Good Time at the Board.

A well attended meeting of the Board
of Trade was held on Tuesday evening,
in Odd Fellows' Hall. It was interest-
ing throughout, and denoted an awak-
ening along public lines.

The election resulted as follows:
President, W. Chas. Adlington.
1st Vice-Pres't, H. Kirk Spear.
2nd Vice-Pres't, A. L. Jackson.
Treasurer, Dr. J. A. Waas.
Trustees, R. J. Byrnes, Wm. Colwell,
Jos. R. Imhoff, Elwood P. Jones.

The election of Secretary was deferred
until next meeting, as the present one
was not willing to accept when there
was so small a monthly attendance.

Following was an excellent set-out, in
charge of the ladies; and all took active
part in this, as well as the speech-mak-
ing and social time. Mrs. Rider favored
with selections on the piano.

The meeting was a success, and
doubtless there will be a goodly attend-
ance at the February Board meeting.

Letter to the Civic Club.

283 South 6th St., Newark, N. J.

Jan. 1st, 1909.

The powers that decree what "good
form" is tell us that we may not address
each other as "ladies," so I suppose the
correct way to address you, is to say
Dear Fellow-women of the Civic Club.

I wish you all many happy New Years.

Several years ago I used to read, in a
leading New York daily, the articles of
a witty reporter, of the doings of some
of the Women's Clubs in New York
and its vicinity. They were very enter-
taining, but I got the impression that
at a club meeting the air was full of
flying fur, with much polite clawing
and scratching; so when we met, that
Spring day, to talk over our proposed
Club, I sat near the door to watch what
would happen. To my pleased surprise,
I found myself among old, tried friends,
and others of whom the little I did
know made us the more desirous to
know more,—all gentlewomen, with a
knowledge of business and practical
matters that instantly won my respect
and admiration. The social atmosphere,
too, was so genial and inspiring that I
could feel myself blossoming out, until I
seem to have come into a new life. All
the drudgery of it seems glorified, and
after I have been with you, all the dish-
washing, dusting, and weed-pulling are
much less irksome, as I know it must be
to many of you.

So, to-day, this New Year's day, I
am thinking of you all very tenderly;
and when three o'clock comes next
Tuesday, I shall wish there was a pri-
vate telephone, between me and you.

I am in Newark, where nearly forty
years of my life have been spent, and in
visiting among my friends here, I am
gathering up all kinds of hints that may
be interesting to us, in various ways.

In renewing my old friendships here,
I am constantly reminded of the dainty
"hand-outs" I used to receive so grate-
fully during those hot days we were
gathering up that \$300. The weariness
and anxiety have been almost entirely
blotted out of my memory, but the
many pleasant happenings grow bright-
er as the days go on. I have brought
with me a copy of Mrs. Bassett's poem,
about us, to show to the people here.
Everybody laughs, incredulously, when
I announce my entrance into Club-dom.
But after a while they begin to inquire,
anxiously, if there are any building lots
to be sold yet, on any terms, in Ham-
monon.

I haven't been to New York in three
years. I thought I was too old to brave
automobiles, and other dangers. But
now, that I have taken a new lease of
life, I am planning, fearlessly, a visit of
several days, to see cathedrals, mus-
eums, libraries, and other delights.
Ours or Yours.

The Board of Education had
nineteen applications before them, Mon-
day night, for the position of janitor in
the Primary buildings. After several
ballots, Clayton R. Bouillon received the
appointment.

MESSAGE BY GOVERNOR FORT

Names Needs of State to the Legislature.

ASKS POWER OF REMOVAL

N. Should Be Given to Governor. Courts, Senate or Commission, He Declares—Lays Stress on Importance of Providing Adequate Water Supply For Cities in Northern Part of State. Many Matters of Moment Discussed.

Trenton, N. J., Jan. 15.—The annual message of the governor, John Franklin Fort, to the senate and general assembly, was delivered this morning.

Members of the Senate and General Assembly: By the express terms of the constitution of our state, adopted in 1844, it is made the duty of the governor "to communicate by message to the legislature at the opening of each session . . . the condition of the state and recommend such measures as he may deem expedient."

Our constitution has few, if any, serious faults, and these can be remedied in the way pointed out in that instrument for its amendment.

Constitutional Amendments. Four amendments were referred by the last legislature for your consideration.

The first increases the salaries of the senators and assemblymen to \$1,000 per year, which should be done.

The second would make the term of the governor and the assemblymen four years and the senators two years.

The third authorizes the districting of counties for the election of members of the general assembly, and the fourth relates to the reorganization of the judiciary.

Concurrence in the amendments is earnestly urged. During the vigorous political campaign through which we have just passed, they were not criticized by any one.

Power of Removal of Officials. In my annual address I earnestly urged the enactment of a law giving to the governor the power of removal of public officials, not under the constitution, but by statute.

If the objection is to giving this power to the governor, then give it to the courts or to the senate or to a commission consisting of the governor, the president of the senate and the speaker of the house or some other body which may command itself to your judgment. The power should be somewhere.

If there be fear that the power will be abused, limit it to the following causes: First—Malfeasance in office. Second—Officers which are made permanent by statute.

Third—Misappropriation of public funds. Fourth—Conviction of crime. Surely there can be no objection to giving the power for such causes as these.

The governor and other constitutional officers may be impeached and removed from office. A senator or member of the assembly may be expelled and his office vacated by his associates, but there is no way now, except by resigning to get a statutory official out of office, even after conviction of crime.

Surely this method be thought to be slight by any reasonable person.

County Deeds of Taxation. So far as I know, no reasonable excuse exists for the further continuance of the county debts for the equalization of taxes. They cost the taxpayers of the state and counties about \$220,000 per year. If they ever had any useful purpose, which I doubt, they have served it, and their further continuance can only be justified upon the basis of an absolutely indefensible ground that places are provided for eighty-four persons to draw salaries from the public treasury which are not earned. If these county bonds are abolished, the revenue can be made for a board or body in each county with power to fix the tax rate and to equalize taxes by a simple method of procedure and at small expense. All the duties of a county board can be done from the state board for the equalization of taxes.

Department of Corporations. The creation of the department of corporations, in accordance with the recommendation of the commission on the reform of the corporation law in its report of last winter, is strongly urged.

New Jersey should continue and, if possible, broaden her past policy as to the organization of corporations. They came to us because of the conservative, settled character of our industry and the fairness of our corporate legislation. It is our duty to continue this policy, and to make it more effective by the creation of a department of corporations.

The state institutions of the state are a matter of the greatest importance. It is the duty of the state to provide for the state institutions of its cities and towns.

Motor Vehicle Department

What was said as to the creation of a motor vehicle department in my annual address last year is especially commended to the legislature. This department is constantly growing. It is sure to become one of the largest and most important departments in the state, with a revenue which is certain to reach a quarter of a million of dollars per year within the next few years.

It demands the constant and undivided attention of a district head, with the requisite inspectors and other officers to enforce the law. All such power should be exclusively in the hands of this department. Arrest and bail must be allowed by local constables or police for alleged violation of the law, but further procedure as to settlement or suit should be exclusively in this department or its representative.

That all cases of alleged apprehension and all acts of unscrupulous justices of the peace, who for the costs they receive encourage this class of litigation, would be ended. A more effective and better method of procuring a license, especially by nonresidents, should also prevail.

Excess. Whatever legislation may be enacted this year, one thing is evident—that the majority party in the legislature cannot, except in bad faith with the people, repeat the "balance law," so called. It is pledged to maintain that law, and the present governor stands irreversibly committed to that statute.

There is need for greater uniformity in licensing, and the present method of having licenses granted by an excise board, appointed by the mayor or court, in some places and elected in others and then in other places having the common council or the court itself grant the licenses is wrong.

The following modifications of the excise laws are suggested: First—The minimum license fee should be \$1.00. The basis of the population of the local municipality, provided that in no case should be less than \$1.00 in any municipality than that at which licenses are now granted in such municipality, and each application for a license should be advertised once for at least ten days before action is taken thereon that objection may be made thereto and heard.

Second—The number of licenses issued should be limited to not exceeding one for each 500 people, provided that no greater number of licenses should be granted in any place, where the present percentage is greater than this, than the present license places bear to the present population.

Third—A simple and definite form of procedure to revoke a license for violation of the law, with a provision whereby the license holder may be convicted on conviction of any crime or on a plea of guilty or non-vult.

Fourth—No license should be granted to any person not a native or naturalized citizen of the United States.

Fifth—No license should be granted to a person who had been convicted of any crime which would disqualify him under our state constitution.

Sixth—All right to transfer a license from one place to another should be prohibited.

Seventh—All license places should be closed from 12 o'clock midnight until 6 a. m.

Jury Reform. Jury reform is needed in this state. For years past sentiment has impeded it and the more efficient administration of both the civil and criminal law demanded it. There is no way to accomplish this reform, but that is through a jury commission in each county. This commission should consist of the sheriff and two citizens appointed by the presiding justice of the county court sitting in each of the eight courts of the state. The jury should be selected by the jury commission, and the jury should be made up of the jury drawn, and the statute should relate to both grand and petit juries.

Public Utilities. The public utilities of the state are a matter of the greatest importance. It is the duty of the state to provide for the public utilities of its cities and towns. Investigation

Almost every session of the legislature either authorizes or authorizes the governor to appoint investigating committees or commissions which have inquisitorial powers. If these investigations should be given a judicial character and be made by a supreme court commissioner appointed by the court on petition of the attorney general at the direction of the legislature or governor and there could be conferred upon such commissioner when appointed power to issue subpoenas out of the court appointing him to compel the attendance of witnesses and he were clothed with power to pass upon the admission or rejection of evidence, we should have a useful system in the state and a comparatively inexpensive one, and good results would flow from it.

On those hearings the attorney general could appear to represent the legislature or governor or the legislature could, if it preferred, direct that the investigation be conducted by a committee of its own or by a counsel appointed by the court.

There is no reason why members of the senate or house could not be appointed as counsel for their respective bodies to conduct the examinations and receive reasonable compensation for such services.

Automobiles. All vehicles upon the public highway should be required to carry lights. Speed regulations in the open country should be liberal. Thirty miles an hour could be allowed there with safety.

Arrest and trial should not be summary, but the right to trial should only exist in violation of the law. The driver of the machine of the requisite kind in order to obtain a license should be required to give evidence. If violation of law be charged, suit should only be instituted by direction of the department in proper courts near the residence of the alleged offender or at convenient points within the state for the nonresident.

Within injury to person or property by the driver of a car, or such injury by an intoxicated driver, should be a misdemeanor and punishable accordingly. The law should be amended to give the injured party or the owner of the damaged property the present license fees are not excessive.

Employers' Liability Act. The enactment of an employers' liability act is the best of the best of our time. The old common law rule, which prevents an injured man, although innocent of any negligence himself, from recovery because some other person was negligent, is not adapted to our day.

By the decisions in our state, the superintendent of the factory is a fellow workman with the employee, and the employee is a fellow workman with the superintendent. The rule is a modern condition of work is self evident.

Another objectionable rule has grown up by court decision, namely, if a workman works at a defective machine, or under defective appliances, knowing it to be defective, even though the master also knows it and puts him to work thereon, or thereupon, and the workman is injured, he cannot recover.

The rule as to contributory negligence of the workman himself, which is not adapted to our day.

On July 25th, 1908, J. S. T., of Brooklyn, N. Y., asked The Prudential for information concerning its policies. Our representative called, and T. said that he would take out a \$5000 policy about January 1st, 1909. T.'s wife and the agent tried to induce him to apply immediately, but he refused. October 26th, T. fell sixteen stories down an elevator shaft, and was killed instantly.

which act directly on the kidneys. They will cure
vice versa of quick results for Backache, Rheumatism,
Lumbago, and tired nervous feeling. 25 days' trial;
if no. They purify the blood. Sold by City Pharmacy,
D. & B. House, Prop.

For some reason, brand new
nickels, cents, and larger denomina-
tions, seem abundant during the past
few weeks. We note, also, that gold
coins (new and old) are decidedly scarce
in our neighborhood, and bills quite
abundant,—the green kind, issued by Uncle
Sam, we mean.

Don't Laxative Cough Syrup is guaranteed. This is
because we know what it will do and want to con-
vince you. It is especially recommended for children
as it is pleasant to take and is gently laxative. For
Price 25 c. 50 c. and \$1.00. Sold by City Pharmacy,
D. & B. House, Prop.

Writing from Providence, R. I.,
Wm. F. Walther says: "We have
gladly read your magazine very much,
and would certainly have had it mailed
to us had we known we would be
away so long. The change has done us
both a lot of good, as the weather is
very bracing up here,—but will be glad
to get back to Hammoncton, which we
expect to do about the first of the
month."

Letters received from Rev. How-
ard N. Amer, this week, acknowledge
in gratitude the receipt of the twenty-
eight dollars received from Hammoncton
friends. One can gain some idea of the
family's situation when they remember
that Mrs. Amer is still very ill, though
apparently better; that living there is
expensive,—kerosene oil being 25 cents
per gallon, sugar 73 cents a pound; the
salary \$350 a year, with a circuit of
about nine square miles to travel over.

The Greenmount Cemetery As-
sociation re-elected its two trustees
whose time expired,—Messrs. W. H.
Tilton and D. C. Herbert, on Tuesday
evening. The trustees organized by
electing

President, W. L. Black.
Vice-President, J. B. Small.
Treasurer, W. B. Tilton.
Secretary, O. E. Hoyt.
Supt., H. E. Andrews.

The Hammonton Paint

Is the very best paint that was ever used in Hammonton.

There are scores of buildings that you see every day, painted with the Hammonton Paint eight to twelve years ago, and looking well at the present time.

The Hammonton Paint is sold for less than any other first-class paint. It has no equal, as it works well, covers well, and wears well. Sold by

The Orient.

An international anti-opium conference is to be held in Shanghai, China, this month, with the view of finding the best means to suppress the opium traffic in the far East. Turkey, Persia and Russia have been invited by Sec. Root to participate. France, Germany, the United States, China, Japan, Portugal, and Great Britain already have named delegates. The opium traffic is to be discussed from economic, moral, and scientific points of view.

The East is specially appealing to us. Every year that great far-off, populous eastern world is growing in influence, and we need to meet with temperance teaching the alcohol danger that threatens.

The alcohol danger in the Orient is not a matter of idle words. For illustration, it is reported that American brewers, foreseeing the overthrow of their business in this country, are already buying up property in Tokyo, preparatory to transferring their business to Japan when brewing ceases to be profitable in the United States.

The battle will be great, and long, perhaps, but victory is sure.

The stockholders of the Hammonton Trust Company, at their annual meeting, held on Tuesday, Jan. 12th, elected the following Directors to serve for the ensuing year: A. J. Rider, Joseph R. Imhoff, Geo. Josias, Daniel M. Ballard, H. Kirk Spear, Arthur Elliott, Edw. S. Lee, Andrew Eberidge, Dean S. Renwick, W. H. Bernhouse, Wm. Colwell, Henry Measley, J. C. Butler, M. D., Jos. Thompson, Thos. Skinner, John Hoyle, J. Nelson Ake, John T. French.

Wm. D. Aitken, son of the late Wm. and Jane Aitken, a nephew of the late Alex. Aitken, was killed on the Central Railroad at Jersey City, Jan. 6th. He was 24 years old. The body, accompanied by his mother, was brought here on Wednesday morning and laid to rest in Greenmount Cemetery. Mrs. Aitken was a former resident of Hammonton, and has our heart felt sympathy.

SUMMER BOARDERS. Farmers and others with accommodations for summer boarders, near the Reading, who will send at once description, rates, etc., to nearest Philadelphia & Reading Agent, or Edson J. Weeks, General Passenger Agent, Philadelphia, will be listed in the Reading's Booklet, "Summer Boarding Houses," free of charge.

December 10th to 12th, a poultry and pet stock show was held in Vine-land. Mr. T. W. Vane, of Hammonton, sent four birds of the Houdan breed, from his coops, with no special preparation, and received three first premiums (blue ribbon) and one second (red ribbon). The competition was heavy, including a trio from Rev. C. E. Peterson's coops, in Malaga, for which the exhibitor paid fifty dollars. The badges arrived on Monday last, owing to some delay.
