H.E. BOYLES, M. D. Editor and Prop'r. SATURDAY, DECEMBER 2, 1876.

HAMMONTON, ATLANTIC CO., N. J. The vote in Florida has been decided, and gives a small majority to Hayes, and this by the Democratic count.

In a speech delivered a few evenings since in Boston, Wendell Phillips paid an eloquent tribute to President Grant.

Writers on Constitutional law are in demand here. Ben Butler says he's kicked so much by the press that he's about time for a change.

Florida Democrats must all have a brogue there. We hear them saying there have been great frauds in Dade.

Who can read Abram S. Hewitt's letter to Wade Hampton without exclaiming, what a sneaking Pharisee and disturber of the public peace!

Who can read Abram S. Hewitt's letter to Wade Hampton without exclaiming, what a sneaking Pharisee and disturber of the public peace!

An illustration of the coercive methods adopted by the Democrats in Florida, is given in the following resolutions adopted in the County of Jefferson.

RESOLUTIONS ADOPTED BY THE PEOPLE OF JEFFERSON COUNTY.

- 1. That we pledge ourselves, each to the other, by our solemn honor, to give the first preference in all things to those who vote for reform; and that we give the second preference in all things to those who do not vote at all.

Considerable excitement was created the first of the week, by the arrival of troops at Washington. The transfer to that capital was made of one of our young men, who was to be sent to the army.

The Adams (Jeff. Co. N. J.) Journal publishes a list of the oldest voters in that town, who all voted the straight Republican ticket.

Congress assembled on Monday, and the four leading Democrats who are looking for the Speakership, are Randall, Morrison, Taylor and Cox.

The Cranberry Crop.

The sour but cherry little berry of the ozygoon macrocarpa variety which will furnish our Thanksgiving tables next week, promises not to be quite so abundant as last year.

SUMMARY OF NEWS.

Interests from Home and Abroad. Burglar gagged and bound the watchman at Caldwell station, N. Y. Blow upon the safe and escaped with the contents. The left over a lively stable in Sacramento, Cal., was fitted up as a party theater with gallery seating and was called "Opera-house-barn."

which cost less than three hundred votes in 1872, gave Hayes 60,181 votes; Tilden, 49,416. The vote in New Jersey was 10,000 for Hayes, 18,721. In New York the vote was 10,000 for Hayes, 115,055 for Tilden. In Pennsylvania the vote was 12,488 for Hayes, 11,000 for Tilden.

Gov. Dix, the revolutionary president, congratulated the new president, commending him for his conduct in the late war.

Gov. Dix, the revolutionary president, congratulated the new president, commending him for his conduct in the late war. A portion of the proceeds of the sale of the property of the late President Lincoln, which was sold at auction on Saturday, was used for the relief of the distressed people of the district.

A Doctor's Dinner.

Doctors, by a vote much like other people, must eat, any amelioration of the habit resulting disastrously. They cannot eat the regular dinner as adopted by other citizens, but the restriction is absolutely required, even if the result has to be occasionally confined to a fast or taken on the fly while the winter months result in comparative complete abstinence.

Centennial Awards. The newspapers have been lately teeming with reports of the awards made by the Centennial Commission.

"The Model Reformers"
"The real secret of the World's unreasoning," said the Hon. Horace Greeley, on the 16th of January, 1864, "is our demonstration that the Custom House troubles are not traceable to Republican corruption, but are the inheritance of Democratic mismanagement and of the organized rascality which Democrats practiced for a series of years." And on the 8th of September, 1864, Mr. Greeley said: "All these abuses are of long standing, and were organized and used by the Democratic Party, when in power to strengthen and perpetuate it. It has been a common thing with that party to put upon the pay-rolls just before election hundreds of men, whose work was in return to vote the regular ticket. A large number of offices have been created, the most part mere sinecures, the duties of which were discharged sometimes by one hour's labor a day—sometimes one hour a week—sometimes by no other labor than the holders attending once a month to receive salaries. Watchmen enough were found, to be nominally stationed around a single building to guard a whole square, who, of course, were never out of their beds for Custom House business. This long examination has proved that those wrongs were not only of Democratic creation, but that they used them as a patent instrument to perpetuate their power in the purchase of supporters."

Nothing more distinctly shows the real place occupied by this western world in the federation of mankind than the resort made to it by every European nation in emergencies. They can all pass their time when we are perplexed and discuss their several superiorities when we are in trouble, but when the trouble and perplexity are theirs the United States is their common and certain resource. All of western Europe is now drawing food hence, and ships are under charter at the wharves of every port awaiting the arrival of grain that is wanted beyond the capacity of railways to deliver it. But beyond this familiar demand the apprehensions of war now or speedily—not averted from central Europe if the Turkish problem is adjusted—are making great demands upon all of our industries. Russian officers are contracting for vessels and cannon and guns and other material of war to-day. Turkey has lately renewed her order for cannon, muskets and other equipments. One of the prospective combatants has placed an order for a million pair of army shoes. France has ordered machinery and England implements; and the visitors to and representatives at the Exposition have left many orders of all kinds in the middle and eastern States that cannot be immediately filled. This suits our policy and our inclination. Without participating in European disputes we can and it is our interest to supply whatever deficiencies they occasion, knowing that this supply prepares the way for other exchanges in the future and feeds our business permanently, while restoring the balance between the two continents, turned against us by our war.—N. American.

The precautions taken in various European countries to prevent the importation of American potatoes, in order to exclude the Colorado beetle, seem natural enough, but are both ludicrous and useless. This pest has crossed rivers and lakes, has been found upon every highway of travel, has even been found at sea, and has undoubtedly crossed the ocean on shipboard. It has not at any time raised the price of potatoes, owing to the prodigious extent of country in which the crop is grown, and the bug does not last in any district more than two or three seasons. Whatever may be the causes of its disappearance, they are powerful and certain. A parasite is said to destroy the bug, and the use of Paris-green is fatal to it. But while it exists its increasing multitude is almost incredible to those who have not seen them. The greater portion of the potatoes sent to market are liable to trouble from bugs, whose march is like that of an army in solid column, and confined to a limited space of ground. It is unfortunate in this time that this pest should interfere with the export of potatoes, since the crop covers a vast area of country, and could be rendered available in commerce to an extent hitherto unknown.

BROWN CAN BE RECOVERED.—In the case of Robert McIntosh against Stewart Brown, of Monmouth County, an opinion has been delivered by the Supreme Court in favor of McIntosh. He is a Scotchman who lately carried on the mason trade in Freehold, and under peculiar distress paid Brown bonus or money on several sums of money. He sued to recover it back. The Monmouth Circuit held in his favor, and this has now been sustained by the Supreme Court of New Jersey, and because the present law of our State. A clear road is now marked out by this decision for all persons who have been ruined by paying exorbitant money, to get back what they have paid to the note-shaver.

CUMBERLAND MUTUAL Fire Insurance Company,

BRIDGETON, N. J.
Conducted on strictly mutual principles, offering a perfectly safe insurance for just what it may cost to pay losses and expenses. The proportion of loss to the amount insured being very small, and expenses much less than usual, nothing can be offered more favorably to the insured. The cost being about ten cents on the hundred dollars per year to the insured on ordinary risks, and from fifteen to twenty-five cents per year on hazardous properties, which is less than one third of the lowest rates charged by stock companies on such risks—the other two thirds taken by stock companies being a profit accruing to stockholders, or consumed in expenses of the companies.

The guarantee fund of premium notes being now Three Millions of Dollars.

If an assessment had to be made of five per cent. only, twice within the ten years for which the policy is issued, it would yet be cheaper to the members than any other insurance offered. And that large amount of money is saved to the members and kept at home. No assessment having ever been made, being now more than thirty years, that saving would amount to more than
One Million Five Hundred Thousand Dollars

The Losses by Lightning.
Where the property is not set on fire, being less than one cent per year to each member, are paid without extra charge, and extend so far to cover all policies that are issued and outstanding.
