We are now Exhibiting the New Spring and Summer Footwear.

If you are too busy to come inside to inspect them, just take a look in the window when passing by; and while it was impossible to show all styles, combinations and grades in the two main windows devoted to the display, it will nevertheless give you some idea what we are prepared to do for you in the way of providing shoes for yourself and family.

We should all take pride in the growth of this Shoe Department,—You as the patrons who made this growth possible; and we who use every possible endeavor to secure the best values that the market affords.

As to the wear of these shoes, we must ask that you take our word that they are the best values, and that you will get the best returns in wear for every dollar invested.

We want you to hold us responsible, and bring to our attention any dissatisfaction that may arise in the course of wear.

COMFORT. You are a better judge of that when you have tried on the shoes. We have done our best, and provided all widths and styles. The narrow foot that needs A width and the broad foot that needs double-E width, will find plenty to choose from.

Concerning styles, we have outdone ourselves. You will find here the widest collection ever shown,—to suit the most extreme taste, as well as the most conservative.

The latest edict from Paris declares low busts, long hips, straight backs, unconfined waists, in a word, the charmingly free, supple lines of the natural figure. Modish corsets must conform with these emphatic demands of fashion and produce litheness and willowy grace. American Lady and Nemo Corsets are such corsets, affording not only modish grace and ease, but comfort.

Among the many Nemo and American Lady Corsets are a wide range of styles for all types of figures—slender, medium and stout. May we show you the model which will improve your figure? Nemo Corsets, \$2-\$5; American Lady, \$1-\$3
