**Town Meeting Suggestions.**  
Let the Bank have 20,000 of water bonds, at par, and sell the balance on same terms.  
Run water mains to Main Road, to Cottrell's stockin' factory, to Skinner & Son's glass factory, and Greenmount Cemetery Association, provided there is money enough.  
Put electric lights on Vine Street to Central School, for night school, Board meetings, etc.  
Pay strict attention to the drainage report from the Board of Trade Committee. It will not be an expensive business, but will solve many a problem, and actually save money spent every year on gutters and culverts too small to carry off surplus water.  
Order all streets graded from curb to curb, instead of eight or ten feet in the center.

**THE LICENSE QUESTION.**  
The arguments used by some of the advocates of liquor license make one weary.  
For instance, that old chestnut in regard to speakeasies, "Men will have run, somebody will sell it, so you might as well have a license fee."  
Well, sometimes will steal, no matter how many laws forbid it; others will swear, others commit murder; so you may as well collect license fees, and fix places where such offenses may be legally indulged in. We have four open bars in town; each does a satisfactory business, over and above the three hundred dollars per year paid for license. Do you wish to believe that speakeasies ever did so much?  
They are men in town to whom liquor cannot legally be sold, yet they get drunk where do they get the stuff? We saw a well-known man stagger past our door on Sunday afternoon; how did he get full? Are there still speakeasies in town?  
One man said, "I have been in Hammoncton three years, and have not seen a dozen drunken men." Possibly, but how many half drunks? how many are spending the money needed for their families, in selfish indulgence? We could name to him two women who were so drunk that they made fools of themselves by their language. We could name one man who receives a handsome salary, whose legs refuse to carry him straight at times, and whose countenance now betrays growing evil habits. We could name another, (a fine man, with an uncommon brain) whose property is passing into other hands because too much of his earnings go to quench his thirst.  
These will do for samples of drunk factory work; and none of them was known to be a habitual drinker until the sale of liquor was legalized in Hammoncton.  
As we have said before, we are unalterably opposed to the rum traffic, and what to our hearts, by voice, pen, and vote, to banish it from our otherwise untainted town.

**BASE BALL PARK.**  
Unless some one, or organization, takes possession of the Base Ball Park, it will very likely be a thing of the past, or in other words, the structures torn down and sold for old lumber.  
As most people know, four of our sport prominent citizens filed the bills to erect the fence and grandstand, and lay out and gravel the fine field. Since the first expenditure of money, there have been numerous assessments for repairs, etc., and but little income. To be sure, the signs, including Hinz's have reimbursed them to some extent.  
The lease on the land expires next July, and the managers naturally hesitate about renewing it unless there is some prospect of getting back part of their money.  
Base Ball Park has become a necessity to Hammoncton pleasure-loving people; and a town which cannot boast of a field, fitted up for the purpose, is a back number. Let us make some money, and that right soon.  
The State Board of Taxation will meet in the Court House, May's Landing, May 15th. All assessors and collectors in the county are asked to meet with them for instructions as to duties under the new tax laws.

It may be interesting to know that for 1903, the assessed valuation of Hammoncton property was: Real estate, \$857,725; Personal, \$89,525; total, \$947,250. Beside this, there is school property valued at \$27,800; church, \$89,000; owned by the town, \$41,000; total, \$1,085,050.  
One of our longtime residents recalled to our recollection that twenty years ago and thereabouts, Hammoncton schools were dismissed for a half day on the rare occasion of good skating. This winter, the lake has been frozen over continuously, since Oct. 15th (so he says, and he lives right there), with skating much of the time. Quite a change.  
Mr. James Trafford died last Saturday night, Feb. 13th, aged 79 years. Another good citizen gone! He came here early in the sixties, married here, and earned the respect of people generally by his straight-forward life. As a stone-mason he laid the foundation walls for many a building in this section. He has been in feeble health for several years, and a few weeks ago was stricken with paralysis. Funeral services were held at his late residence, Third street, Wednesday afternoon, conducted by his pastor, Rev. F. L. Jewett.

**ELWOOD NOTES.**  
Miss Mary Oliver, who resides with Mrs. Harry King, is seriously ill.  
Mrs. John H. Wickham has been very sick for the past week. Several of her relatives have been to see her, among them were her two nephews, Mr. William, and Dr. E. M. Flier.  
Last week Mrs. Howard Bozarth was called to Bridgeport, N. J., to see her mother and father, who are both ill.  
Mr. and Mrs. Stephen Bentley spent a couple of days in Philadelphia this week, making their headquarters in Camden with their daughter, Mrs. Frey.  
Miss Jennie Beckman had a pleasant visit with her sister, Miss Anna, in Atlantic City.  
A Valentine Social given by the Y. P. S. C. E., at the home of Mrs. Beckman, on Feb. 12th, was voted by all to be a grand success. The social committee spared neither time nor pains to make everyone enjoy themselves.  
Mr. Benj. Jarvis, while riding in an open wagon, was thrown to the ground and run over. He was pretty badly bruised, and some fear one of his ribs was broken.  
Miss Marion Harkinson, of Germantown, gave a progressive lunch party on the 16th. Many of her Elwood friends were invited. Among those who accepted were Miss Reba Stone, Mr. H. Laogham and Mr. Willard Bozarth.  
Mr. James Rietzler has left Elwood to go south. He expects to have work at Cypress Creek, N. C. As some of his friends have been there a few months, he thinks he will like it.  
Mr. James Sawyer, who went to Baltimore to get work, found the weather so cold there that he returned home to wait until it became more mild. He says there is lots to be done as soon as the men can work.  
Rev. Jos. S. Eldridge, pastor of the M. E. Church, is holding revival meetings at the Pleasant Mills charge. One night this week a party of eight went from here to help him, and they found it a pretty cold drive.  
Miss Elsie Beyond, of Pleasant Mills, is visiting her aunt, Mrs. J. H. Bozarth.  
Mrs. Hannah Verill is visiting her granddaughter, Mrs. Win. Pote, of Philadelphia.

**FIRE COMPANY ELECTS.**  
Volunteer Fire Company held its regular monthly meeting on Monday evening. Many timely topics were discussed, committees "jumped," and the following officers elected to fill vacancy caused by the death of Mr. D. S. Cunningham: President, A. L. Jackson. Vice-Pres., Jos. W. Rickards. Representative to Relief Association, G. F. Lentz.  
Last Saturday, the little two-year old son of Martin Baker, of Winslow, took an involuntary bath in boiling water, scalding himself badly. His mother had lifted the boiler off the stove and set it on the floor, and the little fellow, climbing onto a chair, lost his balance and fell in. His back, from the shoulders down, will have to develop new skin. Dr. Burt attended him.  
A very interesting debate took place in the tenth grade of Hammoncton High School yesterday morning, the question being—"Resolved, that Russia will win in a long war." The affirmative were Ida Blake, George Gresh, and James Cottrell; the negative, Mabel Small, Charles Peroussas, and William Phillips. The Judges (Amy Joelyn, Frances Myrick, and John Birdrell) decided in favor of the negative.

**The Post Check Plan.**

Postmaster General Payne in his last  
annual report took strong ground in  
favor of the passage of a measure which  
would afford a safe and cheap method of  
transmitting money through the mails.  
The necessity for a measure of that  
character is all the greater because of the  
rapid extension of the rural free delivery  
system, and it was on that ground main-  
ly that Postmaster General Payne based  
his recommendations.

The bill providing for the issue of post  
check currency would obviate all the  
inconveniences and the difficulties attend-  
ant on the present system of transmit-  
ting money through the mails. The  
dweller in the rural district, equally  
with the dweller in the city, would have  
a cheap and convenient means of send-  
ing money through the mails absolutely  
safe and avoiding all questions of torn  
or mutilated bills or stamps stuck to the  
letter in which they were placed for  
transmission as the equivalent of money.

The post check would possess all the  
circulating and value qualities of the  
present system of bank notes, and by its  
retirement on presentation at any Post-  
office for payment and the issue of  
another in its stead would maintain a  
constant supply of clean money, and  
would make every man his own money  
order office, with no outlay of time re-  
quired on his part. The bill is one of  
the greatest possible merit.—Selected.
