ELVINS & ROBERTS.

Flour.

The Flour market has advanced from 15 to 25 cents per barrel, first hands; but having secured a large stock before the advance, we still hold our price at old figures, thereby giving our customers the advantage.

We quote from \$4.50 for good Family to \$5.50 for Best Blended—Spring and Winter Wheat mixed—under our special brand "Royal," and for all baking purposes is certainly well worthy its name.

Feed.

We have always a full stock of all kinds of Feed.

While the market price on some kinds has advanced considerably, yet at the prices we are now quoting you will find us very low,—if anything, a little under the wholesale prices now prevailing.

Fertilizers.

We strongly advise placing orders for Fertilizers EARLY, especially for Dried and ground Fish Guano, which is exceedingly scarce. We have secured all we can, and are prepared to take orders; but the supply being very limited, "the first come first served." Order what you will want, NOW.

Mapes' Complete Manures for all crops are still popular. Our orders are now in for these goods, and they will be ready for delivery about March 1st, when we will be pleased to quote prices.

Berry Baskets.

We are now prepared to take your order for Quart and Pint Berry Baskets, for which, in view of the recent action of Commission Merchants in several of our markets, we anticipate unusual demand.

Place your orders early, as later they may be hard to get.

Agricultural Implements.

Can furnish anything and everything in the line, from a Corn Cutter to a Mowing Machine.

We are agents for the "Bissell" South Bend Plows.

Canned Goods.

Tomatoes and Corn especially, are also advancing. We quote at only a trifle above old figures:

Corn, 10, 12, and 13 cents.
"Peerless" Tomatoes at 11 cents are a bargain. Other good brands at 10 c.
"Bear" brand Salmon at 16 c. is cheap.
Fresh Mackerel (in one pound tins) is good eating, and at 12 cents per can is cheaper than mackerel in the salt.

Shoes.

A nice line of Women's and Misses' Shoes now in stock. We quote only one style as a sample,—Woman's Dongola Button at \$1.25. We think it the best shoe for the price now on the market. We have others, costing more money, which will give the wearer no better service.

Outing Flannels.

For Spring are beginning to arrive. Some of them are beauties, and at the uniform price of 10 cents per yard are very popular. Call and see them.

Garden and Field Seeds.

Will be here shortly.

Seed Potatoes.

It may seem a little premature to mention Seed Potatoes before the snow is gone; but we just want to remind you that the time will be here soon, when there will be a sharp demand for them. We shall have them in all the best varieties, at prices as low as the present condition of the market will warrant.

Don't buy until you get our figures.

Washington Letter.

From our regular Correspondent.
Washington, Feb. 12, 1893.

Is the victorious Democratic party on the eve of disruption. Democrats of national prominence in Congress privately express the belief that it is, and predict that long before the end of the administration to begin next month the separation between the wings will be open and final. The principal cause of this belief is the wide gulf that exists between Mr. Cleveland and the southern and western Democrats on the silver question, a gulf which the failure of Mr. C. has widened and made apparently impassable. Notice has been publicly served on Mr. C. by Rep. Bland, the leader of the Silver Democrats in the House, that further attempts along this line would bring about a withdrawal of the Silver men from the party. The forcefulness of Mr. Cleveland's character is so well known here that the general opinion is that he will continue his fight against silver by calling an extra early session of the Fifty-third Congress, unless convinced that a bill for the repeal of the Silver law would be voted down in either House or Senate. In that case he would postpone calling an extra session until he had "converted" a sufficient number to carry his point.

The selection of Judge Walter Q. Gresham, as the head of the Cabinet, which is accepted here as an accomplished fact, will also be a factor in bringing about a split in the Democratic party. As a rule, the Democrats in Congress decline to publicly discuss this selection, but privately they are showing their anger and disappointment. The feeling among them may be judged by the fact that Senator Gorman, who is ordinarily the most indifferent of men to newspaper stories printed of him, took special pains to go around among the Washington correspondents and contradict the published rumor that Gresham had been selected on his advice. With the natural shrewdness of the tactful political wire puller, Gorman lost no time in disavowing his responsibility for Gresham; he had seen and noted the effect of the announcement of his selection upon his party associates in Congress.

Senator Hill has been quietly sounding the Democratic Senators, to ascertain how many of them are willing to carry their opposition to Gresham to the extent of voting against his confirmation as a member of the Cabinet. If he can secure the pledges of a sufficient number of Senators to defeat the confirmation he proposes to do it, although it would be something never before attempted, as it has been considered one of the unwritten laws of the Senate to confirm Cabinet nominations without question.

Pressure is being brought to bear to have Sergeant-at-Arms Yoder of the House made Commissioner of Pensions, if the scheme of transferring that bureau to the War Department and suspending the pensions of all widows married since 1870, of all men having an income in excess of \$600 a year, and, except for total incapacity, of all alien non-residents, fails, as it will. The Commission is merely to be used as a stepping stone to the Democratic nomination for Governor of Ohio. The claim is made by Yoder's friends that his connection with the U. V. U. will enable him to get the votes of a sufficient number of old soldiers, heretofore Republicans, to anchor Ohio permanently in the Democratic column.

The House committee on Ways and Means is on a wild goose chase after a silly newspaper rumor alleging that Sec. Foster had agreed to sell \$50,000,000 worth of bonds to a syndicate of New York bankers for gold. There is not a word of truth in the rumor. Secretary Foster has made no agreement to sell bonds, and has no intention of making such an agreement, and he has no idea that the financial situation will be such during this administration as to cause him to even take such a step into serious consideration. Besides, it is well known to those who enjoy the President's confidence that he would not permit an issue of bonds.

The Democrats in the House attempted to railroad the proposed radical changes in the Pension laws through the House without debate, but they were hauled up short by the Republicans, who told them they would filibuster until the end of the session if the fullest debate were not allowed. The debate will go on this week.

The President has fully made up his mind, and will, it is thought this week, send a message to Congress favoring Hawaiian annexation. A majority of Congress favors annexation, but some of the Democrats would prefer to postpone it until the next administration, and it is possible they may attempt to do so.

It is really amusing to hear the Democrats, with their big majority in the House, plead the baby act and try to charge the Republicans with the responsibility for defeating Mr. Cleveland's wishes.

FOR THE
American Home!

The Press has the best possible organization to secure news from the most important sources, and with nearly 400 correspondents in Pennsylvania, New Jersey, and Delaware, the State and near-at-home news is covered with a routine carelessness and attention to detail not even attempted by any other paper.

The Press has also the best of correspondents in all the great cities of the United States, as well as financial and railroad experts in Chicago and the West, who keep the paper more than abreast with events.

The columns of the Sunday Press are enriched by contributions from those whose names are written high in our lists of great authors, novelists, essayists, as well as from men of high rank in public life. The best authors know that their best audiences are the readers of the Daily, Sunday, and Weekly Press.

In politics, the Press knows no other master than the people, and the past year has seen, as has been seen before, the marked fact that it is subservient to no political bias. It has no political ambitions to foster, but looks after the interests of its readers, and delivers itself upon the issues of the day in a manner both frank and fearless, telling the facts speak for themselves and evading no issue, but meeting them all on the basis of fair play to all men at all times. Its pages know no distinctions, and the rights of one class over another are not recognized nor supported.

New York Tribune.

1893

Greatest of Republican Papers.

National in its aims, and devoted to the Welfare of the Masses of the American People.

THE NEW YORK TRIBUNE, conceding the election of Grover Cleveland, and promising to defend the Republican policy on Finance and Protection, with all the ability it can command, is the only paper that has been the constant of the farmers which caused the Democratic victories of two years ago. The Weekly Tribune, addressing itself directly to them for the last two years, has carried on a campaign of discussion for their benefit, almost unparalleled in American journalism; and the result coupled with Whitehall's help, has been a great service to farmers, has been in the fact that agricultural communities have stood faithful to the Republican party, in a campaign in which, in other localities the party went completely to pieces. This year, the Democratic leaders changed their tactics and excited discontent among workmen. They pointed to the higher prices of the products of the country and made of Northern cities that the British tariff system, (that is to say, lessened protection to American farming and industry) would lower the prices of food and manufactured products, and the profits of "monopolists" in this country, while at the same time maintaining the wages of labor, and keeping the price of the highest known in the United States. By false pretenses, deception, and a pandering to the lowest passions of uninformed men in large cities they have carried the country and elected a Democratic President and Congress.

The Tribune confidently awaits the result. Not for one moment, however, will the Tribune yield one inch of ground in the battle for American policies. Roosevelt G. Hor's great articles will be among the features of The Tribune, the coming year. Men of every political faith are invited to read them. They will state the Republican view with frankness, point out the probable consequences of a change in the tariff policy of the country, and make no issue and conceal no fact bearing upon the subjects discussed. Their thorough treatment of fundamental principles will aid every reader to a better understanding of profound and important issues.

A page a week will be devoted, during 1893, to war stories and news of interest to Union soldiers. Our soldiers, who have some experience to tell, which has not yet been printed, are asked to send the story to the Tribune for publication.

Farming has now become such an enormous interest in the United States, that there is an imperative necessity for making more of a specialty of the business interest of the farmer. The Tribune, therefore, has been formed which ought to make the Semi-Weekly and the Weekly Tribune absolutely indispensable to every tiller of the soil during 1893.

A large number of entertaining, feature-of-general interest will also appear. "How to Succeed in Life," "Village Improvement," special articles by brilliant men and women of high reputation, chess and checkers, and a hundred other things which cannot be recited in a brief prospectus, will appear on the Tribune's pages during 1893. The paper will have less politics and more of the thousand and one things which refresh the mind, entertain the imagination, and guide the reader in the prosecution of business and social life.

The Tribune asks for reports as to the operations of Village Improvement Societies, from those who are acquainted with their operations.
An illustrated catalogue of excellent premiums will be sent free on application.
The Semi-Weekly is particularly commended to the attention of general readers. It gives more of the keen incisive editorials, book reviews, foreign letters, and other valuable features of The Tribune, than there is room for in the Weekly. The large type and broad columns of the Tribune make it the easy to read.

Weekly, \$1 a year. Semi-Weekly, \$2. Sample copy free.

Friends of Agriculture, Industry, and the Republican Party are invited to make up clubs for this paper in their localities. There are four years of trial, of new experiment, of discussion of great national topics, and of observation of the effects of Democratic supremacy before the country. The Tribune will lay in the presentation of the Republican view. The friends of the splendid record of the Republican party can aid in the final triumph of Republican principles by seeing that the people read the Republican side of the story.
