually dull stock market to-day, as well for stocks as loans. Gold closed at 111 1/2. The Pennsylvania Company lease, run and partly own twenty-one railroads west of Pittsburgh, the reports of the condition of which have just been made public at the instance of the Pennsylvania Company. This is commendable, and cannot fail to strengthen the credit of the Company. There is no more damaging sign of weakness in connection with railway affairs than the refusal of officials to publish any details concerning their opera-

tions, and we are glad to see that the Pennsylvania Company, closely connected as it is with the Pennsylvania Railroad Company, is free from that error.

The markets generally have been rather more active during the past week, but prices of most of the leading articles are without material change.

Truly thine, BROADBEN.

The Centennial.

"Never say die," is the watchword of the Centennial managers, and although their finances are not in a desirable shape, they have made a beginning in earnest. Work has commenced on the buildings in accordance with the original plans, it being the purpose to erect a machinery hall, agricultural hall, an art gallery, and the grand pavilion 1,600 feet in length, 500 in width, and covering an area of twenty acres, the other halls occupying a dozen acres more.

From the published reports, it appears that 190,520 shares have been subscribed, of which 177,172 were taken in Pennsylvania and 10,000 in New Jersey, leaving the insignificant number of 3,348 distributed over the remaining area of the country. It is worthy of note that one share has been taken in Prussia, two in Switzerland and fifty in England. Beside the stock subscriptions Pennsylvania and Philadelphia have contributed \$2,500,000, making the total assets \$4,405,000; of this sum \$423,998.33 has been paid in, and the disbursements already foot up \$142,712.63, leaving the amount in hand \$279,585.70.

No patriot can read without a twinge of shame that portion of the report which shows that the great State of New York owes only 1,184 shares, Massachusetts 272, Oregon 240, California 249, Louisiana 120, Missouri 16, Ohio 33, Wisconsin 62, Michigan 15, Indiana 31, and Illinois 3. As this nation is irrevocably committed to the Centennial, a grand success or a disgraceful failure is inevitable. The managers have not begun the labor of the building a day too soon; there is no time for rest between now and the spring of 1876.

We have faith that the pluck and confidence displayed in this earnest "break-in ground" will produce its moral effect upon the country at large, and that the work will go forward uninterrupted to a grand consummation.—Public Opinion.

Cranberry Scald and its Cure.

To THE N. J. COURIER.—My experiments have led to the conclusion that scald is not a disease "per se," but is caused by a want of proper nourishment to the cranberry plant, at a time when the fruit is making the greatest demand for food. This may arise from two causes. First, want of fertility in the soil; second, the setting of too much fruit upon the vines. Fertilizers applied at the right time, will help bring out a crop of cranberries as well as peaches. I only use fertilizers on poor spots that are heavily covered with burries.

In Monmouth county, our land is generally good enough without fertilizers, to bring out a crop of fruit. It is a principle of philosophy that something cannot come out of nothing, and you cannot expect to pick four or five tons of cranberries from land that will not grow a ton of hay.

Truly yours, W. S. KIMBALL.

The following are the points of the compromise Currency Bill signed yesterday by the President:

1. It fixes the maximum of greenback circulation at \$382,000,000, canceling the \$18,000,000 of the recalled \$44,000,000 reserve yet unused, thus shutting it out from being thrown into circulation.
2. It substantially abolishes the difference between greenbacks and National bank notes, since the greenbacks are no longer required as part of the bank reserve.
3. It reduces the reserves which the National banks are required to keep to 5 per cent., and thus substantially adds to the active circulation \$30,000,000.
4. It provides for transferring \$35,000,000 of the National bank circulation from Eastern to Western banks.

THE GEORGI PIANO-FORTES.

LATE NEWS REGARDING THEM.

The Georgi Piano-Fortes have taken the first premium over all competitors at the State Fair of West Virginia, in Kentucky, and at all other fairs and expositions where they have been exhibited.

Their durable build and refined expression of tone causes them to be the favorite instrument in seminaries of learning.

From Rev. L. VAN BOKKELEN, Rector of June Grey Seminary, Mr. Morris, N. Y., August 14th, 1873.

"I have pianos of other celebrated makers in the Seminary, but the Georgi was selected and used at the concert as the best. It is referred by teachers and pupils."

From Rev. WM. F. MORRISON, Rector of St. Luke's Church, Buffalo, N. Y.

"On leaving Iowa, I was reluctantly obliged to part with my Georgi Piano-Forte. When I settled in Buffalo one of my first cares was to provide my family with one of the same manufacture. It fully sustains the high reputation the Georgi instruments have in all parts of the country."

Mr. JOHN ZUNDEL, Organist of Henry Ward Beecher's Church Brooklyn, says:

"The Georgi has an exquisite action, and everything about it shows thorough workmanship and indicates durability."

Rev. S. H. MCCOLLESER, President of Buchtel College, certifies:

"We have been using two of your pianos the past year in our college. They have given great satisfaction. We regard them superior instruments."

From the New York Independent:

"As they were highly recommended to us, we bought one for our own use, and we find that they are worthy of all the praise they have received."

The above are only a few selections from letters continually arriving which prove

The Georgi to be the Leading Piano of the day.

I guarantee entire satisfaction and never fail to give it.
