GEORGE ELVINS.

IF I WERE A GIRL.

MR. EDITOR:—Some time ago there appeared in your paper a chapter or two on what some woman said she wouldn't do if she were a boy. Now here are some things I would not do if I were a girl.

I wouldn't try to be too smart, for possibly there are some people in the world who know fully as much.

If I were a girl, I would try to be ladylike in manner and speech.

If I were a girl, I would laugh if there was anything funny to laugh at, but I wouldn't giggle. It's only simple people who do so.

If I were a girl, I would not laugh in church, for that shows you have little respect for the church or the minister; besides it don't speak well for your home training.

If I were a girl, I would try to be polite to everyone, especially to those who are older than myself.

If I were a girl, I would not answer back if told to do anything that wasn't just my regular work.

If I were a girl, I would keep my room tidy, and take care of my own things, and not let my mother do it for me.

If I were a girl, and attended an evening party or gathering, I would speak to everyone, especially those who were strangers to most of the company. Just imagine how a girl would feel, having no one to notice her, or try to make her feel at home.

If I were a girl, I would try to think of such things. Wouldn't you, Mr. Editor?

ONE OF THE BOYS.

A RAILROAD TICKET.

"A little schoolgirl's definition of a railroad ticket is worth repeating. In a composition written in one of the Boston primaries on 'A Railway Journey,' the little one says among other things:—

"You have to get a ticket, which is a piece of paper, and you give it to a man, who cuts a hole in it and lets you pass through."

This is rather a good description for a child, but I wonder if many of our readers appreciate half the pleasure to which the slip of paper or cardboard entitles them.

In former years traveling was "in some respects almost as hard as "passing through a hole" punched in anything, but under the present improved system used on most roads, especially on the Philadelphia & Reading Railway, the possessor of one of these small printed slips has many privileges.

Having a ticket, you take a seat in a finely upholstered coach, in every way more artistically decorated and comfortable than the old style "Parlor Car" considered in its day the acme of traveling comforts, and are whirled away at a rapid rate by a swift locomotive over a smooth, well-ballasted dustless road, well protected by automatic signals. The neatly uniformed train hands being as a rule so gentlemanly and polite that ladies or children travelling alone receive as much or rather more attention than the sterner sex.

Two especially rapid trips from Philadelphia are "Sixty Minutes to Atlantic City," and "Two Hours to New York," while nearly as fast time is made to other points on the Reading System in the Coal and Lumber fields and other parts of Central Pennsylvania.

One very convenient point of the Philadelphia and New York line is that no Time Table is needed, rapid trains leaving both Reading Terminal, Philadelphia, and Liberty Street, New York, "Every Hour on the Hour" from 7 A. M. to 7 P. M., weekdays.

Wm. D. PLEASANTON,
15th St. and Railroad Ave., Hammonton, N. J.

The last meeting of the New England Club was held in the commodious parlors of Mrs. Bains. The ingenious business added much to the entertainment by introducing a novel feature, which perhaps, was not new to some present, yet quite interesting, and amusing to those who were in the dark. One instance at least when coming events did not cast their shadows before.

The following is true to life. The man who grows up in his town is regarded as a "boy" by his elders until he is well started down the declivity of life, that ends in a hole. The stranger who comes into a place is more often pushed to the front than the young man who has always resided there. This is one reason why so many young men become dissatisfied with their home surroundings, and long to seek their fortunes in new fields.

HOW TO KEEP YOUTHFUL. "Thou shalt not grow old" is an unwritten law which every sensible man and woman aims to observe. And how do they accomplish it? Simply by keeping the system in perfect trim through the use of a tonic medicine like Green's August Flower. They keep their blood pure, their digestion good, their liver active, their vitality normal, and their spirits buoyant by the regular and judicious use of August Flower, and thus keep youthful and happy. Trial bottle, 25 c. Big bottle, 75 cts. At all druggists.

SATURDAY, MARCH 4, 1905

Town Council Meeting.

The regular monthly convocation of our city fathers was held in the palatial town hall on Saturday evening last, Feb. 25th. Every member was in his seat when Chairman Bernhouse rapped his gavel.

Highway Committee reported liability to do much work until the weather moderated. Some exchanges of views followed, in regard to the approach to Volunteer Fire Company's premises; but no action taken.

Fire, Water and Light Committee reported twelve rubber fire buckets ordered, and on the way here; also, some misunderstanding has prevented shipment of new lamp for fire house; but it will probably be here soon. Also, new engine and dynamo ordered by the Electric Company.

Finance Committee reported books audited, and the annual report being printed.

Bills ordered paid were—

Town Purposes—

A. J. Davis, postage—\$14.12

W. P. Keyser, watchman—25.00

L. P. Scott, filing delinquents—4.45

Star, advertising—8.00

B. P. Bradshaw, janitor—24.00

J. W. Myers, marshal—24.00

Geo. Bernhouse, Overseer Poor—10.00

The fund being exhausted, \$7.67 of these bills were paid from surplus fund.

Street Lights—

Bill for February—\$14.00

Fire Department—

General Supplies—

R. M. Little, supplies—\$5.30

There were eight highway bills read, amounting to \$30.05, all approved by the Overseer, but objection was made to two of them because part of the work (shoveling snow) was not properly done.

A motion to pay all these bills was defeated by a ye-vote, and all will have to lay over. It seemed unjust to those whose work was unacknowledged.

A communication from the fire companies petitioned Council to recommend an additional appropriation of three hundred dollars for the fire department.

Clerk directed to reply, stating that there will be no legal town meeting this year.

Letter read from the Trust Company in New York who have the custody of our water bonds, saying that they had been signed by Mr. Boyer, but that Mr. Bernhouse is now chairman of Council, questioning whether bonds were legally ready for delivery. Inasmuch as Mr. Boyer was chairman when the bonds were issued and dated, Council thought they could not be signed by his successor. The Trust Company will be notified to deliver the bonds to the Peoples Bank, as agreed.

A resolution was introduced by Mr. Spoor, making appropriations for 1905. After discussion, withdrawn.

The Clerk was authorized to call a town meeting, to advise in regard to the various amounts to be raised by taxation this year. Council is authorized to fix these sums, but prefers to hear what the voters have to say.

Mr. William Skinner, head of our ideal glass factory firm, died early on Wednesday morning, March 1st, after a short illness, aged 60 years. Funeral services will be held to-day, at 10:30 o'clock, to St. Mark's Church. A wife, son, and daughter are among the mourners.

Some people speak of hypocrites as though they were confined to religion, but they are everywhere; people pretending to be wealthy when they have not a dime; assuming knowledge of which they are ignorant; assuming a culture they are far removed from; adopting opinions they do not hold.

Our people are very wary of giving money to strangers, which fact an individual probably discovered Wednesday afternoon. He wore Uncle Sam's uniform and cap, and told his little story about being robbed on the train of ticket and money, and desiring to go to Atlantic, was compelled to beg a loan of a small amount.

The time for holding Court in Atlantic County has been changed from April, September, and December, to May, October, and January, said change to take effect on the term of Court following the coming session in April. This change was made at the request of the business men, lawyers and all, that September was an objectionable month, because of the busy times of July and August, and that the new months named would be more satisfactory.

The leader of the Baptist O. E. meeting on Sunday evening, March 13th, wishes all to bring Gospel Hymns No. 1 (or Nos. 1, 2, 3 and 4), as the old pieces will be sung, including "Hail the Lord," "Praise for the shore," "Sowing the seed," etc. A good old fashioned time is expected, and strangers and old people will receive a welcome.

Recital and Concert.

The organ recital and concert, to be given next Tuesday evening in the Presbyterian Church, will be of unusual interest to our Hammonton people. This is the program, carried out by imported talent:

1. Preliminary March.....Gullmead

Annual Meeting.

Oak Grove Cemetery Association annual meeting was held last week Friday evening, in Firemen's Hall, Main Road Messrs. H. M. Phillips and J. G. Pitt were re-elected Trustees.

The Trustees organized by electing the following officers:

President, L. H. Parkhurst.
Secretary, Geo. W. Elvins.
Treasurer, H. M. Phillips.
Superintendent, Edward Cathcart.
Sutton, Richard Clark.

It was decided to build a small ornamental house in the Cemetery, for the storage of tools, and to make improvements on the roads.

We have before us a copy of the Annual School report for the year ending March 4th, 1899,—nineteen years ago. It is very interesting to note the changes made in Hammonton schools since that time. The total number of children of school age was 477; this year 985. There were but eight teachers; now twenty-five. The principal was paid \$50 per month; now, \$1890 per year. The district then included Columbia, and had six buildings; now, including our fine Central and annex, we have nine. We had six trustees then, and a new law reduced the number to three; now we have nine. The board that year recommended the appropriation of a small sum to purchase textbooks for poor pupils; now the district supplies them all, with a reasonable allowance of pens, ink, pencils and paper. Verily, the world moves; and Hammonton has not stood still.

THE EMBERY for rent, with garden. Inquire of Wm. A. HOOD.

The long continued cold weather, and the persistent refusal of Jack Frost to loosen his grip on earth and impatient mortals, recalls a prediction made a few years ago, by some crank, that the much discussed spots on the sun would increase until its light was blotted out, and the earth become too cold for human habitation. Ugh! that sounds cold-blooded doesn't it? But, take courage. We noticed that when clouds roll away long enough to give the sun a chance, the ice king perspires, as of yore, and the great luminary's rays do not seem so bright, nor warming, than they did fifty years ago. Wait until next August, and tell us what you think about a frozen sun.
