Mild weather this week. Wed-  
nesday mercury reached sixty-five  
above zero, with bright sunshine  
and very little wind.

We hear that some farmers are  
making preparations for spring  
work. Don't be in too much of a  
hurry.—this is only January.

We acknowledge the receipt of  
an invitation to inspect the new  
Atlantic County Almshouse, which  
was open to public Jan. 27 to 29.

Foggy nights and morning, some-  
thing not common in this section.  
Trains were late on both railroads,  
—delayed by fog on the Delaware.

Miss Esther L. Sweat, teacher  
of English and History in the  
Grammar School assembly room of  
our local schools, died at her home  
in Ticonderoga, N. Y., Monday,  
January 26. She was taken sick  
with a heavy cold about the middle  
of December, grew rapidly worse  
and about New Year's was removed  
to her home in N. Y. She was  
highly successful as a teacher, be-  
loved by her pupils, and had the  
confidence and respect of friends and  
acquaintances. She will be sorely  
missed, as teachers of her high  
moral aims, academic preparation,  
and professional success, are al-  
ready too few.

Funeral services were held at  
Ticonderoga on Thursday forenoon.  
The teachers and pupils of grades  
eight and seven remembered her by  
a handsome floral tribute.

## The Alumni Meeting.

"Resolved, That women should  
have full suffrage," will be the

Bassett; the negative by Mrs.  
Charles Pitting and Miss Perry.  
There will be a short entertainment  
before the debate. We request all  
to be there promptly at 8 o'clock.

The library will be open to the  
public from 7.30 to 9 o'clock.

February 16th, we will have a  
special children's programme.

Please remember that we are  
managing these entertainments to  
interest you in making the High  
School the "social centre" of Ham-  
monton, and of value to others  
than school pupils.

## That February Meeting.

The regular meeting of the Ham-  
monton Board of Trade will be  
held in Firemen's Hall on Tuesday  
evening next, at 8 o'clock sharp,  
and promises to be a very interest-  
ing and profitable meeting. The  
list of standing committees will be  
called, and each chairman will be  
expected to have something of im-  
portance to report. Chairman  
Rider will doubtless tell us what he  
knows or thinks he knows about  
locating the State Normal School  
in Hammonton. The good people  
are very greatly interested in this  
matter. That school is one of the  
choice plums which Hammonton  
ought to have, and which they ex-  
pect Chairman Rider to obtain for  
them if good hard honest work can  
do it.

The Slogan matter, which was  
referred to the Committee on Pub-  
licity and Advertising, with instruc-  
tion to report some method of select-  
ing the best Slogan presented, will  
be ready to report. About thirty  
slogans have been sent in so far.  
Many of these are excellent, while  
some of them are not available, as  
was to be expected. The committee  
will recommend the following plan  
of settlement: Slips will be printed  
containing all the slogans sent in;  
on first ballot each member present  
will be asked to check the five slo-  
gans which he considers best of the  
lot. After this ballot, all the slogans  
except the five having the largest  
number of votes will be dropped  
out of the count. On second ballot  
each member will be asked to vote  
for that one of the five which he  
considers best, and the slogan hav-  
ing the smallest number of votes  
will be dropped out of the count;  
and so on till a choice of the best  
is reached. There will be a fine  
chance for a lot of good natured  
fun in the proceeding. Of course  
members may "button-hole" each  
other as much as they please while  
the balloting is going on, but no  
display of oratorical ability in public  
debate is intended. All slogans  
received before the end of the pre-  
sent month of January will be in-  
cluded. Two or three parties from  
outside of town may be present,  
and if called upon, make some  
remarks. Let us have a large  
meeting. Pay in your dollars, if  
for no other reason than just to see  
how pleased it will make Secretary  
Doughty look. Here is a slogan  
which the good people of Hammon-  
ton might use to good advantage  
just now, "Rally round the Board  
boys rally round the Board. Shout-  
ing the battle cry of Hammonton."

SATURDAY, JANUARY 31, 1914

"By their works ye shall know them." This applies as well to school-teachers as to any other form of activity. A Normal School course does not make a "teacher"—it helps. We have to-day, in Hammonton quite a number of teachers who have never attended a Normal School, who have made good in their positions, and are unqualifiedly successful, whose services are valued and virtually indispensable. We have had others, Normal graduates, who will never be "teachers," if they serve a lifetime.

This is not opposition to the location of a Normal School in Hammonton. So long as the authorities require such training, these institutions are a necessity, and we would like to see one established here; but we certainly think that the size of each graduating class should not be the measure of a Normal School's success or usefulness. There should be some power to "weed out" from the large number of students such as do not give evidence of the teacher's gift, which comes not from training, but from a natural bent or inspiration.

By all means, give us a good Normal School right here in Hammonton. We have everything desirable, but don't limit the choice of teachers to those who have been "trained" to a formal performance of certain duties. Use discretion, and give those an opportunity who cannot afford an expensive course, but are qualified by nature and education to really teach.

A strong argument in favor of a cutoff law was given last week Friday night. A lady had gathered at her home, in town, a group of fifteen or more young girls, and they were happily engaged in making valentines, when some fellows, old enough to know better, began and kept up a series of annoyances, running around the house, peeping in windows, and tapping at front and back doors, frightening the girls and making themselves a nuisance generally. Had the "man of the house" been at home, their fun (?) might have terminated differently. Some time they will be caught, and legal action followed.

Town Council and the Fire Companies should get together, or a committee from each, and agree on something. The men surely deserve more money, not for salary, they have asked for no salary—only compensation for loss of clothing, cleaning and sponging, etc. As these are volunteer companies, they are obliged to leave their work, from church or lodge services, with no time to change clothing, and soak it with chemical, muddy water, etc. Something can, and will have to be done.

A complication has arisen in regard to the \$1500 raised for water reservoir. The Commissioners had asked for two thousand dollars for reservoir and an additional well; but the voters, at the Town Meeting, voted to recommend a lesser amount, and called it "for reservoir" forgetting to add "and well." It is a question whether any of the balance can be used for sinking another well; but we believe it can. The intention of the voters, also of Council, was to include both items.

If you see a mosquito trying to escape from your house, where he (or rather she) has been spending the winter with you, please destroy her. Each one means several hundred reduction of the first crop, and no telling how many later.

Attend the Board of Trade next Tuesday evening; and, by the way, if you have not joined, or have not paid your dollar, you will find the Secretary any old time before, or at the meeting.

Will he see his shadow next Monday?  
Taxes must be paid to-day.
