A Week's Fires.

About five o'clock last Saturday morning, fire broke out in P. M. Romeo's hall, on Pratt Street, and before help could be secured the high wind had fanned the flames through the structure and caught on the house, a few yards away. Both fire companies were soon on the spot, and put two streams of water on the residence, and with the aid of the chemical engine on the inside, the building was saved, with some damage to the roof and rear rooms.

In the hall were the Hammonton Band instruments, which were destroyed.

The cause of the fire is a mystery, as the fire in the stove had gone out some time before the musicians left, the previous night. At eleven o'clock, when the family retired, everything was all right. Some think that burnt matches, or cigarette stumps, thrown in a cuspidor, may have started the trouble.

Another alarm sounded at 1.15 Thursday afternoon, from a house on East Washington Street. It was only one of the many chimney fires, and was treated by Dr. Firemen with a generous dose of salt, followed by a tank of acid and soda.

More Improvements.

At their meeting, on Wednesday, the Freeholders adopted resolutions in favor of paving Bellevue Ave. from Third Street to Main Road,—about one mile.

The conditions are that Hammonton will pay one-third of the cost; the State one-third; the County one-third.

Every man who has driven over Bellevue Avenue during this winter will favor the project; and everything looks as though we might have the work done during the summer.

Dr. Cunningham's car was badly wrecked, and the Dr. himself bruised and shaken up, when he was steering his car out of a rut in passing a vehicle on Pleasant Mills Road, Monday morning. He purchased another car, the one ordered by Dr. Butler.

A police alarm was sounded last Saturday night, between nine and ten o'clock, and officers went post haste to Pine Road. Soon after, a call for reinforcements came, and Councilman Pizzi and Constable Rubba jumped a jitney for the scene of disorder. Arriving, they found everything quiet, and everyone indignant that so much ado be made over nothing. Who sent the alarm was not told; but it is suspected that a victim of boys mischievous pranks heard a company of orderly merry-makers passing by, and feared that they were bent on mischief. Others say that some of the young fellows were having an Italian Hallowe'en celebration.

Our Firemen deserve a lot of credit for the excellent work they've done at the many fires in Hammonton. City fighters could have done no better. Should we not give them what they need? Now is the time.

Why it is to your interest to deal with us.

As we have kept constantly in touch with the different markets, we could foresee the advance in prices of raw materials so bought ahead, which enables us to sell most of our merchandise at former prices.

While others are compelled to advance their prices, we are able to sell our merchandise for less money; and as our business, on a strictly cash basis, has been very successful, we will continue to give customers our usual five per cent discount.
