The death of Walter B. Earl, who became violently insane after undergoing the Keeley bi-chloride of gold treatment, has aroused public interest in the cure, and an investigation of the mysterious agent, which is now said to be largely composed of strychnine, has been demanded. Suit for \$100,000 damages is now threatened by Earl's relatives, and his death has led to the introduction in the State Senate by Senator Endres, of Buffalo, of a resolution providing for an investigation of the mysterious Keeley bi-chloride of gold cure, to determine whether it is detrimental to the public health. If the resolution is adopted a legislative committee will be appointed at once, with full power to examine witnesses. The results are to be reported to the Legislature by March 17. Charles A. Earle, of Albany, Journal Clerk of the Assembly, is a cousin of the dead man.—*Phila. Ledger of Feb. 20th.*

A dangerous benefactor of suffering humanity is he who "kills to cure"! Timely indeed is the achievement, and timely the announcement, which is beginning to reach the public, of Dr. Nivison's scientific and humane treatment for the alcohol habit. From what has already been announced to the readers of the *Republican* respecting Dr. Nivison's absolutely safe and reliable method of treating the liquor habit, one has only to note what Dr. Keeley has accomplished in the matter of exciting public attention to his claims, and the immense following which he has secured in a brief period of time, to realize how incalculably great is the demand for a cure of some kind for the poor inebriate. It goes without saying that in the long run the mode of cure which proves to be the safe and better mode is the one which has come to stay. Note the following:

Dr. Leslie E. Keeley, of Dwight, Ill., has concluded to contract with the United States Government to put his remedies and treatment for the cure of the liquor and opium habits in all of the National and State military and naval homes of America. He has also made a contract with J. S. Vickers, of London, England, representing a group of capitalists, for the sole rights of the Keeley gold remedies for the cure of intemperance and opium in the United Kingdom of Great Britain and Ireland. It is stated that the English syndicate have a capitalized stock of 1,000,000 pounds sterling.—*Phila. Inquirer of Feb. 24th.*

God speed the righteous workers for humanity; and who, among all the ranks, is to be more earnestly commended, more justly honored, than our own townsman, Miss S. S. Nivison, M. D.,—faithful as a friend, loyal as a citizen, skillful as a physician.

PASTOR KOENIG'S NERVE TONIC
Physicians Couldn't Cure. I
BEDAMSVILLE, Hamilton Co., O., June 1890.
One bottle of Pastor Koening's Nerve Tonic cured me entirely, after physicians had tried unsuccessfully for eight months to relieve me of nervous debility.
W. A. CUNN EFIELD.

DELIZI, Ont., Jan. 14, 1891.
My wife has taken six bottles of Pastor Koening's Nerve Tonic, she has had no return of the fits, and I think this remedy has had the desired effect. I cheerfully recommend it to any one suffering from that dreadful malady, "Epilepsy."
JOHN GIANT.

PHOENIX, Mass., June 17, 1890.
About a year ago I noticed my right hand continually shaking. I tried different medicines but they all had no effect. After using three or four bottles of Pastor Koening's Nerve Tonic my hand ceased to shake and I found myself gaining every day. I think this medicine is one of the greatest remedies.

Short Tariff Schemes.
NO. VIII.
In the first place, what are raw materials? Ore and coal in the mines, trees in the forest—in short, anything that has undergone no change by the hand of man.
Taken, however, in broader and commonly accepted sense, the term raw material has a different significance—namely, the material which forms the basis of an industry. A finished product of one industry may therefore become the "raw material" of another industry. Pasture is the raw material of the sheep grower, and wool his product. Wool is the raw material of the spinner, and yarn his product. Yarn is the raw material of the weaver, and cloth his product. Cloth is the raw material of the tailor, and garments his product.
Forest trees are the raw material of the woodman, and logs his product. Logs are the raw material of the lumberman, and lumber his product. Lumber is the raw material of carpenters and cabinet makers, and houses and furniture are their products.
The mine is the raw material of the miner, ore is his product. Ore is the raw material of the smelter, and iron his product. Iron is the raw material of the steel manufacturer, and steel his product. Steel is the raw material of the watchmaker, and watches his product.
Therefore, when Free Traders talk about "raw material," they mean material upon which labor has been expended; in other words, they would admit free trade to certain manufacturers for the benefit of certain other manufacturers.
This is just the opposite of what a Protectionist would do. Protectionist protects everything from the moment the hand of man first touches it up to its highest and most finished manufacture.
Free ore and coal means ruin to the miner. Free wool means ruin to the sheep raiser. Free lumber, free salt, free this and free that, means ruin to some American industry. "Give us free raw material," says the Free Trader, "and we will capture the markets of the world." Well, our Tariff law does that very thing. It gives a drawback of 50 per cent. on all imported material used in manufactures for the export trade. Don't be deceived, then, by the delusive and dishonest cry for "free raw material."—*American Economist.*
Edison thinks he may be able to hear the sun spot roar. His idea is that a long stretch of copper wire to be set up will be affected by the electrical disturbance on the sun. From the wire these disturbances may be translated into sound waves.
Atlanta has been flooded with an issue of counterfeit silver dollars, which are of remarkably fine workmanship.
The majestic has beaten the record, making the trip across the Atlantic eastward in 5 days, 20 hours and 22 minutes.
Secretary Noble denies that he will succeed Whitelaw Reid as Minister to France.
The Georgia State Treasurer has begun paying the 4000 widows of the Confederate soldiers in the State the pensions authorized by the last Legislature. He has paid out \$300,000 of the \$400,000 which the act will cost the State yearly.
Silver steadily falls in price and every day renders it clearer that no one nation can maintain silver at a parity with gold even though it buys in open market half the world's silver product, as the United States is now doing.
The road to economy is a prudent buy-way.
Happy Hooters.
Wm. Trimmings, Postmaster of Idaville, Ind., writes: "Electric Bitters has done more for me than all other medicines combined, for that by feeling relief from kidney and liver trouble." John Leslie, farmer and stockman, of same place, says: "I find Electric Bitters to be the best remedy for kidney and liver medicine, made me feel like a new man." J. W. Gardner, hardware merchant, same place, says: "Electric Bitters is just the thing for a man who is all run down and don't care whether he lives or dies; he found new strength, good appetite and felt just like he had a new lease on life." Only Six a Bottle, at any Drug Store.

Do you want to buy a Lamp?
And the best lamp
ever made, like Alad-
dia's of old, a "won-
derful lamp." A lamp
absolutely non-
explosive and un-
breakable, which
gives a clear, soft,
brilliant, white light
of 45 candle power.
Purer and brighter
than gas light, softer
than electric light,
more cheerful than
other! That lamp is
"The Rochester."
And with it there is no smoke, no smell,
no broken chimneys, no flickering, no sweating,
no climbing up of the flame, no "santanas,"
no annoyance of any kind, and it never
needs trimming. Its founts (oil reservoirs)
being tough rolled seamless brass, with cas-
tall draft, it is absolutely unbreakable,
and as safe as a fallen candle.
Only five years old, and over a million and a
half in use. It must be a GOOD lamp to
make such a telling success. Indeed it is.
The lamps may come and lamps may go, but
the "Rochester" shines on forever! We
make over 3,000 artistic varieties.—Hanging
and Table Lamps, Banquet, Study, Vase and
Piano Lamps, every kind in Bronze, Por-
celaine, Brass, Nickel and Black Wrought Iron.
Ask the lamp dealer for it. Look for the trade-
mark stamp: "The Rochester." If he hasn't
the genuine Rochester and the style you want
or if no lamp-store is near, send to us for
free illustrated catalogue (and reduced
price-list), and we will box and send you any
lamp safely by express, right to your door.

A triumph for American workman-
ship is implied in the order recently re-
ceived by a firm in the United States
for printing presses to be used in the
office of the *London Times*. The satis-
faction naturally felt by the American
house is all the greater on account of the
fact that the machine which is to be re-
placed by one of American manufacture
was invented by Mr. Walters, the
founder of the *Times*.

Miss Canada, this is leap year. Do
you hear?—If you want a union with
Uncle Sam, popular opinion will uphold
you in "popping the question" any time
during the year 1892. Think it over.
When a man is "laid up" he is very
apt to be laid down.

They Are Famous.
Camden, N. Y., Sept. 26, 1890.
Having suffered from dyspepsia and
constipation for several years, and having
tried many eminent doctors without suc-
cess, I was reluctantly induced to try Dr.
Dean's Dyspepsia Pills. I obtained
speedy relief, and after a few months'
use am cured. After such an experience,
how can I praise them too highly? They
ought to become famous, and gratitude
prompts me to do all in my power to
make them so.
WALTER STODDARD.

Remarkable Rescue.
Mrs. Michael Curtin, Plainfield, Ill.,
makes the statement that she caught
cold, which settled on her lungs; she
was treated for a month by her family
physician, but grew worse. He told her
she was a hopeless victim of consumption
and that no medicine could cure her.
Her druggist suggested Dr. King's New
Discovery for consumption; she bought
a bottle and to her great delight found
herself benefited from the first dose.
She continued its use and after taking
ten bottles, found herself sound and well,
now does her own housework and is as
well as she ever was. Free bottles of
this Great Discovery at any Drug Store,
large bottles 50c. and \$1.00.

HE MISSED HIS OPPORTUNITY! DON'T MISS
Yours, Reader. The majority neglect their op-
portunities, and from that cause live in poverty and die in
obscurity. Harrowing doubt is the lot of many, as they
look back on lost, forever lost, opportunity. Life is pass-
ing! Seize it. Be up and doing. Improve your opportu-
nity, and secure prosperity, prominence, peace. It was said
by a philosopher, that "the kindness of Fortune offers a
golden opportunity to each person at some period of life;
embrace the chance, and she pours out her richest fallow to
you, and she departs, never to return." How shall you find
the golden opportunity? Investigate every chance that
appears worthy, and of fair promise: that is what all suc-
cessful men do. Here is an opportunity, such as is not often
within the reach of laboring people. Improved, it will give
at least, a grand start in life. The golden opportunity for
many is here. MONEY to be made rapidly and honorably
by any industrious person of either sex. All ages. You can
do the work and live at home, wherever you are. Free ho-
me-makers are easily earning from \$5 to \$10 per day. You
can do as well if you will work, not too hard, but industri-
ously! and you can increase your income as you go on. You
can give spare time only, or all your time to the work. Easy
to learn. Capital not required. We start you. All is com-
paratively new and really wonderful. We instruct and
show you how, free. Failure unknown among our work-
ers. No room to explain here. Write and learn all free,
by return mail. Urge to succeed. Address at once, **H.**
