**"WINDING UP THE CLOCK."**

The weights of life are running down  
As through the world we go;  
And mark ye, how the pendulum  
Swings slower, to and fro.

The well-worn wheels uncertain turn,  
The hands together knock,  
And thus I moralize to-night,  
While winding up the clock.

The days of youth and manhood see  
Time's flaming petrol trace  
Life's years of joy or weariness  
Upon its fading face.

As, erst the numerals were drawn  
That stare at me and mock,  
Like spectres of the night, whilst I  
Am winding up the clock.

O loving hearts! for us to-day  
The works are wearing fast,  
The hands and pendulum shall stop;  
The weights shall fall at last.

Run down! to be wound up when Time  
No more our lives shall mock  
With doubts like those that in me rose  
While winding up the clock.

### PRETTY NEGLIGES.

The modern negligee is a far cry from the homely if comfortable wrapper of an earlier day. Becomingness is now considered one of the requirements of the boudoir gown.

If a woman does not care to indulge in the richer and more perishable silken materials there are a number of serviceable yet dainty stuffs from which she may choose. Satin, charmeuse and crepe de chine are used for the elaborate lace and chiffon trimmed negligees. Albatross, French flannel and cashmere are used for the more sedate room gowns.

These are made up in lovely light colors and when finished at the lower edge with a scallop or pill may be easily washed with excellent results.

9125. A DISTINCTIVE FROCK.

Ladies' Costume in One or Two Pieces. Style, with High or Normal Waistline, and with Tuckers—This design embodies a number of prominent desirable style features. The sailor collar trimming, in pointed outline, the broad front-on skirt, and loose panel, together with the popular high waistline, are very effective. The pattern, made in 2 sizes, 34, 36, 38, 40 and 42 inches bust measure. It requires 61-8 yards of 44-inch material, 11-12 yards of 36-inch material for the tucker, for the 36-inch size.

A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps.

Crepe meteeore continues in favor and forms the foundation of many of the season's most lovely gowns.

The three cloth shoes of gold and silver continue to be worn with costumes of all colors, and for house gowns those of purple velvet are approved.

9083. A POPULAR SHIRT WAIST MODEL.

Ladies' Shirt Waist.—This model has deep tucks over the shoulders, which may be attached to yoke or waistline depth. The front is finished with a box plait. The sleeve is the regulation style of short sleeve, finished with a straight cut. All shirtings, silk, velvet, corduroy, serge and flannel may be used for this model. The pattern is cut in 6 sizes: 32, 34, 36, 38, 40 and 42 inches bust measure. It requires 2-1/4 yards of 44 inch material for the 36 inch size.

A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps.

9126. A PRACTICAL DESIGN.

Boy's Ruston Suit with Knickerbockers—Suits of this type are most favored for little boys, and the model here shown will appeal to mothers and home dressmakers because of its simple lines. Serge makes an attractive suit, but other woollen mixtures, as well as velvet or corduroy and wash fabrics, are equally appropriate. The pattern is cut in 3 sizes: 4, 6 and 8 years. It requires 3 yards of 44-inch material for the 4-year size.

### THE LIVING ROOM.

In choosing chairs for the living room, the individual requirements of the members of the family should be remembered, so that when the family is gathered together there will be a comfortable spot for each member.

Since the living room is always where the privacy of home life is enjoyed, the curtains should, if necessary, serve as protection from passerby.

On the other hand, the room will probably require all the light possible. A happy arrangement is often made by having upper and lower curtains. Such sash curtains are made in two tiers and hung on two sets of brass rods, so that either the upper or lower half, or both, can readily be drawn aside.

8921. A SIMPLE REPRESENTATIVE MODEL.

Women realize the importance of having a house dress that is adapted to its purpose. This one is simple in design and comfortable. We submit in the design here shown a model that is practical and that will prove desirable, and suitable. The waist measure is 34 inches, the bust 36 inches, the length 44 inches, and the skirt 44 inches. The skirt has the new back closing, or with the extension as illustrated. ### SLAVES OF HABIT.

More and more, as we grow older, do we become the victims of routine and slaves of the hour.

The same round of duties lies every morning waiting for the coming of the mistress of the house as she takes up the reins of government with the best heart she may.

The woman who really rules her household, and assumes the responsibility of wife and mother as well as of mistress, is not to be laid on the shoulders of any deputy, gradually, in too many cases, lets go the opportunities of influence and blessing which would interrupt her prescribed order of accomplishment.

All men, as well as all women, like to be understood.

Sympathy is their greatest help. No woman who is self-centered, who is vain and thinks only of herself, will gain the highest regard of man; she may be exquisitely beautiful, but she will be a crowd of admirers at her feet, but she cannot bestow that wonderful happiness a plain little woman full of sympathy gives to her husband. If she understands him, is interested in him and his life work, whether it be planting vegetables, comp sing music, or building towers, she will encourage him to reach his highest aim. Being beautiful will not make up for selfish indifference.

### THE BEST WAY

To Make Good Use of Old and New Things.

Among the best uses to make of old tablecloths is to cut out worn places and out of the best piece left cut square or oblong doilies. These should be neatly hemmed. They serve excellently as doilies on which to lay fish, doughnuts, fried potatoes or croquettes, or to surround cookies, bread and butter placed in this or other receptacles.

The cotton of old sheets and pillow cases is far better for scrubbing purposes than any new material manufactured. Hrips of old muslin are highest for brushing, scouring and clothes pressing purposes. A clean handkerchief made of a doubled piece of old muslin is useful to spread under the soap bar and push while attempting to the bed-room crockery.

### TO OPEN A LOBSTER.

It is not difficult to open a lobster. First separate the tail from the main part of the lobster and shake out the tomalley; the tomalley or liver is green after boiling, and is liked by some.

Next draw the body from the shell, freeing it from the stomach, which is situated near the head, by pressing the meat near the head close against the shell with the first and second finger.

Now split the lobster through the centre and take out the meat. Cut the underside of the tail shell open with a sharp knife or scissors and remove the meat in one or two large pieces.

On taking out this meat, look on the upper part near where the tail joined the body proper and lift up the small piece of flesh. Under this you will find a vein running the entire length; remove this; then this vein or cord in the same color as the meat itself; again it may be green; in any case it should not be eaten. Like the stomach, it is not edible.

The easiest way to remove the meat from the claws is to crack the shell with the broad side of a hammer; this does not crush the meat.

### COLORS FOR THE NOT SO YOUNG

Baby blue is, of course, out of the question, but there is a soft, pretty shade of pastel blue that may take its place and prove extremely becoming to the woman who has been fair in her youth. The faded tones of mauve, heliotrope, and wistaria will be equally kind to this type.

Tones of old gold will be better than fresh, vivid yellow for the dainty woman of uncertain age, and faded or burnt orange should be preferred to the genuine shade.

Old time will now take the place of true pink. Pale, old rose is one of the best colors the promiscuously passing woman can adopt, because it may be described as just as much of pale pink, the color of youth, in the same measure as the woman is leaving her youth behind her.

Shed dove gray are often becoming, relieved with cherry color or sunset yellow. Rosin in the daily shade of brown that may have come there be pink, this in the shades, then dark green will be becoming.

### 8788. A SERVICEABLE AND DESIRABLE MODEL.

Ladies' House Dress. In a dress of this kind a woman will always look most well for her household duties, and if made in white or other dressy fabric, the design will prove very appropriate for afternoon wear. The oval neck opening is comfortable and gives the side closing is very effective, the Ulster plait gives breadth to the shoulders, and the 3-4 length sleeve leaves the lower arm free and comfortable when at work. The skirt is a five gored model. The pattern is cut in 6 sizes: 32, 34, 36, 38, 40 and 42 inches bust measure. It requires 6-1/2 yards of 44 inch material for the 38 inch size.

**9129. A SERVICEABLE WORK APRON.**

Every woman, whether she is her own housekeeper or not, finds the need for a large serviceable work apron that covers the entire dress. The one here pictured will prove a most satisfactory addition to the wardrobe, and will suit the artist and home gardener to perfection. It is quite simple to make and easily slipped on and off. The sleeves of the daintiest gown may be safely tucked out of harm's way, under the sleeves of the apron. But, if preferred, the sleeves may be omitted altogether. Any of the materials from which aprons are made can be used. It is cut in 3 sizes: Small, medium and large. It requires 5½ yards of 36-inch material for the medium size.

On Tuesday, two men from the  
city reached Hammonton in an  
auto-car which they were hired to  
take to Atlantic City from the  
dealers, a company at Twenty-third  
and Market Streets. They had  
evidently made too many stops  
en route, for they were certainly  
very drunk; and when a local  
Boniface refused to sell them more  
drink they became ugly, and Chief  
Adams was sent for. He found  
them in the car, both having hold  
of the wheel and quarreling as to  
which should take charge. Seeing  
that neither was in condition to  
run a machine, the chief took  
charge of both, and locked them  
up, receiving a clip on the side of  
his head and threatening them with  
his black-jack. That evening Jus-  
tice Strouse assessed Kennedy  
Owens five dollars, and D. Mor-  
ring ten dollars,—the fines being  
paid by Owens' father-in-law, who  
came from the city for the purpose.  
The auto people sent a man to care  
for their car.

**A Twenty Year Sentence**  
Fedele Perone, who slew his wife  
on June 8th last, on Valley Avenue,  
Hammonton, was brought before  
the Court on Monday last, for trial,  
after spending seven months in jail  
at Mays Landing.  
From a struck jury, twelve men  
were chosen, and the trial opened  
before Judge Kalisch. The State  
had but few witnesses, relying  
principally upon a written confes-  
sion of the accused.  
Something like three-score wit-  
nesses had been summoned by the  
defense, to prove the good charac-  
ter and peaceable disposition of  
Perone. After about twenty had  
been heard, the Court decided that  
the desired points had been estab-  
lished, and declined to hear the  
others.  
When Court opened on Tuesday  
morning, Perone's attorney asked  
permission to withdraw the plea of  
not guilty, and substitute that of  
"non vult," which the Judge ac-  
cepted, and sentenced the convicted  
man to twenty years in State  
Prison.  
With jury men, witnesses, rel-  
atives and spectators, there must  
have been nearly one hundred per-  
sons from Hammonton in May's  
Landing, that day. It was a busy  
day for Egg Harbor liverymen, and  
for caterers at the County Seat.

Supt. of Schools, keeps Boards of  
Education and teachers well posted  
as to the requirements of law. We  
have his latest circular, dated Jan.  
12, containing extracts from the  
laws of 1911,—making definite re-  
quirements for heating, lighting  
and ventilating school houses, and  
repairing and improving old build-  
ings; also the rules of the State  
Board based upon the laws.

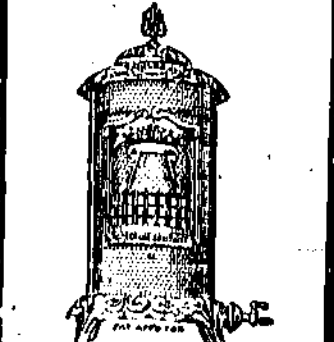

Another week of variable weath-  
er. Saturday, thermometers indi-  
cated 16 above at seven o'clock;  
rising to 23 by noon. Sunday was  
very moderate, with sunshine all  
day. Monday morning brought us  
twenty-four degrees above; Tues-  
day morning, thirty-two; and at  
noon, forty-nine. Wednesday, mild  
but damp, growing colder to twen-  
ty-eight at six o'clock. Thursday  
much colder, down to sixteen in the  
morning, with wind.

## For that Old Cold Room

There's one or more  
cold rooms in every  
house. Somehow or  
other these rooms can  
never be made comfort-  
able on a cold day.  
There is a way to over-  
come this.

**Quality Paint Like Pure Gold is Standard**

Don't delude yourself or let others fool and humbug you with cheap paint. The material and labor that goes to make up a really good paint has as much a standard of value as gold. When anyone gets below that standard, something's wrong. You are just as likely to get good paint at the so-called low and cheap prices as you are to get real five dollar gold pieces at 50c each.

When you pay a brass price you can't expect to get gold.

**LUCAS TINTED GLOSS PAINT**  
ONCE USED—ALWAYS PREFERRED

is not cheap in the sense that the price is below standard. It costs enough to make possible the use of the very best materials and expert workmanship in its manufacture. It is good paint and covers so much more surface per gallon, lasts so much longer and is so very much more satisfactory in every respect that it's actually much cheaper than cheap paint.
