#### Lost & Found.

STRAY Dog—came to my place Jan. 2nd.—white, with yellow markings. Owner please call on H. H. Sharpe.

Next Tuesday evening's lecture, by Dr. Robt. Forbes, will no doubt be one of interest. His topic will probably be, "Mistakes of the Devil and Some Other People." Besides being Corresponding Secretary of the Board of Home Missions of the Methodist Episcopal Church, he is chock full of good nature, sunshine, and sympathy. Do not fail to take in this worthy number.

SATURDAY, JANUARY 13, 1912

Complaints are received that local phone users are "sitting on" the  
line too long, far exceeding the time limit. The new directory, soon  
to be issued, will state that they must be restricted to five minutes.  
Just put yourself in his place, wanting a doctor, for instance, in a  
hurry, and some fellow hanging onto your line for fifteen minutes or  
more. The "local" is for public accommodation, not for prolonged  
gossip.

By the way, this is a good time to have a telephone put in, before  
the new directory goes out. Call up No. 1295 for terms, etc.

Changeable weather this; and yet local doctors are complaining of  
dull times—no business.

Hereafter, no more subscriptions will be taken for the "New Idea  
Woman's Magazine" in conjunction with the REPUBLICAN, as the  
publishers have doubled their price. We hope to replace this with  
another magazine of equal merit, ere long.

Most of our pavements were still blanketed with snow at one o'clock,

**It is a difficult matter for the**  
Registrar of Vital Statistics to  
enforce the law in regard to com-  
municable diseases, as required by  
the law. He has sent copies of the  
pamphlet laws relating to require-  
ments to the different physicians  
and has called the attention of the  
local Board to the neglect or refusal  
to comply with the law.

Every case of typhoid fever was  
among the Italian population, and  
probably contracted while in unsanitary  
berry shanties, with those  
from the large cities. Not a case  
being, to my knowledge, traceable  
to our own locality.

Of the eleven cases of tuberculo-  
sis reported, six are transient  
residents. That there are more  
cases of this disease in town there  
is no doubt, as there are occasional  
cases where even the death certificate  
gives this disease as the cause  
of death; yet the case had never  
been reported to our local Board.

At least five of the ten deaths  
from tuberculosis were non-resi-  
dents, who were sent to our healthy  
town to end their days.

The small number of cases of  
diphtheria is remarkable, and  
speaks well for the Medical Inspec-  
tor of the Schools, who would be  
about the first to discover any signs  
of a case, attending especially the  
Central Schools.

The first case of scarletina in  
four years was reported in Nov.

The death rate has steadily  
decreased during the past three  
years, and had our town never been  
known as a health resort, it would  
be still much lower.

The one great help that the Board  
has had in combating contagious  
diseases has been the skill shown  
by our Medical Inspector, in look-  
ing after all Quarantine Regulations.  
He has performed his duty, against  
threatened with a severe rebuke,  
while in others, offered bribes.

Respectfully submitted,  
J. C. BRIDGES, M.D., Sec'y.

**TO VOTERS OF THE SECOND CONGRESSIONAL DISTRICT**  
It has become a custom of late that candidates for Congressional honor shall make early announcements. The primary election occurs September, 1912, and is yet eight months distant. Notice is therefore given that I shall, Providence permitting, be a candidate for the Republican nomination for Congress in the Second District.

The District is composed of the counties of Atlantic, Burlington, Cumberland and Cape May. It will probably remain as now constituted, under the apportionment based on the census of 1910 soon to be made by the Legislature in session in Trenton. It is admirably connected contiguous as to territory.

It is a splendid district of honest folk, the great majority of whom are American born. Its agricultural sections are unsurpassed, Burlington County ranking as one of the six best counties of the nation, with the townships of Cumberland Co., parts of Atlantic and Cape May, containing arable lands equal to those of Illinois or Iowa. The manufacturing interests notably iron and glass, in Burlington and Cumberland, are extensive and important, two glass plants alone, those of Whittall, Tatum Company at Millville, and the Cumberland Glass Company at Bridgeton, with employees numbering about six thousand, compose the largest glass industry in America outside of the West. There are other great industries of cotton and leather goods. From the coast line which runs from Great Bay, on the Atlantic Ocean to the Delaware Bay, the business of propagating and catching fish and oysters yields abundant wealth. Famous old Cape May, and imperial Atlantic City, with many other thriving resorts, are a part of this district.

Any citizen might well be proud to represent such a constituency in the Congress of the United States. It has been fifty years since Cumberland County was honored with Congressional nomination. Our last Representative was the Hon. John T. Nixon, Republican, 1859-1863, afterwards United States District Judge, who served in the Civil War Congress. Since that day, Atlantic County has had Wm. Moore, Republican, 1867-1871, and John J. Gardner, Republican, 1893-1913; Burlington County Samuel A. Dobbins, Republican, 1873-77, and Dr. J. Howard Pugh, Republican, 1877-1879.

Later on, when the Legislature adjourns, I propose to make a thorough canvass of the Second Congressional District, and thus to meet its citizenship face to face. Hereafter, the nomination is to be made under the provisions of the direct primary enacted by the Legislature of 1911. Without the intervention of delegates or convention, the nomination is in the hands of the people, to do that which they deem wisest and best. I shall visit every section of the district, from Roebling, on the Mercer County line, to Cape May Point; from Absecon Inlet, in Atlantic County, to Stow Creek, on the Salem County border, during which campaign the support of Republicans generally will be solicited without regard to faction, presenting to them in public speech and through the press the platform on which it is my desire to stand.

I. T. NICHOLS.

**The Verdict Lucas vs. Inferiority**  
Any one of a dozen things may happen or two or three things generally do happen when an inferior paint is used. For instance, the paint won't dry, or the colors fade or the paint cracks and peels off, or the paint won't spread right, or the paint covers poorly and you need three coats instead of two, or it wears out in a year or two, etc. Further, inferior paint often leaves a surface in such bad condition that it's years before the damage done is really remedied. When repainting is necessary you are put to considerable trouble and expense to burn off all old previous coats so that the new paint can be applied to a good foundation. Remember these facts when you buy paint. Get good, honest, reliable
