## One of Women's Rights.

During the past week there has been a petition presented to and signed by some of our citizens, which reads as follows:

To the Honorable the members of the Senate and General Assembly of the State of New Jersey, in Legislature assembled:

Whereas, The exercise of School Suffrage by women in this State has proved beneficial to the cause of education, and conducive to the orderly conduct of school election, and

Whereas, Since the decision of the Supreme Court, holding that under the constitution women are not eligible as voters at elections for members of School Boards, women have largely abstained from the exercise of School Suffrage as to other matters,

Therefore, We, the undersigned citizens of the United States, twenty-one years of age, residents of the State of New Jersey, respectfully pray your honorable body that the proper steps be taken to amend the State Constitution as to extend the School Suffrage in cities, boroughs, townships and towns, to women, on the same terms as men now exercise the same.

As there is a lack of information regarding the effect of the recent decision of the Supreme Court (in the Vineland school case, handed down Nov. 8, 1894) concerning school suffrage for women in New Jersey, and the voice which they still have at school meetings, we give the official opinion of the Hon. A. B. Poland, State Supt. Public Instruction. Mr. Poland says, "The decision of the Supreme Court as to the right of women to vote at school meeting was, that, under the constitution, women are not permitted to vote for election of members of Boards of Education. They may, however, vote on all other questions that come before school meetings, such as the voting a tax or authorizing the issuing of bonds."

It is also the law of the State that women can hold the position of school trustee. (Laws of 1894, Chapt. 335, part ix.).—"No person shall be eligible to the office of trustee unless he or she is above twenty-one years of age, and is a resident of the district and can read and write."

The women of New Jersey have exercised the privileges of school suffrage for seven years, to the general satisfaction of all who are interested in the welfare of the public schools, and in the promotion of good order at school meetings. We cite a paragraph from a recent report of one of the Boards of Education of our State, composed entirely of men: "From the time when the franchise was first exercised by the women of this Township, there has been a decided improvement in the character of our meetings. \* \* The presence of the women has had the effect of imposing restraint upon any unruly tendencies, and our meetings have been characterized by decorum and a strict regard to the rules of business."

The watchful eyes of the women should be upon the school, the other home of their children. No mother would wish to admit that her interest in her child ceased at the school door. Will not the women arouse themselves to the importance of conscientious and wisely-directed oversight of the schools. Let them attend school meetings and exercise the important rights that the law still gives them. A MOTHER.

In considering the chance of Cuban independence, it is to be recalled that of the whole continent of colonies once owned by Spain, every one but Cuba and Porto Rico has successfully revolted and is now free. Cuba's turn is bound to come. It is surely Spanish destiny.

Education of the masses is the only true way of settling the great problems of the day. When a people are able to think and reason intelligently on great questions, a country having such citizens has a bright future before it.

The present demand for greenbacks serves to emphasize the fact that while the public insists upon a metallic basis for our currency system, it prefers paper money to either silver or gold in everyday business.

A little before seven o'clock Tuesday morning, a little tongue of flame was seen issuing from the cellar of the great grocery store of the Hanescom Brothers, 1317 Market Street, Philadelphia, and caught up by the high wind which was rushing straight down that wide street, spread with incredible rapidity, until property to the estimated value of one and a-half million dollars had been destroyed. Alarms were sent out, and quickly responded to,-- thirty six fire engines being in service at one time. The fire spread most rapidly with the wind, eastward, but traveled in every direction, until the block bounded by Market, Silver, Juniper and Thirteenth Streets was a mass of smoking ruins, and a number of buildings on Filbert Street were badly damaged. Several times John Wanamaker's great store building caught fire, and spectators thought it was doomed; but hard work by the firemen, and by the Wanamaker fire brigade, saved it. The Market Street front is practically ruined, the tower at the corner of Thirteenth Street spoiled, the clock and chime of bells gone. Wanamaker's loss is estimated at fifty thousand dollars. One of the most deplorable results of the fire is the fact that hundreds of men and women are deprived of work at this season when their earnings are most needed. The firemen suffered from intense cold, but happily no one was seriously hurt. The origin of the fire remains a mystery up to this date.

The first post-office in this country was that of New York, established by act of Parliament in 1710.

Concerning this country's wanting to take Canada, it's really questionable whether it would take it for a gift.

For the benefit of those who desire to attend the ceremonies incident to the inauguration of President McKinley, the Pennsylvania Railroad Company will sell excursion tickets to Washington, March 1, 2, 3, and 4, valid to return from March 4 to 8, at the following rates: From New York, \$3.00; Philadelphia, \$5.40; Baltimore, \$1.60; Harrisburg, \$5.00; Williamsport, \$8.75; Buffalo, \$11.20; Rochester, \$10.48; Altoona and Pittsburg, \$10.00; and from all other stations on the Pennsylvania system at reduced rates. This inauguration will be a most interesting event, and will undoubtedly attract a large number of people from every section of the country. The magnificent facilities of the Pennsylvania Railroad make this the favorite route to the national capital at all times, and its enormous equipment and splendid terminal advantages at Washington make it especially popular on such occasions.

# THE "GENERAL"

One of the Locomotives Used by the Confederate States.  
Three locomotives were standing on a side track at Vicksburg, Ga., on the Western and Atlantic, under the shadow of Kennesaw Mountain, furnishing a striking object lesson in the wonderful evolution that had been taking place in this generation in steam transportation.

## THE "GENERAL"

Five years ago, when the State leased the Western and Atlantic to the Tennessee Company for thirty years at a rental of \$35,000 a month, the old rolling stock, a survival of the war period, was discarded and modern equipment was substituted. A score of almost worn-out engines were sent up to Vicksburg, like so many old horses turned out to die. They were not wholly inglorious, however. Some of them live in his-

torry. A number of them played important roles in the war, carrying troops and provisions to and from, hurrying reinforcements forward to some defense, transferring commands from one part of the field to another, bringing up delayed stores to a hungry army, moving the wounded from the field of battle to distant hospitals, transporting ammunition as the armies moved from point to point and in various ways rendering invaluable aid to their country.

The General and Texas live in history, of course, and so long as they withstand the elements will be of increasing interest to generations yet unborn. These two historic engines were not relegated to the cemetery, but were kept about the shops, and the General stands today in the Western and Atlantic roundhouse at Atlanta, Ga.

At the end of three years he was released, and he worked for a long time in private business, with shorter hours and easier work on an average, the days of the impatient engineer in Washington are by no means ended. He writes a Companion correspondent, who goes on to say:

"The cabinet officers take the ground that the departments cannot be used as collecting agencies, but at the same time they see to it that employment shall not be given to those who can, but will not pay their bills. An old gentleman said to your correspondent the other day that he recalled a very interesting incident which occurred in Jackson's administration.

Among the clerks in the Treasury Department at that time was a young man who had a chronic disinclination to pay his board bill. His landlady was a widow in needy circumstances, but was unable to get a cent out of him. He gave her counter checks for his board, but she would not accept them. He was so poor that he could not pay his board bill. He was so poor that he could not pay his board bill. He was so poor that he could not pay his board bill.

# TALLEST BUILDINGS IN NEW YORK AND CHICAGO COMPARED.

Colored physicians of South Carolina have formed a State organization. The number of volumes circulated by the free libraries of New York city during the year is estimated at 1,500,000.

## THE KIEL CANAL

The Kiel canal is lighted over its sixty-two miles by electricity and is the longest distance in the world lighted continuously in that way. There are 5,000 poles.

According to a recent order of the Secretary of War the dimensions of the standard United States flags are five feet six inches by four feet four inches. The order also provides for the new colors to be issued to all infantry and artillery regiments and the battalions of engineers, and also to all regiments of cavalry.

The tales commemorating the four hundredth anniversary of the discovery of the sea route to India by Vasco Da Gama were to have been held at Lisbon next year, but have now been postponed until May, 1928. It was in the month of May, 400 years ago, counting from 1488, that the great navigator arrived at Calicut.

The import of iron into Russia in 1924 amounted to 857,850 tons, consisting of 170,477 tons of raw iron and 687,373 tons of wrought iron, steel, machinery and other iron products, against 570,317 tons imported in 1923; consequently the total amount of iron consumed in Russia in 1924 was 2,304,000 tons, being 453,658 tons more than in 1923.

A smart young man in Kansas employed his father to work for him during the month of December, offering him a cent the first day, 2 cents the second, and so on, doubling the amount each day without exception. He was surprised when his father showed that at the end of thirty days he owed the "old man" just \$10,737.23.

A bill drafted by Henry L. Clinton will be presented in the coming New York legislature providing that persons convicted of murder on the ground of insanity shall not be immediately released from custody, as Marie Barberi was, but kept under restraint in an asylum for not less than ten years, subject to review by the board of directors of the State Hospital for the Insane.

Governor Aldrich of Georgia has signed an anti-trust bill, recently passed by the Legislature of that State, which puts under the ban all "arrangements, contracts, agreements, trusts or combinations" which have the effect of restraining trade or commerce, or which may tend to lessen "free competition in the importation, manufacture or sale of any article or product."

A peculiarity of high buildings is attracting interest in New York since the building inspectors have honored the structures with belated attention. It has been learned that many of them swayed fully a foot from the upright during the recent hurricane, a proof, by the experts, in elated as to their strength. A well-known photographer near Fifth avenue, who is next to the roof of a skyscraper, found that the tremendous wind had blown the building over and over again, and he had to hold on to the roof to keep from falling.

The University Medical College of New Orleans has undertaken an enterprise which promises excellent results. It has determined to establish a training school for nurses, to be known as the "School of Nursing." The object is to supply well-trained nurses who will serve for moderate pay. The trained nurses who are now in New Orleans are not numerous enough to meet the demand, and they are paid for their services at a rate which many people who need them cannot afford. It is believed that the new establishment will find employment and serve a good purpose without interfering at all with the white women who are engaged in similar work.

The Point of View.

Papa. My dear, I want you to marry my old schoolfellow, Shirliff; a very nice man, rich, and has gone to put me on the board of his new company.

Daughter. But, papa, where do I come fit? St. Paul's.

In manufacturing occupations the average life of soap boilers is the highest and that of glassblowers the lowest.

(Entered as second class matter.)

SATURDAY, JAN. 30, 1897.

To attempt to present to the  
reader an idea of the contents of the  
Tribune Almanac for 1897 is an difficult  
as to enumerate all the topics of general  
interest the American people talked  
about in 1896, and are going to talk  
about in 1897. What is it that you  
may wish to know in a political or sta-  
tistical way? In some shape or other  
you will find it in this admirable and  
accurate compendium of facts, politics  
and figures. There are certain standard  
tables of latest statistics and election  
returns which everyone expects in an  
almanac. The Tribune Almanac has  
them all, and, in addition, a variety of  
concise statements, summarizing the  
past year's history in important matters,  
such as the story of the Venezuelan  
dispute, the Cuban Revolution, Presi-  
dent Cleveland's bond issues, the  
censure of Mr. Bayard, and so on. For  
accuracy, completeness and thorough  
comprehension of what the American  
people need in the way of data for ready  
reference, the Tribune Almanac has  
always been standard and has no super-  
ior. Price, 25 cents a copy.

The complete novel in the Feb-  
ruary issue of *Lippincott's* is "Under the  
Pacific," by Clarence Herbert New. It  
takes the reader to a part of the world  
he probably never heard of before, where  
two extremely enterprising Americans  
conduct a search for long-lost treasure  
under the most unusual circumstances.  
Two "Old Friends," of whom Edith  
Drews writes, were far apart in age,  
and one of them was musical; in fact,  
music and friendship are the key-note  
of the tale. "Old Tom of Nantucket,"  
"South Florida since the Freeze," and  
"A Vanished Civilization"—that of the  
Jesuits in South America,—are among  
other interesting articles.

368 ACRES of good land for sale, mostly  
wheat-raising land, in close up the A. G.  
Collier estate. Will be sold at a low price,  
and on easy terms. For particulars, see  
advertising above, will be sold with or sep-  
arately. For particulars, see  
J. L. ARONSON,  
126 and Grand St., Hammonton.

The success of ex-President Har-  
rison's articles in the *Ladies' Home*  
*Journal* has been so pronounced that  
three additional ones will be given.  
The first will show what "A Day with  
the President at his Desk" means, giving  
glimpses of the Executive in his  
private office. The second article will  
deal with "The Social Life of the Presi-  
dent," which will cover the President's  
obligatory social duties and his part in  
great State functions. The last article  
will go into the President's domestic  
life and portray "The Domestic Side of  
the White House." All these articles  
will be specially illustrated, and all will  
appear soon. This will be the first  
time that an ex-President of the United  
States has ever written of his office and  
his home.

List of uncalled-for letters in the  
Hammonton Post-Office, on Saturday,  
Jan. 30, 1897:

Mr. John Adams,  
Bellevue Avenue, N. J.  
Miss Anna B. Clark,  
Bellevue Avenue,  
Bellevue Avenue,  
Bellevue Avenue.

Persons calling for any of the above  
letters will please state that it has been  
advertised.

JOHN T. FRENCH, P. M.

It is reported that of the small-pox  
cases in the city of Havana more than  
forty-five per cent. prove fatal. Besides  
this, the disease is said to be increasing  
at an alarming rate, and, with the  
approach of the rainy season, a few  
weeks hence, it is almost certain to  
spread still more rapidly.

When a remnant is made as to the  
extreme cold, the oldest inhabitant says,  
"Yes, but you ought to have seen the  
winter of '47," or some other year back  
in the century. On the other hand, the  
Populists say, "Ah! but this is nothing  
to the cold wave of last November."

A college has a right to feel proud  
that has given its diploma to one Presi-  
dent of the United States, two Vice-  
Presidents, one Chief Justice of the  
United States Supreme Court, four  
Associate Justices, seventeen members  
of the Cabinet, twenty-five Governors,  
117 Judges of State Courts, 150 mem-  
bers of Congress, seventeen Ministers to  
foreign countries, not to mention thou-  
sands of educated men in all the learned  
professions. That is the handsome  
record of Princeton University.

It is temper which makes the bliss of  
home or destroys comfort.  
It is well enough to remember that  
the country is still under Democratic  
rule.

FOR SALE. A fine brick residence in  
plaza, with light, airy rooms, four  
rooms, with modern conveniences, and  
a large lot. Inquire at the residence.

corns, and all skin eruptions, and pos-  
sibly cures piles, or no pay required.

tion or money refunded. Price, 25 cents  
per box. For sale at Croft's.

Beginning January 15, 1897, the  
New York and Atlantic City  
express train via the Pennsylvania  
Railroad, will be placed in service, daily  
except Sunday, leaving New York at  
1:50 p. m., arriving at Atlantic City  
at 5:30 p. m.; returning, leave Atlantic  
City at 9:00 a. m. and arrive in New  
York at 12:45 p. m. This train will carry  
a combined car and a Pullman buffet  
parlor car between Jersey City and  
Atlantic City in each direction, stopping  
at Newark, Elizabeth, New Brunswick,  
Trenton, and Bordentown. The inaugu-  
ration of this train formally opens the  
season at Atlantic City. All of the large  
beach front hotels are ready to receive  
guests, and all of the manifold attractions  
of the fashionable early season will be present.

At no time of the year is Atlantic  
City more delightful than during the  
Lenten and anti-Lenten period. A  
calm dignity, conspicuously absent  
throughout the summer, prevails  
throughout, consequent, indeed, to both  
the season and the majesty of the mighty  
ocean. It is at this time that the most  
enduring benefits are derived. The year  
1897 promises to surpass in every respect  
all former seasons, and the new through  
express brings it within easy reach of  
the great metropolis.

J. L. JACKSON.

On January twelfth several of  
Hammonton's popular young ladies  
met at No. 109 Orchard Street for the  
purpose of forming a society. They  
decided to call themselves the O. O. I. G.,  
—what that signifies is for the girls to  
know and the boys to find out. The  
officers and the officers they hold will be  
known to the girls alone. The last  
meeting was held at No. 239 Bellevue,  
and a very enjoyable time was spent.

furnished with five rooms of ground.  
Rent reasonable to good tenant. Apply to  
Mrs. Rutherford Moore, Notary Public.

Readers, don't despair. The  
publishers of the REPUBLICAN have  
promised electric lights in Hammonton,  
and propose to keep that promise. If  
the present scheme falls through, we  
will present another, probably quite as  
satisfactory, right quick. But this one  
is very much alive yet, as you will see  
in fact, three days ago the Company  
had not received the contract for street  
lighting,—and that was not their fault.

SMALL HOUSE for sale. Next to George  
Schauerman's, six rooms, electric lights,  
everything in good order. Lot 50 x 150 feet.  
Inquire at this office.

George Hartley, who left Ham-  
monton two or three months ago to  
take charge of a chicken ranch near  
Washington, D. C., made a notable dis-  
play at the recent national poultry show  
in the capital city. He exhibited incu-  
bators at work, chicks just appearing,  
wee chicks, and up to broilers ready  
for market, and others ready to cook.

So pleased were the managers that they  
presented Mr. Hartley with a handsome  
gold medal, containing appropriate in-  
scriptions.

Articles of land for sale, near Barnette's  
plantation—the Hilda property. About  
50 acres ready for cultivation. Comfortable

Last Sunday was a cold, windy  
day. Monday was a repetition of the  
previous day. History daylight, Tuesday,  
mercury stood at zero at our residence,  
and at other points varied from five
