· Eclectic Magazine. Literature: Science, and Art Beautiful Embelishments. Fine Steel Engravings. NEW VOLUME AND NEW SERIES

Fine Steel Engravings.

NEW VOLUME AND NEW SERIES

BEGINS JABUARY 1864.

Commence Subscription With New Volume.

The Relectic Magazine was commenced, in 1844 and has been successfully conducted for the last twenty years, from that time to the present.

As many of the numbers are out of print and it is impossible for the Publisher to supply back volumes from the commencement, it is proposed, with the January number to begin a New Series and a New Volume, and while all the essential features of the work will be retained, some new once will be adopted which it is the flered, will add to the artistic and literary value of the word.

AND RECAL EISTATE AGONT.

Gives particular attention to the presuring and investing of money on bond and mortgage; also to the purchase and sale of Real Estate Agont.

H. H. LLOYD'S and CO'S. NEW OFFICIAL

MAP OF NEW JERSEY.

With information brought down to January, 1985 With information brought down to Jessian, 1985.

The larger part of this a contury has elaphed since the admirable man of New Jersey, by Thomas R. Gorden, was published. Excellent as it was at the time, the great prosperity and increase of the States, have long domained a New Map. So greatly was this need felt that by an act of the Legislature, passed March 2d, 1895, a Topographical and Geological survey was three-ed: It was domnersed and continued for some years, until the excess of expense beyond the unfittilited finicouraged the Legislature, and it was unspended. The late languide Dr. William Kitchell, who was at the head of the Geological department, did not like to see the freship of labor lost to the State, and, obtaining the years of labor lost to the State, and, obtaining the act for the purpose, he engaged the advotor priextra of tanor loss to the state, and, obtaining an act for the purpose, he engaged the sid of or private capital and enterprise for the preparation and issue of the preparation services appended state map, to the perfection of which he divisied the latter part of his life. He will live to see it opinivisted and test the residue to be derived, from it has a region which for the residue to be derived. From it has a region to his family.

AN ACT MELATIVE TO THE GEOLOGICAL SUREY OF

WHEREAS The State agricultural floriety by lieve it to be necessary for the agricultural and other interest of the state, that the topographical other interests of the state, that the topographical other interests of the state, that the topographical other interests of the state, the topographical other interests of the state, the topographical other interests of the state of the other interests the state of the state of the state and geological smiles to immensed by authority of this State, and fibe smiles after the state of the great shippine attending its presecution and whereas, at this time, through the efforts of the State Agricultural Society, it has been agree the State Agricultural Society, it has been agree to be made by the

and whereas, at this time, through the entries the Biate Agricultural Society, it has been assertianed that an arrangement can be made by the State wish Dr. Wm. Kitchen, prospects to completion this important work without any further expense to the state; therefore,

Be dispersed, i.e., That. Wm. Kitchel be, and he is bereby aptivitized to complete the geological survey of this State,—said three being made according to the plan prescribed by an act entitled. "An Act to cause a Geological Survey," approved the second day of March, sightess hundred and fifty-four; and that for the purpose of completeing asid survey, said maps, apparatus, and other materials appertaining to and heistofoly wind in said survey, said articles, to remain the property of the State, and to be returned to the State Treasurer after said work is completed; provided that asid geological survey shall be made and completed, and the maps and reports of said survey shall be made and published by said Kitchell, at his own cost, without any thangs or expense to the State.

equense to the State.

And be it enacted, That after said survey is completed, said Kitchell shall, without charge completen, said anicues squary management charge therefor, deliver to the Governor ten copies of the map and report thereof for the use of the State library and State officers, and one copy for the use of the State Agricultural Society; and shall also depait in the clerk's office of each county in the State one copy, to be kept for the free has and beneat of the people of said counties; the use and beneat of the people visual counties; the report of said birvey, of all the counties to be published in one book; and the curvey of the whole Birto to be shown on one map which shall be on a scale not smaller than three miles to the

And do if enacted, That this act shall take effect thimediately.

Approved March 16, 1869.

It is presented to the citizens of our State, with onfidence at the Set State more aver lesued of any State of our Union: THE TOPOGRAPHY

will be found very complete. The roads, h is school-houses, ratiroods, canals being carefully, marked; the hill work received the especial care of Dr. Kitchell. It forms a most complete picture of the whole State, and its numerous improvements of all kinds. THE COAST

is taken from Prof. Bache's admirable coast sur vey, with the roads on the bay, ocean, and river borders, revised by actual measurements by course and distrance. The soundings and channels are

THE CLIMATOLOGY

furnished by the celebrated Mr. Blothget; author of "Alherican Climatology," will be fluind of peculiar interest. The number of inches o rain falling in different sections is indicated by fished ing and figures. The average hypersure for summer, winter, and the year is also indicated by lines passing through the State. Thus we see that mean summer heat of 72 is in a line commencing at Cape May, filled running north and west in a caper to Lambertaville. In winter for this west in a caper to Lambertaville In winter for this west in a caper to Lambertaville. In winter for this west in a caper to Lambertaville In winter for this west in a caper to Lambertaville. that mean summer heat of 72 is in a line commensing at Cape May, find running north and west in a cerve to Lambertaville In winter the mean odd 32, is the same as Sandy Hook; while for the year, Philadelphia is the same average, 52, as Freehold. These cultious results are all shown to the eye on a marginal map.

A TIME DIAL

A TIME DIAL shows the title at each part of the State When i s noon at Trenton.
