THE CITY BEAUTIFUL.

Some weeks ago, at a meeting of the Board of Trade, a member read a paper which called for the cooperation of the community in making Hammonton a more beautiful, cleanly, and progressive town. Civic questions should appeal/especially to-women, as-dusty-streets, unsanitary conditions, uneightly buildings and yards, inadequate public improvements, make housekeeping more difficult and offer poor surroundings for growing children.

The work of Women's Clubs, and of Village Improvement Societies,—composed of men and women, in different parts of the country, show how much can be done by earnest co-operation of citizens to benefit the whole community. All that is necessary to start such a movement is to unite the now divided energies of interested people.

The Board of Trade has opened its membership to women, and wishes to co-operate with an organization of active workers. In order to obtain the support of as many women as possible, whose one aim shall be the good of the town a Civic Club has been organized. On Tuesday last, a number of women met at Mrs. A. L. Jacksun's and elected the following officers:

President, Mrs. A. J. Rider. Vice-Prest, Mrs. H. Kirk Spear. Recording Secry, Mrs. T. R. Evans. Cor. Secry, Mrs. Chas. Cunningham. Treasurer, Mrs. G. M. Crowell.

A committee, composed of Mrs. Rider, Mrs. Evans, Mrs. Jackson, Mrs. Whiffen, and Mrs. Meade, was then appointed to complete the organization of the Club. The first regular meeting will be held on Tuesday next, April 3rd, when it is hoped to secure a large membership and inaugurate an enthusiastic interest in civic affairs.

SONS OF VETERANS.

Quite a good company of young men met Wednesday night, for the purpose of instituting a Camp of Sons of Veterans. Since the torner meeting, several have given their names to the committee.

It was decided to meet again next Monday evening, in Mechanics Hall, at which time it is desired that all who wish to join as charter members attend. The next evening, Tuesday, in Odd Fellowe' Hall, the new Camp will be instituted. Brethers from the State and from Atlantic City Janeway Camp, will have charge, and will doubtless make things interesting. Of course, members of the G. A. R. are welcome guests. There will be a feed.

Application blanks can be seen at Dr. B. B. Filer's, or at the Republican office.

FUN IN THE COUNTRY.

Good folks, that's fun in livin' in the country, all around, When the frost is in the furrow an' the green is turnin' brown, When the days are cool an' crispy, an' the nights have brighter stars. An' you hear the tinkle of the bells acrost the pastur' bars.

That's lots of fun in livin' when the woods are full of haze An' you hear the fiddle surgin' whar the cabin fires blaze! When the gals are candy pullin', an' they've_robbed the honey bees, An'/spuire damein' when you want to, an' you're sparkin' when you please!

O. the whirrin' of the partridge an' the boundin' of the buck! The treeln of the 'possum, and the rabbit's foot for luck! The barkin' of the squirrels on the oak an' blek'ry trees-And was find 'em when you want to, an' you shoot 'em when you please

That's the time that gits me! for the world is good to see When the fiddle is a single an my sweetheart smiles on me! And if it is a quadrille-I'm not takin' any chance. But I'll bet you that the prettiest gal is goin' to have a dance! -Atlanta Constitution.

No Sunday school scholars, no matter how little it may seem that they can be concerned in the question, should pass out from their Sunday school training without having had it impressively put before them that they may be themselves tempted, or may be a cause of temptation to others. And no girl should go sway without having it clearly and pointedly put before her that to marry, a man who is not a teetotaler is taken such elementary principles of conduct. The Sunday school teacher cannot take for granted that they do, and is often in a position to speak more convincingly than the presents could

As a rule, the uncopularity of women is a verdict pronounced upon them by their own sex. Men proverblally make the best of women; if there is anything pleasant to be said about them they say it, and "a handful of good

poks" weighs greatly in a woman's favor from a man's point of view. A woman must be very stupid, dull, disagreeable, and plain before a man will boldly confess that he "can't get on with her."

Unpopularity is derived from various sources. A woman may be piquante, pretty, and pleasant; she may live in good style and do all that fashionable

women do in the way of society engagements, and yet be extremely unpopula with both men and women. Her women friends are afraid of her, and her men friends never feel sure of her because her perceptions of the foibles and weaknesses of her friends are so keen and so little tempered by genuine good nature that no one escapes

from the sting made by her apparently innocent remarks. Another type of the unpopular woman is the one with a chilling manner and standoffish demeanor, who, when she will thaw, cannot do-so-with any graciousness; though really kind-hearted and duty-loving, she is as unpopula is a woman can well be.

A brusque manner renders a woman unpopular until her friends know her well. But acquaintances seldom get as far as this; therefore, to the end of the chapter she remains the brusque, unpopular woman still.

Egotism is a formidable barrier to popularity. Women of this type are agreeable only so far as the topics of conversation concern themselves, th ilms, interests, and amusements.

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure mutter daily.
