## A WONDERFUL TOWN.

Who'll find on the map the town of No-good? It stands on the river called Flow. In the wide wide valley called What's-the-use In a shimmer of hazy glow Which is formed by the fogs of idle-dreams That float by the old river's side. The stones of the town are quarried, some say. In the province of Let-it-slide.

The streets are paved with plans never worked. Burst bubbles float high in the air; There the Some-time-or-other tree is found. And the Walt-a-while blossoms fair. The folks in that town are a wondrous race; For there dwells the Give-it-up clan. And the reckless giant called I-don't-care, With the Never-minds to a man.

There the soft Go-easys, in silk attire, In the Tired-feeling pleasure ground, Parade to the strains of the Do-nothing band, And smile at the amorous sound. 'Tis well nigh as old as the old, old hills, This town on the river named Slow. Not find it? Ho, ho! It is easily found By those who are minded to go.

You have but to scramble up Lazy Hill, And fold your two hands without care; Then just take Weak-will's toboggan slide. No fear but you'll find yourself there. A wonderful place is the town of No-good, On a wonderful river it stands; For its source is a spring called Useless-leads, Far away in Night-have-been Lands.

—Emile Searchfield, in *Little Folks*.

## How About It?

EDITOR REPUBLICAN: "Stranger," in his communication, seemed to feel a need of a boom in this town. Why, bless his innocent heart! don't he see the boom the license people promised Hammonton? Are the words of wisdom so soon to be forgotten? "There will be a business boom in Hammonton until we have a license," was the appeal sent forth to the rank and file of the inhabitants of this town only a few months ago; and many, in childlike simplicity listened to the words of the Solons.

If the prosperity of this town depends upon the saloons, it will require a more powerful glass than that in the Lick Observatory to locate it in the dim and misty future.

Why, our genial friend M. K. Boyer believed, or seemed to, that every living thing in town would feel the effect of the new order of things. Like the fowl of history,

"Two eggs would each hen's daily output be, And on Sunday she'd hump herself and make the number three."

Alas! for human hopes and vain ambitions! The wheel of fortune of most of us is still hub deep in the same old rut (no reference to the condition of our graveled [?] road-beds).

It has been said that when a man realizes that he is a fool, he has taken the first step toward an education useful alike to himself and his neighbors. What is true of an individual is quite as true of a town, state, or nation. I don't think I am far astray in saying that Hammonton (judging from indications) has not yet learned the primary lesson. A few years ago there was some talk of a glass factory being started here. Some of the good people held up their hands in horror. "It would not do," they said, "to introduce such an element" into our virgin society. It would contaminate our young people. While I will admit that there is nothing exactly anglo in the make-up of the average glass-blower, yet I venture they will pan out as much real manhood to the square inch as will many of the sugar-collared specimens of the Creator's handiwork. Furthermore, the money such industries bring into a town means a great deal, and it would not all go to the bar-room either. It would mean business for the grocer, the shoe dealer, the market man, and so on down the list. These people must have houses to live in. In fact, the money so brought in would be spread about with the same soothing effect, if you please, that oil has on the troubled waters; and in so spreading, some of it might indirectly, if not directly, find its way into the churches.

Should the future bring men here wishing to start up some honorable industry, that there may be no wet blanket slapped in their faces is the hope of one who is

NOT A STRANGER.

From Co. F, 4th N. J. V. I.

Camp Wetherill, Greenville, S. C.  
MR. HORT:—We came off provost on Thursday, after a ten days' trick. It rained most of the time we were on, and has rained twelve days out of fifteen. Folks kick at the condition of the roads at home after a long rain, but they don't know what mud is; it gets knee-deep here. Tuesday night was so cold that the rain froze as soon as it struck, and had everything covered with ice by morning. When the boys got back to camp their tents were covered with ice, and when fires were started water ran through the canvas until we expected to be flooded out; but we are all right again, and on duty in camp. Our regiment is called the "New Jersey Land Improvement Company," as we don't do a thing but use shovels, rakes, and brooms, and clean land all around the camp. We got off easy while on provost duty, having but one fellow knocked out,—he was kicked in the stomach, but is on duty again.

Greenville is a mile and a half from our camp. It has 12,000 inhabitants, two-thirds colored, and 7000 soldiers. They were all paid in two days. We were expecting more trouble than we had. The man on the post next to me shot at an escaping prisoner, missed him, but hit the Sheriff's house and the ball went through the side of the house, hit a scantling, splintered it, and struck the wall over a young fellow's head in the parlor,—making paper and plaster fly.

The law here only allows a man to sell beer and whiskey between sunrise and sun-down, but the moon-shiners are the men who do the business, with corn whiskey at thirty cents a quart; and after a fellow drinks a half-pint he sees snakes, and wants to fight. The Second West Virginia boys are the worst we had to handle. They sent us word the day they were paid off that some of them were coming down to muster out the 4th N. J.; but we were ready for them, and all of them who were drunk and acted any way funny we just run into the guard house; and the next morning we had a full house of them. STEPHEN WOOLBERT.

A weekly day of rest is an absolute necessity. If we hope to preserve our health; and whoever pays no heed to the Sabbath is sure to suffer. Man needs a weekly rest. London is a city where a weekly rest is observed to a considerable degree. In London there are eighty-seven suicides in a year to a million people. Paris, without a Sabbath, gay and godless, have five hundred and ninety-two suicides per year to a million inhabitants, or nearly seven times as many to the million as in London. Men who observe the Sabbath are not likely to die from exhaustion and suicide. We are made on a seven-day scale and require a weekly rest day.

## The Republican.

[Entered as second class matter.]

SATURDAY, JAN. 21, 1899.

Think of it, — a unanimous nomination of a Republican in New Jersey for U. S. Senator. But when the Kean candidate is recalled, it is not so wonderful after all. And that is what we elected a Republican legislature for.

Attorney General Griggs has been asked to deliver the Yale Law School Commencement address. If he should accept, there would be assurance of an up-to-date American oration.

It is an interesting and instructive coincidence, that the State of New Jersey enjoys practical freedom from debt, and a surplus of \$300,000 to \$1,000,000 only under Republican administrations.

Congressman Dingley is dead. He was one of the most useful men in our Congress. His name will be forever associated with the tariff bill that brought prosperity to the country after President Cleveland's tariff reform policy had wrought both destruction and misery. Humanly speaking, Mr. Dingley ought to have lived.

Senator Stokes wants the surplus in the State treasury transferred to the school fund in such amount that the per capita tax may be reduced from \$5 to \$4. That would please every tax payer in the State. It would make over \$800 less for Hammononton to raise next year.

State Road Commissioner Budd sent the shivers up the backs of his hearers the other day, when he declared that general benefits came through the formation of "trusts." This term has been used to frighten people, the same as the phrase "anti-corporations" has been made a catchy word for demagogues. "Trusts" are not all the great beasts that they are painted.

They say that the Central Railroad of New Jersey has ordered 4000 new freight cars of heavier capacity and modern design, at an approximate cost of \$2,200,000. That's work for an army of mechanics.

Learning is either good or bad according to him that has it, — an excellent weapon if well used, otherwise like a sharp razor in a child's hands.

There are few things impossible in themselves, and the application necessary to make them succeed is more often wanting than the means.

Flirtation is like a piece of chewing gum; the longer you keep it up the less satisfaction you derive from it.

You may lead a horse to water, but you can't make him drink; and there are men built the same way.

Positive bet; comparative, better; superlative, better not.

### FLORIDA.

The midwinter exodus has begun. The discomforts and dangers of our Northern winter are directing attention to the south.

The first Pennsylvania Railroad tour to Jacksonville, allowing two weeks in Florida, will leave New York and Philadelphia Jan. 24.

Excursion tickets, including railway transportation, Pullman accommodations (one berth), and meals on route in both directions while travelling on the special train, will be sold at the following rates: New York, \$60.00; Philadelphia, Baltimore, and Washington, \$48.00; Pittsburgh, \$53.00, and at proportionate rates from other points.

For tickets, itineraries, and other information apply to the ticket agents, Tourist Agent at 110 Broadway, New York, or to Geo. W. Boyd, Assistant General Passenger Agent, Broad Street Station, Philadelphia.

Tramps seem to be abundant. A pair of robust young specimens were soliciting contributions early Tuesday morning; and distributing abusive epithets among those who did not respond liberally. But one of them made a mistake when he intimated a doubt of U. H. Scullin's parentage, and was quickly impelled to assume a recumbent position, with the damp earth for bed and pillow. More of such stalwart arguments could be beneficially used.

James Grist's house, which burned a few weeks ago, was insured for \$1500. The Insurance Company claimed that this was excessive. They chose Frank Souders, of Atlantic City, and Mr. Grist named E. W. Strickland. Both builders figured on the cost of replacing the house, and varied but \$37 in their estimate, which was over \$1000. The insurance will be paid, and the house probably rebuilt.

INSTRUCTION. Private instruction given to young children, in Elementary English, French and Music. Inquire at H. Mark's Rectory, of Rev. E. O. ALVORD.

The following is copied from the Pleasantville Press, and the editor says it was sent him by "a citizen of Hamonton":

Wanted—in Hamonton—an honest man, with a conscience as elastic as India-rubber, good-natured, intelligent, reliable, capable of taking and obeying "orders," obedient to the master's will, a Republican by profession, if not at heart, to fill an important government position, to administer its duties impartially, and, for awhile, to act as assistant to the present incumbent until such time as the village is deemed worthy, by "the powers that be," of having a Republican Postmaster. Contractors, butchers, storekeepers, millers, and business men generally need not apply. The disposition of said office is at present subject to the will of some person unknown.

Insure with A. H. Phillips & Co., 1225 Atlantic Ave., Atlantic City.

G. A. R. Post meeting to-night.

The pastor of the Presbyterian Church will preach to-morrow morning on "Conditions of Church Membership," and in the evening on "Reasons for uniting with the Church." Special evangelistic services will be continued during the coming week on each evening except Saturday, beginning at 7:45.

There will be four members of Town Council to elect, next March, and it is time to be considering who can and will serve acceptably. Messrs. Cunningham and Sutton retire by virtue of having served their two years; Mr. DePuy succeeded Mr. Jacobs, whose term will also expire; Mr. Bachelor was elected to fill vacancy caused by Mr. Brooker's resignation. Messrs. Boyer and Leibried have another year to serve.

From their conversation, we learn that a few leading men, who would otherwise make excellent public officials, are in favor of repeating the mistake of this year,—expending the bulk of highway appropriation in making a mile or two of gravel road, leaving an insufficient amount for necessary repairs. It would be well to ventilate this matter thoroughly, that the town meeting may be prepared to instruct the new council in language that cannot be misunderstood.

The officers of the Woman's Relief Corps were installed last Saturday evening by Past President, Mrs. A. H. Sutton.

President, Miss Nora Monfort. Sr. Vice-Pres., Mrs. Wm. H. Burgess. Jr. Vice-Pres., Mrs. Edw. Carlaw.

## Artisans' Order.

ED. REPUBLICAN: As some inquiries are being made of the Artisans' Order of Mutual Protection, of which Mr. A. B. Davis is Recorder, I will state, for the benefit of those interested, that I have been a member of our local assembly for eight years. I pay \$5.25 every three months (no assessments) and at my death \$1000 will be paid my family. I was 60 years of age when I joined, hence younger men pay less. The Hamonton Assembly has money invested (its sick benefit fund), and as every applicant must be examined by our authorized physician the result has been but little expense for sickness, and the fund has constantly increased. The \$1000 is paid from the funds of the whole order and the sick benefits from the local fund. The late Wm. Henry Whiffen's family received the insurance immediately, he being the only member lost by us from death. The order is nearly 30 years old, and was not affected by the financial crisis, is growing rapidly, and insurance is put down at cost. Not a case is known where benefit and insurance were not promptly paid. The sick benefit fund is not expended in entertainments, room ornaments, visiting trips, etc., hence it is larger every year. P. H. JACOBS.

John D. Rockefeller, when a very poor and very small boy, was asked what he intended to do when "grown up." Here is his answer: "Some day, when I am a man, I want to be worth a hundred thousand dollars. And I'm going to be, too—some day."

Not to hear conscience is the way to silence it.

## The Deadly Grip

In again abroad in the land. The air you breathe may be full of its fatal germs! Don't neglect the "Grip," or you will open the door to Pneumonia and Consumption and invite death. Its sure signs are chills with fever, headache, dull, heavy pains, mucous discharges from the nose, sore throat and never-let-go cough. Don't waste precious time treating the cough with troches, tablets, or poor, cheap syrups. Cure it at once with Dr. King's New Discovery. It kills the disease germs, heals the lungs and prevents the dreaded after-effects from the malady. Price 50 cts. and \$1.00. Money back if not cured. Get a bottle free at Dr. G. M. ## School Facilities.

MR. EDITOR:—Many of the people residing in the outskirts of this town are sorry to learn that the Board of Education are in favor of building an addition to the Central School rather than erecting a building somewhere on Main Road for the accommodation of children from that part of the town.

Our Board would do well to remember that there are a large number of pupils, especially those of foreign parentage, in the Main, Middle, Union and Lake Schools who will leave school after completing the Fourth Grade, rather than walk daily the long distance to the Central School in order to take the Fifth Grade work. As these pupils will soon be voters, is it not important that they should remain in school long enough to gain some knowledge of civil government, geography and U. S. History—subjects not covered by the Fourth Grade? It is not likely that either Italian or American pupils of ten or twelve years of age will walk three or more miles to and from school every day through the winter months. Most of the Fifth Grade pupils will drop back into the lower Grade for another year, then leave school altogether, while perhaps a few from each school will attend the Central. To be sure, this will bring down the attendance, thereby making more room in the various school rooms, but at the expense of pupils whose education is most necessary to the improvement of the town. We have in Hamonton an ever increasing number of boys and girls who waste several years of their lives in enforced idleness, being too old for the primary schools and too young to find employment whereby to earn their support.

The plan suggested by the REPUBLICAN some time ago, of building a Grammar Grade Room in the neighborhood of Main Road, which would accommodate the Fourth, Fifth and Sixth Grades, to relieve the Middle, Main, Union and Lake Schools, and also the Fifth and Sixth of the Central, would be an easy way of lightening the labor of the teachers of those schools, and a great accommodation to pupils living a great distance from the Central School. ## CALIFORNIA.

America is a great country. In variety and grandeur of natural scenery it is unrivaled. To traverse it, to behold its diversities and wonders, is a liberal education, a revelation to the humored metropolitan citizen. The Personally-Conducted Tour to California under the direction of the Pennsylvania Railroad Company, which leaves on February 9, affords a most excellent opportunity to view the vast variety and boundless beauty of this marvelous land. The party will travel over the entire route in the model Pullman train of smoking, dining, sleeping and observation cars exhibited at the World's Fair, Chicago, and subsequently at Atlanta, Nashville, and Omaha. This train will be placed in service for the first time on this occasion, and will be in charge of a Tourist Agent and Chaperson, who will look after all details of the trip, as well as the individual welfare of members of the party. Stops will be made at Mammoth Cave, New Orleans during Mardi Gras Carnival, El Paso, Los Angeles, San Diego, Redlands, Riverside, Pasadena, Santa Barbara, Monterey, Del Monte Santa Cruz, Mount Hamilton, Monte Park, San Francisco, Salt Lake City, Glenwood Springs, Colorado Springs, Manitou and Garden of the Gods, Denver, and Chicago. Nineteen days will be spent in California. Round-trip rate, including all necessary expenses during entire trip, \$400 from all points on the Pennsylvania Railroad System east of Pittsburg, \$395 from Pittsburg. For itinerary and full information apply to ticket agents; Tourist Agent, 1106 Broadway, New York; or address Geo. W. Boyd, Assistant General Passenger Agent, Broad Street Station, Philadelphia.

## A Narrow Escape.

Thankful words written by Miss Ida E. Hart, of Groton, N. D. "Was taken with a bad cold which settled on my lungs; coughed out in and finally terminated in consumption. Four Doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God I am now a well and healthy woman." Trial bottles free at Dr. G. M. Crowell's Drug Store. Regular size 50c and \$1.00. Guaranteed or price refunded.

Our patrons don't want to think we are trying to unload a lot of old stuff we have had for ages. The facts are these: They are what are called manufacturer's remnants. The mills cut up what stock they have left over into small pieces and sell them at remnant prices. Not a piece of these goods has been in our store two weeks. They are new goods, and can be bought at a saving, in almost every case, of 2 cents a yard. We have this week added to the assortment 600 yards of Calico remnants, Simpson's goods, at 4 1/2 c. pr yard.
