Bellevue Hall was full, last Saturday evening, of people and amusement, when the ladies showed the coming national issue—"How the Vote Was Won." All agree that it was enjoyable, and that the various parts were carried out to perfection. On the other hand, the managers confess themselves as pleased with the financial end of it.

EXCESS CREWS IN DISFAVOR

**Various Attempts to Enact New
 State Laws Have Been
 Unsuccessful**

Philadelphia, Feb. 27.
 Efforts of the trainmen's organization to force Full Crew Laws—really "excess" crew laws—upon various states are meeting with strong public opposition. Farmers and business men of Kansas made such sharp protest that the bill before the legislature of that state was killed February 13 in the senate committee.
 An effort to enact an "excess" crew law in West Virginia met with general opposition, and the bill was reported adversely by the legislative committee to which it was referred. Down in Alabama a legislative committee, after public hearings upon a Full Crew bill, concluded that the contentions of the trainmen's union were not well founded and that the measure would only compel employment of extra men not needed on the trains. The bill was consequently adversely reported.

In Texas a new effort to get an "excess" crew bill passed has encountered vehement opposition from the farmers, who defeated a previous effort. Out in Washington a bill has been agreed upon by committees of both the senate and the house, which in effect will repeal the Full Crew Law of that state and leave it to the Public Service Commission to say how trains shall be manned.

The bill before the New York legislature for repeal of the Full Crew Law of that state is being earnestly supported by newspapers all over the state, by grange and business organizations, such as the Rochester Chamber of Commerce, and by influential men of affairs.

The State Board of Agriculture and the New Jersey State Chamber of Commerce stand strongly for repeal of the Full Crew Law of New Jersey, with power to the Public Utilities Commission to determine how trains should be manned.
