CREAD WHAT DE SOMENOK IS DOING.

DR. J. H. SCHENCK.

Dran Sin:—I feel it a duty I own to you, and to all who are suffering under the disease known as Contumption, and Liver Compaint, to let them know what great benedits I have received from your Pulmonio, Syrup and Seawed Tonic in so short a time. By the blearing of God it has cured me thus far.

Dr. Schenck, I will now make my statement to you, as follows:—About eightern months are I DR. J. H. SCHENCK.

Dr. Schenck, I will now make my statement to yoh, as follows:—About sighteen months ago I was attacked with a severe cough, and it satiled of my lungs; I could not retain anything I ate, and suffered with evening fevers and night sweats. I was very much reduced. The whites of my cyes were very yellow; likewise my skin; my appetite all gone, and unable to digest what I did eat; howels swolen, irregular and costive. I was very low spirited, and had such violent spells of caughing when I laid down at night and when I arose in the morning that they would last one or two heurs.

two heurs.

I then would be nearly exhausted, and was entirely hable to lie on my left side. I cannot describe my wretched suffering as I would wish to do. Every organ in my body was diseased or deranged. Such was my situation at this time, and I was confined to my bed from the last of February, 1862, to June, 1862, not able to sit up. I had the best medical attendance the whole of the time. My cough was so very but that it Thad the best medical attendance the whole of the time. My cough was so very bad that it racked me very much. I at this time raised a large quantity of thick, yellow, offenive matter, sometimes with blood, and it was generally accompanied by nauses and a furred and thick goated tongue. At the time of coughing so badly I would nave sharp, shooting pains in my left side and heart, night, sweats, and screeness all through my whole chest; had much inward fever, pain in my back and under my shoulder blades and in the small of my back, and at times so aevere that it would thrus me into spasms. New severe that it would thrus me into spasms. New my physician gave me up to die. Others had, and the best of them, but they could do nothing for me, and at that time I was nothing but skip and bones. I then was in the western part of Missouri. In June last we left there for the East, Missouri. In June last we left there for the Bast, and in August last we came to New York, and I was so reduced that I could only walk a little with my husbahd a help. After I had been here a short time the salt water breeze made me feel much better for a time and then I had again to call a physician for aid, We had fur of the best physicians for New York on the diseases of the lungs, and doctors of all kinds, but of no avail. They said I was past cure, and that my lungs were too far gone for any one to cure me. But at this time I was on my feet about the house, not able to do much of anything. In November last I grew worse, and the consumption diarrhoes set in and lasted about eight weeks. We had tried all and everything that I could grasp at likes dying petson for my diseases—consumption and liver compilaint—buttef no avail.

In January, 1863, I was brought down again In January, 1865, I was brought down again on my bed, and was not expected to live the night out. My husband stayed at my side, and other friends, and they all give me up to dis. At this time every one whe saw me did not think I would ever leave my bed a living woman. The first night I was attacked with spasms, and was deranged most of the time. A friend, Mrs. Narris, deranged most of the time. A friend, Mrs. Kurris, came to see me the last of the week, and brownt the Sunday Mercury. In it was an account o la great cure performed by Dr. Schenck. She read it to me, and it was so much like my disease that I asked my husband to go and see him for me. At this time I had given up all hopes of ever getting well again, and made my peace with Cod, to be ready whenever he called for me.

On the 27th of January, 1863, my husband called on Dr. Schenck, 32 Bond street, New Lock, and Made and Schenck, and Made and Schenck, and Made and Schenck, and Schenck and

called on Dr. Schenos, or Done street, New Joseph and Salars to the two and the for him to call and see me, which he did, and examined me with the respirometer. When he was about to go I asked him if he could cure me? His reply was: "I cannot tell, both lungs are diseased, and the bronchial tubes are effected on both sides." And yet he seemed to think there was have a new half to sellect a seize if the diseased, and the bronchait tubes are enseted on both sides." And yet he seemed to think there were lungs enough left to reflect a cure if the diarrhema could be stopped. He said in order to do this, he would have to give me manurare pulsa in small dodes at first, to carry off the morbid matter, and then, with astringents, he hoped to check it, which he did, but the constant coughing, night sweats, and dirrhem had prestrated me so that he was straid my vital powers were too much prestrated ever to rally, and yet he seemed to think if I could live to get enough Pulmonic Syrup through my system to cause expectoration there were lungs enough left for me to recover. He wished me to try the Pulmonic Syrup and Senweed Tonic at once, saying it would do me no harm, if it did me no good. The first week it seemed to give me strength, so that m Sunday after I sat up in bed and ate hearty for a sick woman; but the next week I lost all hope and wished my husband not to give me any more medicine. But the doctor had warned him of this, and when the medicine was clearing out the system it made them feel somewhat restless, and system it made them feel somewhat restless, and to persevere; and he insisted on my taking it; and now I feel the benefit of it. For after eight days Thegan to gain my strength, and, with the ex-ception of a cold that put me back some, I have been gaining strength of body, my cough is going away, and all my pains are gone; no sore-ness of the body, my bowels are regular, and my breath is sweet, and I thank God that I am now breath is sweet, and I thank God that I am now going about, and sew and read as well as ever I could. I have taken sixteen bottles of the medicine, eight of each. I now have a good appetite and rest well at night; my cough does not trouble me in getting up or lying down. I would here say to the afflicted with consumption or liver complaint, that Dr. Shenck is no humburg. You can rely on what he says. Dolay not; it is dengerous to trifle with these diseases. If you would be cured, go at once; and any one wishing to know the facts as herein stated can call a t my residence, 117 West Houston street New York residence, 117 West Houston street New York
