DR. JOHN BULL'S
Smith's Tonic Syrup
FOR THE CURE OF
FEVER and ACUE
Or CHILLS and FEVER,
AND ALL MALARIAL DISEASES.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SAFE, CERTAIN, SPEEDY and PERMANENT cure of Ague, Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, as in every case more certain to cure, if it is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require an cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY PILLS will be sufficient.

BULL'S SARSAPARILLA is the old and reliable remedy for impurities of the blood and Scrofulous affections.

Our Beautiful Town.

MR. EDITOR:—In your last issue you give us a "Citizen's" lament about our decaying Park. The wreck of the building, and the forlorn look generally, are referred to; and he asks, with some surprise, "has the building trustees?" Might he not justly have asked,—Have we not a town Council to make laws and regulations for Hammononton? If we have, how does it happen that lawless youth can stroll around town, forcing doors, breaking glass, and destroying property generally, and no one to call them to account? I saw in your paper, only a little while ago, "\$100 Reward." Did any one claim that sum for information given? or was it withdrawn? It was, as I understood at the time, offered for just such work as your "Citizen" is now sorrowing over. If the offenders were not found, would it not be a good investment, to keep a standing reward, just to cover such cases? Or must our fair town become the prey of Sunday idlers, who seek amusement at the expense of citizens and property-holders and the resorting places provided for the benefit and the pleasure of our people?

"Citizen" might have asked, Why allow our beautiful town to be run down, abused and destroyed, and our rulers made to blush for apparent neglect? Make a few examples; let them know that live men are ruling, and that vicious men and boys cannot turn our streets, our Park and its buildings into waste places, for their peculiar pleasure—to gratify a base and low standard of morals.

I do hope, Mr. Editor, that such things will not be wanted at any longer. I have good reason for seconding your correspondent in his efforts at reform, having been made to feel the destructive power of these Sunday miscreants.

Now, sir, with your help, and that of the well-meaning people of our town, as well as our Town Council, I believe something may be done to stay this destructive and growing evil. Such is the wish of your
SUBSCRIBER.

AYER'S Cherry Pectoral.

No other complaints are so insidious in their attack as those affecting the throat and lungs: none so trifled with by the majority of sufferers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

A Terrible Cough Cured. "In 1861 I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried AYER'S CHERRY PECTORAL, which relieved my lungs, induced sleep, and restored me the necessary strength for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. I am now 62 years old, hale and hearty, and am satisfied your CHERRY PECTORAL saved me." J. W. C. CROFT, "FARMER," Rockingham, Vt., July 15, 1882.

Croup.—A Mother's Tribute. "While in the country last winter my little boy, three years old, was taken ill with croup. It seemed as if he would die from strangulation. One of the family suggested the use of AYER'S CHERRY PECTORAL, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour the little patient was breathing easily. The doctor said that the CHERRY PECTORAL had saved my darling's life. Can you wonder at our gratitude? Sincerely yours, MRS. EMMA GEDNEY." 159 West 123rd St., New York, May 16, 1882.

"I have used AYER'S CHERRY PECTORAL in my family for several years, and do not hesitate to pronounce it the most effective remedy for coughs and colds we have ever tried." J. A. J. CRANE, "LAKESIDE," Lake Crystal, Minn., March 13, 1882.

"I suffered for eight years from Bronchitis, and after trying many remedies with no success, I was cured by the use of AYER'S CHERRY PECTORAL." JOSEPH WALDEN, "BYBALLA, MISS., April 5, 1882.

"I cannot say enough in praise of AYER'S CHERRY PECTORAL, believing as I do that but for its use I should long since have died from lung troubles." E. BRADDOCK, Palestine, Texas, April 22, 1882.

No case of an affection of the throat or lungs exists which cannot be greatly relieved by the use of AYER'S CHERRY PECTORAL, and it will always cure when the disease is not already beyond the control of medicine.

The Millville Insurance Company has decided to do no more marine business, and with henceforth confine its business to writing life risks only.

Congressman Ferrell has appointed Edward Stockham, of Camden, to the West Point cadetship from First New Jersey Congressional District.

The Elmer Glass Works will not be put in operation till September.

Justice Bradley, of the Supreme Bench, has signified his intention of resigning before March 1, in order to enable President Arthur to appoint his successor.

President Arthur endorses the request for an additional appropriation for the New Orleans Exposition.

General Swain pleaded not guilty to the charges of drawing Government forage and selling the same.

General Sherman was 65 years old last Sunday, February 8.

Allan Pinkerton, the famous detective, was born in Glasgow, Scotland, Aug. 25th, 1819. He died in Chicago, July 25th, 1884. It is difficult in a brief sketch to estimate his life and public services. It was a hard life, a busy life, and a great life; and it rendered services to this country which can hardly be overestimated, and which has been the fortune of the few men to equal.

His thousands of successful assaults on organized and determined crime, in many countries; his patriotic deeds for this nation, his work for the slave, and his "myriad" broad humanitarian acts familiar. But now they may constitute a foundation for a fair and just estimate of his life and the man's real character.

The mental characteristics of Allan Pinkerton were judgment as to facts, knowledge of men, the ability to concentrate his faculties on one subject, and the persistent power of will. A mysterious problem of crime against which his life was devoted, presented to his thought was solved almost in an instant and seemingly by his intuitions. With his clear eyes he saw the scene in which the wrong was done, every movement of the criminal, and reached invariably the correct conclusion as to the conduct of the crime, not the guilt of the one who committed it. He saw all the facts, and on them based his conclusions. He was self-possessed and well-poised. The certainty of his judgment, although characterized by a quiet movement of the intellect, was the result of vigorous and calm thought.

When rebellion threatened the Nation, Mr. Pinkerton, then between Mr. Lincoln and the Capital, Allan Pinkerton conducted his safety in his headquarters. The country may well thank his fidelity; his service was a pivotal fact for its future. At Washington, he conducted the secret service, he was an intimate friend of the President and his Cabinet, especially Messrs. Stanton and Chase. For the great necessity of the time was a man who could see all the facts, and on them based his conclusions. He was self-possessed and well-poised. The certainty of his judgment, although characterized by a quiet movement of the intellect, was the result of vigorous and calm thought.

Messrs. D. C. and son, Mr. William have lately purchased, through Mr. Dayton, the property on Third Street occupied by Mr. Wm. Simmons. There will probably be some building lots for sale there.

Wednesday was the coldest day of the year. At seven o'clock this morning the thermometer registered six degrees above. At ten o'clock we visited central school, and found the teachers working very satisfactorily. The temperature in the rooms ranging from 61 to 64, and an even less in all parts.

Mrs. J. S. Corbly hereby tenders sincere thanks to the friends and neighbors who proved themselves friends indeed during the sad days of trial lately passed, and hopes that should any of them ever meet the kind wishes which only true friends can render, just such may be given as she received. May the Lord bless you all, and lighten your every sorrow.

The residents of Bellevue Avenue object to having their handsome street used as a race-course by any lover of fast horses. It is not safe for other teams, for pedestrians, or for children, all of whom have a right to be on the street. Last week Thursday, two teams from Winslow came tearing down towards the station on full jump, with drivers urging their horses to do their best.

At the Sunday School Convention, last Fall, the watchword chosen for the year was "Atlantic County for Christ." News from all parts of the county shows that this choice has been honored by the Maker—several having been converted since the first of the year, and the good work still continues. "Take heart, ye soldiers of the Cross; your Commander is always victorious. Let us 'light it out on this line if it takes all summer.'"
