Ford
THE UNIVERSAL CAR

Owners of Ford cars are advised to beware of "counterfeit parts." If your car needs adjustment bring it here where you will find reliable service with the complete mechanical equipment to give the highest quality of Ford service obtainable. All the Ford parts used are supplied by the Ford Motor Company. You can not expect your Ford car to give the service and endurance you demand unless you have it cared for by men experienced in Ford methods.

Barbers Have to Raise.
As everything in their line, as well as living expenses, has doubled during the past year or two, members of the Hammonton Barbers' Association have made the following schedule of prices, preferring to do that instead of using cheaper materials:

Shaving, 15 cts.
Hair cutting, 25 cts.
Plain shampoo, 40 cts.
Crude Oil Shampoo, 20 cts.
Singeing, 20 cts.
Facial massage, 20 cts.
Colgate's or Pinaud's, 5 cts.
All domestic hair-toucs, 10 cts.

Mr. Editor:—Permit me a few lines in regard to our Farmers' Week beginning the seventh. Our Director of Vocational Schools and Demonstrator of Agriculture have gone to much trouble and expense to bring talent to talk to us, and we who are interested should exert ourselves to attend, find out what the other fellow has to say, and if the other fellow's ways are better than ours, we evidently would find it out by staying at home. Come out and help us keep the Civic Club Hall warm with our presence.

Yours respectfully,
Laton M. Parkhurst

AMONG THE CHURCHES.

UNITED STATES FOOD ADMINISTRATION

WHAT YOU CAN DO TO HELP WIN THIS WAR.

See other side showing why you should do it.

Our problem is to feed our Allies this winter by sending them as much food as we can of the most concentrated nutritive value in the least shipping space. These foods are wheat, beef, pork, dairy products, and sugar.

Our solution is to eat less of these and more of other foods of which we have an abundance, and to waste less of all foods.

Bread and cereals.—Have at least one wheatmeal meal a day. Use corn, oat, rye, barley, or mixed cereal rolls, muffins, and breads in place of white bread certainly for one meal and, if possible, for two. Eat less cake and pastry.

As to the white bread, if you buy from a baker, order it a day in advance; then he will not bake beyond his needs. Cut the loaf on the table and only as required. Use stale bread for toast and cooking.

Meat.—Use more poultry, rabbits, and especially fish and sea food in place of beef, mutton, and pork. Do not use either beef, mutton, or pork more than once daily, and then serve smaller portions. Use all left-over meat cold or in made dishes. Use soup very freely. Use beans; they have nearly the same food value as meat.

Milk.—Use all of the milk, waste no part of it. The children must have whole milk; therefore, use less cream. There is a great waste of food by not using all skim and sour milk. Sour milk can be used in cooking and to make cottage cheese. Use buttermilk and cheese freely.

Fats (butter, lard, etc.).—Dairy butter has food values vital to children. Therefore, use it on the table as usual, especially for children. Use as little as possible in cooking. Reduce the use of fried foods to reduce the consumption of lard and other fats. Use vegetable oils, as olive and cottonseed oil. Save daily one-third of an ounce of animal fat. Waste no soap; it contains fat and the glycerine necessary for explosives. You can make scrubbing soap at home, and in some localities, you can sell your saved fats to the soap maker, who will thus secure our needed glycerine.

Sugar.—Use less candy and sweet drinks. Use less sugar in tea and coffee. Use honey, maple syrup, and dark syrups for hot cakes and waffles without butter or sugar. Do not frost or ice cakes. Do not stint the use of sugar in putting up fruits and jams. They may be used in place of butter.

Vegetables and fruits.—We have a superabundance of vegetables. Double the use of vegetables. They take the place of part of the wheat and meat, and at the same time, are healthy. Use potatoes abundantly. Store potatoes and roots properly and they will keep. Use fruits generously.

Fire.—Coal comes from a distance, and our railway facilities are needed for war purposes. Burn fewer fires. If you can get wood, use it.

GENERAL SUGGESTION.

Buy less; eat no more than need; eat less; eat smaller portions; eat local and seasonal supplies; patronize your local producers and lessen the need of transportation.

Do not limit the plain food of growing children. Do not eat between meals. Watch out for the waste in the community. You can yourself derive other methods of saving to the end we wish to stress—less waste, less extravagance and with varying conditions you can vary the methods of economy.

Interest to Farmers.

Hon. Isaac Bacharach,
House of Representatives.
Dear Mr. Bacharach:
Your letter of December 18 reached me in due course. I have delayed replying to it until I could give you some definite information concerning the nitrate question. The Food Control Act, approved on August 10, 1917, authorizes the President at his discretion to purchase nitrate of soda and to supply it to farmers for cash at cost. This is one of the matters to which I have devoted a great deal of thought and attention. I have been in daily touch with the War Industries Board, which was to make the purchases and deliver the material at the seaboard, and also with the shipping board. Arrangements were completed several weeks ago, through the War Industries Board under the immediate supervision of Mr. Baruch, to purchase approximately 100,000 tons of nitrate of soda in Chile in accordance with the authorization for such purpose in the Food Control Act. Because of disturbed shipping conditions it has been impossible, until recently, definitely to secure facilities for transporting the nitrate in whole or in part. Within the last few days preparations have been completed for the delivery at the seaboard during January of 18,000 tons, and every reasonable assurance has been given that supplies, up to the 100,000 tons for the ensuing months will be delivered. Every possible effort will be made to make certain these deliveries, but it should be understood that, on account of existing situations, circumstances over which there is no control might intervene.

I cannot state today exactly what the price will be, but it will be approximately \$75 on board cars at the seaboard. Farmers will have to pay freight charges to their local stations, the State fertilizer tag fee, which varies in different States but will probably not average more than 25 cents a ton, and any other local charges.

The nitrate secured under the appropriation will be sold only to farmers for their own use during the coming season, and generally not in excess of the amounts used by them heretofore. The Department is now arranging machinery for the distribution of the material and will give full publicity concerning the details of the matter.

Very truly yours,
D. R. Houston,
Secretary of Agriculture.
(Neighboring farmers should combine their orders, and notify Albert Schaffle, Emergency Farm Demonstrator, May's Landing.)

Un-Claimed Letters.

Ford
THE UNIVERSAL CAR

Owners of Ford cars are advised to beware of "counterfeit parts." If your car needs adjustment bring it here where you will find reliable service with the complete mechanical equipment to give the highest quality of Ford service obtainable. All the Ford parts used are supplied by the Ford Motor Company. You can not expect your Ford car to give the service and endurance you demand unless you have it cared for by men experienced in Ford methods. Runabout \$345, Touring car \$360, Sedan \$605, Coupelet \$560, Town Car \$615, One Ton Truck \$600. For sale by

Bellevue Garage, Hammonton.
