THE THIRD ANNUAL MEETING-REPORT FOR TH YEAR—THE ELECTION
OF OFFICERS.

On Wednesday, of last week the third annual meeting of the Vessel-owners' and Captains' Association was held at their rooms, on Walnut street, above Front. Pres. John W. Everman in the chair.

The third annual report was read by the Secretary, Chas. H. Steelman, from which we make the following abstracts: There are now enrolled on our books, in good standing, 324 members and 267 ves-

The treasurer reports the total receipts at \$6,089.49, and the disbursements for the year \$3,978.12, On comparing the treasurer's report

On comparing the treasurer's report with that of the previous year, it will be seen that our receipts during the past year were \$709.85 less than for the previous year. Upon a like comparison it will be seen that while some items of expenditures have been largely decreased. penditures have been largely decreased. he aggregate has been increased \$249. This is accounted for by the expenses of the committee to Washington, the em-ployment of additional counsel, and the increased number of demurrage suits that

have been brought during the year.

The matter of compulsory pilotage,
Harbor Master's, and Port Wardens' fees, still continues to occupy a large share of the attention of your board. The case of the Pilots' Association of Philadelphia against Captain Jno. Garwood, of the schooner R. W. Godfrey, which was mentioned in our last annual report, still re-mains unsettled, having been decided in the Court of Common Pleas in favor of the Pilots' Associations, an appeal has been taken by your board to the Supreme Court of Pennsylvania.

In the matter of Harbor Master's fees

we have been more successful, and we are pleased to say that it can be taken as a general principal that, unless services are asked and rendered, no claim of this kind can be legally collected. On Thursday Feb. 8, the Harbor Master applied to the City Councils for an appropriation of \$1. 000 to pay counsel fees to contest the question whether our vessels cannot be compelled by law to report to him or the Port Warden every trip. This request was referred to the Financial Committee of Councils, where it still is.

In this connection we would cite the case of the harbor master at Charleston, S. C., against the schooner John M. Broomall. This was an action brought against the said schopner by virtue of an ordinance of the City Councils of Charleston, imposing a tay of 12 cent and the city councils of charleston, imposing a tay of 12 cent and the city councils of charleston. ton, imposing a tax of 13 cent per ton or all vessels coming from ports of other States. The decision in the case was as follows: The Constitution in the United States provides that "no State shall, without the consont of Congress, lay any duty on toninge. It does not appear that the City Council, at the date of the ordinance had, or that it now has, the consent of Congress to levy the duty thereon imposed. The decree must be for the de-

posed. The decree must be for the defendant, and is so ordered and adjudged.
We would also call your attention to the fact that, after the 31 day of March, 1871, the authority under which the city of Baltimore exacts and collects a tax of two cents per ton on vessels arriving at that port will ocase, and that no such tax can legally be collected after that time.

During the latter part of the past year we have had little or no difficulty with our bill of lading. Shippers and consignees, with scarcely an exception, have accepted it, and suits arising from it are

It was announced in the report of the of the present board they appointed a committee for the purpose of represent-ing the interests of the members of this association at Washington, but from various causes they were unable to fully accomplish their objects at the last session of Congress.

The report also contains the proceedings of a special meeting of the association held on the 14th of December, 1870, relative to the depressed condition of American commerce, and the measures, in its opinion, nocessary for the relief of those branches in which it was more immediate-

After the presentation and adoption of the reports the association proceeded to the annual election of officers, which re-
